MONTHLY REPORT OF SOUTHERN CALIFORNIA GAS COMPANY (U 904 G) ON RAPID DEPLOYMENT EFFORTS FOR OCTOBER 2005

I. INTRODUCTION

In Decision (D.) 01-05-033 the Commission directed Southern California Gas Company (SoCalGas) and the other investor owned utilities (IOUs) to provide monthly status reports on the costs and impacts of their Rapid Deployment (RD) efforts on their California Alternate Rates for Energy (CARE) and Low Income Energy Efficiency (LIEE) programs.

On May 22, 2002, the utilities held a conference call with the Energy Division and the Office of Ratepayer Advocates (ORA) to assess Rapid Deployment (RD) Reporting. The parties agreed that the utilities would submit a full monthly RD report to the Commission every three months. The first one being the previously submitted May report and future reports due in August of 2002, November of 2002, and February of 2003 -- only certain tables and a brief narrative highlight of RD activities were required from the utilities in other months.

In April 2004, the utilities met with the Energy Division and ORA to discuss proposed changes to the reports that would eliminate all references to SBX1 5 and combine

some information while retaining sufficient information for the programs to be assessed. Table column and row headings have not been changed to avoid confusion if comparisons are made with earlier reports.

In an Assigned Commissioner's Ruling dated May 5, 2004, the utilities were directed to include in their October report information on the implementation of automatic enrollment with the Department of Community Services and Development (DCSD), and then to continue to report on automatic enrollment on a quarterly basis. SoCalGas will continue to include Table 10.1 on automatic enrollment in each of its quarterly rapid deployment reports.

In D.02-07-033, the Commission authorized the IOUs to update their CARE and LIEE eligibility customer estimates using Census 2000 data. In accordance with that Decision, SoCalGas has updated its eligibility estimates for PY2005 and have included them in the "Revisions to the Annual Estimates of CARE Eligible Customers and Related Information" filed with the Commission on December 28, 2004, by Southern California Edison, on behalf of the IOUs. Pending Commission action on those filings, SoCalGas is using the updated eligibility information to provide information on CARE and LIEE customer participation and penetration for PY2005.

In October 2005, SoCalGas pursued an aggressive and targeted campaign to address the emerging difficulties that low and fixed income customers will face with the predicted nationwide increase in natural gas prices in the coming winter months. Many parties put forth considerable effort to develop a comprehensive and thorough strategy to assist these customers during this time and as a result, many of SoCalGas' proposals were adopted and later implemented on November 1, 2005. Reporting on these efforts will begin with the November Rapid Deployment report.

This tenth report for PY2005 contains information on SoCalGas' low-income programs during the month of October 2005 along with a full set of detailed tables.

II. LOW-INCOME ENERGY EFFICIENCY (LIEE)

October Results – LIEE Installations

SoCalGas processed and expensed the installation of weatherization measures in 3,328 homes for the month of October, bringing the year-to-date total to 28,731.

The total number of appliances serviced during October was 607, which included 424 furnace repairs, 119 furnace replacements and 64 water heater repairs. Year-to-date, 5,575 appliances have been serviced which is comprised of 3,645 furnace repairs, 1,279 furnace replacements, 648 water heater repairs and 3 water heater replacements.

For the month of October, SoCalGas processed and expensed reimbursements for 85 Energy Education Workshops with 1,713 participants. Year-to-date, 850 workshops have been conducted and expensed with a total of 17,060 participants.

LIEE measure and appliance installations processed and expensed during the month can be found in SoCalGas' Table 4, LIEE Measure Installations.

LIEE Leveraging and Outreach

During October, SoCalGas leveraged LIEE outreach with other Customer Assistance outreach efforts at the community events discussed in the CARE Outreach & Leveraging section below. The following summarizes additional outreach conducted for the Customer Assistance programs during October:

- SoCalGas representatives attended the annual Latino Book Festival held at the Pomona Fairplex on October 22 and October 23. Information about SoCalGas'

Customer Assistance Programs was provided to those in attendance. Over 500 English and 1500 Spanish Customer Assistance Program (CAP) brochures and 2000 CARE applications were distributed.

LIEE Authorized Funding Versus Actual Expenditures

SoCalGas' LIEE Program expenditures for October totaled $2 million for services processed and paid during the month, and $17.3 million year-to-date. An additional $300 thousand was spent on administration, for a year-to-date administration cost of $3.4 million. Total costs year-to-date are 62% of budget. (See Table 1)

III. CALIFORNIA ALTERNATE RATES FOR ENERGY

October CARE Enrollment Results

As of October 2005, 1,086,834 residential customers were enrolled in the CARE program, which is a net decrease of 1,024 customers from September 2005. During the month of October, 35,644 new CARE applications were approved, which included 2,557 from CARE capitation contractors and 7,711 through SoCalGas' interutility agreements. (See Table 10).

CARE OUTREACH AND LEVERAGING

In an effort to continue reaching out to our customer base, below are activities and events that occurred during the month of October in addition to the events reported in the LIEE October Leveraging and Outreach section above. Most of the events promote all of the assistance programs available to SoCalGas customers, which include CARE and LIEE:

- SoCalGas Customer Assistance representatives attended the 13th Annual Sabor de Mexico Lindo Downtown Festival held in downtown Los Angeles on September 30 through October 2. The three-day event allowed SoCalGas representatives the opportunity to discuss the various assistance programs available to SoCalGas customers. SoCalGas representatives were able to distribute over 4,000 CARE applications as well as 1,500 English and 2,500 Spanish CAP brochures.

During the month of October every customer received the bill message (***Special Discount*** You may be eligible for the California Alternate Rates for Energy (CARE) program. For more information and to request an application, please call 1-800-772-5050) on their bill in English and Spanish to promote the program.

SoCalGas staff members continued to distribute CAP brochures to energy technicians to provide to customers within SoCalGas' service territory. In addition, upon the customer's request, Energy Efficiency packets, which include a CARE application and CAP brochure, are also mailed out. Due to the increased awareness of the low-income programs, SoCalGas continues to receive and respond to requests for CARE applications and/or CAP brochures.

CARE AUTHORIZED FUNDING VERSUS ACTUAL EXPENDITURES

During October, CARE administrative expenses, including outreach, totaled $229,540. Year-to-date SoCalGas has spent approximately $3 million in administration which is 74% of the authorized 2005 CARE administrative budget. CARE rate and Service Establishment Charge discounts through October are $72.2 million, which is 89% of the proposed 2005 CARE discount budget.

The comparison of actual expenses to the budgeted figures for October is provided in Table 6.

CONCLUSION

SoCalGas continues to implement its outreach efforts with the goal of providing LIEE services to as many qualified customers as possible and increasing CARE participation during PY2005.

78 1. For all measures, estimates of "Initiated but not Completed" are based on the total number of "Initiated but not Completed" jobs submitted by Contractors and installation patterns recorded YTD.

79 2. SoCalGas does not track this measure separately from attic insulation.

80 3. Represents EE Workshop Participants Processed and Paid during the month.

81 4. Effective March 2005 Report, the number of homes treated has been updated to incorporate the 2005 program design wherein all homes weatherized receive all feasible measures, therefore the number of homes weatherized and the number of homes treated are the same.

82 Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
