**MONTHLY REPORT OF SOUTHERN CALIFORNIA GAS COMPANY (U 904 G) ON
LOW-INCOME ASSISTANCE PROGRAMS FOR JUNE 2011**

This is the sixth monthly report of program year (PY) 2011. The purpose of this report is to consolidate activity for the CARE Program and Energy Savings Assistance Program and provide the Energy Division with all the necessary information to assist in analyzing the low-income programs.

This report presents year-to-date Energy Savings Assistance Program and CARE results and expenditures through June 2011 for Southern California Gas Company (SoCalGas).

Respectfully Submitted

ENERGY SAVINGS ASSISTANCE PROGRAM MONTHLY REPORT

1. Energy Savings Assistance Program Executive Summary

1.1. Energy Savings Assistance Program Overview

1.1.1. Provide a summary of the Energy Savings Assistance Program elements as approved in Decision (D.) 08-11-031:

Program Summary for Month			
	Authorized / Planning Assumptions	Actual to Date	%
Budget	\$78,256,269	\$44,604,619	57%
Homes Treated	145,874	67,513	46%
kWh Saved	N/A	N/A	N/A
kW Demand Reduced	N/A	N/A	N/A
Therms Saved	3,345,967	1,241,996	37%

During the month of June, SoCalGas and its Energy Savings Assistance Program contractor network continued to work diligently on managing the heightened workflow that the 2009-11 program cycle demands. As exhibited in the first six months of 2011, SoCalGas and its Energy Savings Assistance Program contractors increased the number of homes treated, processed and paid in June, 2011 by 35% as compared with the same 6 month period of 2010.

In June, SoCalGas processed and paid contractor invoices for 10,220 treated homes. SoCalGas also paid for the installation of weatherization measures in 8,297 homes. Energy Savings Assistance Program contractors serviced or replaced 973 appliances, which included 729 furnace repairs/replacements, 128 water heater replacements, and 116 high efficiency clothes washers.

Current efforts by SoCalGas and its Energy Savings Assistance Program contractor network have resulted in a total homes treated count that is 46% of the 2011 goal through June.

1.2 Whole Neighborhood Approach Evaluation

- 1.2.1 Provide a summary of the geographic and customer segmentation strategy employed, (i.e. tools and analysis used to segment “neighborhoods,” how neighborhoods are segmented and how this information is communicated to the contractor/CBO).

In June, SoCalGas combined efforts to provide its Energy Savings Assistance Program contractor network with an additional 187 canvassing lists using the Whole Neighborhood Approach (WNA) strategy. SoCalGas continues to offer its contractors flexibility in the planning, timing and completion of their WNA efforts. This approach, in conjunction with SoCalGas oversight and guidance, allows contractors to customize their activities to meet the needs of each neighborhood as well as the needs of each customer. Contractors are asked to document all facets of each WNA effort; total number of completed homes, customers not willing to participate, successful canvassing and/or marketing efforts, and any other information that can help increase eligible customer enrollments.

This detailed accounting serves to assist both the contractors and SoCalGas with future WNA activities. Additionally, smaller geographic focus of Zip+7 areas, coupled with tracking methods that take into account the amount of time contractors spend working in an area and allow SoCalGas to better monitor the success of Energy Savings Assistance Program activities from a whole neighborhood perspective. The tracking methods include detailed instructions to contractors regarding data entry in the HEAT System¹, both pre- and post-canvassing, to ensure specific information is captured. This information will be used to help SoCalGas distinguish WNA efforts from routine canvassing and also capture the disposition of WNA leads that do not result in an enrollment, (i.e., “unable to contact,” and “customer refused”).

¹ The HEAT System is SoCalGas’ Energy Savings Assistance Program database used to track program activity and expenditures.

The canvassing lists generated in June were initiated in new Zip+7 areas, not previously targeted for WNA efforts (see table below for areas). Collectively, the canvassing lists identified an additional 58,984 customer addresses, of which 30,126 (51%) are potentially eligible based on Energy Savings Assistance Program income eligibility criteria. Additionally, based on SoCalGas data, 20,594 of the 58,984 (35%) addresses are in targeted self-certification PRIZM codes².

