Order Instituting Rulemaking on the
Commission's Proposed Policies and
Programs Governing Post-2003 Low Income
Assistance Programs.

Rulemaking 04-01-006

**MONTHLY REPORT OF SOUTHERN CALIFORNIA GAS COMPANY
(U 904 G) ON RAPID DEPLOYMENT EFFORTS FOR SEPTEMBER 2004**

I. INTRODUCTION

In Decision (D.) 01-05-033 the Commission directed Southern California Gas Company (SoCalGas) and the other investor owned utilities (IOUs) to provide monthly status reports on the costs and impacts of their Rapid Deployment (RD) efforts on their California Alternate Rates for Energy (CARE) and Low Income Energy Efficiency (LIEE) programs. On May 22, 2002, the utilities held a conference call with the Energy Division and the Office of Ratepayer Advocates (ORA) to assess Rapid Deployment Reporting. The parties agreed that the utilities would submit a full monthly RD report to the Commission every three months. The first one being the previously-submitted May report and future reports due in August of 2002, November of 2002, and February of 2003 -- only certain tables and a brief narrative highlight of RD activities were required from the utilities in other months. In April 2004, the utilities met with the Energy Division and ORA to discuss proposed changes to the reports that would eliminate all references to SBX1 5 and combine some information while retaining sufficient information for the programs to be assessed. Table column and row headings have not been changed to avoid confusion if comparisons are made with earlier reports. In continuing to improve the efficiency of the reporting, information previously

reported in Table A (LIEE Outreach /Leveraging Initiatives) will now be reported in Table C (CARE Media Campaign and Outreach Events). Most of the events promote all of the assistance programs available to SoCalGas customers, which include CARE and LIEE. In the Assigned Commissioner's Ruling dated 5/5/04, the utilities were directed to include in their October report information on the implementation of automatic enrollment with the Department of Community Services and Development (DCSD). This information is provided in Table 10.1.

This ninth report for PY2004 contains information on SoCalGas' low-income programs during the month of September 2004 along with the following tables:

- Table 1 – LIEE Program Expenses
- Table 4 – LIEE Measure Installations
- Table 6 – CARE Program Expenses
- Table 10 – CARE Rapid Deployment Progress
- Table 10.1 – DCSD CARE Automatic Enrollment
- Table 11 – CARE Random Verification Results
- Table 16 – CARE Participation-Combined Urban and Rural

In D.02-07-033, the Commission authorized the IOUs to update their CARE and LIEE eligibility customer estimates using Census 2000 data. In accordance with that Decision, SoCalGas has updated its eligibility estimates for PY2004 and included them in the "Annual Estimate of CARE Eligible Customers" filed November 3, 2003 and supplemental filing of December 16, 2003. Edison, on behalf of the IOUs, made both filings with the Commission. Pending action on this filing by the Commission, SoCalGas is using this

updated eligibility information to provide information on CARE and LIEE customer participation and penetration for PY2004.

II. LOW-INCOME ENERGY EFFICIENCY (LIEE)

September Results – LIEE Installations

SoCalGas processed and expensed the installation of weatherization measures in 4,316 homes for the month of September, bringing the year-to-date total to 33,234.

The total number of appliances serviced during September was 498, which included 332 furnace repairs, 113 furnace replacements and 53 water heater repairs. Year-to-date, 4,701 appliances have been serviced, which is comprised of 1,473 furnace repairs, 3,078 furnace replacements, 125 water heater repairs and 25 water heater replacements.

For the month of September, SoCalGas processed and expensed reimbursements for 80 Energy Education Workshops with 1,798 participants. Year-to-date, 686 workshops have been conducted and expensed with a total of 15,529 participants.

LIEE measure and appliance installations processed and expensed during the month can be found in SoCalGas' Table 4, LIEE Measure Installations.

LIEE Leveraging and Outreach

During September, SoCalGas leveraged LIEE outreach with other Customer Assistance outreach efforts at the community events discussed in the CARE Outreach & Leveraging section below. The following summarizes additional outreach conducted for the Customer Assistance programs during September:

- On September 9, SoCalGas representatives attended the BizCon Conference held in the City of Garden Grove. Information about SoCalGas' Customer Assistance Programs (CAP) was distributed to those in attendance. Over 200 CAP brochures,

CARE applications and Direct Assistance Program (DAP) interest cards were distributed.

