# LOW INCOME ASSISTANCE PROGRAMS MONTHLY REPORT

## 1. Energy Savings Assistance Program Executive Summary

### 1.1. Energy Savings Assistance (formerly referred to as Low Income Energy Efficiency or LIEE) Program Overview

- 1.1.1. Provide a summary of the Energy Savings Assistance Program elements as approved in Decision (D.) 08-11-031:

Program Summary for Month			
2011	Authorized / Planning Assumptions	Year-to-Date Actual	%
Budget	\$63,413,858	\$27,623,264	44%
Homes Treated	65,844	53,542	81%
kWh Saved	29,767,000	12,098,181	41%
kW Demand Reduced	9,900	3,438	35%
Therms Saved	N/A	N/A	N/A

### 1.2. Whole Neighborhood Approach Evaluation

- 1.2.1. Provide a summary of the geographic and customer segmentation strategy employed (i.e. tools and analysis used to segment "neighborhoods," how neighborhoods are segmented and how this information is communicated to the contractor/CBO).

Throughout the month of July 2011, Southern California Edison (SCE) continued to promote the Energy Savings Assistance (ESA) Program, CARE Program, Cool Center Program, Medical Baseline and other SCE programs through various community events within the SCE service territory. Customers interacted with SCE and obtained information on the ESA Program and Energy Efficiency in general.

### **1.3. Energy Savings Assistance Program Customer Outreach and Enrollment Update**

- 1.3.1. Provide a summary of the Energy Savings Assistance Program outreach and enrollment strategies deployed this month.

On July 8, 2011, SCE hosted a Latino Community Forum providing networking opportunities for the surrounding community in Lynwood. The forum provided a panel discussion and information on programs and services available to customers, businesses and non-profit organizations. SCE provided information on how to apply for SCE grants, sponsorships, and contracting opportunities for the nonprofit sector. Additionally, SCE provided information on economic assistance programs, including the ESA Program, CARE, and Medical-Baseline programs.

On July 19, 2011, SCE and Home Energy Assistance Living (HEAL) met with the Long Beach Outreach Coordinator, Director of Disability Resource Center, and 12 additional staff members in the City of Long Beach to discuss outreach and leveraging opportunities with the community center and their clients.

SCE continues to enroll customers through the paperless enrollment process which utilizes tablet PCs and portable scanners during the assessment process to streamline and expedite enrollments. This process complements the Whole Neighborhood Approach by reducing the program's carbon footprint and maximizing efficiencies. In the month of July 2011, 14 assessors from 5 different service providers have been utilizing the Tablet PC for this purpose, and its use has been attributed to enrolling more than 560 customers.

SCE continues to conduct an outbound calling effort which targets customers who have been previously cancelled during the enrollment process. The intent of this ongoing effort is to communicate with all possible customers who might have been previously interested in the ESA Program and reinstate those leads.

### **1.4. Leveraging Success Evaluation, Including CSD**

- 1.4.1. Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

For the past several years, SCE has provided refrigerators to contractors at no cost to the Low Income Home Energy Assistance Program (LIHEAP) for installation through the LIHEAP program. SCE believes this approach will enable

contractors to utilize measures and services from both the LIHEAP and ESA programs to better serve our customers. SCE continues to work with the Department of Community Services and Development (DCSD), service contractors, and the Commission in efforts to successfully leverage ESA Program and LIHEAP services.

## **1.5. Workforce Education & Training**

- 1.5.1. Please summarize efforts to improve and expand Energy Savings Assistance Program workforce education and training. Describe steps taken to hire and train low income workers and how such efforts differ from prior program years.

In D.07-12-051, the Commission stated that "(t)he LIEE portion of the statewide strategic plan should include specific training strategies for reaching disadvantaged communities." SCE's contractors, and particularly community-based organizations (CBOs), are situated in low-income and disadvantaged communities and provide jobs within these communities. Currently, these organizations provide over 1,000 jobs that support SCE's ESA Program, including executive, clerical and other ancillary positions.