Number of WNA Events per City	Contractor
Montebello – 19; Rosemead – 9	ACS Group
Indio – 2	EASE of California
Riverside – 1; Rosamond – 1	Garcia and Sons
El Monte – 12	Richard Heath Associates
Delano – 8; McFarland – 2; Shafter – 2; Bakersfield – 1	Staples and Associates
Lancaster – 1; Rosamond – 2	Synergy Companies
Huntington Park – 8; Bellflower – 5; Paramount – 24; San Pedro – 16; Fontana – 17; Moreno Valley – 4; Anaheim – 45; Corona – 8	The East Los Angeles Community Union

Through June, SoCalGas and its Energy Savings Assistance Program contractors treated 1,679 homes through WNA activities. SoCalGas continues to involve more Energy Savings Assistance Program contractors as well as external partners in the planning of future WNA events. For future reporting, SoCalGas will continue to monitor the resulting enrollments and measure installations completed through WNA efforts. In addition, SoCalGas is actively investigating marketing, outreach, and enrollment tactics as well as geographic and customer segmentation strategies that will help increase the number of households served by the Energy Savings Assistance Program.

² Prizm codes are an area set of customer segmentation data widely used for marketing purposes in the United States. The data consist of demographic clusters that categorize every U.S. household into a segment. These segments were developed in part from the analysis of U.S. census data and categorize U.S. consumers into 14 distinct groups and 66 segments. The segments help marketers tailor content to consumers' needs and look at a variety of factors, including income, likes, dislikes, lifestyles and purchase behaviors.

1.3. Energy Savings Assistance Program Customer Outreach and Enrollment Update

1.3.1 Provide a summary of the Energy Savings Assistance Program outreach and enrollment strategies deployed this month.

Energy Savings Assistance Program Bill inserts/onserts

There were no bill insert/onsert campaigns conducted during the month of June.

Energy Savings Assistance Program Direct Mailings

During the month of June, SoCalGas launched a direct mail campaign targeting eligible residential customers in the counties of Kern, Los Angeles, Orange, Riverside and Tulare. The letter was developed to include information and direct customers to sign up for the program by visiting the SoCalGas website or calling a toll free telephone number. The campaign generated over 31,500 personalized letters in English and Spanish to existing CARE customers in the following zip codes: 93215, 90706, 91801, 91343, 91401, 91770, 93534, 90631, 92701, 92262, 92260, 92530, 93277 and 93291.

Energy Savings Assistance Program Outbound Dialing

An Automated Voice Messaging Campaign (AVM) was launched in June to 31,376 residential CARE customers throughout SoCalGas' service territory. As a result of this campaign, there were 1,254 Energy Savings Assistance Program leads generated. SoCalGas will continue to use AVM campaigns throughout 2011 as another method to reach out and encourage customers to enroll in the Energy Savings Assistance Program.

Energy Savings Assistance Program Web Activities³

In June, an estimated 1.5 million customers with e-mail access were sent an e-mail promoting the Energy Savings Assistance Program. Also, 30,948 new

³ SoCalGas' website is designed to comply with W3C accessibility guidelines.

SoCalGas customers received a welcome e-mail from SoCalGas. In addition to general information, the e-mail also included information about SoCalGas' assistance programs and encouraged customers to apply for Energy Savings Assistance Program's no-cost home improvements. For customer convenience, a direct link to SoCalGas' on-line Energy Savings Assistance Program request (lead) form was imbedded in the e-mail. As of June 30th, 1,845 customers completed on-line English Energy Savings Assistance Program request form.

1.3.2 Customer Assistance Events and Public Affairs/Public Relations Activities for the CARE and Energy Savings Assistance Program.

June 4th – University of Southern California (USC) Kid Watch Safety and Health Fair

SoCalGas participated in the USC Family of Schools event, which was attended by approximately 250 people. SoCalGas presented information on its CARE and Energy Savings Assistance Program. The information provided to customers was in English and Spanish. SoCalGas plans to continue nurturing a partnership with USC Family of Schools since the organization helps to bring resources to the community and most of the community members participate in the National School Lunch Program; one of the public assistance programs eligible for CARE and Energy Savings Assistance Program.

June 7th and June 8th - Public Purpose Hearings Bill Fairs

SoCalGas participated in Public Purpose Bill Fairs in San Bernardino and Orange Grove to assist customers with their gas bills, offer customer assistance information and provide them with outreach, education and assistance on energy matters. The information provided included helping customers understand energy baseline, energy conservation and safety, and avoid possible service disconnection.

