## LOW INCOME ASSISTANCE PROGRAMS MONTHLY REPORT

---

This monthly report complies with the low income reporting requirements established in Decision (D.)16-11-022/D.17-12-009, and with all reporting and program evaluation requirements established for the California Alternate Rates for Energy (CARE) and Energy Savings Assistance (ESA) Programs and provides information on CARE and ESA Program accomplishments and expenditures through 2020 to July 31, 2020.

### **1. Energy Savings Assistance Program Executive Summary**

The objective of SCE's Energy Savings Assistance (ESA) Program is to help income-qualified customers reduce their energy consumption and costs while increasing their health, comfort, and safety at no cost to them. Through the ESA Program, SCE offers a number of energy-efficient appliances to income-qualified customers, including energy-efficient refrigerators and air conditioners, and home efficiency solutions like weatherization that can help customers save energy and money. The ESA Program is available to income-qualified customers living in single-family, multifamily, and mobile homes, including homeowners and renters. To be eligible for the program, customers must meet the program's income guidelines, which are established by the California Public Utilities Commission (CPUC) and updated annually. Specific measures are authorized according to criteria observed in each home for existing appliances and feasibility of installation.

#### Coronavirus (COVID-19) Program Impacts

On March 4, 2020, California Governor Gavin Newsom declared a State of Emergency to help the state prepare for the broader spread of the COVID-19 virus. On March 19, the Governor issued a “Stay at Home” order for non-essential workers.

On March 20, 2020, SCE issued a letter regarding the Operational Changes in Response to COVID-19 Pandemic. This letter suspended all face-to-face interaction between ESA Prime Contractors and SCE customers, including but not limited to customer outreach, enrollment, installation and inspection work. This suspension was extended to April 30, 2020 and then extended further to May 31, 2020 in SCE’s subsequent letters issued on April 7, 2020 and April 28, 2020.

On March 23, 2020, the CPUC issued a letter requesting the California Investor Owned Utilities (IOUs) to offer a 30-day advance payment option to Prime Contractors. To help provide assurance and mitigate financial impacts to the ESA workforce as a result of the COVID-19 work restrictions, SCE offered all eligible Prime Contractors 30-day advance payment offers and expedited payments on outstanding invoices outside of standard payment terms. SCE processed and released a total of \$2,129,470.27 in advanced payments for all the Prime Contractors that accepted the first 30-day advance payment offers and signed a binding Letter Agreement contract.

On April 7, 2020 the CPUC issued a second letter directing the IOUs to offer additional measures to ESA Prime Contractors to help sustain their workforce. The letter required the IOUs offer an additional 30-day advance payment to the ESA Prime Contractors that accepted the first 30-day advance payment offer and to offer a new 60-day advance payment to the eligible ESA Prime Contractors that did not accept the initial 30-day offer. SCE offered all eligible Prime Contractors additional 30-day or new 60-day advance payment offers and continued to expedite payments on outstanding invoices outside of standard payment terms. SCE processed and released a total of \$4,549,331.70 in advanced payments for all the Prime Contractors that accepted an additional 30-day or new 60-day advance payment offer and signed a binding Letter Agreement contract. As of April 30, 2020, SCE has released a total of \$6,678,801.97 in advance payments.

On May 21, 2020 the CPUC provided guidance on the ESA Program suspensions. The notice confirmed that ESA Program Administrators should follow the applicable state and local health orders whichever is more restrictive. Effective June 1, SCE removed the previous restrictions on face-to-face interactions between ESA contractors and SCE customers. SCE requested ESA contractors to follow SCE's safe work practices guidance at minimum as well as the most restrictive state, county, or local orders for all relevant work activities

On May 28, 2020 the CPUC issued Resolution E-5074 that ratified the Executive Director's letters to direct IOUs to offer a 60-day advance payment to ESA Contractors. The Resolution asked SCE to provide new, updated terms for offers already accepted by Contractors if necessary, to comport with the Resolution, and new updated offers for those Contractors that did not already accept a 60-day advance payment. The Resolution also modifies the calculation of a Post-Pandemic Return to Service (PPRS) credit that will be calculated as a percent of the Prime Contractor's monthly invoice and applied as a dollar credit towards the Contractor's advance payment. The PPRS credit is only earned through actual work performed in ESA eligible households for a six-month period after the suspension of in-person program activity is lifted and may only be applied to paying back advance funds that went towards labor costs and other employee costs critical to sustaining the workforce. SCE offered all eligible Prime Contractors new or updated terms to comply with the Resolution. As of June 2020, SCE has released a total of \$6,867,426.71 in advance payments.

On June 12, 2020, pursuant to Ordering Paragraph (OP) 8 of Resolution E-5074, SCE provided notice to the Prime Contractors of the proposed percentage for the PPRS Credit calculation. On June 15, 2020, SCE provided 30-day advance notice to Prime Contractors signifying July 15, 2020 as the start of the six-month PPRS credit-earning period in accordance with OP 7 of Resolution E-5074. A Joint Tier 1 Advice Letter Proposing a Reporting Template for ESA Prime Contractors and a Joint Tier 2 Advice Letter to Propose a PPRS Percentage, both in Compliance with Resolution E-5074 were filed on June 29, 2020.

On July 15, 2020, the ESA Prime Contractors were notified by email that SCE is re-evaluating the start of the six-month PPRS credit-earning period in response to Governor Gavin Newsom's July 13<sup>th</sup> ordering of several sectors to once again shut down amid an

increasingly concerning COVID-19 surge. On July 21, 2020, SCE sent a formal notice to ESA Prime Contractors stating that SCE is delaying the start of the six-month credit-earning period and has not yet decided on a date as to when the credit-earning period will begin. Additional communication will be sent to Prime Contractors regarding the timing of PPRS credit-earning period.

