Low-Income Assistance Programs.

R.04-01-006

**MONTHLY REPORT OF SOUTHERN CALIFORNIA GAS COMPANY
(U 904 G) ON RAPID DEPLOYMENT EFFORTS FOR JUNE 2006**

I. INTRODUCTION

In Decision (D.) 01-05-033 the Commission directed Southern California Gas Company (SoCalGas) and the other investor owned utilities (IOUs) to provide monthly status reports on the costs and impacts of their Rapid Deployment (RD) efforts on their California Alternate Rates for Energy (CARE) and Low Income Energy Efficiency (LIEE) programs.

On May 22, 2002, the utilities held a conference call with the Energy Division and the Office of Ratepayer Advocates (ORA) to assess Rapid Deployment (RD) Reporting. The parties agreed that the utilities would submit a full monthly RD report to the Commission every three months. The first one being the previously submitted May report and future reports due in August of 2002, November of 2002, and February of 2003 -- only certain tables and a brief narrative highlight of RD activities were required from the utilities in other months.

In April 2004, the utilities met with the Energy Division and ORA to discuss proposed changes to the reports that would eliminate all references to SBX1 5 and combine some information while retaining sufficient information for the programs to be assessed. Table column and row headings have not been changed to avoid confusion if comparisons are made with earlier reports.

In an Assigned Commissioner's Ruling dated May 5, 2004, the utilities were directed to include in their October report information on the implementation of automatic enrollment with the Department of Community Services and Development (DCSD), and then to continue to report on automatic enrollment on a quarterly basis. SoCalGas will continue to include Table 10.1 on automatic enrollment in each of its quarterly rapid deployment reports.

In D. 05-10-044, the Commission authorized CARE and LIEE eligibility standards at 200% of Federal Poverty Guidelines (FPG) for all residential programs. SoCalGas has used updated census information at 200% to estimate the number of CARE customers eligible for the month of June. An updated filing on estimated eligibility levels based on this new criteria by the IOUs is still pending.

This sixth report for program year (PY) 2006 contains information on SoCalGas' low-income programs during the month of June 2006 along with the following tables:

- Table 1 – LIEE Program Expenses
- Table 4 – LIEE Measure Installations
- Table 6 – CARE Program Expenses
- Table 10 – CARE Rapid Deployment Progress
- Table 11 – CARE Random Verification Results
- Table 16 – CARE Participation-Combined Rural and Urban

II. LOW-INCOME ENERGY EFFICIENCY (LIEE)

June Results – LIEE Installations

SoCalGas processed and expensed the installation of weatherization measures in 3,015 homes for the month of June.

The total number of appliances serviced during June was 774, which included 401 furnace repairs, 202 furnace replacements, 165 water heater repairs and 6 water heater

replacements. Year-to-date, 3,382 appliances have been serviced which is comprised of 1,946 furnace repairs, 819 furnace replacements, 600 water heater repairs and 17 water heater replacements.

For the month of June, SoCalGas processed and expensed reimbursements for 38 Energy Education Workshops with 899 participants. Year-to-date, 443 workshops have been conducted and expensed with a total of 9,917 participants.

LIEE measure and appliance installations processed and expensed during the month can be found in SoCalGas' Table 4, LIEE Measure Installations.

LIEE Leveraging and Outreach

During June, SoCalGas leveraged LIEE outreach with other Customer Assistance outreach efforts at the community events discussed in the CARE Outreach & Leveraging section below. The following summarizes additional outreach conducted for the Customer Assistance programs during June:

- SoCalGas Customer Assistance representatives attended the Low-Income Energy Efficiency Symposium in Los Angeles on June 8th. Also in attendance were representatives from various state and federal government energy agencies as well as municipal and investor owned utilities. SoCalGas officers provided opening remarks at the event and company representatives were able to discuss the various assistance programs currently available to SoCalGas customers. Over 600 Customer Assistance Program (CAP) brochures, in English, Spanish, Vietnamese, Korean and Chinese, were distributed to interested parties.

