PACIFIC GAS AND ELECTRIC COMPANY

Energy Savings Assistance Program and
California Alternate Rates for Energy Program
Monthly Report for August 2019

This Monthly Report complies with low income reporting requirements established in Decision (D.)16-12-022 as modified by D.17-12-009, and with all reporting and program evaluation requirements previously established for the California Alternate Rates for Energy (CARE) and Energy Savings Assistance (ESA) Programs. The utilities worked with Energy Division staff to revise reporting tables and formats in compliance with the mandates of D. 16-12-022 and now use the resulting Energy Division-approved monthly reporting format for 2017-2020 ESA and CARE programs, beginning with the report for January 2018.

1. Energy Savings Assistance (ESA) Program Summary

The ESA Program provides free home weatherization, energy-efficient appliances and energy education services to income-qualified PG&E customers throughout the Company's service area. To qualify for the ESA Program, a residential customer's household income must be at or below 200 percent of Federal Poverty Guidelines, as required in D.05-10-044. PG&E has offered energy efficiency programs to income-qualified customers in its 48 counties since 1983. The ESA Program's objective is to help income-qualified customers reduce their energy consumption and costs while also improving their quality of life. The 2017-2020 ESA Program authorized in D.16-12-022 as modified by D.17-12-009 continues as a resource program emphasizing long-term and enduring energy savings. The ESA Program continues to serve all willing and eligible low income customer populations by providing all feasible ESA Program measures at no cost to the customer through a direct-install approach. All housing types are eligible to participate, and the ESA Program is available to both homeowners and renters.

1.1 Energy Savings Assistance Program Overview

PG&E's 2017-2020 ESA Program continues to follow the policies and guidance given in D.07-12-051, which established the following programmatic initiative for the ESA Program (formerly known as the Low Income Energy Efficiency (LIEE) Program):

> To provide all eligible customers the opportunity to participate in the LIEE programs and to offer those who wish to participate all cost-effective energy efficiency measures in their residences by 2020.

PG&E's ESA Program has treated 66,889 customers in 2019, through August 31, 2019. ESA homes treated include both First Touch Homes and Retreated Homes, as shown in Table 2. First Touch Homes are homes that have not participated in the ESA Program since 2002. Retreated Homes are homes that were previously treated since 2002. Only First Touch Homes count toward the programmatic goal of treating all willing and eligible customers by the end of 2020.

1.1.1 Provide a summary of the Energy Savings Assistance Program elements:

Energy Savings Assistance Program Summary			
2019	**Authorized / Planning Assumptions**	**Year-to-Date Actual**	**YTD %**
Budget[1]	$205,483,865	$72,580,135	35%
Homes Treated[2]	102,237	66, 889	65%
kWh Saved[3]	NA	42,229,386	
kW Demand Reduced[3]	NA	5,485	
Therms Saved[3]	NA	(315)	

[1]Authorized budget has been updated with midcycle request as per approval from AL 3990-G/5329-E A/B. Remaining funds carried forward from 2018 and into 2019 for a total of $20,788,172 (Electric $11,477,897 and Gas $9,310,275) .
[2]Adopted Number of Homes to be Treated as per Decision 17-12-009. Total includes both First Touch and Re-Treated homes. These are shown on ESA Table 2.
[3]YTD savings have been updated to reflect new ex ante savings from the 2019 Impact Evaluation.

1.2 ESA Program Customer Outreach and Enrollment Update

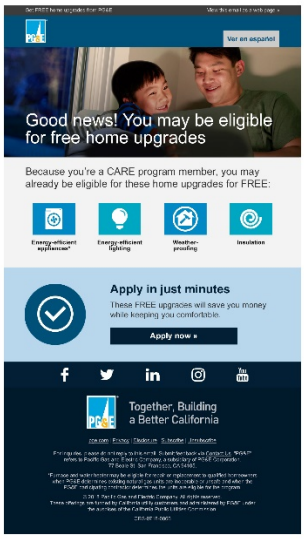
PG&E's outreach team and the ESA Program contractors conduct outreach through different channels and in multiple languages, including: Bill inserts, direct mailings, emails, outbound phone calls, ethnic and local media, community events and partnerships and other innovative approaches. Customers who call PG&E's customer service centers are referred to the ESA Program and assigned to a contractor in their area.

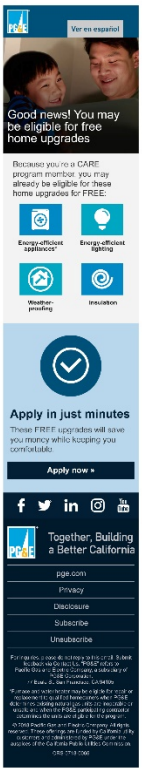
The ESA Program partners with 39 local contractors consisting of 9 Community-Based Organizations (CBOs) of which 6 are also Low Income Home Energy Assistance Program (LIHEAP) agencies.