SCE continues to work with its ESA contractors throughout the COVID-19 emergency. Below are specific activities SCE has conducted:

#### May 2020

- Virtual -ESA Program enrollment was launched May 13. ESA contractors can enroll customers through a use of Self -Certification Affidavit.
- Safety contractor training contractor was completed prior to reinstating face-to-face activities. COVID-19 guidelines (i.e. use of PPE equipment, providing customer the choice for face-to-face or virtual appointments) was included.

#### June 2020

- SCE lifted the suspension of ESA activities. SCE conducted safety training for all its service providers to ensure they comply with state, county and CDC guidelines regarding COVID-19. With the restrictions lifted, customers may enroll either through a face-to-face enrollment visit or a virtual appointment. Installations and inspection visits have also resumed.
- SCE launched the delivery of enrollment measures to customers who have chosen to enroll via the virtual method. Contractors may either ship or do a contactless drop-off of the measures. Contractors have shipped measures to customers who enrolled in May and were not provided measures at the time.

#### July 2020

- Continue offering virtual ESA program enrollment option to customers. Enrollment measures are delivered or dropped off through contactless delivery

As indicated in the below sections Marketing and Outreach activities will resume but in a limited scale proportional to contractor capacity. Primarily, SCE will focus on generating leads for its contractors from CARE participants. SCE is also set to launch outreach to the deaf and hard of hearing community as part of the ESA virtual process.

## 1.1 Energy Savings Program Overview

### 1.1.1. Provide a summary of the Energy Savings Assistance Program elements

Program Summary for Month			
2020	Authorized / Planning Assumptions <sup>1</sup>	Year-to-Date Actual	%
Budget	\$65,067,100	\$22,487,076	35%
Homes Treated	113,612	28,250	25%
kWh Saved	33,920,000	15,446,731	46%
kW Demand Reduced	N/A	2,312	N/A
Therms Saved	N/A	N/A	N/A

## 1.2. Customer Enrollment and Outreach Update

SCE's outreach efforts in conjunction with the ESA program contractors utilize numerous channels and innovative approaches to inform and enroll customers. The following section describes some of the methods SCE implements on a monthly basis to enroll customers and conduct outreach activities to inform customers about the ESA program.

### 1.2.1 Provide a summary of the Energy Savings Assistance program enrollment and outreach strategies deployed this month.

SCE's ESA contractors continue to enroll customers through tablet PCs (aka paperless enrollment) during the assessment process resulting in streamlined and expedited enrollments. The tablet PC eliminates the need for paper copies ensuring protection of customer data and helping protect the environment. Due to COVID-19 suspension, in July there was 196 assessors, representing 21 contractors utilizing the paperless enrollment process, enrolling 5,990 household.

#### Direct Mailers

Due to the temporary suspension of all face-to-face interaction between ESA contractors and SCE customers as result of the COVID-19 pandemic, the ESA Program did not send any direct mailers in the month of July. The direct mail monthly campaigns are expected to resume in August. The campaign's creative is shown below.

**Re: Service Account Number ending in «XXX» at «Service Account Address»**

Dear «Customer Name»,

Replacing older appliances that use lots of electricity with new energy efficient models can be expensive. However, as a Southern California Edison CARE customer, you may already qualify for our Energy Savings Assistance Program. Whether you own or rent, the program covers all costs for purchasing and installing energy-efficient appliances and services that will help you save energy and money.

- Refrigerator Replacement
- Pool Pump Replacement
- Lighting – LEDs and Torchiere
- Smart Power Strip
- Weatherization
- Evaporative Cooler
- Window or Wall Air Conditioner Replacement
- Central Air Conditioner Replacement

**How it works.**

Our approved contractor will come meet with you to review the program and guidelines, and will let you know the no-cost energy-saving home appliances and solutions available to you. Don't miss this opportunity for free appliances that use less electricity and may help lower your bill. Call your local SCE-approved contractor below, or visit [sce.com/esap](http://sce.com/esap) for more information.

**Funding is limited and available on a first-come, first-served basis.**

This program is available to qualified customers **absolutely free**. So, don't delay. Call your local SCE-approved contractor today.

Sincerely,

Jill C. Anderson  
VP, Customer Programs and Services  
Southern California Edison

**Energy Savings  
Assistance Program™**

**P.S. Say YES to free energy-saving appliances and enjoy the ongoing savings and comfort of an energy-efficient home. Funding is limited. Act now — call «1-800-999-9999».**

The Energy Savings Assistance Program is funded by California utility ratepayers and administered by Southern California Edison under the auspices of the California Public Utilities Commission. Services may not be available in all areas. Certain restrictions, such as age, size, and condition of the system or appliance to be replaced, may apply. All replacement refrigerators meet ENERGY STAR® standards and are top-freezer models without extra features, such as ice makers. Services are offered on a first-come, first-served basis until funding is expended or the program is discontinued. A copayment may be required for some services. Program may be modified or terminated without prior notice.  
California consumers are not obligated to purchase any full fee service or other service not funded by this program.  
This program is available to both homeowners and renters. Renters may be required to obtain the property owner's written permission before services are delivered.

APPLIANCES.**

[Learn More](#)

Dear [Name],

Whether you own or rent your home, you may be eligible to participate in the Energy Savings Assistance Program (ESAP). Under this program, income-qualified customers of SCE can receive free energy-efficient appliances, installation, and services, including:

- Refrigerator Replacement
- Weatherization
- Pool Pump Replacement
- Evaporative Cooler
- Window or Wall Air Conditioner Replacement
- Central Air Conditioner Replacement
- Lighting—LEDs and Torchiere
- Smart Power Strip

These free appliances and services are a great opportunity to save electricity and lower your monthly bill with a more energy-efficient home. Don't delay—this program is available on a first-come, first-served basis.

