Introduction

Southern California Edison Company (SCE) hereby submits its Low Income Assistance Programs Monthly Report for June 2007.[1] This monthly report includes a brief narrative and quantitative tables (attached hereto), which describe the results of program activity during the month of June 2007 for SCE's low income assistance programs – the Low Income Energy Efficiency (LIEE) program, the California Alternate Rates for Energy (CARE) program and the Cool Center program.

In D.06-12-038, the California Public Utilities Commission (Commission) approved the format of the accompanying tables, which were developed by consensus among the joint utilities (SCE, Pacific Gas and Electric Company (PG&E), Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company (SDG&E)), the Energy Division, and the Division of Ratepayer Advocates.

Minor changes have been made to the tables to incorporate input received at the February 21, 2007 workshop on low income reporting conducted by the Energy Division. Additionally, the joint utilities and the Energy Division held a conference call on April 27, 2007 to discuss additional information that the Energy Division requested during the February 21 workshop. The joint utilities are now reporting this information in newly added tables 5L and 6C.

All results reported in this monthly report update and supersede data provided in previous reports.

California Alternate Rates for Energy (CARE) Program

As of June 30, 2007, a total of 1,025,621 customers were participating in the CARE program. Based on SCE's estimates of CARE-eligible customers and the income eligibility of 200% of federal poverty guidelines, SCE's current enrollment equates to a penetration rate of approximately 75%.

Outreach efforts and communications to SCE's in-language customers and under-penetrated areas continue to be a priority. In June 2007, SCE partnered with the Equal Opportunity and Public Affairs Departments in CARE outreach activities that targeted SCE's hard-to-reach customer base. These efforts focused on one-on-one community events throughout SCE's service territory, where bilingual volunteers provided CARE information, responded to customers' questions, and assisted eligible customers with completion of the CARE/FERA application. Additionally, a special event was held that targeted the African-American community. This Juneteenth celebration was held in the

1 Pursuant to Administrative Law Judge (ALJ) Kim Malcolm's email dated February 20, 2007, SCE is not filing this monthly report. Instead, SCE is submitting the monthly report to the Energy Division (copy to ALJ Malcolm) and serving it on the service list for A.06-06-032 et al.

Inland Empire where CARE and energy efficiency information was disseminated at the CARE booth.

SCE continues to include a CARE enrollment application in the Welcome Kit that is sent to residents requesting new service or transfers of service. In 2007, as of June 30, more than 12,340 customers were enrolled in CARE as a result of this Welcome Kit.

In late-April, SCE developed and sent approximately 229,000 bilingual direct mail letters, which included a CARE enrollment application, to targeted customers currently not on the CARE rate. Through June 30, 2007, SCE has received 4,757 enrollment applications resulting in 3,361 new enrollments and 411 recertifications.

Additionally, in June 2007, SCE included the CARE enrollment application in non-CARE customers' bills as part of the annual CARE solicitation. As a result of this effort, 5,764 applications have been received resulting in 4,676 new enrollments and 509 recertifications.

Finally, SCE, as well as PG&E, SDG&E, and SoCalGas, are working with the Energy Division to assist the Commission in its efforts to comply with SB 580. Through this SB 580 pilot program, the joint utilities will facilitate the enrollment of Women, Infants, Children (WIC) participants onto the CARE rate. This Commission-established pilot project is tentatively scheduled to be implemented on July 1, 2007.

Low Income Energy Efficiency (LIEE) Program

SCE continues to strengthen delivery of comprehensive services to its low income customers. SCE contracts directly with an experienced and informed network of providers, including Community Based Organizations (CBOs) and private contractors. SCE also continues to implement LIEE as a leveraging vehicle with CBOs who deliver similar services through the Low Income Home Energy Assistance Program (LIHEAP) administered by the California State Department of Community Services. For instance, SCE provides LIHEAP agencies with refrigerators, at no cost, for installation into a joint LIEE/LIHEAP home. This leveraging approach maximizes the budgets of both the LIEE and LIHEAP programs in order effectively to serve as many customers as possible.

SCE also continues to competitively bid the purchase of energy-efficient appliances. By purchasing appliances in bulk, SCE is able to obtain low prices on equipment and exercise a level of control over inventory that may not otherwise be possible.

Beginning in late-March and continuing through mid-April, SCE encouraged customers currently enrolled in CARE to take advantage of the LIEE (or Energy Management Assistance (EMA)) program through a targeted direct mail offer. This bilingual mailer included a personalized fact sheet with details about the EMA program. Results show an increase of calls regarding interest in the LIEE program.

Cool Centers

SCE's Cool Centers provide low-income, senior and disabled residents a cool, safe place to gather during hot summer months. Cool Centers are located in isolated communities in extreme climate areas, where few public facilities are available for use to offer relief from the heat. Cool Centers also provide a place where customers can learn more about SCE's low income and energy efficiency programs, energy conservation and other available community programs.

Currently, SCE has Cool Center locations in Blythe, Hesperia, Highgrove, Highland, Joshua Tree, Landers, Palm Desert, Perris, Redlands, Rubidoux, and Yucaipa.

Conclusion

SCE appreciates this opportunity to provide the Commission with updated information about the successes SCE has achieved in its LIEE, CARE and Cool Center programs.

76 [1] Energy savings is based on 1) 2001 Low Income Impact Evaluation Study; 2) Decision 03-11-020 approved the LIEE Measure Cost Effectiveness Study conducted by Itron, Inc. filed on June 2, 2003 for new measure mix effective 1/1/04; 3) Decision 05-12-026 approved the Report on the Assessment of Proposed New Year 2006 LIEE Program Measures conducted by Itron, Inc. filed on May 2, 2005; and 4) the updated Database of Energy Efficient Resources (DEER).

77 [2] kW Estimate = kWh * 0.000217 which represents SCE's average of utility kWh to peak savings as filed in 2004/05 EE applications and included in Table 1B of Decision D04-09-060. This is an estimate of average peak savings, not coincident peak.

78 [3] Minor Home Repairs predominantly are door jamb repair / replacement, door repair, and window putty.

79 [4] Weatherization consists of attic insulation, attic access weatherization, weatherstripping - door, caulking, & minor home repairs
