Energy Savings Assistance Program and
California Alternate Rates for Energy Program
Monthly Report for October 2018

This Monthly Report complies with low income reporting requirements established in Decision (D.)16-12-022 as modified by D.17-12-009, and with all reporting and program evaluation requirements previously established for the California Alternate Rates for Energy (CARE) and Energy Savings Assistance (ESA) Programs. The utilities worked with Energy Division staff to revise reporting tables and formats in compliance with the mandates of D. 16-12-022 and now use the resulting Energy Division-approved monthly reporting format for 2017-2020 ESA and CARE programs, beginning with the report for January 2018.

1. Energy Savings Assistance (ESA) Program Summary

The ESA Program provides free home weatherization, energy-efficient appliances and energy education services to income-qualified PG&E customers throughout the Company's service area. To qualify for the ESA Program, a residential customer's household income must be at or below 200 percent of Federal Poverty Guidelines, as required in D.05-10-044. PG&E has offered energy efficiency programs to income-qualified customers in its 48 counties since 1983. The ESA Program's objective is to help income-qualified customers reduce their energy consumption and costs while also improving their quality of life. The 2017-2020 ESA Program authorized in D.16-12-022 as modified by D.17-12-009 continues as a resource program emphasizing long-term and enduring energy savings. It continues to serve all willing and eligible low income customer populations by providing all feasible ESA Program measures at no cost to the customer through a direct-install approach. All housing types are eligible to participate, and the ESA Program is available to both homeowners and renters.

1.1 Energy Savings Assistance Program Overview

PG&E's 2017-2020 ESA Program continues to follow the policies and guidance given in D.07-12-051, which established the following programmatic initiative for the ESA Program (formerly known as LIEE):

> To provide all eligible customers the opportunity to participate in the LIEE programs and to offer those who wish to participate all cost-effective energy efficiency measures in their residences by 2020.

PG&E's ESA Program has treated 61,509 customers in 2018, through October 31, 2018. ESA homes treated include both First Touch Homes and Retreated Homes, as shown in Table 2.

1.1.1 Provide a summary of the Energy Savings Assistance Program elements:

Energy Savings Assistance Program Summary			
2018	**Authorized / Planning Assumptions**	**Year-to-Date Actual**	**YTD %**
Budget[1]	$160,415,350	$86,944,464	54%
Homes Treated[2]	94,532	61,509	65%
kWh Saved	NA	44,179,117	
kW Demand Reduced	NA	59,661	
Therms Saved	NA	1,358,729	

[1]Authorized Budget per Resolution G-3531. Authorized budget includes $1,823,560 carried over from the 2017 General Administration line into 2018 General Administration; it also includes fund shift per Advice Letter Al 3977-G/5298-E of $877,047 from 2017 Inspection budget and $905,057 from 2018 Inspection budget to 2018 General Administration.
[2]Adopted Number of Homes to be Treated as per Decision 17-12-009. Total includes both First Touch and Re-Treated homes. These are shown on ESA Table 2.

1.2 ESA Program Customer Outreach and Enrollment Update

PG&E's outreach team and the ESA Program contractors conduct outreach through different channels and in multiple languages, including: Bill inserts, direct mailings, emails, outbound phone calls, ethnic and local media, community events and partnerships and other innovative approaches. Customers who call PG&E's customer service centers are referred to the ESA Program and assigned to a contractor in their area.

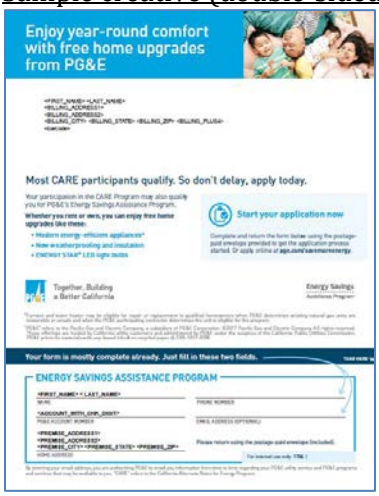
The ESA Program partners with 27 local installation contractors, 2 appliance contractors, and 8 Community-Based Organizations (CBOs), of which 4 are also Low Income Home Energy Assistance Program (LIHEAP) agencies.