- On June 30th, SoCalGas representatives delivered a presentation to a group of students attending a Junior Blind Event. Information about SoCalGas' Customer Assistance Programs was provided to those in attendance and over 100 CARE applications and English CAPs were distributed to those in attendance.

LIEE Authorized Funding Versus Actual Expenditures

SoCalGas' LIEE Program expenditures totaled \$2 million for services processed and paid during the month of June, and \$9.5 million year-to-date. An additional \$393 thousand was spent on administration, for a year-to-date administration cost of \$1.9 million. Total costs year-to-date are 34% of budget (See Table 1).

III. CALIFORNIA ALTERNATE RATES FOR ENERGY

June CARE Enrollment Results

As of June 2006, 1,250,808 residential customers were enrolled in the CARE program, which is a net increase of 8,319 customers from May 2006. During the month of June, 18,886 new CARE applications were approved, which included 2,416 from CARE capitation contractors and 5,822 through SoCalGas' interutility agreements. (See Table 10).

CARE Outreach and Leveraging

In an effort to continue reaching out to our customer base, below are activities and events that occurred during the month of June in addition to the events reported in the LIEE June Leveraging and Outreach section above. Most of the events promote all of the assistance programs available to SoCalGas customers, which include CARE and LIEE:

- SoCalGas representatives delivered a presentation to a group of seniors and staff members at the Alta Med Senior Center in East Los Angeles on

June 1st. Information about SoCalGas' Customer Assistance Programs was provided to those in attendance and literature was distributed to all interested parties.

- On June 2nd, SoCalGas Customer Assistance representatives leveraged with SoCalGas' Customer Programs Department at the Feria del Libro event in downtown Los Angeles. Information about SoCalGas' Customer Assistance Programs was provided to those in attendance. Throughout the day over 2,100 CARE applications and 1,575 Spanish and 525 English CAPs were distributed to interested parties.
- SoCalGas Customer Assistance representatives attended the District 8 Energy Fair hosted by The American Association of Blacks in Energy – Southern California Chapter 1, held in the city of Los Angeles on June 3rd. Also in attendance was Councilman Bernard Parks and his staff, representatives from LADWP, Southern California Edison, Metropolitan Water District and the Los Angeles Police and Fire Departments. The event allowed representatives the opportunity to discuss various assistance programs currently available to SoCalGas customers. Over 300 CARE applications and 200 English and 100 Spanish CAP brochures were distributed.

SoCalGas staff members continued to distribute CAP brochures to energy technicians. Energy technicians routinely visit customers within SoCalGas' service territory, and are able to provide customers with CAP brochures during scheduled service calls. In addition, upon the customer's request, Energy Efficiency packets, which include a CARE

application and CAP brochure, are also mailed out. Further, SoCalGas also provided English and Spanish CARE posters and application forms reflecting the new income-guidelines to all Branch Payment Offices and Authorized Payment Locations (APLs). Due to the increased awareness of the low-income programs, SoCalGas continues to receive and respond to requests for CARE applications and/or CAP brochures.

CARE AUTHORIZED FUNDING VERSUS ACTUAL EXPENDITURES

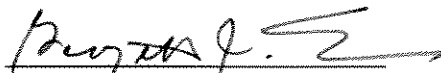

During June, CARE administrative expenses, including outreach, totaled \$247,841. Year-to-date SoCalGas has spent approximately \$1.8 million on administration which is 43% of the authorized 2006 CARE administrative budget. CARE rate and Service Establishment Charge discounts through June are \$57.3 million, which is 60% of the projected 2006 CARE discount budget.

The comparison of actual expenses to the budgeted figures for June is provided in Table 6.

IV. CONCLUSION

SoCalGas continues to implement its outreach efforts with the goal of providing LIEE services to as many qualified customers as possible and increasing CARE participation during PY2006.

Respectfully submitted,

Georgetta J. Baker
