Re: Avista Corporation (U 907 G)
Rulemaking 04.01.006
“Revised” Low-Income Assistance Programs
2004 Annual Report

Enclosed for filing in the above-entitled matter are an original and 6 copies of the “Revised” Low-Income Assistance Programs 2004 Annual Report of Avista Corporation.

This report is submitted in compliance with the June 24, 2004 Scoping Memo of Assigned Commissioner Carl W. Wood and Administrative Law Judge Sarah R. Thomas, rendered in Rulemaking 04-01-006. The 2004 Annual Report covers data for the period January 1, 2004 through December 31, 2004.

Please note: Effective today, April 29, 2005, the ownership of Avista Corp’s South Lake Tahoe, Calif., natural gas properties transferred to Southwest Gas Corporation. Southwest Gas will begin immediately providing service to Avista’s 18,600 South Lake Tahoe area customers.

Please contact Linda Gervais at (509) 495-4975 or Katherine Mitchell at (509) 495-4706 should you have any questions. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Gervais".

 (Filed January 8, 2004)

**AVISTA CORPORATION
(U 907 G)
LOW-INCOME ASSISTANCE PROGRAM
2004 ANNUAL PROGRESS REPORT**

INTRODUCTION

Avista Corporation (Avista) respectfully submits a "Revised" copy of its Annual Progress Report on low-income assistance programs as directed in the June 24, 2004 Scoping Memo of Assigned Commissioner Carl W. Wood and Administrative Law Judge Sarah R. Thomas, rendered in Rulemaking ®. 04-01-006. The reporting follows the requirements set forth in the Second Energy Division Workshop Report on the Review of the Accounting and Reporting Requirements for the California Alternate Rate for Energy (CARE) and Low-Income Energy Efficiency (LIEE) programs of the Small and Multi-Jurisdictional Utilities (SMJU), filed on April 5, 2004. As noted in Avista's report filed on April 29th, 2005 in Section V. CERTIFICATION AND VERIFICATION PROCESSES, response A, Avista had not received the information from the agencies. The agencies have reported and the tables and questions in Sections IV and V in the revised report are complete.

Dated at Spokane, Washington this 11th day of May, 2005.

Respectfully submitted,

Linda Gervais
Regulatory Analyst
Avista Corporation
1411 East Mission
Spokane, Washington 99220

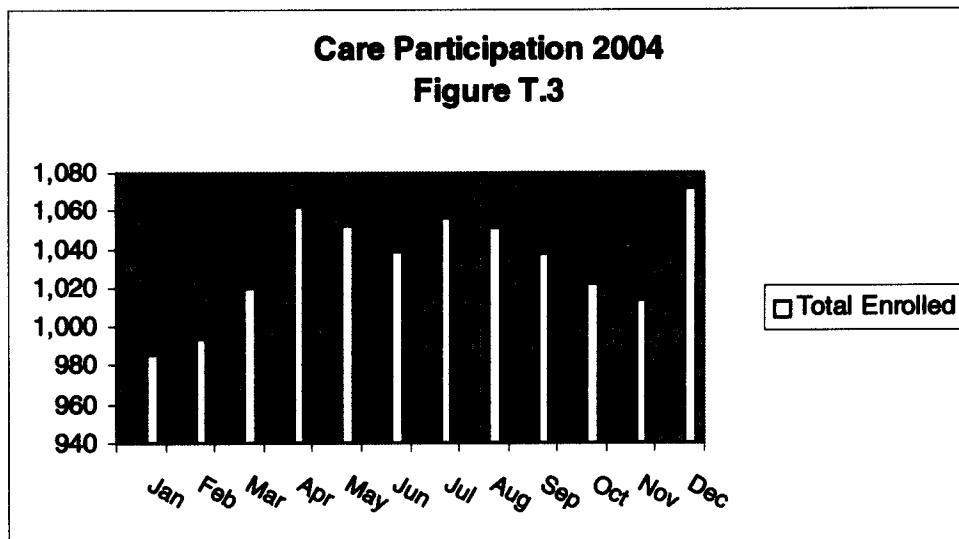

Avista Utilities
(U-907 G)
2004 Annual CARE Progress Report
January 1 – December 31, 2004

CARE RESIDENTIAL PROGRAM

I. Participant Information

A. Number of participating low-income households, by month.

See Table T.3 for the number of CARE participants. Figure T.3 is a graph depicting the same information.