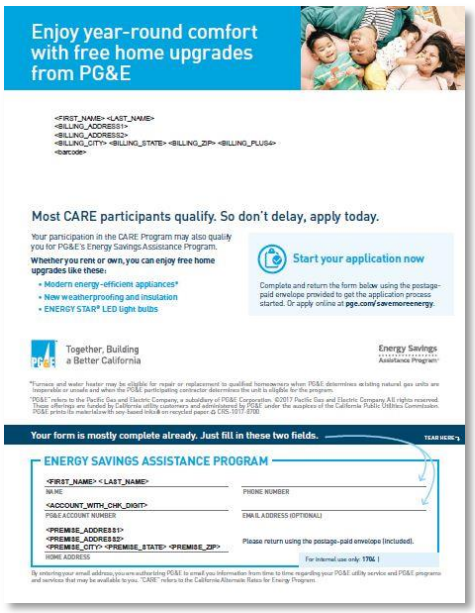
PG&E also coordinates with LIHEAP service providers that are not ESA contractors to install Energy Star® refrigerators in homes receiving PG&E electric service where the LIHEAP contractors have installed all other measures under the State Weatherization Program. This allows both the ESA Program and LIHEAP to leverage their resources and help additional low income homes. Through August, 16 refrigerators have been installed.

1.2.1 Provide a summary of the Energy Savings Assistance Program outreach and enrollment strategies deployed this month.

In August, PG&E received strong initial customer response to a direct marketing campaign deployed on August 16th to 100,000 CARE-enrolled customers whose homes have not yet been treated by the ESA Program. Through August 31st, the campaign has generated 968 leads. This campaign used the same creative from Q2 2019 as shown below.







(double-sided English/Spanish):

PG&E continued to deploy the CARE welcome kit to customers who are newly-enrolled in the CARE program. Since January 2018, PG&E has included a personalized pre-filled response form for the Energy Savings Assistance Program. Customers who wish to participate have completed the form and return to PG&E, generating a strong response. We received 810 applications from the welcome kit in the month of August for a total of 5,829 year to date.

PG&E continued the monthly digital newsletter targeting customers with a high propensity for eligibility in the CARE and ESA Program with the purpose of building awareness for both programs.

1.3 Leveraging Success Evaluation, Including California State Department of Community Services and Development (CSD)

1.3.1 Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

PG&E continues to share data with California Community Services and Development (CSD), allowing for leveraging and outreach between CSD and ESA programs to impact a wider customer base.

PG&E, SCE, SDG&E and SoCal Gas have been meeting regularly with CSD staff since 2017 to discuss leveraging opportunities in compliance with D.16-11-022, including:

sharing IOU data usage information for CSD clients, and funding ESA measures currently offered by ESA for multifamily customer households participating in CSD's Low Income Weatherization Program (LIWP) for multifamily buildings.

CSD Data Sharing. Per D.17-12-009, Attachment 1, OP.183, PG&E and CSD entered into a non-disclosure agreement (NDA) for data sharing purposes, and began data sharing data in 2018. PG&E continues to support CSD's data share requests.
LIWP (MF) Leveraging. D.17-12-009 directed the IOUs to leverage CSD's Low Income Weatherization (LIWP) Program multifamily efforts by funding those in-unit measures provided by the ESA Program, preserving the CSD's funding for use to install central systems and common area measures not provided by the ESA Program. PG&E worked with CSD to estimate installation rates and PG&E funding required to this effort. PG&E's budget for this effort was included in its Conforming Advice Letter submitted on March 24, 2017, supplemented on June 22, 2017. This authorized by Commission Resolution G-3531 issued December 21, 2017. In October 2018, RHA launched the Multi-family Standards Review portal to review drafts of the LIWP/ESA Multi-Family Quick Reference Standards and are finalizing the installation standards for implementation. On February 28, 2019 PG&E and CSD executed a funding agreement for ESA/LIWP leveraging. PG&E is collaborating with CSD and CSD's LIWP Administrator to implement the required components in support of this effort.

1.4 Workforce Education & Training

1.4.1 Please summarize efforts to improve and expand the ESA Program workforce education and training. Describe steps taken to hire and train low income workers and how such efforts differ from prior program years.

Contractors are encouraged to hire local workers to implement the ESA Program in their areas. All contractors and subcontractors responsible for implementing the ESA Program are trained at the PG&E Energy Training Center (ETC) in Stockton California. Most of these ESA Program energy specialists and installation contractors are from the local communities in which they work. Year-to-date, 703 individuals in 55 sessions (1,262 student days) have been trained to deliver the ESA Program in various capacities. Included in these numbers is 9 sessions of NGAT, 78 students, and 312 student days.