### Digital Media

Due to the temporary suspension of all face-to-face interaction between ESA contractors and SCE customers as result of the COVID-19 pandemic, the ESA Program did not target any zip codes as part of the digital and social mass media campaigns in the month of July. These monthly campaigns are expected to resume in August.

### SCE.com Website

In June, SCE revised its ESA Program webpage ([www.sce.com/esap](http://www.sce.com/esap)) to provide specific COVID-19 messaging and continues to direct customers to this page. In the month of July SCE received 1,291 ESA related internet leads.

This messaging provides customers with information regarding the various options to enroll in the ESA program during COVID-19. SCE contractors are conducting virtual enrollment and home assessments to minimize face to face interaction when necessary. The messaging also provides customers with assurances that when a contractor visits their homes, they will be taking precautions and ensuing they are using appropriate protective equipment, sanitizing tools regularly, and adhering to social distancing guidelines.

### Outbound Calls

SCE's pilot outreach campaign provides customer leads directly to the ESA Program contractors for outbound calls. SCE targets the customers that receive the direct mailers each month focusing on customers who have not previously participated in the ESA Program. For the month of July, SCE did not provide any outbound calling leads to multiple ESA contractors. These monthly campaigns are expected to resume in August.

As mentioned above, SCE will focus on generating leads for its contractors from recent CARE participants. In July, SCE provided approximately 100 leads to multiple ESA contractors. The ESA Program refers these new CARE customers to SCE's contractors as leads to enroll these households into the ESA Program and provide energy-saving services.

ESA contractors can use these leads to build its pipeline for customer enrollments, whether the customers prefer to enroll through the virtual program or a face to face appointment.

### Inbound Calls

Customers who call SCE's customer service center are informed and referred to the ESA Program. Customers are assigned to a contractor in their service territory. The ESA contractor will then follow up on the lead and contact the customer to assess eligibility and enrollment in the ESA Program. In the month of July SCE received 1,300 ESA related calls.

### Innovative Strategies

When an unexpected event takes place such as an earthquake or wildfire SCE will develop information for our SCE customers who may have been impacted to provide them with disaster relief communication or to provide them with important consumer protections that are available to them in the event they are affected by a natural disaster. ESA contractors will provide information to distribute to the community when conducting outreach. Below is an example of disaster relief support information SCE developed to distribute to customers.<sup>2</sup>

### Community Events

ESA Program contractors participate in a variety of community events to interact with customers and provide them with information about the ESA program and other Low-Income programs available to them. These types of events help increase ESA enrollments and ESA contractors will also assist the customer in completing the enrollment process. Due to the COVID-19 pandemic and increasing hesitation of face-to-face interaction between ESA contractors and SCE customers, the ESA Program did not participate in any community events in the month of July and will resume activities once in person events resume.

### Specialized Efforts to Increase Participation

SCE is currently implementing and enhancing the below on-going efforts to reach first touch homes that have not participated in the ESA program. SCE has resumed some activity in these areas.

- San Joaquin Valley Pilot – Enrollments for the pilot areas have started.
- ESA enrollment opportunities – SCE successfully launched the Critical Care Backup Battery (CCBB) Program in July 2020. Over 2,100 outreach letters and fact sheets were mailed to customers informing them about the program. To date SCE has enrolled over 100 customers, some of which includes leveraging new enrollments into the ESA program.

---

<sup>2</sup> See section 2.4 for more information on SCE disaster relief efforts

- Target enrollment in specified communities – Enrollments at MCLB Barstow have commenced.
- Deaf and Hard of Hearing Community – Through our partner, signIFICANT, we have begun to directly contact more than 90 customers within this community to offer ESA enrollments. Three enrollments have been completed, with twenty-two leads awaiting appointments. An SCE-signIFICANT video has also been published and has reached more than 350 members of this community.

### **1.3. Leveraging Success Evaluation, Including CSD**

#### **1.3.1. Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?**

SCE has reached out to CSD’s implementer of Low-Income Weatherization Program (LIWP) to inquire if there were any potential projects that could be reimbursed by SCE. With changes in eligible measure and feasibility, particularly for smart thermostats, there may be potential projects that could be reimbursed by SCE.

### **1.4. Workforce Education & Training**

#### **1.4.1. Please summarize efforts to improve and expand Energy Savings Assistance Program workforce education and training. Describe steps taken to hire and train low income workers and how such efforts differ from prior program years.**

As part of the COVID-19 face-to-face work stoppage, Service Providers were encouraged to have their employees utilize the CBT Learning System; a licensed third-party application sponsored by SCE in partnership with SoCalGas, in which individuals take self-paced online learning courses on a variety computer-related topics and software programs.

As of July 31, 2020, there were 289 active users in the system. During the month of July, CBT Learning System users successfully completed 152 courses accounting for 119.06 hours of learning instruction.

SCE contracts with a mixture of local private contractors (LPCs), community-based organizations (CBOs) and faith-based organizations (FBOs) to provide ESA program services. The organizations, many of which are in low-income and disadvantaged communities.

In July 2020, SCE’s had 753 individuals that are working in support SCE’s ESA Program, 12 new individuals were added to our roles. As of July 31, 2020, SCE had 189 active Program Representatives supporting Virtual (non-face-to-face) Enrollment and Assessment activities

**1.5. Miscellaneous**

**1.5.1. Tribal Penetration and Outreach Efforts**

The ESA Program did not conduct its on-going outreach efforts to offer the ESA program to the tribal Communities in the month of July. Early discussions of conducting virtual assessments are now commencing for the Benton & Bishop Paiute and the Bridgeport Indian colony in INYO/MONO County.