June 9th - Resource Fair at Rosemead Community Center

SoCalGas participated in a Resource Fair at Rosemead Community Center. At least 30 customers who visited the SoCalGas booth were disabled. All were provided information on SoCalGas' CARE, Energy Savings Assistance Program and Medical Baseline Programs.

June 18th – California Council of the Blind, Los Angeles

As part of its continuing outreach to the visually impaired community, SoCalGas attended the Greater Los Angeles Chapter Meeting of the California Council of the Blind. During the event, Customer Assistance information in Braille was distributed and the low-income programs were discussed. In addition, SoCalGas encouraged discussion on preferred methods of contact. Not all visually impaired customers are Braille proficient; more and more receive their information on-line.

June 22nd - Media for Energy Savings Assistance Program

SoCalGas participated in an Antelope Valley media opportunity in which an Energy Savings Assistance Program recipient provided a customer testimonial about the services she received from SoCalGas' Energy Savings Assistance Program. In attendance were James C. Ledford Jr., the Mayor of Palmdale, the AV Press, which is an on-line news source, local radio stations and a handful of Spanish-language publications.

June 30th – Thursdays on the Square, Palmdale

SoCalGas participated in Palmdale's weekly, summer event. Approximately 3,000 members of the community attend the weekly fair. SoCalGas ran a booth and distributed information on its low-income and energy efficiency programs.

1.4. Leveraging Success Evaluation, Including CSD

Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

There are no updates from leveraging with CSD for the month of June. SoCalGas will continue to monitor discussions between CSD, CPUC and other utilities for closer collaboration and leveraging with CSD.

SoCalGas continues its efforts to meet with various municipal utilities that provide electric and water services to customers in SoCalGas' service territory to identify opportunities to leverage one another's low-income energy efficiency programs in PY2011.

Imperial Irrigation District and SoCalGas initiated the first wave of canvassing in June for the Energy Savings Assistance Program leveraging agreement. SoCalGas is monitoring the efforts and expects to show initial results in the July Monthly Report. A second wave of canvassing will take place in July.

In addition, SoCalGas and Burbank Water and Power (BWP) have begun work on their Energy Savings Assistance Program leveraging agreement. A first wave of canvassing of joint BWP/SoCalGas customers began in June and SoCalGas expects to show results in the July Monthly Report. Ongoing marketing and canvassing for the leveraged program will take place in July.

SoCalGas and Eastern Municipal Water District (EMWD) have completed a leveraging agreement where EMWD will provide a rebate to SoCalGas for every High Efficiency Clothes Washer installed within the two utilities' joint service territory under SoCalGas' Energy Savings Assistance Program. Initial installations under the signed agreement began in December 2010 and have continued throughout 2011.

1.5. Workforce Education & Training

1.5.1 Please summarize efforts to improve and expand Energy Savings Assistance Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

SoCalGas continued its internal training programs which contribute to the goals of workforce development. SoCalGas provides two areas of training: 1) Enrollment and Assessment (E&A) and 2) Energy Savings Assistance Program Operations. The Year-to-Date results are shown in the following tables:

SoCalGas Skill-Level Test Results						
	Feb	March	April	May	June	YTD Total
Attended Testing	51	21	40	55	99	315
Passed Test	32	15	25	34	76	216
Pass Rate	62.70%	71.40%	62.50%	61.80%	76.80%	68.60%

After successful completion of the Skill Level Test, the potential outreach specialist attends a mandatory 5-day class which reviews the requirements for enrollment, assessment and in-home education.

SoCalGas Enrollment and Assessment Training						
	Feb	March	April	May	June	YTD Total
Attended Class	46	24	17	25	27	162
Passed Class	45	24	17	25	26	157
Badged	37	24	17	25	26	149
Census Attendees	4	3	3	1	1	15
Retention Rate	80.40%	100.00%	100.00%	100.00%	96.30%	92.00%

The 5-day class covers utility-specific items related to policies, security process and overall customer service standards as well as for leveraging opportunities amongst other low-income programs. A final exam must be passed for an outreach specialist to be registered and receive a SoCalGas badge. The year-to-date total for badged outreach specialists for SoCalGas is 149. The classes are held at SoCalGas' Energy Resource Center located in Downey, California.

