**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT -
MONTHLY STATUS REPORT FOR SEPTEMBER 2006**

Southern California Edison Company (“SCE”) hereby submits a status report describing its activities for the Low-Income Energy Efficiency (“LIEE”) and California Alternate Rates for Energy (“CARE”) low-income assistance programs for September 2006. This monthly report includes a narrative that highlights the recent activities that SCE has undertaken to implement its low-income assistance programs and to leverage SCE's program with the services provided by Low-Income Home Energy Assistance Programs (“LIHEAP”) providers.

SCE has worked with the other California utilities, the Energy Division, and the Division of Ratepayer Advocates (“DRA”) in developing the format for this report and the accompanying tables. This report includes tables detailing SCE's September 2006 activities, as well as certain summary tables as requested by the Commission. All of these tables comply with the information requested in Ordering Paragraphs 14 and 17 of Decision 01-05-033, issued on May 3, 2001, as well as supplemental information requested by the Commission. The September 2006 tables are also submitted in accordance with the direction received from the Energy Division and the DRA on a May 22, 2002 conference call with the Joint Utilities in which it was determined that for certain months, the utilities should file an abbreviated set of tables, but on a quarterly basis, the utilities are to file a full set of tables. This month, SCE is filing the

abbreviated set of tables, which includes Tables 1, 4, 6, 10, 11, 11a, 11b and 16. As the information in these tables is dynamic, the figures submitted herein supersede results reported in prior months. Also, since SCE has no remaining SBX1 5 funds, SCE has revised many of the tables to eliminate columns that had previously contained SBX1 5 information.

I.

NARRATIVE

A. Description of SCE's Activities for LIEE

In 2005, SCE strengthened the delivery of comprehensive services to low-income customers by maintaining an informed and experienced group of providers. September 2006 activities have continued this approach and reflect the eligibility guidelines and eligible measures as set forth in D.05-12-026. The following information reflects some of the measures completed and expensed in September 2006. For September 2006, SCE hereby reports on the paid installation of measures including 500 permanent evaporative coolers, 22,142 indoor compact fluorescent light bulbs, and 2,379 energy-efficient refrigerators.

In addition to the service delivery work completed in September 2006, SCE completed 6,112 assessments of customer homes and provided education to 8,921 customers.

1. LIEE Outreach and Leveraging Efforts

In 2006, SCE continues to permit any LIHEAP agency to leverage funds from the State Department of Community Services for installation of refrigerators provided at no cost by SCE with LIEE funds. SCE's LIEE contracts with LIHEAP agencies include requirements that refrigerators must be installed in SCE customer homes and completed applications must be returned. Other LIHEAP providers are contacted by phone and mail to provide them with information on this leveraging opportunity.

SCE and SoCalGas have established a cooperative working relationship over the years. SCE continues to refer all customers receiving electric measures and whose assessment

indicates gas space heating and three eligible weatherization measures to SoCalGas. In addition, through this cooperative relationship, customers assessed for SoCalGas' program, who are also SCE customers, get assessed for both gas and electric measures.

SCE is also moving forward with several strategies to increase LIEE enrollment and expedite the delivery of services. Using census/demographic information, SCE continues with its targeted mail campaign to reach customers in areas with the highest concentration of low-income residents.

2. Bulk Purchasing

SCE continues to competitively bid the purchase of energy-efficient appliances. By purchasing these appliances in bulk, SCE exercises a level of control over inventory that may not otherwise be possible. Contract terms are beneficial to both SCE and service providers. For instance, appliances are shipped in small quantities and are warehoused in a number of locations convenient to service providers. Finally, SCE is able to obtain the best price possible through a competitive bid process.

B. Description of SCE's Activities for CARE

As of September 30, 2006, a total of 1,060,474 customers were participating in the CARE program. Based on SCE's revised estimates of CARE eligible customers as submitted to the Commission in Table 16 of this report, which reflects the increased income eligibility to 200% of federal poverty guidelines, SCE's current enrollment equates to a penetration rate of approximately 79%.

1. Outreach Provided to California Indian Tribes So That Compliance With SBX1 5 Section 5(j) Can Be Monitored

SCE continues to work with the Southern California Indian Center in 2006 to provide important outreach to underserved Native Americans.

2. Discussion of SCE's CARE Program and Outreach Plan

In September 2006, SCE partnered in numerous CARE outreach activities that targeted SCE's hard-to-reach customer base in conjunction with SCE's Consumer Affairs Department and Equal Opportunity Department. SCE hosted several events in the month of September, including several faith-based outreach events held in conjunction with the Archdiocese. These events targeted Latino and Vietnamese low-income customers. Bilingual volunteers were on hand to assist customers in their language of preference.

As part of the CARE Capitation Program, 17 agencies/organizations submitted 236 applications in September 2006. Of these, 130 customers were enrolled, 101 were found to be existing CARE enrollees and 5 applications were rejected. A total of \$1,540 was paid out as part of the Capitation Program in September 2006.

