ADVICE LETTER 1794-E/1616-G
(U902-M)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

SUBJECT: REVISION OF THE CARE AND FERA INCOME LEVELS AND ELIGIBILITY FORMS

San Diego Gas & Electric Company (SDG&E) hereby submits the following revisions applicable to its electric and gas tariffs, as shown on the enclosed Attachments A and B, respectively.

PURPOSE

The purpose of this filing is to revise the income levels for the California Alternate Rates for Energy (CARE) program and Family Energy Rate Assistance (FERA) program, also known as the Lower Middle Income Household program. Accordingly, SDG&E is modifying residential electric rate Schedules DR-LI, E-LI, DS, DT, DT-RV and FERA, and residential gas rate Schedules G-CARE, GS and GT.

Additionally, SDG&E is modifying the following forms to reflect the revised CARE and FERA income levels: Joint CARE/FERA residential application (Form 142-732), Joint CARE/FERA residential application-IVR/system generated (Form 142-732/1), Joint CARE/FERA residential submetered application (Form 142-732/2), CARE recertification application (Form 142-732/3), submetered recertification application (Form 142-732/4), CARE post-enrollment verification application (Form 142-732/5), Vietnamese residential application (Form 142-732/6), CARE outreach application (Form 142-732/7), residential application - direct mail (Form 142-732/8) qualified agricultural employee housing facilities application (Form 142-4032), and qualified nonprofit group living facilities application (Form 142-00832). This year’s income guidelines provide an increase of 3.2 percent from the current household annual income levels.

BACKGROUND

Commission Resolution E-3524, adopted February 19, 1998, established an annual process for changing the income levels for the CARE program. The CARE income levels are used for determining whether residential customers are eligible for a 20 percent discount on their energy bills. The order requires the Director of the Energy Division to set new income levels by letter to the utilities no later than May 1 of each year. The utilities are to file revised tariffs reflecting the new income levels to become effective by June 1 of each year through May 31 of the following year.
On February 26, 2004, the Commission issued Decision (D.) 04-02-057 in Rulemaking (R.) 01-05-047, which adopted the FERA program whereby lower-middle income household participants are charged Tier 2 (101% - 130% of baseline) electricity rates for their Tier 3 (131% - 200% of baseline) usage in order to assist those families whose income levels are just above the CARE income limits and not eligible for CARE benefits. The FERA program is available to households of three or more persons with total incomes between 200% plus $1 and 250% of the federal poverty income guidelines.

In D.04-02-057, the Commission stated that the use of CARE procedures for notifying the utilities of the annual income guideline updates is also reasonable for the FERA program.

On May 4, 2006, the Energy Division provided the new CARE and FERA income-eligibility levels to become effective June 1, 2006 through May 31, 2007, and directed the utilities to include the new income levels in applicable tariffs and program materials by May 13, 2006. Since May 13, 2006 falls on a Saturday, SDG&E is filing its Advice Letter on Monday, May 15, 2006.

By this filing, SDG&E has revised the applicable gas and electric rate schedules and eligibility forms to reflect the revised CARE and FERA income levels.

This filing will not create any deviations from SDG&E’s tariffs, cause withdrawal of service from any present customers, or impose any more restrictive conditions.

EFFECTIVE DATE

In accordance with Resolution E-3524, D.04-02-057, and the May 4, 2006 letters from the Energy Division on the respective CARE and FERA income levels, SDG&E requests that this filing become effective on June 1, 2006.

Dear Submetered Tenant:

You are currently receiving a 20% discount on your monthly energy bill through the California Alternate Rates for Energy (CARE) program. This program is helping many people save money every month.

Every year CARE participants are asked to confirm they still qualify for the discount. To see if you are still eligible, check the chart and requirements listed below. The income qualifications are based on income for the total number of people living in your household. If you think you qualify, then just fill out the enclosed application and mail it back to us in the postage-paid envelope provided.

If we do not receive your renewal application by August 15th, you will be removed from the CARE program and you will no longer receive the discount. While no income information is needed now, you may need to provide it at a later time.

You may also qualify for other assistance programs and services:

**Energy Team:** Free energy education, energy-efficient appliances and weatherization services are available for income-qualified households. Call SDG&E for more information.

**Medical Baseline:** People with special medical needs can receive additional energy at a lower rate. Contact SDG&E for more information and an application.

Estimado(a) Cliente(a):

Los precios del gas natural son más elevados que el año pasado. Como resultado de ello, los clientes residenciales de SDG&E que consumen la misma cantidad de gas y electricidad que el invierno pasado, verán un aumento en la cantidad total que pagan por la energía.

El programa de descuento del 20% en la factura de energía de SDG&E es una forma de compensar el aumento en el costo de la energía. Y con los recientemente ampliados criterios de nivel de ingreso en vigor, tal vez reúna los requisitos ahora. Los requisitos se basan en el número e ingreso total de las personas que viven en el hogar.

