**MONTHLY REPORT OF SOUTHERN CALIFORNIA GAS COMPANY (U 904 G) ON
LOW-INCOME ASSISTANCE PROGRAMS FOR JULY 2011**

This is the seventh monthly report of program year (PY) 2011. The purpose of this report is to consolidate activity for the CARE Program and Energy Savings Assistance Program and provide the Energy Division with all the necessary information to assist in analyzing the low-income programs.

This report presents year-to-date Energy Savings Assistance Program and CARE results and expenditures through July 2011 for Southern California Gas Company (SoCalGas).

Respectfully Submitted

/s/ Kim F. Hassan

ENERGY SAVINGS ASSISTANCE PROGRAM MONTHLY REPORT

1. Energy Savings Assistance Program Executive Summary

1.1. Energy Savings Assistance Program Overview

1.1.1. Provide a summary of the Energy Savings Assistance Program elements as approved in Decision (D.) 08-11-031:

Program Summary for Month			
	Authorized / Planning Assumptions	Actual to Date	%
Budget	\$78,256,269	\$48,192,770	62%
Homes Treated	145,874	81,518	56%
kWh Saved	N/A	N/A	N/A
kW Demand Reduced	N/A	N/A	N/A
Therms Saved	3,345,967	2,272,719	68%

During the month of July, SoCalGas and its Energy Savings Assistance Program contractor network continued to work diligently on managing the heightened workflow that the 2009-11 program cycle demands. As exhibited in the first seven months of 2011, SoCalGas and its Energy Savings Assistance Program contractors increased the number of homes treated, processed and paid in July 2011 by 37% as compared with the same 7 month period of 2010.

In July, SoCalGas processed and paid contractor invoices for 14,005 treated homes. SoCalGas also paid for the installation of weatherization measures in 10,783 homes. Energy Savings Assistance Program contractors serviced or replaced 1,422 appliances, which included 1,255 furnace repairs/replacements, 156 water heater replacements, and 2 high efficiency clothes washers.

Current efforts by SoCalGas and its Energy Savings Assistance Program contractor network have resulted in a total homes treated count that is 56% of the 2011 goal through July.

1.2 Whole Neighborhood Approach Evaluation

- 1.2.1** Provide a summary of the geographic and customer segmentation strategy employed, (i.e. tools and analysis used to segment “neighborhoods,” how neighborhoods are segmented and how this information is communicated to the contractor/CBO).

In July, SoCalGas combined efforts to provide its Energy Savings Assistance Program contractor network with an additional 90 canvassing lists using the Whole Neighborhood Approach (WNA) strategy. SoCalGas continues to offer its contractors flexibility in the planning, timing and completion of their WNA efforts. This approach, in conjunction with SoCalGas oversight and guidance, allows contractors to customize their activities to meet the needs of each neighborhood as well as the needs of each customer. Contractors are asked to document all facets of each WNA effort; total number of completed homes, customers not willing to participate, successful canvassing and / or marketing efforts, and any other information that can help increase eligible customer enrollments. This detailed accounting serves to assist both the contractors and SoCalGas with future WNA activities. Additionally, smaller geographic focus of Zip+7 areas, coupled with tracking methods take into account the amount of time contractors spend working in an area and allow SoCalGas to better monitor the success of Energy Savings Assistance Program activities from a whole neighborhood perspective. The tracking methods include detailed instructions to contractors regarding data entry in the HEAT System¹, both pre- and post-canvassing, to ensure specific information is captured. This information will be used to help SoCalGas distinguish WNA efforts from routine canvassing and also capture the disposition of WNA leads that do not result in an enrollment, (i.e., “unable to contact,” and “customer refused”).

The canvassing lists generated in July were initiated in new Zip+7 areas, not previously targeted for WNA efforts (see table below for areas). Collectively, the canvassing lists

¹ The HEAT System is SoCalGas’ Energy Savings Assistance Program database used to track program activity and expenditures.

identified an additional 24,213 customer addresses, of which 14,786 (61%) are potentially eligible based on Energy Savings Assistance Program income eligibility criteria. Additionally, based on SoCalGas data, 11,992 of the 24,213 (50%) addresses are in targeted self-certification PRIZM codes².