Below is a current list of the thirteen (13) tribes identified in SCE’s service territory and a current status of our efforts:

Tribal Nations in SCE’s Territory: Outreach Status	Treated	Ineligible	No longer served by SCE	In progress
Timbisha Shoshone	X			
Chemehuevi	X			
San Manual Band of Mission Indians		X		
Agua Caliente Band of Cahuilla Indians		X		
Twenty-Nine Palms Band of Mission Indians		X		
Pechanga			X	
Benton Paiute				X
Bishop Paiute				X
Bridgeport Indian Colony				X
CRIT				X
Morongo				X
Soboba				X
Tule River				X

### 1.5.2. Multifamily Common Area Measures (CAM)

SCE continued looking for opportunities in July 2020, working to ensure that work resumption was performed in phases to ensure that safety and COVID-19 prevention is adhered to. The chart below details CAM efforts for all activity that began in 2019 and is year-to-date:

Deed Restricted - In Progress						
Whole Building			Common Area Only		In-Unit Only	
# Projects In Progress	# of Authorized Units		# Projects In Progress	# Projects In Progress	# of Authorized Units	
23	1991		0	8	512	
Deed Restricted - Completed						
Whole Building			Common Area Only		In-Unit Only	
# Projects Complete	# of Authorized Units	# of Units Served	# Projects Complete	# Projects Complete	# of Authorized Units	# of Units Served
1	63	3	5	5	443	105
Market Rate - In Progress						
Whole Building			Common Area Only		In-Unit Only	
# Projects In Progress	# of Authorized Units		# Projects In Progress	# Projects In Progress	# of Authorized Units	
0	0		0	25	1359	
Market Rate - Completed						
Whole Building			Common Area Only		In-Unit Only	
# Projects Complete	# of Authorized Units	# of Units Served	# Projects Complete	# Projects Complete	# of Authorized Units	# of Units Served
0	0	0	0	11	414	80

At present there are 71 projects in our immediate pipeline. SCE is in the process of adding and onboarding two additional CAM Service Providers to assist in beginning activities on those 71 projects.

### 1.5.3. Programmable Communication Thermostat Pilot

D.17-12-009, Ordering Paragraph (OP) 147 directed the electric IOUs to implement a pilot with the goal of exploring and evaluating whether using Programmable Communicating Thermostat (PCT) paired with a mobile phone application will affect the behavior of low income, high-energy-usage customers in hot climate zones while on a Time Of Use (TOU) rate. In compliance with this directive, on March 1, 2018, SCE filed a Tier 2 Advice Letter (3753-E) proposing an implementation plan and supporting budget. On March 27, 2018, The Energy Division (ED) suspended the Advice Letter. On April 14, 2018, at the direction of the ED, SCE filed a supplement to the Advice Letter to clarify SCE’s proposed budget. The ED also directed the electric IOUs to jointly hire one consultant to evaluate the pilot. The IOUs requested an extension of time to implement the pilot, which was approved, changing a June 2018 launch date to October 2018. In

October the electric IOUs filed a request to extend the start of the Pilot from October 31, 2018 to January 1, 2019 which was approved by the ED on November 1, 2018.

In July 2018, on behalf of the electric IOUs Pacific Gas & Electric (PG&E) released a Request For Proposal (RFP) for the statewide evaluator who was successfully retained on October 2, 2018. SCE continued implementing the pilot plan and by the end of 2018 completed all planned activities on time including identifying 172 initial customers who agreed to participate in the pilot as part of either a Treatment or Control group. All participants were switched to TOU on their meter read dates in January 2019.

In Q3, the PCT vendor, Ecobee, notified the IOUs that the smart thermostats installed as part of the PCT pilot were not operating with the Peak Relief functionality designed to help customers optimize TOU rates. While issues were identified during the installation of the thermostats, resolutions appeared to be identified and SCE believed the thermostats were operating with Peak Relief, as intended. However, in mid-July, Ecobee determined that there were additional issues and Ecobee pushed request to customers to update thermostat firmware to Eco+. The notification occurred through the thermostats and through email notifications. Additional notifications were sent in August to customers who had not upgraded their devices with the new firmware. As of August, 35 of the 39 thermostats installed for SCE Pilot participants had been updated with the Eco+ firmware, and 33 of those customers also approved the automated TOU rate functionality.

SCE and the IOUs worked with the pilot evaluator to make changes to revise the surveys and the research plan to adjust for this unexpected event. The second survey was sent to pilot participants in Q3 2019 to gauge their experiences after all had received bills corresponding to the hottest periods, and thus greatest cooling load and potentially highest bills of the year. Second survey response counts for SCE are 15 respondents from the treatment group and 19 from the control group, after accounting for customers who had moved or otherwise dropped from the pilot.

In February 2020, the IOUs and consultants developed the third and final questions for participant survey. The final survey counts for SCE are 13 from the treatment group and 23 from the control group.

In March the evaluation consultant and IOUs developed a deck summarizing the pilot findings and hosted a webinar on March 17, 2020 to present results to the Energy Division and IOU staff. The final report the “Evaluation of the California Statewide Smart Thermostat Time of Use Pilot” by Evergreen Economics, dated March 31, 2020, is available on CALMAC.org.

In June 2020, PG&E completed a Co-Funding Agreement and representatives from all three electric IOUs signed Agreement for Pilot costs incurred by the joint evaluation consultant under contract to PG&E.

## 2. California Alternate Rates for Energy Program Executive Summary

The CARE program is a low-income energy rate program that provides a monthly discount to qualifying households in SCE's service territory. To qualify for CARE household income must be at or below the 200% Federal Poverty Guidelines. Through CARE customers can save 30-35% a month on their electric bill. Income qualified customers include residential single-family households and customers in sub-metered residential facilities, nonprofit group living facilities, agricultural employee housing facilities, and migrant housing farm workers.