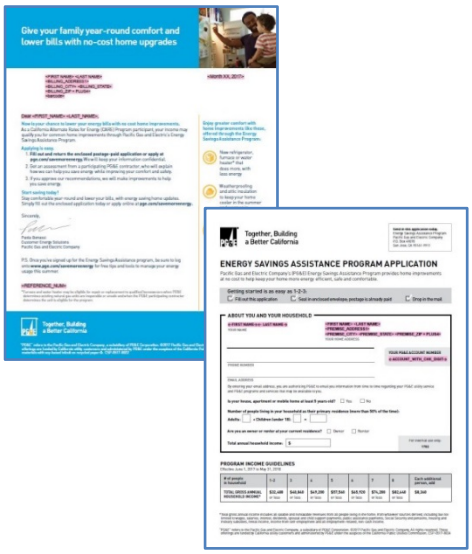
PG&E coordinates with these LIHEAP agencies to install Energy Star® refrigerators in homes receiving PG&E electric service where the LIHEAP contractors have installed all other measures under the State Weatherization Program. This allows both the ESA Program and LIHEAP to leverage their resources and help additional low income homes. Through October, no refrigerators have been installed.

1.2.1 Provide a summary of the Energy Savings Assistance Program outreach and enrollment strategies deployed this month.

In October, PG&E continued to receive customer response to a direct marketing campaign deployed in September 2018 to 100,000 CARE-enrolled customers whose homes have not yet been treated by the ESA Program. The campaign re-ran creative from Q3. Through October 31st, the campaign has generated more than 7,600 leads.

Sample creative (double-sided English/Spanish):





PG&E continued to deploy the welcome kit to customers who are newly-enrolled in the CARE program. Since January, PG&E has included a personalized pre-filled response form for customers who wish to participate in the Energy Savings Assistance Program, generating a strong response. More than 8,300 customers have responded to the included ESA offer through October.

PG&E continued to participate in multicultural media interviews to promote the ESA Program with the following outlets:

- KMJE Radio-Sacramento. Thirty minute interview in which information about the various assistance programs PG&E provides; CARE, FERA, Medical Baseline, and ESA was shared. Each program was reviewed in detail to include benefits, requirements to apply, and how customers can apply.
- KFTV Univision 21 Fresno-Arriba Valle Central Daily morning show, Monday-Friday 5-7 am. Saturday 11:30 am-12pm. Reaches an average of 18,000 viewers, age 18+ in the Fresno-Visalia DMA.

PG&E continued the monthly digital newsletter targeting customers with a high propensity for eligibility in CARE and ESA Program with the purpose of building awareness for both programs.

PG&E continues to share data with California Community Services and Development (CSD), allowing for leveraging and outreach between each program to impact a wider customer base.

1.3 Leveraging Success Evaluation, Including California State Department of Community Services and Development (CSD)

1.3.1 Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

PG&E, SCE, SDG&E and SoCal Gas have been meeting with CSD staff since 2016 to discuss leveraging opportunities in compliance with D.16-11-022. In Q4 2016 the IOUs and CSD began working to implement D.16-11-022 leveraging requirements: to share IOU data usage information for CSD clients, and to fund ESA measures currently offered by ESA for multifamily customer households participating in CSD's Low Income Weatherization Program (LIWP) for multifamily buildings.

CSD Data Sharing. On February 2, 2018, per D.17-12-009, Attachment 1, OP.183, PG&E and CSD entered into a non-disclosure agreement (NDA) for data sharing purposes. This fully-executed NDA allowed for data sharing to begin as required in D.17-12-009. On February 14, 2018, CSD confirmed that their first data share request met all terms within the agreed upon NDA. On February 22, 2018, PG&E completed CSD's first data share request. This data share included CSD-requested customer-specific usage data. PG&E, CSD, and the other IOUs are in discussion to determine frequency of future data sharing efforts, along with other possible technological mechanisms to make continued future data sharing as seamless as possible.