Number of WNA Events per City	Contractor
Anaheim – 8	Community Action Partnership of Orange County
Yucaipa – 11; Indio – 1	EASE of California
Tehachapi – 1	Garcia and Sons
Los Angeles – 19; Santa Ana – 6	Reliable Energy Management
Montebello – 11	Richard Heath Associates
Hemet – 4	Synergy Companies
Compton – 21; La Habra – 8	The East Los Angeles Community Union

Through July, SoCalGas and its Energy Savings Assistance Program contractors treated 2,030 homes through WNA activities. SoCalGas continues to involve more Energy Savings Assistance Program contractors as well as external partners in the planning of future WNA events. For future reporting, SoCalGas will continue to monitor the resulting enrollments and measure installations completed through WNA efforts. In addition, SoCalGas is actively investigating marketing, outreach, and enrollment tactics as well as geographic and customer segmentation strategies that will help increase the number of households served by the Energy Savings Assistance Program.

² Prizm codes are an area set of customer segmentation data widely used for marketing purposes in the United States. The data consist of demographic clusters that categorize every U.S. household into a segment. These segments were developed in part from the analysis of U.S. census data and categorize U.S. consumers into 14 distinct groups and 66 segments. The segments help marketers tailor content to consumers' needs and look at a variety of factors, including income, likes, dislikes, lifestyles and purchase behaviors.

1.3. Energy Savings Assistance Program Customer Outreach and Enrollment Update

1.3.1 Provide a summary of the Energy Savings Assistance Program outreach and enrollment strategies deployed this month.

Energy Savings Assistance Program Bill inserts/onserts

No bill insert/onsert campaigns were conducted during the month of July.

Energy Savings Assistance Program Direct Mailings

During the month of July, SoCalGas launched three personalized direct mail campaigns. The first campaign targeted 7,290 existing CARE and Medical Baseline customers. The second campaign targeted 1,458 households with a disabled resident. The third campaign targeted CARE residential customers eligible for the Energy Savings Assistance Program in the counties of Kern, Los Angeles, Orange, Riverside, San Bernardino, and San Luis Obispo. The large font letter used in the first two of the three campaigns was developed in English and Spanish and included information directing customers to sign up for the program by visiting the SoCalGas website or calling a toll free telephone number. The third campaign generated over 42,600 personalized letters in English and Spanish to existing CARE customers in the following zip codes: 93312; 91016; 91304; 91306; 91351; 90660; 91367; 91754; 91702; 91411; 92833; 92802; 92253; 92879; 92277 and 93401.

Energy Savings Assistance Program Outbound Dialing

Two automated voice messaging campaigns (AVM) were launched in July to over 40,328 residential CARE customers throughout SoCalGas' service territory. As a result of these campaigns, 3,172 Energy Savings Assistance Program leads were generated. SoCalGas will continue to use AVM campaigns throughout 2011 as another method to reach out and encourage customers to enroll in the Energy Savings Assistance Program.

Energy Savings Assistance Program Web Activities

In July, 33,059 customers with e-mail access were sent an e-mail promoting the Energy Savings Assistance Program. Also, 6,702 new SoCalGas customers received a welcome e-mail from SoCalGas. In addition to general information, the e-mail also included information about SoCalGas' assistance programs and encouraged customers to apply for Energy Savings Assistance Program's no-cost home improvements. For customer convenience, a direct link to SoCalGas' on-line Energy Savings Assistance Program request (lead) form was imbedded in the e-mail. As of July 31, 1,919 customers completed on-line English Energy Savings Assistance Program request form.