SCE's multi-lingual efforts produced 2,669 applications in September with 2,296 of those applications resulting in new CARE enrollments. SCE also continues to share enrollment data with SoCalGas and Southwest Gas.

Additional outreach efforts include targeted direct-mail, Welcome Kit insertions, shared mail, and recertification mailings. All efforts are bilingual (English/Spanish), and as described below, SCE's recertification "sign and mail" application is available in English, Spanish, Korean, Cambodian, Vietnamese and Chinese.

CARE applications are distributed to new or transferring SCE customers through the SCE Welcome Kit, which in 2006, has resulted in 20,128 new CARE enrollments and 455 recertifications.

In April 2006, a direct mail solicitation was sent to approximately 275,000 income-qualified non-CARE customers. As of September 30, 2006, 4,643 applications have been processed, resulting in 3,780 new CARE enrollments. The annual CARE solicitation bill insert was included in approximately 3.9 million residential customers' bills in June 2006. As a result, through September 30, 2006, 35,034 applications have been processed with 28,882 new CARE enrollments. In August 2006, a second direct mail solicitation was sent to approximately

300,000 income qualified non-CARE customers, resulting in 14,916 applications and 11,769 new CARE enrollments. SCE partnered with ValPak, a shared mail vendor, to include two million CARE applications in low-income zip codes through August and September. Through this effort, 6,022 applications have been processed with 1,548 new care enrollments.

SCE's recertification efforts include (1) mailing recertification letters and pre-populated applications to customers one month prior to their CARE anniversary date; (2) mailing in-language recertification letters to customers that were enrolled via an in-language application (for the languages that SCE supports); (3) recertification by phone using the automated Voice Response Unit (VRU); and (4) telephone operator-assisted enrollment and recertification.

The operator-assisted enrollment and recertification process includes contacting those customers who have mailed in signed, but incomplete, CARE applications or recertification forms. These customers are given the option of enrolling in or recertifying for the CARE program over the telephone. The operator-assisted process was implemented on November 28, 2005 and outgoing calls started on December 1, 2005. As of September 30, 2006, information was successfully collected from 6,306 new and recertifying customers. SCE's recertification by phone through SCE's VRU process entails allowing customers to recertify CARE eligibility over the telephone utilizing SCE's automated VRU. As of September 30, 2006, 11,227 customers successfully recertified by telephone using the VRU.

SCE is further streamlining recertification efforts by providing a "Sign and Mail" recertification application that is personalized with the customer's name, address, and account number. This new application was implemented on May 25, 2006, and allows current CARE customers to simply sign the application certifying their continued CARE eligibility. A notice is sent with this application detailing the current CARE income guidelines. This recertification application is available in English, Spanish, Korean, Cambodian, Vietnamese and Chinese.

SCE continues to expand grassroots efforts through strategic alliances. SCE plans to develop additional data systems and enhancements to CARE applications to improve the infrastructure of the system used to process applications and recertification documents. Further,

SCE believes increased marketing and communication to multi-lingual customers is consistent with Commission policy and should lead to increased CARE enrollment.

C. Description of SCE's Activities for Cool Centers

In response to the heat wave during late July 2006, SCE entered into a partnership with a Cool Center/LIHEAP agency located in one of the hottest regions within SCE's service territory to offer the loan of portable air conditioners to homebound customers to be used when the customer's cooling system was down due to replacement or repair. This effort was in direct response to the heat wave. SCE is interested in a marginal expansion of this effort with other LIHEAP agencies in order to assist customers in need during a heat crisis.

II.

CONCLUSION

SCE appreciates this opportunity to provide the Commission with updated information about the successes SCE has achieved in its LIEE and CARE programs through the Rapid Deployment effort.

Respectfully submitted,

MICHAEL D. MONTOYA

26,420,923.60

[1] Includes CARE activities absorbed by non-CARE funding sources.

[2] Includes Regulatory & Compliance and Law.

[3] Includes program management labor, overheads, and information technology support.

[4] Includes only invoices received from the Public Utilities Commission for LIEE reimbursements - 70% allocated to CARE and 30% to other LIEE.

Note: With the implementation of post PROACT rates on August 1, 2003, the 1-cent and 3-cent surcharge exemptions no longer are separate from the CARE discount. CARE customers continue to receive a discount in excess of the mandated 20%, based on post-PROACT rates adopted in D.03-07-029, but the full cost of this discount is now included in rates for recovery from other customers.

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of **SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT – MONTHLY STATUS REPORT FOR SEPTEMBER 2006** on all parties identified on the attached service list(s). Service was effected by one or more means indicated below:

Transmitting the copies via e-mail to all parties who have provided an e-mail address. First class mail will be used if electronic service cannot be effectuated.

Executed this **23rd day of October, 2006**, at Rosemead, California.

/s/ CECILIA R. JONES

Cecilia R. Jones
