LOW INCOME ASSISTANCE PROGRAMS MONTHLY REPORT

This monthly report complies with the low income reporting requirements established in Decision (D.)16-11-022/D.17-12-009, and with all reporting and program evaluation requirements established for the California Alternate Rates for Energy (CARE) and Energy Savings Assistance (ESA) Programs and provides information on CARE and ESA Program accomplishments and expenditures in 2021 up to and including May 31, 2021.

1. Energy Savings Assistance (ESA) Program Executive Summary

The objective of SCE's Energy Savings Assistance (ESA) Program is to help income-qualified customers reduce their energy consumption and costs while increasing their health, comfort, and safety at no cost to them. Through the ESA Program, SCE offers several energy-efficient appliances to income-qualified customers, including energy-efficient refrigerators and air conditioners, and home efficiency solutions like weatherization that can help customers save energy and money. The ESA Program is available to income-qualified customers living in single-family, multifamily, and mobile homes, including homeowners and renters. To be eligible for the program, customers must meet the program's income guidelines, which are established by the California Public Utilities Commission (CPUC) and updated annually. Specific measures are authorized according to criteria observed in each home for existing appliances and feasibility of installation.

Coronavirus (COVID-19) Program Impacts

On March 4, 2020, California Governor Gavin Newsom declared a State of Emergency to help the state prepare for the broader spread of the COVID-19 virus. On March 19, the Governor issued a "Stay at Home" order for non-essential workers.

On March 20, 2020, SCE issued a letter regarding the Operational Changes in Response to COVID-19 Pandemic. This letter suspended all face-to-face interaction between ESA Prime Contractors and SCE customers, including but not limited to customer outreach, enrollment, installation, and inspection work. This suspension was extended to April 30, 2020 and then extended further to May 31, 2020 in SCE's subsequent letters issued on April 7, 2020 and April 28, 2020.

On March 23, 2020, the CPUC issued a letter requesting the California Investor Owned Utilities (IOUs) to offer a 30-day advance payment option to Prime Contractors. To help provide assurance and mitigate financial impacts to the ESA workforce as a result of the COVID-19 work restrictions, SCE offered all eligible Prime Contractors 30-day advance payment offers and expedited payments on outstanding invoices outside of standard payment terms. SCE processed and released a total of \$2,129,470.27 in advanced payments for all the Prime Contractors that accepted the first 30-day advance payment offers and signed a binding Letter Agreement contract.

On April 7, 2020, the CPUC issued a second letter directing the IOUs to offer additional measures to ESA Prime Contractors to help sustain their workforce. The letter required the IOUs offer an additional 30-day advance payment to the ESA Prime Contractors that accepted the first 30-day advance payment offer and to offer a new 60-day advance payment to the eligible ESA Prime Contractors that did not accept the initial 30-day offer. SCE offered all eligible Prime Contractors additional 30-day or new 60-day advance payment offers and continued to expedite payments on outstanding invoices outside of standard payment terms. SCE processed and released a total of \$4,549,331.70 in advanced payments for all the Prime Contractors that accepted an additional 30-day or new 60-day advance payment offer and signed a binding Letter Agreement contract. As of April 30, 2020, SCE has released a total of \$6,678,801.97 in advance payments.

On May 21, 2020, the CPUC provided guidance on the ESA Program suspensions. The notice confirmed that ESA Program Administrators should follow the applicable state and local health orders whichever is more restrictive. Effective June 1, SCE removed the previous restrictions on face-to-face interactions between ESA contractors and SCE customers. SCE requested ESA contractors to follow SCE's safe work practices guidance at minimum as well as the most restrictive state, county, or local orders for all relevant work activities

On May 28, 2020, the CPUC issued Resolution E-5074 that ratified the Executive Director's letters to direct IOUs to offer a 60-day advance payment to ESA Contractors. The Resolution asked SCE to provide new, updated terms for offers already accepted by Contractors if necessary, to comport with the Resolution, and new updated offers for those Contractors that did not already accept a 60-day advance payment. The Resolution also modifies the calculation of a Post-Pandemic Return to Service (PPRS) credit that will be calculated as a percent of the Prime Contractor's monthly invoice and applied as a dollar credit towards the Contractor's advance payment. The PPRS credit is only earned through actual work performed in ESA eligible households for a six-month period after the suspension of in-person program activity is lifted and may only be applied to paying back advance funds that went towards labor costs and other employee costs critical to sustaining the workforce. SCE offered all eligible Prime Contractors new or updated terms to comply with the Resolution. As of June 2020, SCE has released a total of \$6,867,426.71 in advance payments.