Ethnic and Mass Media Campaign

SoCalGas launched a seven week Ethnic and Mass Media advertising campaign for customer assistance programs starting July 11th through August 22nd. The campaign focused on English and Spanish low-income areas and used thirty second radio spots on stations throughout SoCalGas service territory. On-line pre-roll video and web banners were part of a multimedia strategy deployed to engage customers to enroll in CARE and Energy Savings Assistance Programs at www.socalgas.com/save. The advertising campaign also included a component of Out-of-Home and place based media which provides check cashing jackets to targeted hard-to-reach Hispanics in strategic check cashing locations in which over 250,000 cash jackets were printed and placed strategically throughout the territory. As an added value, 127 (2' x 3') posters were developed and available in the check cashing locations.

The advertising campaign was designed to encourage customers to visit socalgas.com/assistance website page or call the Spanish call center for more information.

1.3.2 Customer Assistance Events and Public Affairs/Public Relations Activities for the CARE and Energy Savings Assistance Program.

July 7th and July 14th – Thursdays on the Square, Palmdale

SoCalGas participated in Palmdale’s weekly, summer events. Approximately 3,000 members of the community attended the weekly fair. SoCalGas ran a booth and distributed information on its CARE, Energy Savings Assistance Program and energy efficiency programs.

July 27th - SoCalGas Bill Assistance News Release

SoCalGas’ Media Relations department held a news press release event and distributed the material to various media outlets in the SoCalGas’ service territory. The news “SoCalGas Provides Assistance for Customer Struggling with Their Bills” provided positive testimonial from a customer who received services through the Energy Savings Assistance Program and also provided messaging on ways SoCalGas can help with programs such as CARE and the Energy Savings Assistance Program. SoCalGas received great coverage from many local and ethnic media outlets including Daily Sports Seoul/Koreatown Daily, CBS Local News, Los Angeles Daily News, Palms Springs (Calif.) Desert Sun, KFWB –TV Los Angeles, Southwest Riverside (Calif.) News Network, KION-46/Fox -35, City News Service Los Angeles and Daily Sports Service (Riverside).

1.4. Leveraging Success Evaluation, Including CSD

1.4.1 Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

There are no updates from leveraging with CSD for the month of July. SoCalGas will continue to monitor discussions between CSD, CPUC and other utilities for closer collaboration and leveraging with CSD.

SoCalGas continues its efforts to meet with various municipal utilities that provide electric and water services to customers in SoCalGas' service territory to identify opportunities to leverage one another's low-income energy efficiency programs in PY2011.

Imperial Irrigation District (IID) and SoCalGas initiated a second wave of canvassing in July for the Energy Savings Assistance Program leveraging agreement. SoCalGas is monitoring the efforts and expects to show some initial results in the August Monthly Report.

In addition, SoCalGas and Burbank Water and Power (BWP) have begun work on their Energy Savings Assistance Program leveraging agreement. A second wave of canvassing began in July and SoCalGas expects to show results in the August Monthly Report.

SoCalGas and Eastern Municipal Water District (EMWD) have completed a leveraging agreement where EMWD will provide a rebate to SoCalGas for every High Efficiency Clothes Washer installed within the two utilities' joint service territory under SoCalGas' Energy Savings Assistance Program. Initial installations under the signed agreement began in December 2010 and have continued throughout 2011.

1.5. Workforce Education & Training

1.5.1 Please summarize efforts to improve and expand Energy Savings Assistance Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

SoCalGas continued its internal training programs which contribute to the goals of workforce development. SoCalGas provides two areas of training: 1) Enrollment and Assessment (E&A) and 2) Energy Savings Assistance Program Operations. The Year-to-Date results are shown in the following tables:

SoCalGas Skill-Level Test Results						
	March	April	May	June	July*	YTD Total
Attended Testing	21	40	55	99	0	315
Passed Test	15	25	34	76	0	216
Pass Rate	71.40%	62.50%	61.80%	76.80%	0	68.60%

*no skill level testing was scheduled in July

After successful completion of the Skill Level Test, the potential outreach specialist attends a mandatory 5-day class which reviews the requirements for enrollment, assessment and in-home education.