1. Provide an explanation of any variance in the number of participants of 5% or more.

Fluctuations are due to customer migrations, improved economic situations for program participants, expirations of eligibility, and cycle billing effects.

B. Provide an updated estimate of potentially eligible ratepayers.

1. What is the total number of residential customers in Avista's service territory?

As of December 31, 2004, the total number of Avista's residential customer base on average was 17,200.

2. How many potential CARE eligible households are in Avista's service territory?

Avista had 1,162 households that were eligible for the CARE discount as of December 31, 2004.

3. What percentage of Avista's customer base, as defined by the income and household size criteria, is estimated eligible for the CARE discount?

A study used to determine Avista's CARE penetration goal in response to the Assigned Commissioner's Ruling, dated November 20, 2001, in Rulemaking 01-08-027, indicates that approximately 11% of the Company's year-round customers would be eligible for the CARE discount. South Lake Tahoe, like most resort communities, has a relatively high number of seasonal customers or non-permanent customers. Avista believes the number of non-permanent or seasonal customers equates to approximately 35% of their total customer base are not considered potentially eligible for the CARE program. In addition, relationships between El Dorado County and California poverty statistics show that Avista's customer eligibility percentage is approximately 55% of the California state average of which approximates 20%. This gives the 11% used by the Company as noted above. (17,200 – 6634 seasonal) x .11 = 1,162 potentially eligible customers).

4. How many CARE participants, including sub-metered tenants, are signed up for CARE , and what percentage is that to the total number of customers eligible for CARE?

At December 31, 2004, the Company had 1,072 (excludes sub-metered) CARE participants. This represents 92% of the estimated eligible customers.

Month	Enrolled by Non-Capitation	Enrolled by Capitation	Total Enrolled		Total CARE Participants	Estimated * Eligible	Participation Rate
Jan			986		986	1,162	84
Feb			994		994	1,162	86
Mar			1,020		1,020	1,162	88
Apr			1,062		1,062	1,162	91
May			1,052		1,057	1,162	91
Jun			1,039		1,039	1,162	89
Jul			1,056		1,056	1,162	91
Aug			1,051		1,051	1,162	90
Sep			1,038		1,038	1,162	89
Oct			1,022		1,022	1,162	88
Nov			1,014		1,014	1,162	87
Dec			1,072		1,072	1,162	92

- 5. Provide the methodology used to estimate the number of eligible households in this utility's service area.**

Avista employees using current census data for the South Lake Tahoe Census County Division and for the State of California estimated the data used as noted above.

Sub-metered Participants (Master Metered Customers)

- C. How many master metered customers with submetered tenants are in Avista's service territory as of the end of the reporting period?**

As of December 31, 2004, Avista had 13 Master Meter Customers with approximately 504 sub-metered tenants.

- D. How many sub-metered tenants are estimated to be CARE eligible?**

Using the 11% estimated eligibility figure, 55 sub-metered tenants would be eligible. (This number assumes that none of these tenants would be considered "seasonal" customers).

- E. How many sub-metered tenants are participating in CARE as of the end of the reporting period and what is the participation rate as compared to the estimated number eligible?**

The average monthly participation is 5 tenants.