Si cree usted que reúne los requisitos para el programa, llene la solicitud anexa y envíenosla en el sobre con porte pagado provisto.

Para mayor información acerca del programa CARE y otras formas en que estamos trabajando para proveer un excepcional servicio al cliente, sírvase llamar al 1-800-560-5551.

For households with more than six persons, add $6,900 for each additional person living in the household. The above income levels are subject to change annually by the Commission.

The applicant for the CARE discount must be the Utility’s customer of record or a submetered tenant of a Utility customer.

No customer, submetered tenant, or facility resident who is claimed on another person’s income tax return shall be eligible for the CARE program.

5. Verification. Information provided by the customer to the Utility is subject to verification as authorized by the Commission. Refusal or failure to provide documentation of eligibility acceptable to the Utility, upon request, shall result in the denial or termination of the CARE discount.

6. Backbilling. Customers may be backbilled under the applicable rate schedule for periods of ineligibility and/or if the direct benefits to the facility’s residents claimed by the customer cannot be supported.

7. Customer Responsibility. It is the customer’s responsibility to notify the Utility within 30 days if there is a change in eligibility status, except as specified for multi-family customers in Special Conditions 11 and 12 below.

8. Discount Calculation. The CARE discount shall be reflected through the use of separately stated discounted rates for each identified applicable service schedule, or alternatively, as an overall discount to the otherwise calculated customer, commodity and transportation charges.

In addition to the Special Conditions above pertaining to all applicable customers, Special Conditions specific to each type of applicable customer are set forth below.

SINGLE FAMILY CUSTOMERS

9. Location Eligibility. Customers are only eligible to receive this rate at one residential location at any one time.

SPECIAL CONDITIONS (Continued)

MULTI-FAMILY, SUBMETERED CUSTOMERS

10. Tenant Qualification. Submetered tenants, rather than the Utility’s customer of record, qualify for CARE by completing an application and forwarding it to the Utility, and it is the tenant’s responsibility to notify the Utility of a change in eligibility status.

11. Customer Responsibility. The Utility customer shall notify the Utility within 30 days following a reduction in the number of submetered units qualifying for the CARE rate as a result of unit(s) being vacated.

12. Location Eligibility. Eligible tenants can only receive this rate at one residential location at any one time.

NON-PROFIT GROUP LIVING FACILITY CUSTOMERS

13. Eligibility Criteria. In order for the customer to be eligible for the CARE discount, and to be considered a qualified non-profit group living facility, each of the following provisions must be met:

a. The facility must certify that it is one of the following: a homeless shelter, women’s shelter, transitional housing, a short- or long-term care facility, or a group home for physically or mentally disabled persons.

b. The facility must provide a copy of its IRS Nonprofit Tax ID Form 501(c)(3) and state business license, conditional use permit or other proof satisfactory to the Utility. Separately metered satellite facilities in the name of the licensed facility, where 70% of the energy supplied is for residential purposes, are also eligible.

c. With the exception of homeless shelters, all facilities must certify that 100% of the residents of the facility individually meet the CARE eligibility standard for a single-person household. A caregiver who lives in the facility is not a resident for purposes of determining eligibility. A single-person household is eligible for the CARE discount if total annual gross income does not exceed $28,600.

d. With the exception of homeless shelters, all facilities must certify that they provide a "special needs" social service, such as meals, job development training, or rehabilitation programs, in addition to lodging for residents who qualify for the CARE discount.

e. Homeless shelters must certify that they provide at least six beds per day or night for a minimum of 180 days each year for persons who have no alternative residence.

f. The facility must certify that at least 70% of the energy supplied to the facility’s premises is used for residential purposes.

g. Government-owned facilities are not considered qualified non-profit group living facilities unless they are a qualified non-profit homeless shelter as defined above.

   b. Application and Eligibility Declaration. An application and eligibility declaration on a form authorized by the Commission is required to be sent directly to the utility by each single-family accommodation that is supplied submetered service by the customer. Renewal of each single-family accommodation's eligibility declaration will be required every year. Eligibility applies to one residential location at any one time and only to a permanent primary single-family accommodation. Customers served under this schedule shall provide application and declaration forms for the CARE rate to their submetered residential tenants. EN SU FACTURA DE ENERGÍA

Estimado(a) Cliente(a):

Los precios del gas natural son más elevados que el año pasado. Como resultado de ello, los clientes residenciales de SDG&E que consumen la misma cantidad de gas y electricidad que el invierno pasado, verán un aumento en la cantidad total que pagan por la energía.

El programa de descuento del 20% en la factura de energía de SDG&E es una forma de compensar el aumento en el costo de la energía. Y con los recientemente ampliados criterios de nivel de ingreso en vigor, tal vez reúna los requisitos ahora. Los requisitos se basan en el número e ingreso total de las personas que viven en el hogar.

Si cree usted que reúne los requisitos para el programa, llene la solicitud anexa y envíenosla en el sobre con porte pagado provisto.