- SoCalGas representatives attended the 2nd Annual Celebrating Seniors event on September 16. Representatives discussed the various assistance programs currently available to SoCalGas customers. Over 3,400 Spanish and English CAP brochures, CARE applications, Medical Baseline flyers and DAP interest cards were distributed.
- SoCalGas representatives participated in the Corona Business Expo on September 21. Information on SoCalGas' assistance programs was distributed to those in attendance. Over 1,100 CAP brochures were distributed.
- On September 24, SoCalGas representatives meet with representatives from Recycle LA. The purpose of the meeting was to provide CAP brochures for distribution to multifamily residential complexes during the Recycle LA pilot program. Over 20,000 brochures were delivered.
- On September 25, SoCalGas representatives attended the Harvest Moon Festival. Information about the various programs available for SoCalGas customers was distributed to those in attendance. Over 600 CAP brochures and CARE applications were provided in Korean, Vietnamese and Chinese.

LIEE Authorized Funding Versus Actual Expenditures

SoCalGas' LIEE Program expenditures for September totaled \$2.1 million for services processed and paid during the month, and \$20.6 million year-to-date. An additional \$322 thousand was spent on administration, for a year-to-date administration cost of \$3.0 million. Total costs year-to-date are 61% of budget. (See Table 1)

III. CALIFORNIA ALTERNATE RATES FOR ENERGY

September CARE Enrollment Results

As of September 2004, 1,040,907 residential customers were enrolled in the CARE program, which is a net increase of 10,207 customers from August 2004. During the month of September, 37,488 new CARE applications were approved, which included 2,965 from CARE capitation contractors and 6,038 through SoCalGas' interutility agreement with Southern California Edison. (See Table 10).

CARE OUTREACH AND LEVERAGING

In an effort to continue reaching out to our customer base, below are activities and events that occurred during the month of September in addition to the events reported in the LIEE September Leveraging and Outreach section above. Most of the events promote all of the assistance programs available to SoCalGas customers, which include CARE and LIEE:

- SoCalGas representatives attended the Los Angeles County Fair on September 8 through September 30. Information about the various programs available to SoCalGas customers was distributed to those in attendance. Over 10,700 CARE applications, CAP brochures and DAP interest cards were provided in both Spanish and English.
- On September 11 and 12, SoCalGas representatives attended the Latino Book & Family Festival in Los Angeles. Information about SoCalGas' assistance programs was distributed to those in attendance.
- SoCalGas representatives attended the Route 66 Rendezvous in San Bernardino on September 16 through September 19. Information on SoCalGas' assistance programs was distributed to those in attendance. Over 1,200 CARE applications, DAP interest cards and CAP brochures were provided.

- On September 17, SoCalGas representatives attended the Independent Living Center of Southern California Burbank. The purpose of this event was to provide disabled customers with information about the assistance programs currently available in their area. Representatives distributed CARE applications, Medical Baseline flyers and DAP interest cards to those in attendance.

SoCalGas staff members continue to distribute CAP brochures to energy technicians to provide to customers at the field offices in SoCalGas' service territory. In addition, upon the customer's request, Energy Efficiency packets, which include a CARE application and CAP brochure, are also mailed out. SoCalGas continues to communicate CARE information to its customers through bill inserts, newsletters, and community events. Outreach efforts are conducted in English, Spanish, Korean, Chinese, and Vietnamese. Due to the increased awareness of the low-income programs, SoCalGas continues to receive and respond to requests for CARE applications and/or CAP brochures.

CARE AUTHORIZED FUNDING VERSUS ACTUAL EXPENDITURES

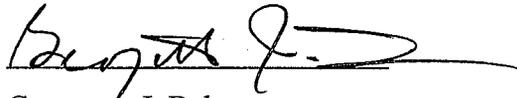

During September, CARE administrative expenses, including outreach, totaled \$644,626. Year-to-date SoCalGas has spent approximately \$3.5 million in administration which is 75% of the authorized 2004 CARE administrative budget. CARE rate and Service Establishment Charge discounts through September are \$52 million, which is 74% of the proposed 2004 CARE discount budget.

The comparison of actual expenses to the budgeted figures for September is provided in Table 6.

CONCLUSION

SoCalGas continues to implement its outreach efforts with the goal of providing LIEE services to as many qualified customers as possible and increasing CARE participation during PY2004.

Respectfully submitted,

22	Note 1: SoCalGas enrolls customers included in the DCSD data file as AE customers even if a CARE				
23	application is received from them during the 30 days after the opt-out letter is mailed. These customers are				
24	not counted separate from other AE customers.				
25	Note 2: "Other Non-Eligible Accounts" include accounts closed during opt out period, and accounts				
	that changed to non-eligible rates during opt out period.

50	1. SoCalGas random verification process allows customers 90 days to respond to the verification request.								
51	As a result, the number of customers dropped in any given month includes requests for verification that were issued								
52	several months prior.