SoCalGas Enrollment and Assessment Training						
	March	April	May	June	July	YTD Total
Attended Class	24	17	25	27	21	183
Passed Class	24	17	25	26	21	178
Badged	24	17	25	26	21	170
Census Attendees	3	3	1	1	2	17
Retention Rate	100.00%	100.00%	100.00%	96.30%	100.00%	92.90%

The 5-day class covers utility-specific items related to policies, security process and overall customer service standards as well as for leveraging opportunities amongst other low-income programs. A final exam must be passed for an outreach specialist to be registered and receive a SoCalGas badge. The year-to-date total for badged outreach specialists for SoCalGas is 170. The classes are held at SoCalGas' Energy Resource Center located in Downey, California.

SoCalGas continues to see the participation of previous U.S Census employees with its E&A contractors for Energy Savings Assistance Program outreach. As of July 2011, there are a total of 17 previous U.S. Census employees who successfully attended and passed SoCalGas' outreach and assessment training.

SoCalGas field operations training includes initial training for new participants in weatherization, inspections, HVAC and NGAT. SoCalGas also provides refresher training primarily to address contractor issues and discuss new measures and procedures that have been implemented into the program. The class sizes range from 5 – 35 technicians. The table below shows the number of students that have attended class in 2011.

Class Type	April		May		June		July		YTD Total	
	No of Classes	No of Students	No of Classes	No of Students	No of Classes	No of Students	No of Classes	No of Students	No of Classes	No of Students
Initial	9	28	1	1	4	15	7	28	42	181
Refreshers	0	0	0	0	3	37	0	0	9	74
NGAT 5-Day	1	10	1	13	1	13	1	14	10	120
Grand Total	10	38	2	14	8	65	8	42	61	375

2. CARE Executive Summary

2.1. CARE Program Summary

2.1.1. Please provide CARE program summary costs.

CARE Budget Categories	Authorized Budget	Actual Expenses to Date	% of Budget Spent
Outreach	\$3,785,932	\$1,430,350	38%
Proc., Certification and Verification	\$1,248,928	\$724,815	58%
Information Tech./Programming (1)	\$522,554	\$296,232	57%
Pilots (2)	N/A	N/A	N/A
Measurement and Evaluation	\$17,192	\$0	0%
Regulatory Compliance	\$236,919	\$145,490	61%
General Administration	\$604,963	\$338,601	56%
CPUC Energy Division Staff	\$171,500	\$28,704	17%
Cooling Centers (3)	N/A	N/A	N/A
Total Expenses	\$6,587,988	\$2,964,192	45%
Subsidies and Benefits (4)	\$135,901,649	\$80,117,407	59%
Total Program Costs and Discounts	\$142,489,637	\$83,081,599	58%

2.1.2. Please provide the CARE program penetration rate to date.

CARE Penetration		
Participants Enrolled	Eligible Participants	Penetration rate
1,715,174	1,845,587	92.9%

2.2 Outreach

2.2.1 Discuss utility outreach activities and those undertaken by third parties on the utility’s behalf. (For additional CARE Outreach see section 1.3.2.)

CARE Telephone Enrollments and Recertification

During the month of July, there were 9,336 CARE customers who were scheduled to receive a reminder to recertify for CARE. In order to ensure timely notification and reduce the number of letters to customers, SoCalGas employs coordinated e-mail and AVMs to contact customers whose eligibility is about to expire. SoCalGas sent 3,187 e-mails that included a direct link to a web page wherein the customers could recertify on-line. A week later, SoCalGas deployed an automated, bilingual phone campaign. The automated system calls the customer and if the customer does not answer, the system leaves a call-back message. 979 customers renewed their eligibility via the telephone campaign during July.

CARE Web Activity & Enrollments

During July, SoCalGas received 7,005 applications through its internet-based outreach activities. These activities resulted in 2,752 new CARE enrollments through the web site and 1,519 recertifications through the web site. SoCalGas also launched an e-mail campaign that promoted the CARE program to 6,475 customers. The web site is mentioned in collateral materials, web links, electronic newsletters, select mass media campaigns and multiple public service announcements.