1.5 Miscellaneous

Providing Energy Education-Only to ESA Qualifying Customers

D.16-11-022 permitted the IOUs to provide in home energy education for all income qualified households, regardless of whether the homes receive ESA measures or treatment. The Decision also specified that households that only receive energy education will not count as "treated," and required IOUs to track and report all households that only receive energy education (D.16-11-022, Ordering Paragraph 11). Households receiving only education are not permitted to self-certify and these households must demonstrate their income eligibility for ESA participation.

New reporting tables were developed by Energy Division for 2018-2020 ESA reporting. These included tables to track and report energy education only households as separate from ESA-treated homes. PG&E continues to track and report on energy education only homes. To date in 2019, PG&E has provided energy education only to 2,854 households.

Energy-Water Leveraging

In collaboration with water utilities and other stakeholders, PG&E developed a strategic plan that provides for the continued integration and leveraging of existing water conservation program offerings with ESA Program offerings. PG&E's energy-water leveraging plan provides information needed to implement effective co-funded energy-water conservation programs and leveraging partnerships during the 2017-2020 ESA Program cycle.

In 2018, PG&E introduced Energy-Water Leveraging Program and signed participatantion agreements with Solano County Water Agency, California American Water and Yuba Water Agency. Each water agency chose from a standardized menu-of-options to fully customize their program by services, measures, number of homes served, areas of service, and contract length of time. Contracts were negotiated and written for each water agency participating and Energy Savings Assistance Program (ESA) contractors were brought on board in each service area to offer the Energy-Water Leveraging Program in conjunction with their daily ESA activity. This Program offers everything from the evaluation of toilets using toilet dye tabs, replacing eligible toilets, conducting outdoor assessments, meter checks, and leak detection, conducting customer water conservation education, and handing out conservation giveaway items such as hose nozzles, shower timers, and literature about additional potential conservation services. East Bay Municipal Water District and Alameda County Water District have signed participation agreements and are both on target to launch their customized Energy-Water Leveraging Programs in 2019.

In May 2019, PG&E hosted a Low-Income Water-Energy Program Webinar to educate and recruit water agencies with 24 water agencies participating. As of August 2019, PG&E has participation agreements with six of the top water agencies in PG&E territory; Alameda County Water District, California American Water , City of Santa Cruz, East Bay Municipal Water District and Solano County Water Agency and Yuba Water Agency, which includes Solano County Water Agency renewing their participation for another year. East Bay Municipal Water District launched their customized Energy-Water Leveraging Program in Q2, Alameda County Water District and City of Santa Cruz are scheduled to launch later in Q3.

Tribal Penetration and Consultation Plans

On January 4, 2019, PG&E's Tribal Consultation Plan was approved as proposed in the July 16th, 2018 filing of the Mid-Cycle Advice Letter (AL) 3990-G/5329-E pursuant to Decision (D.) 16-11-022. The plan includes a prioritization and focus on 11 tribes based on highest poverty and lowest penetration levels. PG&E has made contact with all 11 tribes, held in-person meetings with seven, provided information to three, and has had no response from one. The table below is a summary of outreach as of August 2019.

TRIBAL OUTREACH STATUS	In Person	No Response or Materials Only	Non-FR
Berry Creek Rancheria of the Tyme-Maiou Tribe	X NC		
Big Sandy Rancheria of Western Mono Indians of California	X SF		
Cahto Indians of the Laytonville Rancheria	X		
Chicken Ranch Rancheria of Me-Wuk Indians of California		No Response	
Cold Spings Rancheria of Mono Indians	X SF		
Dunlap Band of Mono	X SF		X
Grindstone Rancheria of Wintun-Wailaki Indians		X	
Guidiville Rancheria of California	X NC		
Habematolel Pomo of Upper Lake	X		
Hoopa Valley Tribe	X		
Hopland Band of Pomo Indians	X		
Manchester Band of Pomo Indians	X NC		
Mooretown Rancheria of Maidu Indians	X NC		
North Fork Mono	X SF		X
North Fork Rancheria of Mono Indians	X SF		
Pinoleville Pomo Nation		X	
Redwood Valley Rancheria of Pomo Indians	X		
Robinson Rancheria of Pomo Indians		X	
Round Valley Indian Tribe	X		
Sherwood Valley Rancheria of Pomo Indians	X		
Tuolumne Me-Wuk Tribe	X		
United Auburn Indian Community/Auburn Rancheria	X		
Yurok Tribe	X		

The blue lines are the 11 priority tribes. NC represents the meeting held by Northern Circle Indian Housing Authority where tribal leaders were in attendance. SF represents the Sierra Tribal Forum held in Yosemite with tribal leaders. Non-FR is non-federally recognized tribes. In total, 23 tribes have had interactions with PG&E representatives and been informed of the Low Income Programs, both CARE and ESA.

