PG&E Low Income Programs Monthly Report for June 2005

This Low Income Programs Monthly Report complies with Ordering Paragraphs 14 and 17 of Decision (D.) 01-05-033, requiring the utilities to comply with reporting and program evaluation requirements previously established for the California Alternate Rates for Energy (CARE) and Low Income Energy Efficiency (LIEE) programs, including the reporting of costs and effects from these programs on an annual basis using the Reporting Requirements Manual. Reporting categories are consistent with the definitions contained in the Reporting Requirements Manual, filed January 10, 2002. Additionally, utilities are required to file regular monthly status reports on the results of their Low Income Programs.

A complete listing of the Low Income Programs Reporting Tables is included in Attachment A to this report. The full report (including selected tables 1-30 and Leveraging Tables A-C) is required quarterly, in the months of February, May, August and November. The tables required monthly include: Tables 1, 4, 6, 10, 11, 11A, 11B, and 16. An End-of-Year Report for the previous year is required in February.

Monthly Low Income Programs Reporting

This Low Income Programs Report includes actual LIEE and CARE results and expenditures for June 2005. *All results reported in this monthly report update and supersede data reported in previous reports.*

2005 Reporting. PG&E is using the most recent measure energy savings by climate zone developed in the Joint Utility 2001 LIEE Program Evaluation and the Standardization Team's Cost Effectiveness Report.

Beginning in October 2004, PG&E began to report California Department of Community Services and Development (CSD) Automatic Enrollment results per the Assigned Commissioner's Ruling establishing provisions for CARE Automatic Enrollment, dated May 5, 2004. Automatic Enrollment expenditures are reported as a line item in Table 6. PG&E, San Diego Gas and Electric Company, Southern California Edison Company, and Southern California Gas Company developed Table 10.1 to fulfill the ACR's other automatic enrollment reporting criteria. Table 10.1 is filed as part of PG&E's regular quarterly Low Income Programs reports.

Customer Eligibility. In March 2003, the Joint Utilities updated and revised the penetration rate calculation methodology in compliance with D.02-07-033 and ACR 12/27/02, as described in previous reports.

The Joint Utilities updated their annual customer eligibility estimations as required in a June 24, 2004 Commission Scoping Memo and filed these new annual estimates of CARE-eligible customers on October 15, 2004. Revised estimates were filed on December 28, 2004. These new estimates are being used by the Joint Utilities in their 2005 filings. As a result of this demographic adjustment, the estimated CARE-eligible population in PG&E's service territory has increased and PG&E's CARE penetration

rates have decreased and are thus not comparable to penetration rates reported before 2005.

Low Income Program Highlights

CARE Automatic Enrollment. In October and November 2003, PG&E began to exchange data regarding low income qualified customers with the Turlock and Modesto Irrigation Districts (TID and MID). PG&E provides natural gas in the TID and MID electric service areas. PG&E automatically enrolls qualified low income customers served by the two irrigation districts into CARE. PG&E also provides CARE customer data on shared customers to TID and MID so that these customers can be enrolled in their programs.

PG&E is currently in discussion with the Sacramento Municipal Utility District (SMUD) about exchanging data to automatically enroll low income qualifying SMUD customers that receive gas service from PG&E. PG&E currently exchanges data with Southern California Electric Company and Southern California Gas Company to automatically enroll their CARE customers who also receive PG&E service.

On May 5, 2004, the Assigned Commissioner Ruling (ACR) on Automatic Enrollment authorized that Automatic Enrollment between the utilities and CSD be implemented. PG&E received three batches of CSD Automatic Enrollment customers from Energy Division during 2004. A total of 21,835 customers were automatically enrolled in CARE in 2004. PG&E has not received any CSD Automatic Enrollment customer lists from the Commission to date in 2005.

D.05-04-052 ordered the utilities to create a new application for migrant farmworker housing centers (MFHCs), and to use their best efforts to begin to enroll all residents of these California Office of Migrant Services (OMS) and other non-profit managed migrant centers into the CARE program, in compliance with Assembly Bill 868. PG&E has worked with the other utilities to consistently revise its agricultural housing CARE applications and has filed its new MFHC and revised agricultural housing applications by advice letter filing with the Commission. PG&E is already in contact with the OMS centers in its service area to help them automatically enroll with the new MFHC application. Additionally, PG&E is working in the community to seek and enroll any other qualifying non-profit-run MFHCs.

LIEE Leveraging.

Currently, PG&E has contracts with LIHEAP agencies that are not working in PG&E's LIEE program. PG&E is leveraging with these LIHEAP agencies to install PG&E Energy Star refrigerators in PG&E electric homes where the LIHEAP contractors have installed all other measures under the State Weatherization Program.

PG&E provides a list of all residential customers to the contractors. From this list, the contractors can tell if the customer is on the CARE rate and if they have received LIEE

services in the past. With this information, the contractors are better able to market to the community, e.g., contacting only those customers who have not received LIEE services in the past.

On a daily basis, contractors are provided information about customers who have requested LIEE services (referrals). Each home that receives LIEE services where the customer is not on the CARE rate is then signed up for the CARE discount.

LIEE program materials are provided in seven languages: English; Spanish; Vietnamese; Chinese; Russian; Korean; and Hmong.

In addition, PG&E continues to combine its LIEE and CARE outreach activities in order to leverage low income outreach efforts and provide PG&E low income customers with the knowledge and tools to access all of PG&E's free energy services.