LIWP (MF) Leveraging. PG&E worked with CSD to project installation rates for these measures, including PG&E costs for both labor and the measures to calculate the projected funding level for this effort, with the goal of funding the CSD's Low Income Weatherization Program efforts for those in-unit measures provided by the ESA Program, preserving the remaining CSD's funding for use to install central systems and common area measures not provided by the ESA Program. PG&E's budget for this effort was included in its Conforming Advice Letter submitted on March 24, 2017, and supplemented on June 22, 2017, and was authorized by Commission Resolution G-3531 issued December 21, 2017. Since working with CSD to develop a budget for LIWP leveraging efforts, PG&E Legal, ESA Program Management, Legal, and Sourcing have been actively working with CSD teams to complete contract / agreement terms necessary to begin leveraging funds. PG&E expects to begin implementation in 2018. In October 2018, RHA has launched the Multi-family Standards Review portal to review drafts of the LIWP/ESA Multi-Family Quick Reference Standards. The review period is scheduled in five batches through December 2018 after which a meeting will be scheduled to review all comments to finalize the installation standards.

1.4 Workforce Education & Training

1.4.1 Please summarize efforts to improve and expand the ESA Program workforce education and training. Describe steps taken to hire and train low income workers and how such efforts differ from prior program years.

Contractors are encouraged to hire local workers to implement the ESA Program in their areas. All contractors and subcontractors responsible for implementing the ESA

Program are trained at the PG&E Energy Training Center (ETC) in Stockton California. Most of these ESA Program energy specialists and installation contractors are from the local communities in which they work. Year-to-date, 982 individuals in 54 sessions (1,780 student days) have been trained to deliver the ESA Program in various capacities. Included in these numbers is 9 sessions of NGAT, 94 students, and 564 student days and 17 sessions of WS/NGAT updates (charged equally to both ESA and NGAT), 416 students, and 214 student days.

1.5 Miscellaneous

Providing Energy Education-Only to ESA Qualifying Customers

D.16-11-022 permitted the IOUs to provide in home energy education for all income qualified households, regardless of whether the homes receive ESA measures or treatment. The Decision also specified that households that only receive energy education will not count as "treated," and required IOUs to track and report all households that only receive energy education (D.16-11-022, Ordering Paragraph 11). Households receiving only education are not permitted to self-certify and these households must demonstrate their income eligibility for ESA participation.

New reporting tables have been developed by Energy Division for 2018 ESA reporting. These include tables to track and report energy education only households as separate from ESA-treated homes. PG&E will continue to track and report on energy education only homes. To date, PG&E has only provided energy education to households that have qualified for at least one additional measure.

Energy-Water Leveraging

In collaboration with water utilities and other stakeholders, PG&E is developing a strategic plan that provides for the continued integration and leveraging of existing water conservation program offerings with ESA Program offerings. PG&E's energy-water leveraging plan provides information needed to implement effective co-funded energy-water conservation programs and leveraging partnerships during the 2017-2020 ESA Program cycle. PG&E held a water-energy webinar to discuss water leveraging opportunities with interested water agencies on March 23, 2017 to provide an overview of ESA's current water leveraging activities with California American Water and Solano County Water Agency, and to gauge water agency interest in additional leveraging partnerships. Eighteen water agencies participated, and PG&E is following up with interested agencies.

ESA Program Pilots

Consumption-Driven Weatherization (CDWx) Pilot. PG&E proposed a CDWx Pilot to selectively offer additional weatherization measures that fall outside current ESA Program guidelines for high usage, high potential customers identified via AMI analysis. D.16-11-022 Ordering Paragraph 144 directed a 12 month pilot implementation period to fully integrate AMI into the ESA Program as rate reform adjustments are underway. This pilot is anticipated to yield information that will help overall AMI integration and to identify steps to help reduce high energy use among CARE customers that leads to higher bills.

In December 2017, PG&E requested and was granted an extension to implement this pilot so that the California State Department of Community Services and Development (CSD) could

be included in it. Following the expressed interest of CSD regarding ways to increase leveraging opportunities, CSD joined PG&E in this CDWx pilot offering. The pilot will now incorporate measures from CSD's Low-Income Home Energy Assistance Program (LIHEAP) program. Collaborating with CSD provides increased opportunities to leverage both funding and data analysis, which is anticipated to result in more cost effective targeting as well as increased benefits to high-energy use low income customers.[1] The CDWx pilot will continue to use data-driven analysis to target high usage customers to receive additional weatherization measures that fall outside current ESA Program guidelines, with the added benefit of including CSD's offerings and applying lessons learned from the previous PG&E-CSD Leveraging Pilot.