PG&E is continuing to work with the Yurok tribe to gain more in-depth information regarding the barriers to ESA participation. As of August, the ESA Contractor had conducted 176 outreach touches, including phone calls and letters. There were 5 customers who refused participation and 20 who agreed to a home assessment. So far, 10 assessments have been completed, 7 others canceled their appointment before the Contractor arrived, and 6 either asked to be rescheduled or provided insufficient directions. Full reports from the completed assessments will be forthcoming in late 2019. Given these households were primarily on propane and wood fuel sources, the list of eligible measures was reduced. The most common measure was light bulbs.

As of June 2019, the penetration rate for homes treated reached 56 percent for the estimated number of ESA-eligible customers living on tribal lands in PG&E's service area. The penetration rate is updated every quarter.

ESA Program Pilots

Consumption-Driven Weatherization (CDWx) Pilot. PG&E proposed a CDWx Pilot to selectively offer additional weatherization measures that fall outside current ESA Program guidelines for high usage, high potential customers identified via AMI analysis. D.16-11-022 Ordering Paragraph 144 directed a 12-month pilot implementation period to fully integrate AMI into the ESA Program as rate reform adjustments are underway. This pilot was anticipated to yield information to help overall AMI integration and identify steps to help reduce high energy use among CARE customers that leads to higher bills.

In December 2017, PG&E requested and was granted an extension to implement this pilot so that the California State Department of Community Services and Development (CSD) could be included in it. Following the expressed interest of CSD regarding ways to increase leveraging opportunities, CSD joined PG&E in this CDWx pilot offering. The pilot incorporated measures from CSD's Low-Income Home Energy Assistance Program (LIHEAP) program. Collaborating with CSD provided increased opportunities to leverage both funding and data analysis, which was anticipated to result in more cost-effective targeting as well as increased benefits to high-energy use low income customers.[1]

The pilot used data-driven analysis to target high usage customers to receive additional weatherization measures that fall outside current ESA Program guidelines, with the added benefit of including CSD's offerings. The CDWx pilot commenced in February 2018 and weatherized 50 homes with both ESA and CSD measures in 2018. The pilot findings report will be available in 2019.

Programmable Communicating Thermostat (PCT) Pilot. D.17-12-009, Ordering Paragraph 147 directed the electric IOUs to implement a pilot to examine the demand and energy savings of a "package" consisting of programmable communicating thermostats (PCTs), Time-of-Use Critical Peak Pricing rates, and a mobile phone application. In compliance with this directive, PG&E's Smart Thermostat Time-of -Use Pilot proposals was filed by Tier 2 Advice Letter on March 1, 2018. This was suspended on March 26, 2018.

The electric IOUs received a Disposition from Energy Division on April 27, 2018 approving the pilot implementation plan with a modified budget of $290,000. PG&E filed an extension letter on behalf of all electric IOUs on May 15, 2018 which was approved on May 30, 2018. PG&E released an RFP for the statewide evaluation on behalf of all electric IOUs in July 2018 and retained a statewide evaluator on October 2, 2018.

In October, the electric IOUs filed a request to extend the start of the Pilot from October 31, 2018 to January 1, 2019. Completing the procedural requirements associated with conducting a statewide evaluation as well as challenges recruiting customers required additional IOU coordination and time. Energy Division approved the request for extension on November 1, 2018.

PG&E recruited over 200 customers to participate in the pilot and initiated pilot activities. Installation of all feasible thermostats were completed by the end of January 2019 and the rate change to TOU was completed in February 2019. All Pilot participants have participated in the first of 3 surveys in support of the pilot. Pilot findings, including; survey results and installation lessons learned, will be included in the pilot final report.

In early August, PG&E's PCT vendor, Ecobee, notified the IOUs that the smart thermostats installed as part of this PCT pilot were not operating with the Peak Relief functionality designed to help customers optimize TOU rates.

To correct this issue, during the second half of July, Ecobee pushed their updated firmware Eco+ (with a built-in TOU optimization functionality) over the cloud to installed devices connected to the Internet. During August, for customers who had yet to enroll in Eco+, Ecobee sent out multiple reminder notifications via email as well as through the installed

[1] RHA. CSD/PG&E Weatherization Programs Geographic Coordination Pilot Report (October 1, 2014). Prepared for CSD and PG&E.

thermostats. Ecobee also manually installed Eco+ to on-line devices that had not signed up for Eco+ organically.