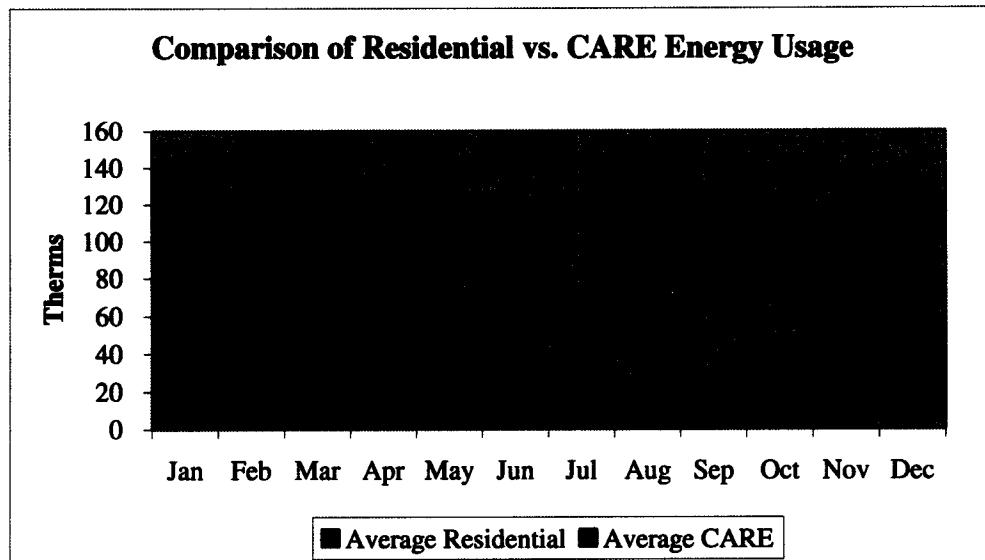

- F. Discuss any problems encountered during the reporting period in and on a total basis. This information should be provided for summer and winter billing seasons. Do not include master metered consumption.**

Avista serves 13 Master-Meter customers, the South Lake Tahoe office has frequent discussions with mobile home park operators regarding billing/service questions in general. The mobile home park operators claim that they give the discount to their eligible customers. The operators also indicate that they are familiar with the program, but that its not "worth it" to submit the usage information to us to retrieve their discount. In short, Avista believes that customers do participate, however the operator does not request a discount from the Company therefore, Avista has limited usage information to report.

- G. Provide tables showing monthly average Tier 1 and Tier 2 consumption for CARE participants by baseline territory and on a total basis. Provide this information for summer and winter billing seasons. Do not include master metered consumption.

Avista has just one baseline territory. See Attachment A, lines 34-36.

- H. Provide a graph illustrating average consumption by residential customers (excluding CARE participants) vs. CARE participants for the utility's entire service territory. Do not include master metered consumption.

II. PROGRAM COSTS

- A. Provide a table showing the average monthly bill per residential customer for Avista's baseline territory.

See Attachment A, line 37.

- B. Provide a table showing the average monthly bill for CARE participants for each baseline territory and for the total service territory.

See Attachment A, line 38.

- C. Provide a table showing the average monthly discount by baseline territory and 12 months ending (end of reporting period) in dollars per CARE participant.

See Attachment A, line 39.

- D. For total CARE administrative costs, compute a table showing administrative costs per participating customer.**

See attached Table T.1.

- E. Complete Table T.1 which gives a breakdown of administrative costs in the following categories: Outreach; General Administration; Processing, Certification and Verification; Billing System Programming; Regulatory Compliance.**

See attached Tables T.1 and T.2.

- F. Provide balancing account balance (for which balancing account Care – LIEE or both as of (end of reporting period). Also provide an explanation for over/undercollection balances. (Give a snapshot in time.)**

The balancing account balance for Avista's CARE program was \$11,017. Avista's CARE program costs have never been incorporated in base rates, we only charge costs that are incremental to the CARE program balancing account.

The balance account for Avista's LIEE program was \$49,477. Receivable balances, especially for the LIEE program are timing related. Avista's LIEE program incurs most of its costs/activity in the last part of the year.

- 1. Provide the amount and a brief explanation of what is included in each of these categories.**

Please see attached Table T.1 Care Expenses

Outreach

In the past two years, Avista has used several different methods to inform customers of the CARE program. Based on surveys of new CARE participants, we chose direct customer contact as our preferred method. The combination of direct mail campaigns, along with mandated bill stuffers and on hold messages, allowed Avista to add 244 customers to its CARE program. The total of \$6,690 was spent on these activities in 2004.

Processing, Certification and Verification

Processing – Creation of customer service system orders to initiate or remove an applicant from the CARE program.

Certification – Review of application for completeness, conformance with established income parameters, and comparison with customer service system for customer of record.

Verification – Review of application for income eligibility, requests for proof of eligibility, repeat contacts with applicants for additional information, and random sampling of applications.

Billing System Programming

Programming to create and modify system program to gather and track customer data for multiple purposes, including recertification notification, data sharing and reports required by the CPUC. In addition, a Consultant was hired to complete CARE data share match between Southwest and Bear Valley Electric.

Regulatory Compliance

Regulatory Compliance – Includes costs related to the annual budget filing, attendance at hearings and workshops, along with the annual and mid-year status reports.