Programmable Communicating Thermostat (PCT) Pilot. D.17-12-009, Ordering Paragraph 147 directed the electric IOUs to implement a pilot to examine the demand and energy savings of a "package" consisting of programmable communicating thermostats (PCTs), Time-of-Use Critical Peak Pricing rates, and a mobile phone application. In compliance with this directive, PG&E's Smart Thermostat Time-of -Use Pilot proposals was filed by Tier 2 Advice Letter on March 1, 2018. This was suspended on March 26, 2018.

The electric IOUs received a Disposition from Energy Division on April 27, 2018 approving the pilot implementation plan with a modified budget of $290,000. PG&E filed an extension letter on behalf of all electric IOUs on May 15, 2018 which was approved on May 30, 2018. PG&E released an RFP for the statewide evaluation on behalf of all electric IOUs in July 2018 and retained a statewide evaluator on October 2, 2018.

In October, the electric IOUs filed a request to extend the start of the Pilot from October 31, 2018 to January 1, 2019. Completing the procedural requirements associated with conducting a statewide evaluation as well as challenges recruiting customers required additional IOU coordination and time. Energy Division approved the request for extension on November 1, 2019.

ESA Program Studies

Three statewide studies were authorized in D.16-11-022 for the 2017-2020 cycle. These included: (1) a low income needs assessment study; (2) an impact evaluation of the 2015 ESA Program; and (3) a non-energy benefits and equity criteria evaluation.

Low Income Needs Assessment (LINA) Study. The LINA Study must be updated every three years per State code, and a new Study must be completed by December 2019. Energy Division and the IOUs held a public workshop on May 19, 2017 to discuss the LINA scope of work, and the IOUs released a Request for Proposal (RFP) for this work in 2017 Q4. A contract with Research Into Action was completed in 2018 Q1. A kick-off meeting was held to initiate the study and review the project plan on February 14th, 2018. A public workshop was held on May 29th, 2018. A LIOB subcommittee meeting regarding the LINA study was held on August 1, 2018. Study data collection has commenced and will continue throughout 2018.

ESA Impact Evaluation. ESA program energy savings (program "impacts") are necessary for planning the next program cycle, and measuring the success of current program offerings. The IOUs issued an RFP to conduct an ESA impact evaluation at the end of 2015. The contract

[1] RHA. CSD/PG&E Weatherization Programs Geographic Coordination Pilot Report (October 1, 2014). Prepared for CSD and PG&E.

for this work was finalized after D.16-11-022 authorized the study. DNV-GL is conducting the statewide ESA Impact Evaluation. Work began in 2017, with Phase I results provided in 2018 Q2. Phase I preliminary results were incorporated into in the Mid-Cycle Update Advice Letter filing on July 16, 2018 per direction from Energy Division staff. Phase II data collection has commenced, with final results anticipated by Q1 of 2019.

Non-Energy Benefits (NEB) Study. The scope of work for the non-energy benefits study is being developed in consultation with the Cost Effectiveness Working Group authorized in D.16-11-022, and an RFP was released on March 23, 2018. The consultant team SERA/Navigant was selected to complete the NEB study. A kick-off meeting was held to initiate the study and review the study project plan on August 24, 2018. A public workshop for the NEB study research plan was held on October 12, 2018.

Multifamily Common Area Measures (CAM)

PG&E has started its Common Area Measures initiative. In order to best target properties and measure opportunities, PG&E is conducting a Market Assessment. The market assessment will recommend most-qualified CAM property leads in PG&E territory and best CAM measures to treat these types of properties. In order to conduct this analysis, PG&E is looking at key data sources such as Energy Efficiency programs historic customer participation data and CoStar, a data source that provides rich information on housing properties to help PG&E best target its CAM outreach. PG&E has identified 350 buildings to engage regarding CAM and is in the process of working with a priority list of these leads.

From 2017 through July 31, 2018, PG&E's ESA team has spent a total of $208,239.56 on all Multifamily activities including Common Area Measures implementation and Multifamily SPOC initiatives.

Activity for the rest of the year will include CAM property lead cultivation, engagement, and audits, stakeholder engagement, as well as other program ramp up activities.

Working Groups

PG&E participates in all three of the working groups authorized in D.16-11-022 for the 2017-2020 cycle. These included: the Cost Effectiveness working group, the Mid-Cycle working group and the Multifamily working group.