During the 2011 Program Year to date, SCE has conducted 7 Home Assessment Training workshops, which provide training to agency outreach staff on the policies and procedures related to home assessment. The three-day training workshop includes comprehensive instruction on income documentation, customer and measure eligibility, and customer service. As a result of the Home Assessment Training workshops, 153 new jobs for assessors have been created to support SCE's ESA Program.

**2.2. Outreach**

2.2.1. Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

SCE continues to include a CARE enrollment application in the Welcome Kit that is provided to residents requesting new service or transfers of service. There have been 5,941 CARE customers enrolled as of July 31, 2011 attributable to this effort.

In early May 2011, SCE implemented a targeted direct mail campaign to approximately 16,000 customers identified as Seniors or as having special

needs. As of July 31, 2011, there have been 127 applications received resulting in 77 enrollments attributable to this effort.

In July 2011, SCE inserted a CARE application in all non-CARE residential customer bills as part of the annual bill solicitation. As of July 31, 2011, there have been 1,555 applications received resulting in 1,215 new enrollments and 170 recertifications.

SCE's Customer Communications Organization within SCE's Call Centers continues to utilize the online CARE enrollment application at [www.sce.com](http://www.sce.com) to directly enroll eligible customers in the CARE program via the telephone or by offering the option to mail a CARE application to the customer. In July 2011, there have been 10,901 eligible customers enrolled in the CARE Program through the Call Centers' outreach efforts.

CARE and Family Electric Rate Assistance (FERA) outreach efforts and communications to SCE's in-language and under-penetrated areas continue to be a priority. SCE's CARE and FERA Programs partner with internal departments such as Equal Opportunity, Local Public Affairs (LPA), Consumer Affairs, Customer Experience Management, Corporate Communications Community Involvement, Speakers Bureau, Business Solutions, the Mobile Energy Unit (MEU), and employee volunteer-based resource groups, as well as various chambers, foundations, faith-based and community-based organizations in outreach activities to target SCE's hard-to-reach customer base.

During July 2011, SCE's CARE and FERA programs had a presence at 28 outreach events through these partnerships wherein thousands of CARE applications were distributed to potentially eligible customer populations throughout SCE's service area (see table below). At many of these events, eligible customers had the opportunity to enroll or recertify for CARE via the real-time online enrollment application available on [www.sce.com](http://www.sce.com) and learn about the programs directly from a CARE/FERA subject matter expert. Such events provide SCE with the opportunity to uphold a presence in the community, continue to educate the public about SCE program offerings, and enroll eligible customers. Upholding this presence in the community has become a vitally important component of program outreach as the current economic climate continues to impact SCE's customers, bringing a newly eligible customer base.

On July 8, 2011, the CARE Program participated in the ENLACES Community Forum for the SCE Latino Community in Lynwood. There were more than 150 attendees at this event. One objective of this event was to provide a platform for critical information sharing on sector-specific strategies to meet the needs of the customer based shared between SCE, the Latino Community, and non-profit organizations. Another objective was to create alliances between the participating organizations and SCE. As a result of this collaboration, SCE anticipates recruiting new agencies for its Capitation Fee Program.

On June 1, 2011, the 2011 Cool Center Program was launched. The 22 Cool Center sites are located in the hottest climate zones of SCE's service territory within the counties of Tulare, San Bernardino, Riverside, Los Angeles and Kern. The 2011 Cool Center Program period is June 1, 2011 through October 15, 2011.

In June 2011, SCE launched the Authorized Payment Agency Summer Intern Partnership in which summer interns utilize SCE's online application process to enroll eligible customers in the CARE Program at SCE's Authorized Payment Agencies. As of July 31, 2011, there have been 75 new CARE enrollments attributed to this effort.