General Administration

General – Activities related to filing, logging, and reporting of: applications received; applications returned for incomplete information; research and review of CARE computer reports; examination for duplicate applications; and updates to master-meter accounts for number of qualifying tenants. Includes costs related to annual program reporting and regulatory compliance.

- G. Describe in detail what costs are recorded in the balancing account(s) and what costs are included directly to base rates.**

Avista's program costs have never been incorporated in base rates, the Company only charge costs that are incremental to the program balancing account.

- H. Provide a table showing the surcharge amount and the percent responsibility for surcharge by customer class.**

Customer Class	Surcharge collected	Surcharge \$/Therm	% of Avg. Bill	% of Total Surcharge Collected
Residential	\$ 142,211.00	\$ 0.01006	1.06	66.41
Commercial	\$ 64,310.00	\$ 0.01005	1.08	30.03
Transportation	\$ 7,619.00	\$ 0.01004	5.96	3.56

I. Provide the annual subsidy (discount) for all CARE participants.

Per Attachment A line 11; the annual subsidy (discount) was \$149,425.

J. Provide a table showing the percent of total CARE surcharge for each customer class.

Please refer to the table above II. F.1.H.

III. OUTREACH

A. Table T. 2. shows the outreach activities undertaken by the Company.

See attached Table T.2.

B. Provide a narrative discussion of the following:

1. Sharing information in overlapping service territories.

Avista does not share information with overlapping service territories as Sierra Pacific serves the same customer base.

2. Sharing information with LIEE and other utility programs (i.e. signing up LIEE customers not enrolled in CARE or working).

No Response

3. Leveraging CARE funds with other utility assistance programs.

When feasible, Avista has joined with other California utilities to cooperatively and jointly administer and market the CARE program.

4. Participation barriers encountered and steps taken to mitigate them.

No participation barriers were encountered during the reporting period.

C. Describe recommendations for improving outreach, including cost effectiveness and methods for reaching underserved households.

Avista has no recommendations for improving outreach.

IV. PROGRAM MANAGEMENT

A. Provide a table showing the total number of applications received by month, the total approved, the total denied as ineligible, the total returned to applicants as incomplete, and the total of duplicate applications for the reporting period.

The following table represents the total number of participants who contacted the agency regarding certification. The agency did not provide the number on denied or ineligible applications.

	EDCS	CSD	Total
04-Jan Applications	49	7	56
Re-Certifications	17	9	26
04-Feb Applications	42	15	57
Re-Certifications	25	1	26
04-Mar Applications	44	18	62
Re-Certifications	22	13	35
04-Apr Applications	13	8	21
Re-Certifications	17	2	19
04-May Applications	12	29	41
Re-Certifications	15	5	20
04-Jun Applications	15	28	43
Re-Certifications	18	6	24
04-Jul Applications	18	32	50
Re-Certifications	15	2	17
04-Aug Applications	21	32	53
Re-Certifications	7	2	9
04-Sep Applications	23	26	49
Re-Certifications	9	8	17
04-Oct Applications	21	23	44
Re-Certifications	12	11	23
04-Nov Applications	37	28	65
Re-Certifications	13	6	19
04-Dec Applications	20	19	39
Re-Certifications	37	15	52
12 Month Total Applications	315	265	580
Re-Certifications	207	80	287

- B. Describe any problems encountered during the reporting period with program management efforts.**

Avista had no problems encountered during the reporting period with program management efforts to report.

V. CERTIFICATION AND VERIFICATION PROCESSES

- A. Provide a table showing the total number of participants asked to recertify their eligibility during the reporting period. The table should show the total recertifications requested, the total recertification applications received, the total recertified, the total denied as ineligible, and the total returned to the participant as incomplete for the reporting period. Include the total number of participants who were removed from the program because they did not return the recertification application.**

Avista contracts with El Dorado County Department of Human Services, and Development (EDCDHS) and the State of California Department of Community Service and Development (CSD) to process low-income rate applications and verify and certify an applicant's eligibility for the Company's low-income rate using the appropriate eligibility criteria established by the Commission's Decision No. 89-07-062. EDCDHS provided the requested information, however under Avista's contract with CSD (Basic CARE), the Agency tracked only the number of recertifications (as seen in the table on page 8 of this report), and did not track the information in the above requested detail.