CARE Third-Party Enrollments & Outreach

As a result of the high unemployment rates, SoCalGas' third party contractors have been canvassing targeted neighborhoods. During the month of July, door-to-door outreach enrolled 2,327 hard-to-reach customers, who for a variety of reasons have been non-responsive to other outreach methods.

Additionally, as a result of an agreement between SoCalGas and 211 LA County, 211 continues to refer interested, potentially eligible callers to SoCalGas' CARE program as well as promote CARE and other SoCalGas assistance programs at select events. During July, LA 211 attended 6 community events with a total attendee audience of approximately 430.

CARE Direct Mail Activity and Enrollments

There were no direct mail efforts during July. The cumulative number of applications received from the February direct mail campaign is currently 37,169 in English and 5,992 in Spanish. The number of enrollments from this campaign is currently 23,325 English and 3,452 Spanish.

CARE Bill Inserts

In July, a bill insert (and CARE application form) announced the revised eligibility guidelines that went into effect on June 1st, 2011. Enrollments from this channel will be monitored during August and September.

CARE Mass Media Campaign

The summer awareness campaign kicked off in July. There are four components to the campaign: 30 second radio spots; English-Spanish Internet banners; Spanish-language “pre-rolls,” which are 30 second commercials that precede on-line entertainment programming; and cash-jackets placed at strategic locations. In addition, the media buy allowed SoCalGas’ Media Communications to be interviewed on selected television shows (CNN local edition and Univision, Bakersfield). The campaign schedule is from July 11th to August 22nd. The Internet advertising will be able to provide accurate measurements on click-through and effectiveness.

2.2.2. Describe the efforts taken to reach and coordinate the CARE program with other related programs to reach eligible customer.

To ensure continued increases in CARE enrollments and retain customers already participating in CARE, SoCalGas shares customer information with other utilities such as Southern California Edison, San Diego Gas & Electric, Pacific Gas and Electric, and the Los Angeles Department of Water and Power. During the month of July, 8,672 customers were enrolled in SoCalGas’ CARE program

as a result of inter-utility data sharing activities. Additionally, CARE shares data with internal programs such as SoCalGas' Energy Savings Assistance Program and the Gas Assistance Fund. Intra-utility efforts in July generated 2,647 CARE enrollments.

Coordinating the CARE program with other related low-income programs not only results in higher program participation rates, it also helps increase Post Enrollment Verification (PEV) activities when customer information is shared with programs such as LIHEAP. Since LIHEAP requires upfront proof of income and is a qualifying Categorically Eligible program, once CARE receives LIHEAP customer data, those customers are considered automatically eligible and their "pre enrollment verification" is used by SoCalGas to meet CARE's PEV requirements. As a result of leveraging activities during July 2011, 178 LIHEAP customers were enrolled in SoCalGas' CARE program.

2.3 CARE Recertification Complaints

There were no recertification complaints during the month of July.

20	¹ Enrollments via data sharing between the IOUs.																	
21	² Enrollments via data sharing between departments and/or programs within the utility.																	
22	³ Enrollments via data sharing with programs outside the IOU that serve low-income customers.																	
23	⁴ One-E-App is a pilot program set up by The Center to Promote Healthcare Access (the Center) and PG&E. The pilot will occur within two PG&E counties and looks to implement a strategy of automatic enrollment for low-income customers into the CARE program based on the customers' applications or reapplications for related low-income health and social welfare services. (e.g. MediCAL, Healthy Families, CALKids, etc.) The goal is to develop another means by which low income families can be introduced into the CARE program and, depending on the success of the pilot, possibly expand this pilot to other counties within PG&E's territory as well as to the other IOUs.																	
24	⁵ Not including Recertification.																	
25	⁶ Recertifications completed regardless of month requested.																	
26	⁷ The drop offs include self-declined applications, ineligible applications and closed CARE accounts.																	
27	Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