### 2.1. CARE Program Summary

#### 2.1.1. Please provide CARE program summary costs

CARE Budget Categories	Authorized Budget	Expenses Year-to-Date	% of 2020 Budget Spent
Outreach	\$2,684,843	\$1,844,364	69%
Processing / Certification Re-certification	\$800,000	\$349,727	44%
Post Enrollment Verification (PEV)	\$600,000	\$437,422	73%
IT Programming	\$600,000	\$7,036	1%
Cooling Centers	\$45,899	-	0%
Pilot (CHANGES)	\$525,000	\$221,872	42%
Studies	-	-	0%
Regulatory Compliance	\$457,661	\$253,110	55%
General Administration	\$725,665	\$683,242	94%
CPUC Energy Division Staff	\$140,000	\$136,459	97%
<b>Total Expenses</b>	<b>\$6,579,058</b>	<b>\$3,933,232</b>	<b>60%</b>
<b>Subsidies and Benefits</b>	<b>\$492,093,638</b>	<b>\$237,507,860</b>	<b>48%</b>
<b>Total Program Costs &amp; Discounts</b>	<b>\$498,672,706</b>	<b>\$241,441,092</b>	<b>48%</b>

#### 2.1.2. Please provide the CARE program penetration rate to date.

CARE Penetration		
Participants	Estimated Eligible Participants	Year-to-Date Penetration Rate
1,289,685	1,332,580	96.8%

## **2.2. Outreach**

### **2.2.1. Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.**

The CARE and Family Electric Rate Assistance (FERA) outreach efforts and communications to SCE's in-language and underpenetrated areas continue to be a priority. SCE's CARE/FERA programs partner with internal departments such as Local Public Affairs (LPA), Consumer Affairs, Marketing, Corporate Communications, Strategic Engagement, and Business Solutions. SCE also conducts external outreach efforts with various chambers, foundations, faith-based and community-based organizations in different activities that target SCE's hard-to-reach customer base.

As California continues to experience the economic challenges of COVID-19 impacts for the fourth month, SCE continues exploring new ways to reach out to our customers whose employment status may have been affected by COVID-19. Since the commencement of the stay-at-home orders in mid-March, SCE undertook many efforts to increase targeted outreach and leverage its existing protocols to inform and enroll eligible customers into applicable programs.

SCE continued to provide all customers who contact SCE's Customer Contact Center (CCC) to request payment arrangements the opportunity to sign up for CARE/FERA immediately.

