Docket Clerk
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, California 94102

RE: R.04-01-006

Dear Docket Clerk:

Enclosed for filing with the Commission are the original and five copies of the **SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT - MONTHLY STATUS REPORT FOR MAY 2006** in the above-referenced proceeding.

We request that a copy of this document be file-stamped and returned for our records. A self-addressed, stamped envelope is enclosed for your convenience.

Your courtesy in this matter is appreciated.

Very truly yours,

Stacie Schaffer

SS:ssLAW-#1284877

**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT -
MONTHLY STATUS REPORT FOR MAY 2006**

Southern California Edison Company ("SCE") hereby submits a status report describing its activities for the Low-Income Energy Efficiency ("LIEE") and California Alternate Rates for Energy ("CARE") low-income assistance programs for May 2006. This monthly report includes a narrative that highlights the recent activities that SCE has undertaken to implement its low-income assistance programs and to leverage SCE's program with the services provided by Low-Income Home Energy Assistance Programs ("LIHEAP") providers.

SCE has worked with the other California utilities, the Energy Division, and the Division of Ratepayer Advocates ("DRA") in developing the format for this report and the accompanying tables. This report includes tables detailing SCE's May 2006 activities, as well as certain summary tables as requested by the Commission. All of these tables comply with the information requested in Ordering Paragraphs 14 and 17 of Decision 01-05-033, issued on May 3, 2001, as well as supplemental information requested by the Commission. The May 2006 tables are also submitted in accordance with the direction received from the Energy Division and the DRA on a May 22, 2002 conference call with the Joint Utilities in which it was determined that for certain months, the utilities should file an abbreviated set of tables, but on a quarterly basis, the utilities are to file a full set of tables. This month, SCE is filing the abbreviated set of tables, which includes Tables 1, 4, 6, 10, 11, 11a, 11b, and 16. As the information in these tables is dynamic, the figures submitted herein supersede results reported in prior months. Also, since

SCE has no remaining SBX1 5 funds, SCE has revised many of the tables to eliminate columns that had previously contained SBX1 5 information.

I.

NARRATIVE

A. Description of SCE's Activities for LIEE

In 2005, SCE strengthened the delivery of comprehensive services to low-income customers by maintaining an informed and experienced group of providers. May 2006 activities have continued this approach and reflect the eligibility guidelines and eligible measures as set forth in D.05-12-026. The following information reflects some of the measures completed and expensed in May 2006. For May 2006, SCE hereby reports on the paid installation of measures including 179 permanent evaporative coolers, 7,004 indoor compact fluorescent light bulbs, and 1,249 energy-efficient refrigerators.

In addition to the service delivery work completed in May 2006, SCE completed 1,960 assessments of customer homes and provided education to 3,050 customers.

1. LIEE Outreach and Leveraging Efforts

In 2006, SCE continues to permit any LIHEAP agency to leverage funds from the State Department of Community Services for installation of refrigerators provided at no cost by SCE with LIEE funds. SCE's LIEE contracts with LIHEAP agencies include requirements that refrigerators must be installed in SCE customer homes and completed applications must be returned. Other LIHEAP providers are contacted by phone and mail to provide them with information on this leveraging opportunity.

SCE and SoCalGas have established a cooperative working relationship over the years. SCE continues to refer all customers receiving electric measures and whose assessment indicates gas space heating and three eligible weatherization measures to SoCalGas. In addition,

through this cooperative relationship, customers assessed for SoCalGas' program, who are also SCE customers, get assessed for both gas and electric measures.

SCE is also moving forward with several strategies to increase LIEE enrollment and expedite the delivery of services. Using census/demographic information, SCE continues with its targeted mail campaign to reach customers in areas with the highest concentration of low-income residents.

2. Bulk Purchasing

SCE continues to competitively bid the purchase of energy-efficient appliances. By purchasing these appliances in bulk, SCE exercises a level of control over inventory that may not otherwise be possible. Contract terms are beneficial to both SCE and service providers. For instance, appliances are shipped in small quantities and are warehoused in a number of locations convenient to service providers. Finally, SCE is able to obtain the best price possible through a competitive bid process.

B. Description of SCE's Activities for CARE

As of May 31, 2006, a total of 1,039,720 customers were participating in the CARE program. Based on SCE's revised estimates of CARE eligible customers as submitted to the Commission in Table 16 of this report, which reflects the increased income eligibility to 200% of federal poverty guidelines, SCE's current enrollment equates to a penetration rate of approximately 78%.

1. Outreach Provided to California Indian Tribes So That Compliance With SBX1 5 Section 5(j) Can Be Monitored

SCE continues to work with the Southern California Indian Center in 2006 to provide important outreach to underserved Native Americans.

2. Discussion of SCE's CARE Program and Outreach Plan

In May 2006, SCE partnered in numerous CARE outreach activities that targeted SCE's hard-to-reach customer base in conjunction with SCE's Consumer Affairs Department and Equal Opportunity Department. SCE hosted several events in the month of May. One such event was the Consumer Awareness Safety Forum held in conjunction with Congresswoman Hilda Solis at Garvey Intermediate School in Rosemead. This event targeted seniors and CARE and FERA was discussed with all event attendees.

As part of the CARE Capitation Program, 10 agencies/organizations submitted 372 applications in May 2006. Of these, 193 customers were enrolled, 102 were found to be existing CARE enrollees and 77 applications were rejected. A total of \$2,316 was paid out as part of the Capitation Program in May 2006.

SCE's multi-lingual efforts produced 2,326 applications in May with 1,964 of those applications resulting in new CARE enrollments. SCE continues to share enrollment data with SoCalGas and Southwest Gas.