In late August, Ecobee notified PG&E there was an additional defect with PG&E installations that prevented 24 of the 46 installed thermostats from accepting firmware upgrade over the cloud. As of early September, 12 of the 46 thermostats installed had been updated with the Eco+ firmware and correct TOU optimization set-up. PG&E and the IOUs have been working with the pilot evaluator to make adjustments to surveys and the research plan to adjust for this unexpected event. Customers will receive modified surveys in October and final surveys towards the end of 2019.

ESA Program Studies

Three statewide studies were authorized in D.16-11-022 for the 2017-2020 cycle. These included: (1) a low income needs assessment study; (2) an impact evaluation of the 2015 ESA Program; and (3) a non-energy benefits and equity criteria evaluation.

Low Income Needs Assessment (LINA) Study. The LINA Study must be updated every three years per State code, and a new Study must be completed by December 2019. Energy Division and the IOUs held a public workshop on May 19, 2017 to discuss the LINA scope of work, and the IOUs released a Request for Proposal (RFP) for this work in 2017 Q4. A contract with Research Into Action was completed in 2018 Q1. A kick-off meeting was held to initiate the study and review the project plan on February 14th, 2018. A public workshop was held on May 29th, 2018. A LIOB subcommittee meeting regarding the LINA study was held on August 1, 2018. Study data collection commenced and continued throughout 2018 and into Q1 2019. Analysis occurred through Q2 2019, and a draft report was provided in Q3 2019. A public workshop to present and discuss results will be scheduled following release of the draft report. This is anticipated in October 2019. The final report will be issued by December 31, 2019.

ESA Impact Evaluation. ESA program energy savings (program "impacts") are necessary for planning the next program cycle, and measuring the success of current program offerings. The IOUs issued an RFP to conduct an ESA impact evaluation at the end of 2015. The contract for this work was finalized after D.16-11-022 authorized the study. DNV-GL conducted the statewide ESA Impact Evaluation. Work began in 2017, with Phase I results provided in 2018 Q2. Phase I preliminary results were incorporated into the Mid-Cycle Update Advice Letter filing on July 16, 2018 per direction from Energy Division staff. Phase II data collection commenced in 2018, and final results demonstrating lower energy savings were provided in March 2019. A public workshop to present and discuss the results was held on April 8, 2019. The study is now complete and the ESA Impact Evaluation Final Report was posted on CALMAC on May 10, 2019. The final results were used to develop new ex ante savings estimates for program measures and these savings are reflected in this month's ESA-Table 2.

Non-Energy Benefits (NEB) Study. The scope of work for the non-energy benefits study was developed in consultation with the Cost Effectiveness Working Group authorized in D.16-11-022, and an RFP was released on March 23, 2018. The consultant team SERA/Navigant was selected to complete the NEB study. A kick-off meeting was held to initiate the study and review the study project plan on August 24, 2018. A public workshop for the NEB study research plan was held on October 12, 2018. A draft report was posted in July 2019, and a public webinar was held on August 2, 2019 to present and discuss results. A Final Report was released on August 30, 2019.

Multifamily Common Area Measures (CAM)

PG&E has started its Common Area Measures initiative. In order to best target properties and measure opportunities, PG&E is conducting a Market Assessment. The market assessment will recommend most-qualified CAM property leads in PG&E territory and best CAM measures to treat these types of properties. In order to conduct this analysis, PG&E is looking at key data sources such as Energy Efficiency programs historic customer participation data and CoStar, a data source that provides rich information on housing properties to help PG&E best target its CAM outreach. PG&E has identified 350 buildings to engage regarding CAM and is in the process of working with a priority list of these leads. In December 2018, ESA CAM implementors completed their first site visit and completed 43 building audits. In August 2019, ESA CAM implementors completed 46 building audits. Year-to-date MF CAM metrics are as follows:

ESA MF CAM	YTD 2019
No. buildings enrolled	355
No. buildings audited	356
No. buildings treated	-

From 2017 through August 31, 2019, PG&E's ESA team has spent a total of $1,122,388 on all Multifamily activities including Common Area Measures implementation and Multifamily SPOC initiatives.

Activity for the rest of the year will include CAM property lead cultivation, engagement, and audits, stakeholder engagement, as well as other program ramp up activities.

Working Groups

PG&E participates in all three of the working groups authorized in D.16-11-022 for the 2017-2020 cycle. These included: the Cost Effectiveness working group, the Mid-Cycle working group and the Multifamily working group. The Cost Effectiveness and Mid-Cycle Working Groups completed their final deliverables in 2018, and are sun-setted pending further requests from the Commission.