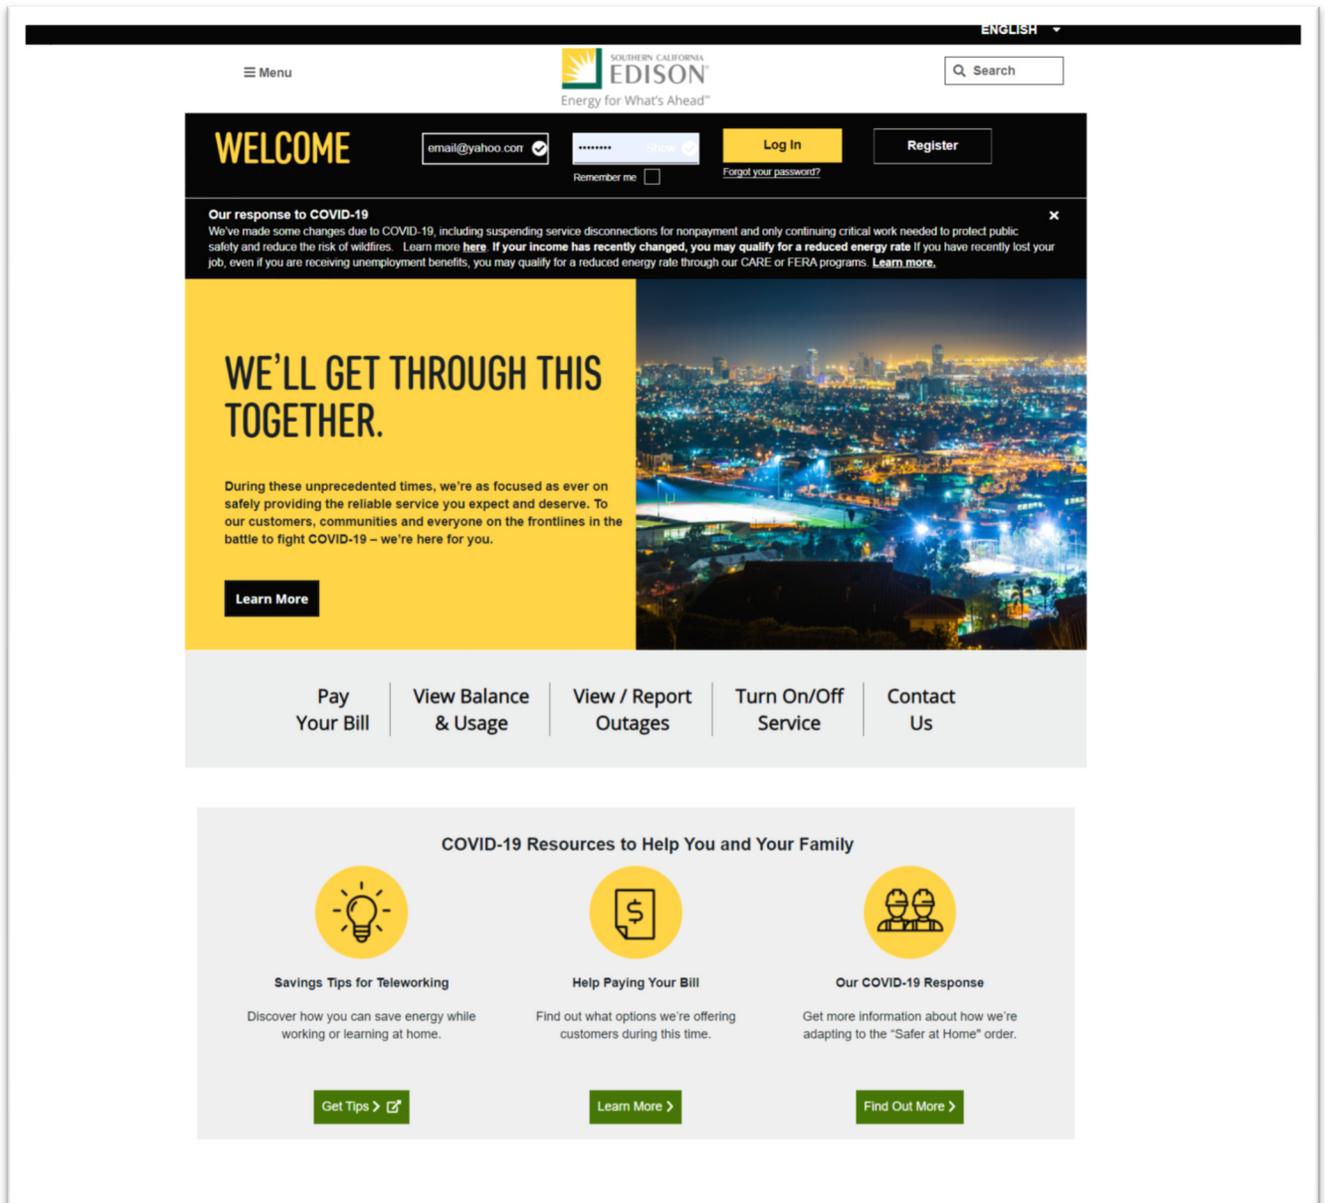

#### ***Internal Outreach***

SCE's CCC continues using various enrollment methods to directly enroll customers in the CARE Program during incoming calls to the center. CARE is offered on all new customer turn-on requests and/or when a customer expresses a need for help with their bill or has expressed financial hardship. CARE representatives will first offer to take the enrollment over the phone or if requested by the customer, be directly transferred to the Information Voice Response (IVR) system. The IVR allows customers who prefer a self-service option to enroll via [sce.com](http://sce.com). Additionally, if requested, the Customer Service Representative may alternately send a paper Rate Discount Application to the customer. These enrollment options provide customers with choices and maximize their opportunity to enroll in CARE program. During the month of July, SCE enrolled 7,500 eligible customers through CCC outreach efforts.

#### ***SCE.com Website***

During the start of the stay-at-home orders, SCE revised its website ([www.sce.com](http://www.sce.com)) and social media posts to provide specific COVID-19 messaging and continues to direct customers to these pages

- This messaging provides customers with information to help with financial challenges due to COVID-19. Specifically, the information includes details on CARE/FERA programs and EAF and allows customers to enroll in the CARE/FERA programs directly online.
- SCE has updated information on SCE’s disaster support page ([www.sce.com/disastersupport](http://www.sce.com/disastersupport)) to provide information on all customer protections including making payment arrangements and other assistance SCE provides for income-qualified customers.

CCC whereby customers can instantly enroll in the programs and receive CARE/FERA discounts within the current bill cycle. SCE has also partnered with establishments such as food banks that will provide program information including SCE's CARE/FERA application to impacted individuals as part of their services. On July 24, a webinar was held with a CBO that services seniors within the Asian Pacific Islanders (API) community. The webinar was held in Mandarin and provided an overview of the CARE/FERA programs as well as the in-language support that is available through the enrollment process.

### Capitation Fee Program

The CARE/FERA Capitation Fee Program team is continuing its efforts to engage existing Capitation agencies while strategically registering additional contractors to overcome enrollment barriers, including language, culture, and special needs, to enroll the hardest-to-reach customers. Because of these efforts, the Capitation Fee Program continues to show enrollments from agencies previously inactive.

Through its partnership with entities such as United Way, SCE is increasing its outreach and promotion of SCE's direct assistance program, Energy Assistance Fund (EAF), to customers experiencing extreme financial hardship due to COVID-19. SCE has implemented Information Technology modifications to allow United Way staff the ability to remotely take in EAF grant requests from impacted customers. To reach a broader population of impacted customers, SCE is also connecting agencies such as the High Sierra Energy Foundation with United Way Los Angeles to help promote CARE/FERA programs and intake customer EAF grant requests throughout the Eastern Sierra Communities. The Energy Assistance Fund (EAF) grant provides up to an additional \$100 in bill payment assistance to all income-eligible customers in SCE's service territory impacted by COVID-19.

SCE currently has 63 CARE Capitation Agencies who help income qualified customer gain assistance through the CARE and FERA programs. In July, capitation contractors and outbound calling efforts successfully enrolled 239 new customers in the CARE Program. Current and ongoing campaign strategies and efforts include:

- Leveraging events sponsored by communities and cultural celebrations to reach populations that may be eligible to enroll in the CARE Program.
- Partnering with SCE personnel to leverage existing SCE relationships with FBOs, CBOs, and local governments.
- Utilizing existing channels to develop creative approaches for agencies to conduct CARE/FERA outreach, including community-based outreach events and fairs.

### **2.2.2. Describe the efforts taken to reach and coordinate the CARE program with other related low-income programs to reach eligible customers.**

SCE enrolls new CARE customers through the Energy Assistance Fund (EAF) program which is an income-qualified program to help residential households pay their electric bill. In July 85 customers who received EAF grants were enrolled in CARE. EAF is funded through voluntary donations from SCE employees, shareholders and customers. EAF partners with the United Way of Greater Los Angeles and 80 community-based organizations to process EAF assistance request and donations.

