BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting rulemaking regarding policies, procedures and rules for the Low Income Energy Efficiency Programs of California's energy Utilities.	Rulemaking 07-01-042 (Filed January 25, 2007)
Southern California Edison Company's (U 338-E) Application for Approval of SCE's "Change A Light, Change The World," Compact Fluorescent Lamp Program.	Application 07-05-010 (Filed May 10, 2007)

ADMINISTRATIVE LAW JUDGE'S RULING SEEKING REPSONSES TO QUESTIONS ON FURNACE PROGRAMS AND NATURAL GAS APPLIANCE TESTING

This ruling solicits the parties' comments on issues relating to furnace programs and natural gas appliance testing (NGAT), which are elements of utility low income energy efficiency (LIEE) programs.

Workshop on NGAT and Furnace Program Elements

The Commission conducted workshops in this proceeding on NGAT and furnace programs on June 13, 2007 and June 25, 2007. The Energy Division subsequently distributed attached notes from that workshop that are to this ruling.

In order to create a record on this issue, this ruling seeks the parties' responses to the following questions. Questions in *italics* are directed at utilities only:

What are specific challenges associated with the current NGAT process?

How are low income customers affected by the current NGAT process?

How can the utilities improve the current NGAT process? In that regard, what, if anything, would the Commission need to order the utilities to do? How would each utility program modification affect customer bills, reduce energy use, or address customer health, safety and comfort?

How many residences in your territory received LIEE measures and services during 2006?

How many of the homes served with LIEE services in 2006 had problems with non-infiltration measures? The purpose of this question is related to non-equipment concerns.

How many of the homes served with LIEE services during 2006 were denied services due to an NGAT failure? The purpose of this question is to determine which homes had problems with the equipment itself.

When a house fails an NGAT, how does the utility coordinate with other programs such as LIHEAP?

IT IS RULED that Respondent utilities shall and other parties may file comments on issues related to furnace programs and NGAT no later than October 4, 2007, as set forth herein. Replies must be filed no later than October 15, 2007.

Dated September 14, 2007, at San Francisco, California.