On June 12, 2020, pursuant to Ordering Paragraph (OP) 8 of Resolution E-5074, SCE provided notice to the Prime Contractors of the proposed percentage for the PPRS Credit calculation. On June 15, 2020, SCE provided 30-day advance notice to Prime Contractors signifying July 15, 2020 as the start of the six-month PPRS credit-earning period in accordance with OP 7 of Resolution E-5074. A Joint Tier 1 Advice Letter Proposing a Reporting Template for ESA Prime Contractors and a Joint Tier 2 Advice Letter to Propose a PPRS Percentage, both in Compliance with Resolution E-5074 were filed on June 29, 2020.

On July 15, 2020, the ESA Prime Contractors were notified by email that SCE is re-evaluating the start of the six-month PPRS credit-earning period in response to Governor

Gavin Newsom's July 13th ordering of several sectors to once again shut down amid an increasingly concerning COVID-19 surge. On July 21, 2020, SCE sent a formal notice to ESA Prime Contractors stating that SCE is delaying the start of the six-month credit-earning period and has not yet decided on a date as to when the credit-earning period will begin. Additional communication will be sent to Prime Contractors regarding the timing of PPRS credit-earning period.

On September 25, 2020, a Supplemental Joint Tier 1 Advice Letter proposing a reporting template for ESA Prime Contractors in compliance with Resolution E-5074 was filed. The purpose of this joint supplemental advice letter was to provide an updated reporting template for Prime Contractors to use in their reporting of advance funds usage to the IOUs.

On October 30, 2020, SCE provided 30-day advance notice to Prime Contractors signifying December 1, 2020 as the start of the six-month PPRS credit-earning period in accordance with OP 7 of Resolution E-5074. The PPRS credit is only earned through actual work performed in ESA eligible households during the period of December 1, 2020 to May 31, 2021 and may only be applied to paying back advance funds that went towards labor costs and other employee costs critical to sustaining the workforce.

SCE continues to work with its ESA contractors throughout the COVID-19 emergency. Below are specific activities SCE has conducted:

January 2021

- Continue offering virtual ESA program enrollment option to customers. Enrollment measures are delivered or dropped off through contactless delivery.
- In January, SCE ESA contractors enrolled over 960 customers via the virtual enrollment method.

February 2021

- Continue offering virtual ESA program enrollment option to customers. Enrollment measures are delivered or dropped off through contactless delivery.
- In February, SCE ESA contractors enrolled over 1,100 customers via the virtual enrollment method.

March 2021

- Continue offering virtual ESA program enrollment option to customers. Enrollment measures are delivered or dropped off through contactless delivery.
- In March, SCE ESA contractors enrolled over 1,723 customers via the virtual enrollment method.

April 2021

- Continue offering virtual ESA program enrollment option to customers. Enrollment measures are delivered or dropped off through contactless delivery.
- In April, SCE ESA contractors enrolled over 1,320 customers via the virtual enrollment method.

May 2021

- Continue offering virtual ESA program enrollment option to customers. Enrollment measures are delivered or dropped off through contactless delivery.

- In May, SCE ESA contractors enrolled over 1,200 customers via the virtual enrollment method.
- The PPRS credit earning period ended May 31, 2021. Twenty-two (22) ESA contractors were eligible to earn PPRS credits through actual work performed in ESA eligible households from December 1, 2020 through May 31, 2021. Enrollment rates have increased each month and since February, have surpassed SCE’s post-COVID impact enrollment forecasts. PPRS credits have contributed to program ramp up as contractors continue to ramp up their operations in 2021.

1.1 Energy Savings Program Overview

1.1.1. Provide a summary of the Energy Savings Assistance Program elements

Program Summary for May			
2021	Authorized / Planning Assumptions ¹	Year-to-Date Actual	%
Budget	\$40,926,751	\$22,810,690	56%
Homes Treated	43,562	35,859	82%
kWh Saved	N/A	17,350,192	N/A
kW Demand Reduced	N/A	2,598	N/A
Therms Saved	N/A	N/A	N/A

1.2. Customer Enrollment and Outreach Update

SCE’s outreach efforts in conjunction with the ESA program contractors utilize numerous channels and innovative approaches to inform and enroll customers. The following section describes some of the methods SCE implements monthly to enroll customers and conduct outreach activities to inform customers about the ESA program.

¹Saving authorized in CPUC January 4, 2019 letter, “Disposition partially approving Southern California Edison (SCE) Company's Energy Savings Assistance (ESA) and California Alternate Rates for Energy (CARE) Mid-Cycle Update Advice Letter (AL) 3824-E, as supplemented, pursuant to Decisions (D.) 16-11-022 and (D.) 17- 12-009 and SCE advice letter 3743-E, as supplemented, pursuant to Resolution E-4885.”

1.2.1 Provide a summary of the Energy Savings Assistance program enrollment and outreach strategies deployed this month.

SCE's ESA Service Providers continue to enroll customers through tablet PCs (aka paperless enrollment) during the assessment process resulting in streamlined and expedited enrollments. The tablet PC eliminates the need for paper copies ensuring protection of customer data and helping protect the environment.