Multifamily Working Group. D.17-12-009, Ordering Paragraph 66 directed the IOUs to file a Tier 2 Advice Letter outlining their respective implementation plans for their multi-family (MF) common area activities by March 1, 2018. Prior to submittal of the Advice Letter, the IOUs were directed to submit their draft implementation plans to the MF working group by January 15, 2018. PG&E submitted its draft implementation plan on January 16, 2018. PG&E presented them to the MF working group at its quarterly meeting on January 26, 2018, where the MF working group conferred to identify, and discuss areas of consensus and non-consensus. These were summarized by the MF working group facilitator, and circulated to the MF working group on January 30, 2018, as directed by D.17-12-009. By February 13, 2018, individual stakeholders separately submitted recommendations to the MF working group addressing issues where there was not consensus. PG&E submitted its Advice Letter on March 1, 2018. This was approved on March 29, 2018. On October 29, 2018 PG&E hosted the MFWG quarterly meeting to present the Non-Deed Restricted Analysis along with an update on the 2018 Interim MFWG Progress Report

2 California Alternate Rates for Energy (CARE) Program Summary

The CARE Program provides a monthly discount on energy bills for qualifying households throughout PG&E's service area.

To qualify for the CARE discount, a residential customer's household income must be at or below 200 percent of Federal Poverty Guidelines, as required in D.05-10-044 and per Public Utility Code Section 739.1(b) (1) or someone in the customer's household is an active participant in other qualifying public assistance programs.

The 2017 – 2020 CARE Program was adopted in D.16-11-022 issued on November 10, 2016. The authorized CARE Program administrative budget for 2018 is $17,601,453. This 2018 budget includes $143,187 for PG&E's Cooling Centers Program and $525,000 for the Community Help and Awareness with Natural Gas and Electricity Services (CHANGES) Program.

The CHANGES Program provides funding to Community Based Organizations (CBOs) to assist Limited English Proficient (LEP) customers with energy education and billing issues. D.12-12-011 required that the utilities report CHANGES activity in the monthly reports beginning in April, 2013. D.15-12-047 directed the utilities to continue to report CHANGES activity in the monthly reports until long-term funding is established from the Commission's budget.

2.1 CARE Program Cost Summary

CARE Budget Categories	Authorized Budget[1]	Actual Expenses Year to Date[2]	% of Budget Spent
Outreach	$10,125,723	$6,208,528	61%
Processing, Certification, Recertification	$2,006,668	$743,061	37%
Post Enrollment Verification	$1,679,803	$1,090,279	65%
IT Programming	$2,047,667	$397,234	19%
Cooling Centers	$143,544	$116,681	81%
CHANGES Program	$527,782	$402,484	76%
Measurement and Evaluation	$153,289	$51,063	33%
Regulatory Compliance	$505,258	$313,614	62%
General Administration	$1,162,431	$637,201	55%
CPUC Energy Division Staff	$128,000	$89,978	70%
Total Expenses	**$18,480,164**	**$10,050,122**	**54%**
Subsidies and Benefits	$587,313,000	$518,213,373	88%
Total Program Costs and Discounts	**$605,793,164**	**$528,263,495**	**87%**

[1] Program authorized budget per D.16-11-022 and D.17-12-009. This budget was updated to include employee benefits costs of $878,743 as authorized in the 2017 GRC Decision (D.) 17-05-013.
[2] Actual expenses include employee benefits costs.

2.1.1 Please provide the CARE Program penetration rate to date

CARE Penetration		
Participants	**Estimated Eligible Participants**	**YTD Penetration Rate**
1,379,967	1,535,554	89.9%

2.2 Outreach

2.2.1 Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

In October, PG&E deployed the first touch for the Q4 Email and Direct Mail acquisition campaign targeting approximately 326,000 CARE-eligible customers. A timing test was conducted via the October email deployment. Of the 191,000 customers in the email test, half of the customers received the email approximately 5 days after receiving their energy statement. The other half of the population received the email on October 13. The hypothesis was that a customer is most engaged with PG&E at the time when they receive, and pay, their bill. However, initial results showed that the Test population had lower open rate (33.3% vs. 34.7%) and click-through rate (5.1% vs. 5.3%) than the Control deployment. Additional analysis will be conducted after the second deployment occurs to evaluate the impact of timing on enrollment rate.