EL DORADO COUNTY DHS

CARE RE-CERTS	APPROVED	INELIGIBLE	RETURNED	TOTAL INCOME VERIFIED
January 2004	12	4	1	17
February 2004	20	4	1	25
March 2004	17	4	1	22
April 2004	12	4	1	17
May 2004	10	4	1	15

June 2004	13	4	1	18
July 2004	10	4	1	15
August 2004	2	4	1	7
September 2004	4	4	1	9
October 2004	7	4	1	12
November 2004	8	4	1	13
December 2004	32	4	1	37
12 Month Total	147	48	12	207

- B.** Provide a table showing the total number of participants asked for income verification during the reporting period. The table should show the total verifications requested, the total verifications received, the total verified, the total denied as ineligible, and the total returned to the participant as incomplete for the reporting period. Include the total number of participants who were removed from the program because they did not respond to a request for income verification.

Please refer to Avista's response to V.A.

- C.** Describe the process for recertifying submetered tenants of master metered complexes. Discuss any problems between master metered ratepayers and submetered customers that were encountered during the reporting period.

Please refer to Avista's response to I.B. Sub-metered Participants (Master Metered Customers) F.

- D.** Describe any third-party process used for CARE certification, recertification and verification processes.

Avista is under contract with both EDCDHS and CSD to process low-income rate applications, EDCDHS verifies and certifies an applicant's eligibility for the Company's low-income rate using the appropriate eligibility criteria established by the Commission's Decision No. 89-07-062. Avista compensates EDCDHS \$12.00 for each application

processed, provided that the verification fee is applicable only once for each applicant. EDCDHS service provides face to face interaction and counseling with customers in their South Lake Tahoe office. CSD provides basic CARE services, applications are sent to customers via mail and CSD provides no local presence in South Lake Tahoe. CSD's billing costs to Avista are \$2.42 per application and \$1.78 per telephone call.

VI. OTHER TOPICS

- A. What significant changes are there from the previous reporting period?**

Avista did not experience any significant changes from the previous reporting period.

- B. Are there any other comments, recommendations or issues that need to be addressed?**

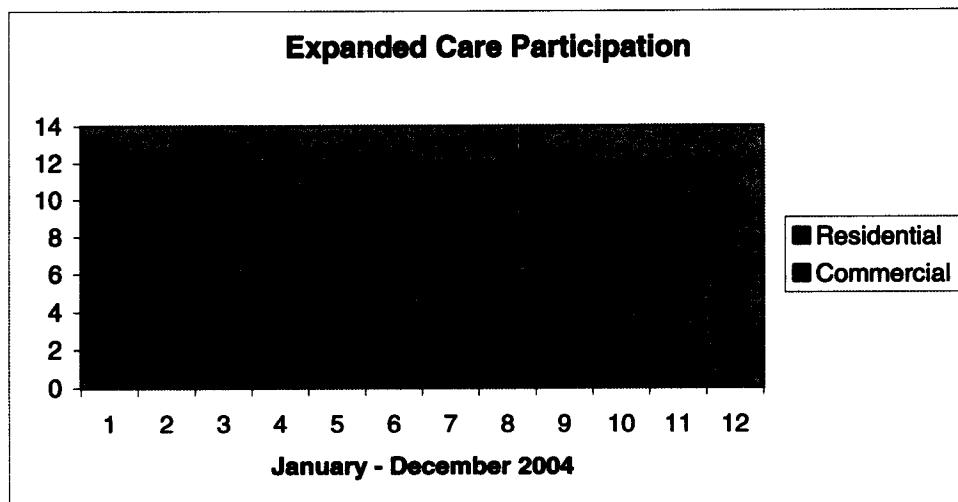

No comments.

CARE Expanded Program

The CARE Expanded Program is an extension of the residential CARE program that covers non-profit homeless shelters and group living facilities, migrant farmworker housing centers, qualified privately-owned employee housing and qualified non-profit housing for agricultural employees.

I. PARTICIPANT INFORMATION

- A. Number of participating non-profit facilities, by type, by month. The data should be provided in numerical tables and also in graph form as follows:
1. Give the total number of residential facilities and the total number of commercial facilities receiving the Expanded CARE discount.