SoCalGas continues to see the participation of previous U.S Census employees with its E&A contractors for Energy Savings Assistance Program outreach. As of June 2011, there are a total of 15 previous U.S. Census employees who successfully attended and passed SoCalGas' outreach and assessment training.

SoCalGas field operations training includes initial training for new participants in weatherization, inspections, HVAC and NGAT. SoCalGas also provides refresher training primarily to address contractor issues and discuss new measures and procedures that have been implemented into the program. The class sizes range from 5 – 35 technicians. The table below shows the number of students that have attended class in 2011.

Class Type	March		April		May		June		YTD Total	
	No of Classes	No of Students	No of Classes	No of Students	No of Classes	No of Students	No of Classes	No of Students	No of Classes	No of Students
Initial	8	53	9	28	1	1	4	15	35	153
Refreshers	3	21	0	0	0	0	3	37	9	74
NGAT 5-Day	2	27	1	10	1	13	1	13	9	106
Grand Total	13	101	10	38	2	14	8	65	53	333

2. CARE Executive Summary

2.1. CARE Program Summary

2.1.1. Please provide CARE program summary costs.

CARE Budget Categories	Authorized Budget	Actual Expenses to Date	% of Budget Spent
Outreach	\$3,785,932	\$1,238,068	33%
Proc., Certification and Verification	\$1,248,928	\$631,239	51%
Information Tech./Programming (1)	\$522,554	\$256,241	49%
Pilots (2)	N/A	N/A	N/A
Measurement and Evaluation	\$17,192	\$0	0%
Regulatory Compliance	\$236,919	\$124,045	52%
General Administration	\$604,963	\$292,116	48%
CPUC Energy Division Staff	\$171,500	\$28,704	17%
Cooling Centers (3)	N/A	N/A	N/A
Total Expenses	\$6,587,988	\$2,570,413	39%
Subsidies and Benefits (4)	\$135,901,649	\$73,116,518	54%
Total Program Costs and Discounts	\$142,489,637	\$75,686,931	53%

2.1.2. Please provide the CARE program penetration rate to date.

CARE Penetration		
Participants Enrolled	Eligible Participants	Penetration rate
1,738,557	1,847,383	94.1%

2.2. Outreach

2.2.1 Discuss utility outreach activities and those undertaken by third parties on the utility’s behalf. (For additional CARE Outreach see section 1.3.2.)

CARE Telephone Enrollments and Recertification

During the month of June, there were 7,425 CARE customers who were scheduled to receive a reminder to recertify for CARE. In order to ensure timely notification and reduce the number of letters to customers, SoCalGas employs coordinated e-mail and AVMs to contact customers whose eligibility is about to expire. SoCalGas sent 2,737 e-mails that included a direct link to a web page wherein the customers could recertify on-line. A week later, SoCalGas deployed an automated, bilingual phone campaign. The automated system calls the customer and if the customer does not answer, the system leaves a call-back message. 1,134 customers renewed their eligibility via the telephone campaign during June.

CARE Web Activity & Enrollments

During June, SoCalGas received 8,152 applications through its internet-based outreach activities. These activities resulted in 3,100 new CARE enrollments and 1,388 recertifications. Web outreach activities also included e-mail promotions to over 5,831 customers and continual promotion of the CARE website through various collateral materials, web links, electronic newsletters, select mass media campaigns and multiple public service announcements.

CARE Third-Party Enrollments & Outreach

During the month of June, SoCalGas' third-party, door-to-door, and CARE outreach program enrolled 3,438 hard-to-reach customers, who for a variety of reasons have been non-responsive to other outreach methods. As a result of the high unemployment rates, SoCalGas' third party contractors have been canvassing neighborhoods with minimal outreach activity in previous program years.

Additionally, as a result of an agreement between SoCalGas and 211 LA County, 211 continues to refer interested, potentially eligible callers to SoCalGas' CARE

program as well as promote CARE and other SoCalGas assistance programs at select events. During June, LA 211 attended 6 community events with a total attendee audience of approximately 1,500.

CARE Direct Mail Activity and Enrollments

There were no direct mail efforts during June.

CARE Bill Inserts

There were no bill inserts during June. In July, a bill insert (and CARE application form) will announce the revised eligibility guidelines that went into effect on June 1st, 2011.

