(Filed January 8, 2004)

**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT -
MONTHLY STATUS REPORT FOR MARCH 2006**

Southern California Edison Company ("SCE") hereby submits a status report describing its activities for the Low-Income Energy Efficiency ("LIEE") and California Alternate Rates for Energy ("CARE") low-income assistance programs for March 2006. This monthly report includes a narrative that highlights the recent activities that SCE has undertaken to implement its low-income assistance programs and to leverage SCE's program with the services provided by Low-Income Home Energy Assistance Programs ("LIHEAP") providers.

SCE has worked with the other California utilities, the Energy Division, and the Division of Ratepayer Advocates ("DRA") in developing the format for this report and the accompanying tables. This report includes tables detailing SCE's March 2006 activities, as well as certain summary tables as requested by the Commission. All of these tables comply with the information requested in Ordering Paragraphs 14 and 17 of Decision 01-05-033, issued on May 3, 2001, as well as supplemental information requested by the Commission. The March 2006 tables are also submitted in accordance with the direction received from the Energy Division and the DRA on a May 22, 2002 conference call with the Joint Utilities in which it was determined that for certain months, the utilities should file an abbreviated set of tables, but on a quarterly basis, the utilities are to file a full set of tables. This month, SCE is filing the abbreviated set of tables, which includes Tables 1, 4, 6, 10, 11, 11a, 11b, and 16. As the information in these tables is dynamic, the figures submitted herein supersede results reported in prior months. Also, since

SCE has no remaining SBX1 5 funds, SCE has revised many of the tables to eliminate columns that had previously contained SBX1 5 information.

I.

NARRATIVE

A. Description of SCE's Activities for LIEE

In 2005, SCE strengthened the delivery of comprehensive services to low-income customers by maintaining an informed and experienced group of providers. March 2006 activities have continued that approach and reflect the eligibility guidelines and eligible measures as reflected in D.05-12-026. The following information reflects some of the measures completed and expensed in March 2006. For March 2006, SCE hereby reports on the paid installation of measures including 253 permanent evaporative coolers, 16,152 indoor compact fluorescent light bulbs, and 1,744 energy-efficient refrigerators.

In addition to the service delivery work completed in March 2006, SCE completed 4,884 assessments of customer homes and provided education to 2,537 customers.

1. LIEE Outreach and Leveraging Efforts

In 2006, SCE continues to permit any LIHEAP agency to leverage funds from the State Department of Community Services for installation of refrigerators provided at no cost by SCE with LIEE funds. SCE's LIEE contracts with LIHEAP agencies include requirements that refrigerators must be installed in SCE customer homes and completed applications must be returned. Other LIHEAP providers are contacted by phone and mail to provide them with information on this leveraging opportunity.

SCE and SoCalGas have established a cooperative working relationship over the years. SCE continues to refer all customers receiving electric measures and whose assessment indicates gas space heating and three eligible weatherization measures to SoCalGas. In addition, through this cooperative relationship, customers assessed for SoCalGas' program, who are also

SCE customers, get assessed for both gas and electric measures. For the 2006 program year, SCE has launched an aggressive outreach and marketing campaign to increase customer participation in the program.

2. Bulk Purchasing

SCE continues to competitively bid the purchase of energy-efficient refrigerators. By purchasing these appliances in bulk, SCE exercises a level of control over inventory that may not otherwise be possible. Contract terms are usually beneficial to SCE service providers. For example, refrigerators are shipped in small quantities and are warehoused in a number of locations convenient to service providers. Finally, SCE is able to obtain the best price possible through a competitive bid process.

B. Description of SCE's Activities for CARE

In March 2006, SCE partnered in numerous CARE outreach activities that targeted SCE's hard-to-reach customer base in conjunction with SCE's Consumer Affairs Department and Equal Opportunity. SCE hosted several events in the month of March. One such event was the Norco Senior Town Hall Meeting where the CARE program was presented to 100 seniors.

As part of the CARE Capitation Program, 13 agencies/organizations submitted 434 applications in March 2006. Of these, 288 customers were enrolled, 126 were found to be existing CARE enrollees and 20 applications were rejected. A total of \$3,456.00 was paid out as part of the Capitation Program in March 2006.

