Advice No. 3543  
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Update of Public Purpose Program Surcharge Rates Effective  
January 1, 2006**

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission) revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment B.

**Purpose**

This Advice Letter submits updated Public Purpose Program (PPP) surcharge rates to be effective January 1, 2006.

**Background**

This filing is being made in compliance with Ordering Paragraph (OP) 22 of Decision No. (D.) 04-08-010, in Rulemaking (R.) 02-10-001, to update on an annual basis SoCalGas' surcharge rates to fund PPP programs, as authorized by Assembly Bill (AB) 1002. AB 1002 directs the Commission to establish a gas surcharge annually to fund certain natural gas related public purpose programs such as low-income customer assistance, energy efficiency, and research and development (R&D). Revenues collected from the surcharge are remitted to the State Board of Equalization (BOE), and are ultimately appropriated back to utilities or other entities designated by the Commission to administer public purpose programs.

The Commission issued D.04-08-010 that addressed both the Phase 1 implementation issues on the gas surcharge rulemaking and Phase 2 administration of public purpose R&D. Pursuant to OP 10, SoCalGas is using the surcharge formula adopted in the decision for calculating the gas PPP surcharge rates. SoCalGas is using information provided by the Commission's Energy Division for calculating the gas surcharge rate as it relates to (1) the Commission and BOE administrative costs, (2) SoCalGas' portion of the statewide R&D budget, and (3) the interstate pipeline volumes from 2004 through the first quarter of 2005 to be used in computation of the surcharge rates as directed in D. 04-08-010. Furthermore, since SoCalGas' BCAP is more than three-years old, SoCalGas is using the three-year average for its available billed gas volumes in calculating the gas surcharge rates for the customer classes.

Revised Schedule No. G-PPPS

Schedule No. G-PPPS, as shown in Attachment B, updates the PPP surcharge rates for the costs detailed in the table below. SoCalGas' projection of program costs for 2006 reflects the amortization of the California Alternate Rates for Energy Account (CARE) balance forecasted as of December 31, 2005, forecasted 2006 CARE customer subsidy costs, and authorized CARE administration expenses and Low Income Energy Efficiency (LIEE) budget adopted in D.05-05-019<sup>1</sup> on May 13, 2005. The PPP surcharge rates also reflect an adjustment for a \$5.6 million LIEE funding shortfall, which includes interest of \$1.1 million, associated with Year 1998 as described in the section below.

The non-low income components of the PPP surcharge rates reflect the 2006 R&D budget of \$7.7 million, forecasted \$0.6 million R&D funding shortfall compared to the prior year's authorized budget level, and the energy efficiency (EE) budget adopted in D.05-09-043, reduced by amortization of the Conservation Expense Account (CEA) balance.

	(\$000)			
	CARE Costs	Non-CARE Costs	Admin Costs	Total
<u>2006 Program Budgets</u>				
LIEE		33,324.9		33,324.9
CARE	119,703.5			119,703.5
EE		44,323.2		44,323.2
RDD		7,683.7		7,683.7
<u>Administration Costs</u>				
CARE	4,108.3			4,108.3
BOE			214.1	214.1
CPUC			0	0
<u>Balancing Account Amortization - (over) / under collection</u>				
CAREA	18,470.9			18,470.9
CEA		(9,836.4)		(9,836.4)
RDDGSA (excluding interest)		601.6		601.6
<u>Other Adjustments</u>				
1998 LIEE Funding Shortfall (including interest)		5,627.1		5,627.1
Total PPP Costs	142,282.7	81,724.1	214.1	224,221.0

The PPP rates are listed for CARE and Non-CARE customers by major customer class, and reflect changes to the CARE and R&D components of the gas PPP surcharge. The 2006 PPP surcharge revenue requirement is higher by \$72.1 million (or 47.4 percent) compared to 2005, which is primarily caused by an increase in the approved EE program budget for 2006 compared to the prior year's budget level and increased in forecasted CARE amortization

<sup>1</sup> This order corrects errors appearing in Decision (D.) 05-04-052 which approves the 2005 low-income energy efficiency and CARE programs and funding for California utilities.

and subsidy costs. The impact of the updated PPP surcharge rates, by major customer class, is shown on Attachment C.

### 1998 Direct Assistance Program (DAP) Funding Shortfall

In SoCalGas' Performance Based Regulation (PBR) D.97-07-054, the Commission initially adopted SoCalGas' proposal to reduce the DAP funding from \$18 million to \$12 million. The adopted funding level was incorporated in rates effective August 1, 1997 and continued at that level into 1998<sup>2</sup>. Subsequently, by D.98-07-060, Ordering Paragraph 2, the Commission granted the Office of Ratepayer Advocates (ORA) petition to modify D.97-07-054 as follows:

2. *D.97-07-054 is modified as follows:*

- a. *The first sentence of the third paragraph at page 67 is replaced with the sentence, "We retain the \$18 million DAP funding level in recognition of the policy established in D.97-02-014."*

In D.97-02-014, Ordering Paragraph 7, the Commission directed that the annual funding for gas energy efficiency and low income assistance programs be established initially at 1996 levels. Accordingly, SoCalGas filed Advice Letter 2738 to increase the DAP funding level by \$6 million in rates effective on October 7, 1998.

Later in D.01-05-033, Ordering Paragraph 2, the Commission authorized \$14.8 million of carryover funding, including interest, associated with Years 1997-2000, for the rapid deployment of low-income assistance programs during the energy crisis. The authorized carryover funds reflected that SoCalGas had collected in rates the entire \$18 million authorized DAP funding in 1998. Since SoCalGas made the 1998 rate change on a prospective basis with no adjustment to collect the DAP funding difference for the period January 1, 1998 through the date prior to October 7, only \$13.5 million was actually collected in 1998. Nevertheless, by the end of 2002, SoCalGas had spent the authorized carryover funds as directed by the Commission in D.01-05-033 and consequently recorded an undercollection in its Conservation Expense Account (CEA) for the 1997-2003 DAP program cycle.

SoCalGas proposes to recover the \$4.5 million DAP funding shortfall including interest for the carryover funding that had been authorized by D.01-05-033. Consistent with that decision, SoCalGas requests the related \$1.1 million of interest based on the simple interest method to recover the cost of funding the program costs at authorized levels as directed by the Commission in D.01-05-033.

---

<sup>2</sup> Pursuant to Advice No. 2631 approved on October 7, 1997 and incorporated in SoCalGas' Consolidated Advice No. 2659 for rates effective January 1, 1998.

<sup>3</sup> The interest amount was determined by distributing a prorated amount of the \$4.5 million shortfall to each month of the period January through September 1998 and applying interest at the 3-month commercial paper rate from January 1, 1998 through December 31, 2005.