SCE coordinates CARE enrollment with other income-qualified programs, such as ESA, LIHEAP, and other low income-qualified programs offered through SoCalGas and certain water utilities. ESA participants are automatically enrolled in CARE each month, and LIHEAP participants are automatically enrolled in CARE quarterly. In July, SCE enrolled 3,999 eligible customers in CARE through data sharing with LIHEAP, ESA, SoCalGas, and water utilities.

As described in this report, the CARE Program continuously makes efforts to integrate messaging with the ESA Program at outreach events, communications, and marketing campaigns to inform attendees about the ESA and CARE program available to qualifying customers.

### **2.3. Recertification Complaints**

SCE did not receive recertification complaints in the month of July.

### **2.4 Miscellaneous**

CPUC Resolution M-4835 and D.19-07-015<sup>3</sup> established a permanent set of emergency disaster customer protection measures that the utilities are mandated to implement in the event of a declared emergency. In response to the mandated customer protections, SCE has implemented a CARE post-enrollment verification (PEV) freeze to low income customers impacted by the California emergencies/events for a period of one year commencing from the date the Governor of California issued an emergency proclamation due to a disaster.

Per Resolution M-3835 and D.19-07-015 below is a list of affected counties currently under emergency protections.

---

<sup>3</sup> Decision Adopting an Emergency Disaster Relief Program for Electric, Natural Gas, Water and Sewer Utility Customers

Date of Proclamation	Disaster Name	Affected County
7/4/2019	Ridgecrest Earthquake	Kern
10/11/2019	Saddleridge, Eagle, Sandalwood, Reche, and Wolf Fires	Los Angeles and Riverside
10/25/2019	Tick Fire	Los Angeles
10/27/2019	Easy, 46, Hill and Maria Fires	All California
03/04/2020	COVID-19 Pandemic	All California

Duct Testing & Sealing:	<b>N/A</b>	Evaporative Cooler Installation:	<b>15,466</b>
Furnace Clean & Tune:	<b>N/A</b>	Pool Pump Replacement:	<b>3,082</b>
		Central A/C & Heat Pump Replacement:	<b>422</b>
Therms Saved:	<b>N/A</b>	kWh Saved:	<b>100,647,105</b>
		kW Saved:	<b>13,716</b>
Total Expenses:	<b>N/A</b>	Total Expenses:	<b>\$185,309,362</b>

**10. SCE and SoCalGas are to prioritize near-term electric and natural gas savings respectively.**

**a. Which measures have been identified as providing the highest near-term savings, and how are they being prioritized?**

SCE has identified refrigerator replacements and pool pump replacements as “Go Back” targets due to their large near term, and enduring long term, energy savings. SCE analyzed data from assessed homes that did not previously qualify for replacement of

these measures to identify homes most likely to qualify for replacement of these two high impact and cost-effective measures.

**11. SCE and SoCalGas should target a minimum average energy savings increase of 10 percent in the affected region as compared to pre-emergency savings for the duration of the emergency time period.**

- a. Please provide your methodology for establishing pre-emergency baselines and comparing average energy savings achieved in the affected regions indicate and whether any automated measurement and verification tools are being utilized or considered.**

A pre-emergency baseline was established from the 2015 program year. The 2015 total kWh and kW savings in the affected region was divided by 12 to obtain an average monthly savings number of 704,000 kWh and 97kW. From this baseline, the monthly savings goal in the Aliso Canyon area will be approximately 774,000 kWh and 107 kW. The estimated monthly targets are based on previous metered consumption analysis of an average treated home.

SCE may validate the achieved savings using a bill comparison methodology as is consistently used for the ESA program for all IOUs. The pre- and post-treatment comparison of AMI consumption data for treated homes is based on the standard metered data-based measurement and verification protocols for measuring savings for ESA treated homes. The validation of achieved savings may use a combination of automated metered consumption and/or planned impact evaluation depending on the timing of data needs. The needed lag in metered consumption data analysis necessitates use of existing estimates for the required monthly reporting of program accomplishments.

- b. Please also discuss your progress in achieving the 10 percent savings increase.** Since April 28, 2016, 76,881,005 kWh and 10,310 kW have been saved in the Aliso Canyon area, for an average of 20,078,872 kWh and 273 kW per month, which continues to exceed the 10 percent savings.

**12. SCE's and SoCalGas' suspension of the "3MM" and "Go-Back" rules should help capture significant savings of at least 4 and 3 percent respectively on average.**

- a. Please provide your methodology for calculating average kWh saved for homes made eligible through the aforementioned rule-suspensions and indicate whether any automated measurement and verification tools are being utilized or considered.**

SCE has determined 501 kWh per month baseline kWh usage of homes in the impacted area by averaging a sample of homes on CARE in Los Angeles, Orange, Riverside, San Bernardino, and Ventura counties, an area which approximates the impacted area. SCE will strive to attain 4% savings over this baseline, while still providing *all* eligible and feasible measures to qualified homes in the identified impacted area.

See response to #11a above regarding automated measurement and verification tools.

- 13. SCE and SoCalGas should provide the treatment of the most energy-intensive single- and multi-family properties and target high energy using households first.**
- a. **Please explain your strategy and progress identifying and targeting multi-family and high-usage homes.**

SCE continues to leverage information determined via the CARE High Usage Verification process to identify and target energy intensive single-family, multi-family and mobile home households in the impacted area. Letters are sent to customers with the name and contact phone number for their local-area ESA program contractor, allowing interested customers to receive program information and a more direct ESA enrollment. Approximately 2% of the homes treated in Aliso Canyon area are CARE high usage customers.