CARE Mass Media Campaign

There were no mass media campaigns during June. The summer awareness campaign will begin in July.

2.2.2. Describe the efforts taken to reach and coordinate the CARE program with other related programs to reach eligible customer.

To ensure continued increases in CARE enrollments and retain customers already participating in CARE, SoCalGas shares customer information with other utilities such as Southern California Edison, San Diego Gas and Electric, Pacific Gas and Electric, and the Los Angeles Department of Water and Power. During the month of June, 5,628 customers were enrolled in SoCalGas' CARE program as a result of inter-utility data sharing activities. Additionally, CARE shares data with internal programs such as SoCalGas' Energy Savings Assistance Program and the Gas Assistance Fund. Intra-utility efforts in June generated 1,838 CARE enrollments.

Coordinating the CARE program with other related low-income programs not only results in higher program participation rates, it also helps increase Post Enrollment Verification activities when customer information is shared with

programs such as LIHEAP. Since LIHEAP requires upfront proof of income and is a qualifying Categorically Eligible (CE) program, once CARE receives LIHEAP customer data, those customers are considered automatically eligible due to CE criteria and their “pre enrollment verification“ is used by SoCalGas to meet CARE’s PEV income requirements. As a result of leveraging activities during June 2011, 166 LIHEAP customers were enrolled in SoCalGas’ CARE program.

2.3. CARE Recertification Complaints

6/13/11 A customer attempted to recertify on-line and claims the CARE web page was confusing. The customer decided to recertify by telephone instead but was still confused about the recertification process.
Resolution: A CARE representative called the customer back to apologize for any confusion the website may have caused and to assure the customer she was correctly recertified for CARE. The customer was satisfied.

37	¹ Outreach includes costs associated with Capitation Fees, Other Outreach and Mass Media												
38	² Measurement and Evaluation consists of Needs Assessment costs												
39	³ DWR Bond Charge, CARE PPP, California Solar Initiative and kWh Exemptions have been included to reflect discounts received by CARE customers not charged to the CARE balancing account.												
40	⁴ The indirects included in this category (Pension & Benefits, Workmans Comp, Public Liability & Property Damage, Fleet, Purchasing & Warehouse) are included in the base rate and therefore are not included in the CARE Total Program Costs.												
41	⁵ November's CARE PPP Exemption is calculated as a year-to-date average as the true amount was not available by the filing deadline. November's amount will be updated for the December year-end reporting.

21	¹ Enrollments via data sharing between the IOUs.																		
22	² Enrollments via data sharing between departments and/or programs within the utility.																		
23	³ Enrollments via data sharing with programs outside the IOU that serve low-income customers.																		
24	⁴ One-E-App is a pilot program set up by The Center to Promote Healthcare Access (the Center) and PG&E. The pilot will occur within two PG&E counties and looks to implement a strategy of automatic enrollment for low-income customers into the CARE program based on the customers' applications or reapplications for related low-income health and social welfare services. (e.g. MediCAL, Healthy Families, CALKids, etc.) The goal is to develop another means by which low income families can be introduced into the CARE program and, depending on the success of the pilot, possibly expand this pilot to other counties within PG&E's territory as well as to the other IOUs.																		
25	⁵ Not including Recertification.																		
26	⁶ Recertifications completed regardless of month requested.																		
27	⁷ The drop offs include self-declined applications, ineligible applications and closed CARE accounts.																		
28	⁸ Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

6	Percentage		100.00%	84.13%	2.41%	13.46%	0.00%
7	¹ Includes sub-metered customers.						
8	² An estimated number that includes customers whom were provided with CARE self-certification and self-recertification application via direct mail, email, phone, bill insert, door-to-door delivery, utility personnel, and through outreach events.						
9	³ Approved includes customers who are approved through SoCalGas' CARE eligible probability model, data exchange, mail-in, via web, by phone, and through duplicated applications.						
10	⁴ Customers are denied due to not being CARE eligible, not customer of record, or not the customer's primary residence.						
11	⁵ Pending/Never Completed includes closed accounts, incomplete applications, and customers of other utilities who are not SoCalGas customers.						
12	⁶ SoCalGas treats duplicated applications as recertification applications. Duplicates are customers who are already enrolled in CARE and mail in another CARE application.						
13	Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