Additional outreach efforts include targeted direct-mail, Welcome Kit insertions, shared mail, and recertification mailings. All efforts are bilingual (English/Spanish). For instance, in November 2005, an acquisition mailing was sent out to 700,000 targeted customers. As a result, as of May 31, 2006, 35,555 applications were processed and 29,118 new customers were enrolled in CARE.

In December 2005, SCE mailed 1,649,196 bilingual (English/Spanish) Winter Savings Kits to all CARE and FERA customers as well as all residential customers with a household income of \$50,000 or less. The kit included a personalized letter, brochure and CARE application (the application was not sent to current CARE customers). Applications were also mailed to FERA customers since some could qualify for CARE due to the expanded income eligibility guidelines set forth in D.05-10-044. The brochure also contained information about money and energy saving solutions such as LIEE (SCE's Energy Management Assistance Program), Energy Assistance Fund (EAF), Medical Baseline and Level Pay Plan. The brochure

also included a section with help phone numbers in large 16 point font and the TTY phone number. As of May 31, 2006, 6,415 new customers were enrolled in CARE as a result of this mailing.

CARE applications are also distributed to new or transferring SCE customers through the SCE Welcome Kit, which has resulted in 23,610 new CARE enrollments and 710 recertifications.

In April 2006, a direct mail solicitation was sent to approximately 275,000 income-qualified non-CARE customers. As of May 31, 2006, 3,678 applications have been processed, resulting in 2,995 new CARE enrollments. The annual CARE solicitation bill insert was included in residential customers' bills in June 2006. A second direct mail solicitation to approximately 300,000 income-qualified customers is scheduled for July, and shared mailings will go out in August and September 2006.

SCE's recertification efforts include (1) mailing recertification letters and pre-populated applications to customers one month prior to their CARE anniversary date; (2) mailing Spanish recertification letters to customers that were enrolled via a Spanish-only application; (3) recertification by phone using the automated Voice Response Unit (VRU); and (4) telephone operator-assisted enrollment and recertification.

The operator-assisted enrollment and recertification pilot program includes contacting those customers who have mailed in signed, but incomplete, CARE applications or recertification forms. These customers are given the option of enrolling in or recertifying for the CARE program over the telephone. The operator assisted pilot program was implemented on November 28, 2005 and outgoing calls started on December 1, 2005. As of May 31, 2006, information was successfully collected from 3,646 new and recertifying customers. SCE's recertification by phone through SCE's VRU pilot program entails allowing customers to recertify CARE eligibility over the telephone utilizing SCE's automated VRU. As of May 31, 2006, 7,112 customers successfully recertified by telephone using the VRU. On April 21, 2006, SCE filed with the Commission its *Motion to Extend Certain Low Income Energy Efficiency and*

CARE Program Policies Authorized in D.05-10-044 Beyond the Winter Initiative Period, in which SCE sought the Commission's authorization to continue the CARE telephonic enrollment/recertification processes described above. SCE is currently awaiting a decision on the motion.

SCE plans to further streamline recertification efforts by providing a "Sign and Mail" Recertification application that is personalized with the customer's name, address, and account number. This new application was implemented on May 25, 2006, and allows current CARE customers to simply sign the application certifying their continued CARE eligibility. A notice is sent with this application detailing the current CARE income guidelines. Further, this new application is currently available in English and Spanish, and will be available in Korean, Cambodian, Vietnamese and Chinese.

SCE continues to expand grassroots efforts through strategic alliances. SCE also plans to develop additional data systems and enhancements to CARE applications to improve the infrastructure of the system used to process applications and recertification documents.

In addition to implementing the high level marketing campaign and improving the infrastructure of the application processing/recertification/verification process, SCE will fund the cost recovery for Phase II of the Low-Income Needs Assessment. SCE believes increased marketing and communication to multi-lingual customers is consistent with Commission policy and should lead to increased CARE enrollment.

II.

CONCLUSION

SCE appreciates this opportunity to provide the Commission with updated information about the successes SCE has achieved in its LIEE and CARE programs through the Rapid Deployment effort.

Respectfully submitted,

MICHAEL D. MONTOYA

[1] Includes CARE activities absorbed by non-CARE funding sources.

[2] Includes Regulatory & Compliance and Law.

[3] Includes program management labor, overheads, and information technology support.

[4] Includes only invoices received from the Public Utilities Commission for LIEE reimbursements - 70% allocated to CARE and 30% to other LIEE.

Note: With the implementation of post PROACT rates on August 1, 2003, the 1-cent and 3-cent surcharge exemptions no longer are separate from the CARE discount. CARE customers continue to receive a discount in excess of the mandated 20%, based on post-PROACT rates adopted in D.03-07-029, but the full cost of this discount is now included in rates for recovery from other customers.

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT - MONTHLY STATUS REPORT FOR MAY 2006 on all parties identified on the attached service list(s). Service was effected by one or more means indicated below:

- Transmitting the copies via e-mail to all parties who have provided an e-mail address. First class mail will be used if electronic service cannot be effectuated.
- Placing the copies in sealed envelopes and causing such envelopes to be delivered by hand or by overnight courier to the offices of the Commission or other addressee(s).
- Placing copies in properly addressed sealed envelopes and depositing such copies in the United States mail with first-class postage prepaid to all parties.
- Directing Prographics to place the copies in properly addressed sealed envelopes and to deposit such envelopes in the United States mail with first-class postage prepaid to all parties.

Executed this **21st day of June, 2006**, at Rosemead, California.

Christine Sanchez