On October 8, PG&E launched a broadcast campaign with TV and radio in markets across the territory. The campaign features the CARE TV spot, "New Start," and introduces a new radio spot promoting CARE and ESA. The campaign launched in the San Francisco/San Jose, Sacramento/Stockton/Modesto, Bakersfield, Stockton/Modesto, and Chico/Redding designated market areas (DMAs). TV and radio aired in Spanish and English as noted in the table below.

Q4 Broadcast Capaign Approach

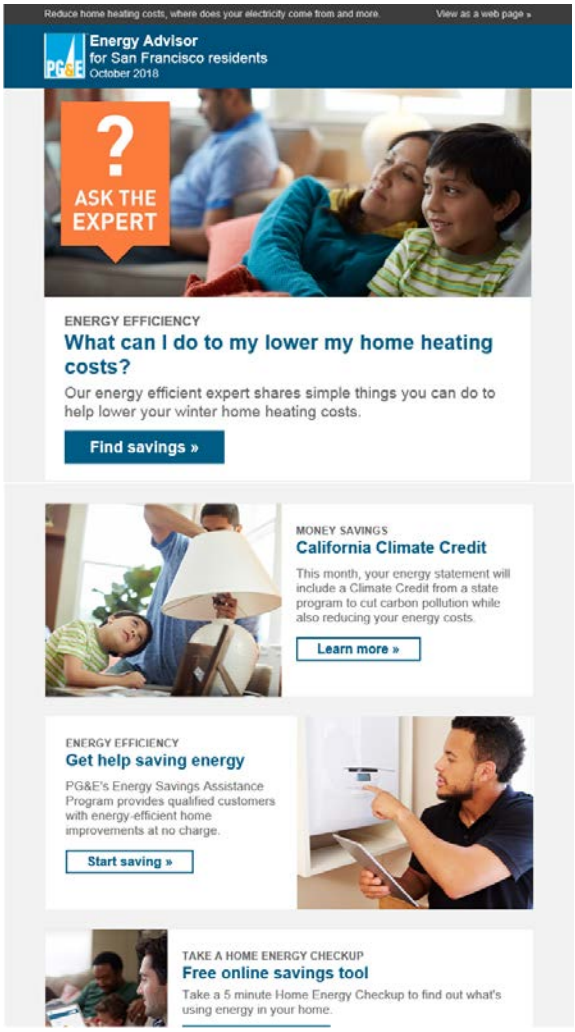
	TV		Radio	
DMA	GenPop	Spanish	GenPop	Spanish
San Francisco/San Jose			X	X
Sacramento/Stockton/Modesto	X	X	X	X
Chico/Redding	X		X	
Bakersfield		X	X	X
Fresno/Merced	X	X	X	X

The campaign is planned to air through November to support Q4 acquisition efforts.

PG&E continued the always-on CARE digital campaign, heavying up media weight in Q4 to end the year with incremental enrollments. Banner and paid search continue to drive significant enrollment volume for the program, with over 24,000 applications generated via the paid digital campaign.

PG&E continues to send messaging via the low-income targeted version of the e-Newsletter on a monthly basis. Customers not currently enrolled in CARE received the October newsletter featuring the tips for lowering Winter heating costs and highlighting the Climate Credit that customers would see on their bill in October.

Newsletter Sample:



PG&E's Integrated Mulitcultural Communications team hosted a Hispanic media roundtable in San Jose, with attendance from the following media outlets and organizations; *KSTS Telemundo, La Especial, Alianza News, La Movida, El Reportero, Lazer Broadcasting, KZSF Radio, and KIQI Radio.* During the event, PG&E shared information on rate options and tools available to help customers manage their energy use, winter driving saftey tips, the Community Wildfire Safety program and Public Safety Power Shutdown, and PG&E's low-income programs including CARE, FERA and Medical Baseline among others.

PG&E continued to participate in media interviews to promote the CARE and FERA Programs with the following outlets:

- KFTV Univision 21 Fresno – Arriba Valle Central daily morning show, hosted by Lupita Lomeli, a Hispanic icon in the Central Valley. Arriba Valle Central reaches an average of 18,000 viewers ages 18+ in the Fresno-Visalia DMA.

PG&E's targeted Low Income work complements Solutions Marketing Outreach by adding face-to-face interactions and enrollment activities through trusted community partners and events. These activities occur throughout the year. October activities included:

- Local Office Partnerships – CARE partners with local offices to inform customers about the program and to distribute applications.
    - In October, this initiative produced 66 new enrollments from local office events.
    - Year to date, this initiative has produced 1,076 new enrollments.