SCE's multi-lingual efforts produced 1,933 applications in March with 1,539 of those applications resulting in new CARE enrollments. SCE continues to share enrollment data with SoCalGas and Southwest Gas.

As of March 31, 2006, a total of 1,029,898 customers were participating in the CARE program. Based on SCE's revised estimates of CARE eligible customers as submitted to the Commission in Table 16 of this report, which reflects the increased income eligibility to 200% of federal poverty guidelines, SCE's current enrollment equates to a penetration rate of

approximately 77%.

1. Outreach Provided to California Indian Tribes So That Compliance With SBX1 5 Section 5(j) Can Be Monitored

SCE continues to work with the Southern California Indian Center in 2006 to provide important outreach to underserved Native Americans.

2. Discussion of SCE's CARE Program and Outreach Plan

SCE continues its outreach efforts. These efforts include targeted direct-mail, Welcome Kit insertions, shared mail, and recertification mailings. All efforts are bilingual (English/Spanish). In November 2005, an acquisition mailing was sent out to 700,000 targeted customers. As a result, as of March 31, 2006, 34,835 applications were processed and 28,558 new customers were enrolled in CARE. CARE applications are also distributed to new or transferring SCE customers through the SCE Welcome Kit, which has resulted in 19,572 new CARE enrollments and 623 recertifications.

Similar outreach will continue in 2006, including a direct-mail solicitation to approximately 275,000 non-CARE customers that will go out in April 2006, the annual CARE solicitation bill insert in June and shared mailings in July and August.

SCE's recertification efforts include (1) mailing recertification letters and pre-populated applications to customers one month prior to their CARE anniversary date; (2) mailing letters and applications to customers that fell off of the CARE rate in 2005 due to failure to respond to recertification communications; (3) mailing Spanish recertification letters to customers that were enrolled via a Spanish-only application; (4) recertification by phone using the automated Voice Response Unit (VRU); and (5) telephone operator-assisted enrollment and recertification. In December, a letter and application was sent to approximately 74,000 customers that fell off of the CARE rate in 2005 due to failure to respond to a recertification request. As of March 31, 2006, 8,931 customers were re-enrolled in the CARE program or recertified as a result of this mailing. Similar recertification efforts continue in 2006.

SCE continues to expand grassroots efforts through strategic alliances. SCE also plans to develop additional data systems and enhancements to CARE applications to improve the infrastructure of the system used to process applications and recertification documents.

In addition to implementing the high level marketing campaign and improving the infrastructure of the application processing/recertification/ verification process, SCE will fund the cost recovery for Phase II of the Low-Income Needs Assessment. SCE believes increased marketing and communication to multi-lingual customers is consistent with Commission policy and should lead to increased CARE enrollment.

C. 2005-2006 Winter Initiatives

On October 27, 2005, the Commission issued D.05-10-044, Interim Opinion Approving Various Emergency Program Changes in Light of Anticipated High Natural Gas Prices in the Winter of 2005-2006. D.05-10-044 sets forth a number of program changes and recommendations to mitigate bill impacts on low-income customers during the winter months of November 1, 2005 through April 30, 2006, including, among other things, expanding income eligibility for the CARE program from 175% of the federal poverty income guidelines to 200%, expanding income eligibility for LIEE in the same manner, permitting CARE enrollment and recertification by telephone, prohibiting CARE customers from being dropped from the program during the winter months for failure to recertify, simplifying LIEE enrollment, accelerating weatherization services, and increasing and improving outreach efforts.

1. CARE

Internally, SCE has taken several steps to implement D.05-10-044. In order to accelerate enrollment of and retain CARE customers, SCE has implemented a telephone operator-assisted enrollment and recertification pilot program and a recertification by phone pilot program.

The operator-assisted enrollment and recertification pilot program includes contacting those customers who have mailed in signed, but incomplete, CARE applications or

recertification forms. These customers will be given the option of enrolling in the CARE program over the telephone. The operator assisted pilot program was implemented on November 28, 2005 and outgoing calls started on December 1, 2005. As of March 31, 2006, information was successfully collected from 2,577 new and recertifying customers. SCE's recertification by phone pilot program entails allowing customers to recertify CARE eligibility over the telephone utilizing SCE's automated VRU. As of March 31, 2006, 3,618 customers successfully recertified by telephone using the VRU.