2. Total number of residents (excluding caregivers) of residential and commercial non-profit Expanded CARE facilities.

	Facilities	Beds
Customer A	4	6
Customer B	2	6
Customer C	4	6
Customer D	3	19
	13	37

Customer A – 4 facilities that operate as “safe houses’ for victims of domestic violence.

Customer B – 2 facilities that operate as drug and alcohol recovery treatment centers.

Customer C – 4 facilities that operate group homes for mentally and physically disabled children.

Customer D – 3 facilities that operate as drug and alcohol recovery treatment centers.

II. PROGRAM COSTS

- A. Total Expanded CARE administrative costs.** Compute administrative costs per participating facility. Give a breakdown in the following categories: Outreach; General Administration; Processing, Certification and Verification; Billing System Programming; Regulatory Compliance;

Based on the limited number of CARE Expansion Program participants, administrative costs were minimal and were not tracked separately from the residential program.

- B. Provide discount information for the Expanded CARE program.**

Please refer to response II.A above.

- C. Provide discount information for the Expanded CARE program.**

- 1. Give the average annual discount per residential facility.**

The average annual discount per residential facility was \$15.58.

- 2. Give the average annual discount per commercial facility.**

The average annual discount per commercial facility was \$180.20.

III. OUTREACH

- A. Provide a table showing the outreach activities undertaken, the number of customers reached (if known) and the number of applications returned as a result of the particular activity undertaken (if known).**

Avista Utilities relied on the list of agencies, shelters and regional centers provided by the PUC for the Company’s original outreach. Due to the size

of Avista's California service territory and the number of customers served, the Company feels that community involvement is the best means of reaching and assisting customers as well as being the most cost-effective. The representatives in the South Lake Tahoe office of Avista Utilities are long term local residents and are involved in their community. These employees work closely on a daily basis with their friends in the local low-income service agencies.

B. Provide a narrative discussion of the following:

1. Provide an analysis of the utility's most cost-effective outreach for the group living facilities;

Avista has determined that direct mailings to the group living and residential care facilities continue to be the most cost-effective outreach method.

2. Sharing information in overlapping service territories;

Avista did not share information with overlapping service territories.

3. Participation barriers encountered and steps taken to mitigate them;

Not applicable

4. Public agencies used to solicit potential Expanded CARE facilities;

Same agencies Avista contracts with for the CARE program.

5. Barriers encountered in identifying or enrolling customers in the Expanded CARE program.

IV. PROGRAM MANAGEMENT

A. Provide a table showing the total number of applications received, the total approved, the total denied as ineligible, the total returned to applicants as incomplete for the reporting period.

Avista Utilities does not track Expanded CARE separately from CARE.

B. State the reasons CARE applications are not approved.

See above answer to question A.

- C. Describe any problems encountered during the reporting period with recertification and verification processes for Expanded CARE.**

No problems encountered during the reporting period

V. OTHER TOPICS

- A. What significant changes are there from the previous reporting period?**

No significant changes have occurred during the 2004 program reporting period.

- B. Are there any other comments, recommendations or issues? Analyze the CARE Expansion program, progress over the past 12 months, identify issues that need work, identify areas that need improvements and make suggestions for improvement.**

No comments

LIEE Program

Attachment C contains the following tables for the LIEE program:

TOTAL LIIE ADMINISTRATION COSTS (including costs subsumed in GRC)	\$5,312	\$639	\$6,770	\$8,811	\$21,532		
TOTAL LIIE ADMINISTRATION COSTS (excluding costs subsumed in GRC)	\$5,312	\$639	\$6,770	\$8,811	\$21,532		

(1) Other Outreach/General costs are defined as any direct costs that do not fall into the listed subcategories.

(2) Utilities should describe the services and indicate if they are on-going or one time expenditures.

(3) Labor costs are defined as incremental labor costs charged to LIIE that are not recovered in general operations. If the utility allocates annual incremental labor costs to each category instead of tracking labor costs for each category separately, please indicate such and explain the allocation factor used.

(4) Utilities should describe the other administrative services received and the companies or agencies that provide them.

(5) Outreach and general costs that are subsumed in the GRC and therefore excluded from LIIE program budgets and applications.

Note: Estimated labor subsumed in General Rates of _____ is not included in costs above, per D.89-09-044 and D.01-05-033