- Community Outreach Contractors (COCs) - PG&E contracted with 50 COCs throughout its service area. These organizations represent a variety of communities, including African-Americans, Hispanics, Asian Pacific Islander Americans (Chinese, Vietnamese, and Hmong), Native Americans, seniors, rural residents, agricultural workers, sub-metered tenants, and nonprofit living facilities.
    - Year to date, this initiative has led to 1078 new enrollments.

- Health Outreach Workers: Vision y Compromiso, a nonprofit organization, partners with PG&E to deliver a culturally and linguistically specific outreach community engagement model to provide community-based health outreach workers with relevant training and support. This work is designed to increase Latino families' awareness of and enrollment in PG&E's low income portfolio of offerings (primarily California Alternate Rates for Energy (CARE) program) and enhance families' energy education and energy savings by providing information about the ESA program. This model is focused in Alameda and Yolo Counties with eight health outreach workers providing outreach to hard to reach customers. These two counties were chosen because we have an 88% and 77% penetration rate; furthermore, we wanted to assessed effectiveness of outreach methods. In the month of October, they provided information to 1,083 customers, submitted 225 CARE applications, and helped 49 customers sign-up for Spanish Energy Statements.

Describe the efforts taken to reach and coordinate the CARE Program with other related low income programs to reach eligible customers.

PG&E exchanges data with Southern California Edison (SCE) Company and Southern California Gas (SCG) Company and automatically enrolls their CARE households if they also receive PG&E service. PG&E also exchanges data of qualified low income households with the Sacramento Municipal Utility District (SMUD). PG&E provides natural gas within the SMUD electric service area and automatically enrolls qualified low income customers served by SMUD onto the CARE Program. These data exchanges are currently on hold while PG&E updates their information security agreements.

PG&E automatically enrolls customers who receive LIHEAP and Relief for Energy Assistance through Community Help (REACH) payments. Year-to-date, 3,129 LIHEAP customers and 230 REACH customers have been automatically enrolled onto the CARE Program.

Year-to-date, 13,722 ESA Program participants have been enrolled in the CARE Program.

Additionally, PG&E continues to coordinate CARE, ESA and other low income outreach efforts to provide likely eligible customers with the knowledge and tools to access helpful PG&E services. For example, upcoming CARE and ESA acquisition campaigns will cross-reference programs in automated phone calls, emails and direct mail. The goal with these and similar efforts moving forward is to help financially challenged customers manage their energy bills in a more holistic and sustainable way.

2.2.2 Recertification Complaints

D.08-11-031, Ordering Paragraph 90, directed the IOUs to report in their monthly and annual reports the number of customer complaints received regarding CARE recertification efforts and the nature of the complaints beginning with the first report due on or about December 31, 2008. PG&E reports that it received no complaints about CARE recertification in October.

2.3 Miscellaneous

D.08-11-031, Ordering Paragraph (OP) 64, granted the IOUs discretion about how to enroll eligible public housing residents in each of their service areas. In response, PG&E contracted with Public Housing Authorities as COCs to enroll their eligible residents in the program.

As ordered in CPUC Resolution M-4833, PG&E has implemented a post-enrollment verification (PEV) freeze in the counties impacted by the California wildfires. The freeze includes not removing customers who are already in the PEV process, as well as not sending new PEV requests. Per the Resolution, PG&E freezes all CARE PEV requests for customers impacted by the October 2017 Northern California Wildfires in Butte, Lake, Mendocino, Napa, Nevada, Plumas, Santa Cruz, Solano, Sonoma, and Yuba counties until December 31, 2018.

PG&E expanded the CARE PEV freeze to customers in areas where a new state of emergency proclamation has been issued by the Governor of California due to a disaster that resulted in PG&E's inability to deliver utility services to customers during the months of June and July of 2018. The freeze will be in place for a period of one year commencing from the date the state of emergency proclamation was issued, or until PG&E service is restored. The impacted counties are Lake, Shasta, Mariposa, Mendocino, and Napa.

In compliance with D.16-11-022, OP 87, PG&E reports that the IOUs have developed a document aligning their CARE High Usage Appeal Processes and will use the same criteria and evaluation of customer appeals going forward.

