ADVICE 132-G
(U 338-E)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
ENERGY DIVISION

SUBJECT: Implementation of SCE's Winter Initiative Programs in
Compliance with Decision No. 05-10-044

Southern California Edison Company (SCE) hereby submits for filing the following revised tariff sheets and related forms which are listed on Attachment A and are attached hereto.

PURPOSE

In compliance with Ordering Paragraphs 1 and 6 of Decision No. (D.) 05-10-044, this advice filing revises Schedule G-1-CARE, *Santa Catalina Island California Alternate Rates for Energy (CARE) - Domestic Service*, to increase qualifying income guidelines for CARE customers. This change in qualifying income levels is being implemented to address the impact of high bills this winter due to the increased cost of natural gas, but will remain in effect until modified by the California Public Utilities Commission (Commission).¹

BACKGROUND

Advice 130-G was filed and approved by the Commission and pursuant to D.04-12-018, SCE established Schedule G-1-CARE which provides Santa Catalina Island (Catalina) low-income domestic gas customers with CARE discounts. Catalina customers who qualify for the CARE program for electric service are enrolled automatically for the CARE program for gas service. In accordance with Conclusion of Law No. 9 of D.04-12-018, low-income customers on Catalina will receive a 20 percent discount in gas service rates under Schedule G-1-CARE.

¹ The winter season associated with D.05-10-044 is identified as November 1, 2005 through April 30, 2006.

On September 13, 2005, the Commission issued a Notice of an October 6, 2005 en banc hearing in Los Angeles (Notice), which directed the energy utilities under the Commission's jurisdiction to present proposals for various emergency program changes to reduce bill impacts of high natural gas prices on low income customers during the coming winter months. SCE filed its proposals on September 28, 2005, outlining SCE's Proposed Cost Mitigation Concepts for the 2005-2006 Winter Heating Season. Subsequent modifications to SCE's proposals were submitted consistent with ALJ Weissman's October 7, 2005 ruling, culminating in a Workshop on the various utilities' proposals on October 20, 2005. On October 27, 2005, the Commission issued D.05-10-044 approving, as modified, the various proposed emergency program changes.

Consistent with D.05-10-044, SCE provides the expansion of the CARE qualifying income guidelines from 175 percent to 200 percent of poverty guidelines within Schedule G-1-CARE. SCE has also expanded the CARE qualifying income guidelines on electric Forms 14-782 (Single Family Dwelling with SCE Meter) and 14-782-1 (Recertification), through the electric advice letter (1928-E) filed in conjunction with D.05-10-044.²

In addition, D.05-10-044 provides that during the winter months the utilities are prohibited from shutting off service to residential gas customers, where residential gas customers continue to make minimum bill payments and are enrolled in either a levelized payment plan or a plan to repay all past due amounts within 9 months of the end of the winter period. Pursuant to Ordering Paragraph 16, SCE will not disconnect service during the winter months to residential gas customers who pay at least 50 percent of the outstanding balance of their current month's bill. At the end of the winter months, 9 month payment arrangements can be made for the unpaid balances as specified in the Decision.

Finally, pursuant to Ordering Paragraph 16 of D.05-10-044, SCE will waive any reconnection fee and deposits for CARE gas customers during the winter months.

No cost information is required for this advice filing.

This advice filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

EFFECTIVE DATE

In accordance with Ordering Paragraphs 6 and 18 of D.05-10-044, this advice filing will become effective the date filed, November 1, 2005, subject to review.

² These forms serve as the joint application for both the electric and gas CARE program, as well as the electric-only FERA program.