SCE will not drop any CARE customers from the CARE rate for failure to respond to a verification or recertification request from November 1, 2005 through April 30, 2006. In addition, if SCE determines that a customer enrolled in CARE does not qualify for the discount, SCE will not rebill that customer for the amount of the discount received from November 1, 2005 through April 30, 2006.

Additionally, SCE plans to further streamline recertification efforts by providing a "Sign and Mail" Recertification application that will be personalized with the customer's name, address, and account number. This new application will allow current CARE customers to simply sign the application certifying their continued CARE eligibility. A notice will be sent with this application detailing the current CARE income guidelines. This new application will be in English and Spanish.

SCE mailed 1,649,196 bilingual (English/Spanish) Winter Savings Kits in December 2005. The kits were mailed to all CARE and FERA customers as well as all residential customers with a household income of \$50,000 or less. The kit included a personalized letter, brochure and CARE application; (the application was not sent to current CARE customers). Applications were also mailed to FERA customers since some may now qualify for CARE due to the expanded income eligibility guidelines set forth in D.05-10-044. The brochure contains information about money and energy saving solutions such as CARE, FERA, LIEE (EMA), Energy Assistance Fund (EAF), Medical Baseline and Level Pay Plan. The brochure also includes a section with help phone numbers in large 16 point font and the

TTY phone number. As of March 31, 2006, 6,127 new customers were enrolled in CARE as a result of this mailing.

Finally, pursuant to Ordering Paragraph 17 of D.05-10-044, all residential customers received the bilingual (English/Spanish) Winter Savings Bill Insert through the December billing cycle. The bill insert provides information on energy savings solutions such as CARE, FERA, LIEE (EMA), EAF and Medical Baseline. The new CARE income guidelines and TTY phone are also listed in this insert.

2. LIEE

SCE is also moving forward with several strategies to increase LIEE enrollment and expedite the delivery of services. In October 2005, using census/demographic information, SCE mailed approximately 188,000 LIEE direct-mail pieces to targeted customers in areas with the highest concentration of low-income residents. SCE will use this targeted mailer in a manner consistent with D.05-10-044, including permitting customers in those areas to self-certify their income eligibility for LIEE services.

Additionally, SCE is moving forward with its program to automatically qualify CARE customers for LIEE services who have not previously been served under the LIEE program.

II.

CONCLUSION

SCE appreciates this opportunity to provide the Commission with updated information about the successes SCE has achieved in its LIEE and CARE programs through the Rapid Deployment effort.

Respectfully submitted,

[1] Includes CARE activities absorbed by non-CARE funding sources.

[2] Includes Regulatory & Compliance and Law.

[3] Includes program management labor, overheads, and information technology support.

[4] Includes only invoices received from the Public Utilities Commission for LIEE reimbursements - 70% allocated to CARE and 30% to other LIEE.

Note: With the implementation of post PROACT rates on August 1, 2003, the 1-cent and 3-cent surcharge exemptions no longer are separate from the CARE discount. CARE customers continue to receive a discount in excess of the mandated 20%, based on post-PROACT rates adopted in D.03-07-029, but the full cost of this discount is now included in rates for recovery from other customers.

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT - MONTHLY STATUS REPORT FOR MARCH 2006 on all parties identified on the attached service list(s). Service was effected by one or more means indicated below:

- Transmitting the copies via e-mail to all parties who have provided an e-mail address. First class mail will be used if electronic service cannot be effectuated.
- Placing the copies in sealed envelopes and causing such envelopes to be delivered by hand or by overnight courier to the offices of the Commission or other addressee(s).
- Placing copies in properly addressed sealed envelopes and depositing such copies in the United States mail with first-class postage prepaid to all parties.
- Directing Prographics to place the copies in properly addressed sealed envelopes and to deposit such envelopes in the United States mail with first-class postage prepaid to all parties.

Executed this **21st day of April, 2006**, at Rosemead, California.

Christine Sanchez