Multifamily Working Group. D.17-12-009, Ordering Paragraph 66 directed the IOUs to file a Tier 2 Advice Letter outlining their respective implementation plans for their multi-family (MF) common area activities by March 1, 2018. Prior to submittal of the Advice Letter, the IOUs were directed to submit their draft implementation plans to the MF working group by January 15, 2018. PG&E submitted its draft implementation plan on January 16, 2018. PG&E presented them to the MF working group at its quarterly meeting on January 26, 2018, where the MF working group conferred to identify, and discuss areas of consensus and non-consensus. These were summarized by the MF working group facilitator, and circulated to the MF working group on January 30, 2018, as directed by D.17-12-009. By February 13, 2018, individual stakeholders separately submitted recommendations to the MF working group addressing issues where there was not consensus. PG&E submitted its Advice Letter on March 1, 2018. This was approved on March 29, 2018. On October 29, 2018 PG&E hosted the MFWG quarterly meeting to present the Non-Deed Restricted Analysis along with an update on the 2018 Interim MFWG Progress Report. In 2019, PG&E identified and discussed leveraging the California Tax Credit Allocation Committee (TCAC) list of properties

undergoing resyndication at the January 24, 2019 meeting. On March 15, 2019 PG&E presented its non-deed restricted building analysis and preliminary findings to the MFWG. A final non-deed restricted analysis was added to the 2018 ESA annual report

2 California Alternate Rates for Energy (CARE) Program Summary

The CARE Program provides a monthly discount on energy bills for qualifying households throughout PG&E's service area.

To qualify for the CARE discount, a residential customer's household income must be at or below 200 percent of Federal Poverty Guidelines, as required in D.05-10-044 and per Public Utility Code Section 739.1(b) (1) or someone in the customer's household is an active participant in other qualifying public assistance programs.

The 2017 – 2020 CARE Program was adopted in D.16-11-022 issued on November 10, 2016, and as modified by D.17-12-009 issued on December 14, 2017. The authorized CARE Program administrative budget for 2019 is $17,777,467. This 2019 budget includes $149,153 for PG&E's Cooling Centers Program and $525,000 for the Community Help and Awareness with Natural Gas and Electricity Services (CHANGES) Program.

The CHANGES Program provides funding to Community Based Organizations (CBOs) to assist Limited English Proficient (LEP) customers with energy education and billing issues. D.12-12-011 required that the utilities report CHANGES activity in the monthly reports beginning in April 2013. D.15-12-047 directed the utilities to continue to report CHANGES activity in the monthly reports until long-term funding is established from the Commission's budget.

2.1 CARE Program Cost Summary

CARE Budget Categories	Authorized Budget[1]	Actual Expenses Year to Date[2]	% of Budget Spent
Outreach	$9,576,653	$5,942,209	62%
Processing, Certification, Recertification	$2,088,796	$431,869	21%
Post Enrollment Verification	$1,748,793	$674,137	39%
IT Programming	$2,054,261	$309,189	15%
Cooling Centers	$149,521	$106,710	71%
CHANGES Program	$527,869	$(13,796)	-3%
Measurement and Evaluation	$159,676	$41,418	26%
Regulatory Compliance	$1,125,679	$251,193	22%
General Administration	$1,124,533	$538,594	48%
CPUC Energy Division Staff	$128,000	$123,358	96%
Total Expenses	**$18,683,781**	**$8,404,881**	**45%**
Subsidies and Benefits	$593,186,130	$436,195,983	74%
Total Program Costs and Discounts	**$611,869,911**	**$444,600,864**	**73%**

[1] Program authorized budget per D.16-11-022 and as modified in D.17-12-009. This budget was updated to include employee benefits costs of $906,314 as authorized in the 2017 GRC Decision (D.) 17-05-013.
[2] Actual expenses include employee benefits costs.

2.1.1 Please provide the CARE Program penetration rate to date

CARE Penetration		
Participants	**Estimated Eligible Participants**	**YTD Penetration Rate**
1,386,056	1,446,414	95.8%

2.2 Outreach

2.2.1 Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

A new test message was deployed in the August CARE/FERA bill insert. The headline was adjusted to lead with a FERA message, encouraging customers to learn more about the electricity discount for households with three or more people. Enrollments from the August bill insert will be analyzed to determine if leading with a FERA message results in greater FERA enrollments than when the bill insert leads with a CARE message.

Sample bill insert creative (bilingual English/Spanish):

The CARE and FERA digital campaigns continued in August running territory wide, with increased spending in zip codes selected for special focus based on lower penetration rates or as rural and/or high poverty areas.

PG&E continues to send messaging via the monthly low-income targeted version of the e-Newsletter. The August newsletter was focused on preventing dig ins, reminding customers to call 8-1-1 before digging, and featured an ESA article.

In August, PG&E's media relations team published a press release to promote the CARE program, highlighting counties with eligible customers who have not enrolled. The article's tone was positive and encouraged customers who may be eligible to enroll to save on monthly energy bills.