20
21
22 [1] D.16-11-022 directed funding for new initiatives to come from unspent 2009-2016 ESA Program funds, and directed IOUs to update their budgets by Conforming Advice Letter. Resolution G-3531 authorized PG&E's 2017-2020 ESA budget, including the addition of unspent funding reported here.
23 [2] Incremental increases in existing energy efficiency measures from new directives (e.g., removal of 3 measure minimum) use authorized funds shown in Table 1 until depleted, then will use carryover funds.
24 New measures and activities not included in PG&E' Application use 2009-2016 unspent funds.
25 [3] Reflects a new budget category and includes the primary administrative fee for Implementer(s), including multifamily SPOC activities.
26 [4] Includes unspent funds transferred to Marin Clean Energy (as authorized by OP 147 in Decision 16-11-022) and unspent funds to support Department of Community Services and Development's Low-Income Weatherization Program initiative.
27 **Note:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

20	[1] D.17-12-009, Attachment 1 (modified D.16-11-022), OP.66 directed electric IOUs to file PCT pilot implementation plans by March 1, 2018. PG&E's AL 5242-E (filed March 1, 2018) has not yet been authorized and this pilot has not yet begun. D.16-11-022 authorized $250,000.												
21	[2] PG&E proposed the CDWx pilot in its 2015-2017 ESA Application, authorized in D.16-11-022, OP.144. In December 2017, PG&E requested and was granted an extension to implement this pilot so that CSD could be included in it. This pilot will begin implementation in 2018.												
22	[3] A contract for this statewide study was awarded in January 2018. SCE is the project manager. There has been no cross-billing.												
23	[4] SCG is the contract manager of this co-funded statewide study. Cross-billing from SCG typically occurs quarterly.												
24	[5] This statewide study was bid out on March 23, 2018, and a consultant has not yet been selected. SDG&E is the contract manager.

31													
32													
33	[1] Decision 15-12-047 transitioned from CHANGES pilot to CHANGES program and funding for the effort is captured herein.												
34	[2] Reflects the Annual Eligibility Estimates prepared by Athens Research on behalf of the utilities. This efforts was formerly referenced in Measurement and Evaluation.												
35	[3] Reflects the authorized funding per year in D.16-11-022 and D.17-12-009, and updated via Resolution G-3531 addressing PG&E Conforming Advice Letter 3830-G/5043-E and PG&E Supplemental Conforming Advice Letter 3830-G-A/5043-E-A.												
36	[4] Per D.02-09-021, PG&E is authorized to recover the full value of the discount through the CARE two-way balancing account on an automatic pass-through basis.												
37	[5] PPP Exemption - CARE customers are exempt from paying CARE program costs including PPP costs for CARE admin and the CARE surcharge.												
38	[6] Program authorized budget included employee benefits costs of $878,743 as authorized in the 2017 GRC Decision (D.) 17-05-013. Actual employee benefit burden costs have been included in the program monthly and YTD expenses.												
39													
40	**Note:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Enrollments via data sharing between the IOUs.
[2] Enrollments via data sharing between departments and/or programs within the utility.
[3] Enrollments via data sharing with programs outside the IOU that serve low-income customers.
[4] PG&E counts attrition due to no response in the Failed PEV and Failed Recertification columns, respectively.
[5] Includes customers who closed their accounts, requested to be removed, or were otherwise ineligible for the program.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

43	[1] Includes all participants who were selected for high usage verification process. Closed accounts will not be tracked in Ineligible or De-enrolled data.								
44	[2] Includes customers verified as over income, who requested to be de-enrolled, did not reduce usage, or did not agree to be weatherized.								
45	[3] Verification results are tied to the month initiated and the high usage verification process allows customers 90 days to respond to the verification process. Each utility may have a different de-enrollment date due to billing cycle or other contributing factors.								
46

55

56 [1] "Rural" includes ZIP Codes classified as such by the Goldsmith modification that was developed to identify small
57 towns and rural areas within large metropolitan counties. ZIP Codes not defined as rural are classified as urban.

18								
19	[1] Excludes count of customers recertified through the probability model.							
20	[2] Recertification results are tied to the month initiated and the recertification process allows customers 90 days to respond to the recertification request. Results may be pending due to the time permitted for a participant to respond.							
21	[3] Includes customers who did not respond or who requested to be de-enrolled.							
22	[4] Percentage of customers recertified compared to the total participants requested to recertify in that month.							
23								
24	**Note:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