- 14. SCE and SoCalGas are to leverage program offerings outside of the ESA Program portfolio that could also achieve energy savings (such as demand response or deployment of solar thermal water heaters).**

- a. **Please discuss your strategy for encouraging customer participation in other demand response programs.**

The CSI Thermal program had low participation rates and no longer has funding. SCE has ceased marketing the program.

In addition, SCE's contractor's Program Representatives continue to review the ESA Program Customer Energy Education and Resource Guide with each program enrollee at time of in-home enrollment. This Energy Education focuses on no-cost actions these low income customers can take to save energy and reduce their bills. Included in this education is instruction on how to sign up for My Account, which provides them with additional time and money savings tools and opportunities to participate in residential energy efficiency rebate programs.

**Energy Savings Assistance Program Table 1 - Expenses  
Southern California Edison  
Through July 2020**

[1] Envelope and Air Sealing Measures may include outlet cover plate gaskets, attic access weatherization, weatherstripping - door, caulking and minor home repairs. Minor home repairs predominantly are door jamb repair / replacement, door repair, and window putty.

[2] Weatherization may consist of attic insulation, attic access weatherization, weatherstripping - door, caulking, & minor home repairs

[3] Based on Resolution E-4885 approving SCE's Authorized CARE and ESA Programs conforming AL 3585-E and Supplemental AL 3585-E-A filed in compliance with D.16-11-022.

[4] All savings are calculated based on Evergreen Economics "Impact Evaluation of the 2011 CA Low Income Energy Efficiency Program, Final Report." August 30, 2013

[5] Costs exclude support costs that are included in Table 1; excludes costs for common area measures, refer to ESA Table 2B.

[6] Data for Also Canyon includes "First Touches and Re-Treatments".

[7] Expenses for fluorescent lighting reflect installations completed on or before December 31, 2017 and invoiced in 2018.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[8] Data adjustment was made due to logic change which affected January 2020, but was reversed for February 2020 to have consistency for all fillings which accounts for quantity and expense differences.

Standard Notes 1 - 6 (do not delete)

- Measures are customized by each IOU, see 'Table 2B-1, Eligible Measures List'. Measures list may change based on available information on both costs and benefits and may vary across climate zones. Each IOU
- Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings.
- Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in table 2A.
- Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project.
- Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022, modified by D.17-12-009, where 65% of tenants are income eligible based (at or below 200% of the
- Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.
- All savings are calculated based on the following sources:

8. Multifamily Common Area statistics are under review and will be inputted as year to date once provided.

[1] Decision 15-12-047 transitioned from CHANGES pilot to CHANGES program and funding for the effort is captured herein.

[2] Reflects the Annual Eligibility Estimates prepared by Athens Research on behalf of the utilities. This efforts was formerly referenced in Measurement and Evaluation.

[3] Reflects the authorized funding per year in D.16-11-022 and updated via Resolution [E-4885] addressing Conforming AL [3585-E] and Supplemental Conforming AL [3585-E-A].

[4] Monthly and year-to-date expenses data was obtained from SAP database. Subtotal Management Costs for 2017 include Cooling Centers total costs.

[5] Total costs settled to prior cycle CARE accounting are not addressed in CARE Table 1.

**NOTE:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments

<b>YTD Total</b>	<b>1,289,685</b>	<b>3,273</b>	<b>0.3%</b>	<b>3,038</b>	<b>23</b>	<b>3,061</b>	<b>93.5%</b>	<b>0.2%</b>

<sup>1</sup> Includes all participants who were selected for high usage verification process.

<sup>2</sup> Includes customers verified as over income, who requested to be de-enrolled, did not reduce usage, or did not agree to be weatherized.

<sup>3</sup> Medium (400%) and high usage (600%) customers are dropped at 60 days (2 or 3 bill cycles) for non-response to HUV (high usage income verification request). Additionally, 600% + users that have not reduced usage within the 60 day window (2 or 3 bill cycles) are removed from the program. Results may be pending due to the time permitted for a participant to respond.

<sup>4</sup> Percentage of customers dropped compared to the total participants requested to provide verification in that month.

**Note:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

**CARE Table 4 - CARE Self-Certification and Self-Recertification Applications<sup>1</sup>**  
**Southern California Edison**  
**Through July 2020**

	Provided	Received	Approved	Denied	Pending/Never Completed	Duplicates
Total (Y-T-D)	704,057	464,964	339,553	28,767	203,271	96,644
Percentage	N/A	100%	73%	6%	N/A	21%

<sup>1</sup> Includes sub-metered customers.

<sup>2</sup> Includes number of applications SCE provided for all direct mailing campaigns, customer calls made to the call center, and other outreach methods. Because there are other means by which customers obtain applications which are not

<sup>3</sup> Percent of received applications.

<sup>4</sup> Includes all applications received and not approved.

<sup>5</sup> Includes pending recertification responses.

**Note:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Month Total						
Year-to-Date						

**Note:** Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Contractor states all sessions at least 30 minutes

[2] This table was provided by CHANGES contractor, Self Help for the Elderly, via CSID. This table was edited and reformatted from its original versions in order to have a more consistent appearance and format with existing SCE tables.

[3] The numbers provided by the CHANGES contractor are for SCE and SoCal Gas **combined**, due to the combined service territory.

[4] On the Consumer Education Topic addendum of the Quarterly CHANGES Data Report of August 2018-October 2018, the number of attendees for: the Avoiding Disconnection course add up to 121, not the 119 shown on the report; CARE / FERA & Other Assistance Programs classes add up to 289, not 287 as shown on the report; Electric and Natural Gas Safety classes add up to 183, not 182 as shown on the report; Energy Conservation classes add up to 92, not 91 as shown on the report; Understanding Your Bill classes add up to 199, not 197 as shown on the report. Thus, the total shown on this table does not match the total on the Quarterly CHANGES Data Report of August 2018-October 2018.