PG&E's targeted Low Income work complements Solutions Marketing Outreach by adding face-to-face interactions and enrollment activities through trusted community partners and events. These activities occur throughout the year. May activities included:

- Local Office Partnerships – CARE partners with local offices to inform customers about the program and to distribute applications.
    - In August, this initiative produced 40 new enrollments from local office events.
    - Year to date, this initiative has produced 451 new enrollments.

- Community Outreach Contractors (COCs) - PG&E contracted with 41 COCs throughout its service area. These organizations represent a variety of communities, including African-Americans, Hispanics, Asian Pacific Islander Americans (Chinese, Vietnamese, and Hmong), Native Americans, seniors, rural residents, agricultural workers, sub-metered tenants, and nonprofit living facilities.
    - Year to date, this initiative has led to 703 new enrollments.

- PG&E contracted with 9 key strategic CBO partnerships in geographic areas with high eligible population, especially in the Central Valley, to conduct the Community-based Organization Pay for Performance (CBO PFP) pilot initiative from January 1, 2019 to December 31, 2019. These 9 CBOs will conduct grassroots outreach through community events (including resource fairs where appropriate), workshops, faith-based outreach, door-to-door campaigns as well as via one-on-one case management where applicable.
    - Year to date, this pilot initiative has produced 190 new CARE enrollments and 4 new FERA enrollments.

Describe the efforts taken to reach and coordinate the CARE Program with other related low income programs to reach eligible customers.

PG&E exchanges data with Southern California Edison (SCE) Company and Southern California Gas (SCG) Company and automatically enrolls their CARE households if they also receive PG&E service.

PG&E automatically enrolls customers who receive LIHEAP and Relief for Energy Assistance through Community Help (REACH) payments. Year-to-date, 2,268 LIHEAP customers and 40 REACH customers have been automatically enrolled onto the CARE Program.

Year-to-date, 17,956 ESA Program participants have been enrolled in the CARE Program.

Additionally, PG&E continues to coordinate CARE, ESA and other low income outreach efforts to provide likely eligible customers with the knowledge and tools to access helpful PG&E services. For example, upcoming CARE and ESA acquisition campaigns will cross-reference programs in automated phone calls, emails and direct mail. The goal with these and similar efforts moving forward is to help financially challenged customers manage their energy bills in a more holistic and sustainable way.

2.2.2 Recertification Complaints

D.08-11-031, Ordering Paragraph 90, directed the IOUs to report in their monthly and annual reports the number of customer complaints received regarding CARE recertification efforts and the nature of the complaints beginning with the first report due on or about December 31, 2008. PG&E reports that it received no complaints about CARE recertification in August.

2.3 Miscellaneous

D.08-11-031, Ordering Paragraph (OP) 64, granted the IOUs discretion about how to enroll eligible public housing residents in each of their service areas. In response, PG&E contracted with Public Housing Authorities as COCs to enroll their eligible residents in the program.
In compliance with D.16-11-022, OP 87, PG&E reports that the IOUs have developed a document aligning their CARE High Usage Appeal Processes and will use the same criteria and evaluation of customer appeals going forward.

As ordered in CPUC Resolution M-4833, PG&E has implemented a post-enrollment verification (PEV) freeze in the counties impacted by the California wildfires. The freeze includes not removing customers who are already in the PEV process, as well as not sending new PEV requests. Per the Resolution, PG&E freezes all CARE PEV requests for customers impacted by the October 2017 Northern California Wildfires in Butte, Lake, Mendocino, Napa, Nevada, Plumas, Santa Cruz, Solano, Sonoma, and Yuba counties until December 31, 2018.

PG&E expands the CARE PEV freeze to customers in affected counties where a state of emergency proclamation is issued by the Governor of California due to a disaster that resulted in PG&E's inability to deliver utility services to customers. The freeze will be in place for a period of one year commencing from the date the state of emergency proclamation was issued.

Date of Proclamation	Disaster Name	Affected County
June 25, 2018	Pawnee Wildfire	Lake
July 26, 2018	Carr Wildfire	Shasta
July 26, 2018	Ferguson Wildfire	Mariposa
July 28, 2018	River, Ranch and Steele Wildfires	Lake, Mendocino and Napa
November 8, 2018	Camp Wildfire	Butte
February 21 & 28, 2019	February 2019 Winter Storms	Amador, Calaveras, El Dorado, Glenn, Humboldt, Lake, Marin, Mendocino, Monterey, San Mateo, Santa Barbara, Santa Clara, Shasta, Sonoma, Tehama, Trinity and Yolo

April 12, 2019	February 2019 Winter Storms	Butte, Colusa, Mariposa, Napa, Santa Cruz, Solano and Tuolumne
July 4 & 5, 2019	July 2019 Ridgecrest Earthquake	Kern and San Bernardino

NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

1: Add additional categories if relevant to your utility

2: Refers to budget spent supporting CSD's LIWP program

[1] D.16-11-022 directed funding for new initiatives to come from unspent 2009-2016 ESA Program funds, and directed IOUs to update their budgets by Conforming Advice Letter. Resolution G-3531 authorized PG&E's 2017-2020 ESA budget, including the addition of unspent funding reported here.
[2] Incremental increases in existing energy efficiency measures from new directives (e.g., removal of 3 measure minimum) use authorized funds until depleted, then will use carryover funds.
New measures and activities not included in PG&E' Application use 2009-2016 unspent funds.
[3] Reflects a new budget category and includes the primary administrative fee for Implementer(s), including multifamily SPOC activities.
[4] Includes unspent funds transferred to Marin Clean Energy (as authorized by OP 147 in Decision 16-11-022) and unspent funds to support Department of Community Services and Development's Low-Income Weatherization Program initiative.
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
[5] Includes carryforward from 2018 to 2019 for a total of $16,093,721.5 (Electric $35,558,688 and Gas $6,966,423)

Standard Notes 1 - 6 (do not delete)

1. Measures are customized by each IOU, see 'Table 2B-1, Eligible Measures List'. Measures list may change based on available information on both costs and benefits and may vary across climate zones. Each IOU should fill out Table 2B as it pertains to their program. Table 2B-1 Column A should match Table 2B Column A for eligible (not canceled) measures.

2. Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings.

3. Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in table 2A.

4. Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project.

5. Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022, modified by D.17-12-009, where 65% of tenants are income eligible based (at or below 200% of the Federal Poverty Guidelines).

6. Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.

7 All savings are calculated based on the following sources:

Energy Savings Assistance CAM Program Table 2B-1, Eligible Common Area Measures List

Lighting			
Miscellaneous			

Standard Notes (do not delete)

1. Measures list may change based on available information on both costs and benefits (including energy benefits as well as non-energy benefits) and may vary across climate zones. This is not a list of installed measures, it is a list of eligible measures.
Table 2B-1 Column A should match Table 2B Column A for eligible (not canceled) measures.

2. Only complete if measure is canceled or discontinued
3. Defined as CEC California Building Climate Zones https://www.energy.ca.gov/maps/renewable/building_climate_zones.html

21	[1] D.17-12-009, Attachment 1 (modified D.16-11-022), OP.66 directed electric IOUs to file PCT pilot implementation plans by March 1, 2018. PG&E's AL 5242-E (filed March 1, 2018) has not yet been authorized and this pilot has not yet begun. D.16-11-022 authorized $250,000.												
22	[2] PG&E proposed the CDWx pilot in its 2015-2017 ESA Application, authorized in D.16-11-022, OP.144. In December 2017, PG&E requested and was granted an extension to implement this pilot so that CSD could be included in it. This pilot will begin implementation in 2018.												
23	[3] A contract for this statewide study was awarded in January 2018. SCE is the project manager. There has been no cross-billing.												
24	[4] SCG is the contract manager of this co-funded statewide study. Cross-billing from SCG typically occurs quarterly.												
25	[5] This statewide study was bid out on March 23, 2018, and a consultant has not yet been selected. SDG&E is the contract manager.

34	[1] Decision 15-12-047 transitioned from CHANGES pilot to CHANGES program and funding for the effort is captured herein.												
35	[2] Reflects the Annual Eligibility Estimates prepared by Athens Research on behalf of the utilities. This efforts was formerly referenced in Measurement and Evaluation.												
36	[3] Reflects the authorized funding per year in D.16-11-022 and D.17-12-009, and updated via PG&E Mid-Cycle Update Advice Letter 3990-G/5329-E, 3990-G-A/5329-E-A, 3990-G-B/5329-E-B.												
37	[4] Per D.02-09-021, PG&E is authorized to recover the full value of the discount through the CARE two-way balancing account on an automatic pass-through basis.												
38	[5] PPP Exemption - CARE customers are exempt from paying CARE program costs including PPP costs for CARE admin and the CARE surcharge.												
39	[6] Program authorized budget included employee benefits costs of $906,314 as authorized in the 2017 GRC Decision (D.) 17-05-013. Actual employee benefit burden costs have been included in the program monthly and YTD expenses.												
40													
41	**Note:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Enrollments via data sharing between the IOUs.
[2] Enrollments via data sharing between departments and/or programs within the utility.
[3] Enrollments via data sharing with programs outside the IOU that serve low-income customers.
[4] PG&E counts attrition due to no response in the Failed PEV and Failed Recertification columns, respectively.
[5] Includes customers who closed their accounts, requested to be removed, or were otherwise ineligible for the program.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