The CARE/FERA Capitation Fee Project team is continuing its efforts to re-engage existing Capitation agencies while strategically registering additional agencies to assist in overcoming enrollment barriers such as language, cultural, and special needs as a means of enrolling the hardest-to-reach customers. Due to these efforts, the Capitation Fee Project continues to show increased enrollments from agencies that had been previously inactive. In July 2011, Capitation agencies enrolled 1,593 newly eligible customers in the CARE Program.

In support of SCE's continued initiative to enroll hard-to-reach eligible customers, the following two new capitation agencies were enrolled in SCE's Capitation Fee Program in the month of July:

- Paving the Way Foundation
- Desert Arc

Current campaign strategies and efforts include the following:

- Leverage sponsored community events to reach potential eligible populations for CARE or FERA enrollment, including food distributions and cultural celebrations;
- Partner with SCE personnel in other internal departments to leverage existing SCE partnerships with faith based organizations (FBOs), CBOs and local governments;
- Partner with public entities to leverage existing relationships with businesses, FBOs and CBOs to reach eligible customers through existing municipal channels; and
- Leverage existing channels to develop creative approaches for contractors to conduct CARE/FERA outreach, including food and clothing distribution events, employment information workshops, farmers' markets, faith and community based publications, school events, and community fairs.

2.2.2. Describe the efforts taken to reach and coordinate the CARE program with other related low income programs to reach eligible customers.

SCE also enrolls new CARE customers through the Energy Assistance Fund (EAF) program, which provides utility payment assistance through voluntary customer and employee donations.

CARE enrollment is coordinated with other low income programs such as SoCal Gas low income programs, LIHEAP and SCE's ESA and EAF Programs. ESA Program measure recipients are automatically enrolled in CARE each month, and LIHEAP payment recipients are automatically enrolled in CARE on a quarterly basis. In July 2011, there were 2,770 eligible customers enrolled in the CARE Program as a result of data sharing with SoCal Gas, LIHEAP, and SCE's ESA and EAF Programs.

The CARE Program continuously integrates its efforts and messaging with the ESA Program at all outreach events, communications, and marketing campaigns.

**2.3. Recertification Complaints**

SCE received no recertification complaints in July 2011.

<sup>[1]</sup> SCE is authorized to carry forward funding from 2009 and carry back funding from 2011 into 2010 within the same budget categories and subcategories. SCE expects to have sufficient funds within the current 3-year funding cycles for Electric Appliances and Outreach and Assessment to serve the remaining homes in the 2009 - 2011 program cycle.

<sup>[1]</sup> Enrollments via data sharing between the IOUs.

<sup>[2]</sup> Enrollments via data sharing between departments and/or programs within the utility. Includes HEAP payment data file from Accounts Payable Dept.

<sup>[3]</sup> Enrollments via data sharing with programs outside the IOU that serve low-income customers.

<sup>[4]</sup> One-E-App is a pilot program set up by The Center to Promote Healthcare Access (the Center) and PG&E. The pilot will occur within two PG&E counties and looks to implement a strategy of automatic enrollment for low-income customers into the CARE program based on the customer's application or reapplication for related low income health and social welfare services (e.g. Medi-CAL, Healthy etc.) The goal is to develop another means by which low income families can be introduced into the CARE program and depending on the success of the pilot to other counties within PG&E's territory as well as the other IOUs.

<sup>[5]</sup> Not including Recertification.

<sup>[6]</sup> Recertification results are tied to the month initiated. Therefore, recertification results may be pending due to the time permitted for a participant to respond.

279	<sup>[1]</sup> All capitation contractors with current contracts are listed regardless of whether they have signed up customers or submitted invoices this year.							
280	<sup>[2]</sup> Numbers reflect customers that have been placed on the rate YTD. Capitation payments may lag by a month or more depending on when SCE is invoiced by the contractors. Some January capitation expenditures are for customers who were enrolled in 2009.