Continuing through the COVID-19 pandemic, in April there were 383 Program Representatives representing 23 Service Providers utilizing the paperless enrollment process, enrolling 10,608 households.

During the bridge funding period of January through June of 2021, the ESA program has a goal to retreat customers who are past participants in the ESA program. As such, SCE's outreach efforts in 2021 will focus on communicating to customers that have already participated, about the possibility of obtaining additional energy efficient measures. The ESA program will also continue to market to first touch, new customers that have never participated in the ESA program. The campaigns primarily focus on targeting new ESA participants as well as targeting outreach and communication to those customers eligible to be retreated. Due to increased communications coming from SCE regarding the replacement of our Customer Service Systems that took place in the month of April, the ESA program was asked to reduce by half any outbound communications until the call volumes to our Customer Contact Center have decreased and the new replacement system is stabilized. The ESA program hopes to be able to resume ESA mailers at full capacity sometime in June.

Direct Mailers

In May, SCE sent approximately 220,000 direct mailers to new and existing CARE customers and non-CARE customers with a high probability of being eligible for the ESA Program. The letters targeted customers who have not participated in the ESA program and included messaging about the ESA program's virtual option for enrollment. Each letter also provides customers with the name and phone number for their local SCE ESA program contractor, allowing contractors to directly receive information for interested customers which could lead to potential enrollments. This streamlined process also creates efficiencies for both customer and contractor.

The campaign's creative for first touch and retreatment acquisition is shown below.

Re: Service Account Number ending in «XXX» at «Service Account Address»

Dear «Customer Name»,

Did you know that with our Energy Savings Assistance program you may qualify to replace your older appliances that use lots of electricity with new energy-efficient models — for free? Whether you own or rent, the program covers all costs for purchasing and installing energy-efficient appliances and services that will help you save energy and money.

- | | | |
|---------------------------------|-----------------------|---------------------------------|
| • Refrigerator Replacement | • Smart Power Strip | • Evaporative Cooler |
| • Clothes Washer Replacement | • Smart Thermostat | • Window or Wall AC Replacement |
| • Pool Pump Replacement | • Weatherization | • Central AC Replacement |
| • Lighting – LEDs and Torchiere | • Freezer Replacement | |

How it works.

Our approved contractor will review the program and qualifying guidelines either in person or by telephone, and will let you know the no-cost energy-saving home appliances and solutions available. When a contractor visits your home, they will be taking precautions such as using protective equipment (gloves and masks), sanitizing tools, and social distancing.

Don't miss this opportunity for free appliances that use less electricity and may help lower your bill. Call your local SCE-approved contractor below, or visit sce.com/esap for more information.

Funding is limited and available on a first-come, first-served basis.

This program is available to qualified customers absolutely free.
So, don't delay. Call your local SCE-approved contractor today.

Sincerely,

Marc Ulrich
Vice President, Customer Service Operations

**Energy Savings
Assistance Program**

P.S. Say YES to free energy-saving appliances and enjoy the ongoing savings and comfort of an energy-efficient home. Funding is limited. Act now — call «1-800-999-9999».

The Energy Savings Assistance Program is funded by California utility ratepayers and administered by Southern California Edison under the auspices of the California Public Utilities Commission. Program and services are available to customers who meet specific household income guidelines or who participate in certain Public Assistance Programs. Services may not be available in all areas. Certain restrictions, such as age, size, and condition of the system or appliance to be replaced, may apply. All replacement refrigerators meet ENERGY STAR® standards and are top-freezer models without extra features, such as ice makers. Services are offered on a first-come, first-served basis until funding is expended or the program is discontinued. A copayment may be required for some services. Program may be modified or terminated without prior notice.

California consumers are not obligated to purchase any full fee service or other service not funded by this program. This program is available to both homeowners and renters who meet qualifications. Renters may be required to obtain the property owner's written permission before services are delivered.

Re: Service Account Number ending in «XXX» at «Service Account Address»

Dear Valued Customer,

As a former participant of Southern California Edison's (SCE) Energy Savings Assistance (ESA) program, we have some good news! Our program has expanded. Now you may qualify for additional energy-efficient appliances to help lower your bills. Keep in mind, whether you own or rent, the program covers all costs for the purchase and installation of the following to help you save energy and money.

- Refrigerator Replacement
- New! Clothes Washer Replacement
- Pool Pump Replacement
- Lighting – LEDs and Torchiere
- Smart Power Strip
- New! Smart Thermostat
- Weatherization
- New! Freezer Replacement
- Evaporative Cooler
- Window or Wall AC Replacement
- Central AC Replacement

How It works.

As before, our approved contractor will review the program and guidelines either in person or by telephone, and will let you know the additional energy-saving home appliances and solutions available to you under the program. When a contractor visits your home, they will be taking precautions such as using protective equipment (gloves and masks), sanitizing tools regularly, and social distancing.

Don't miss this opportunity for additional, eligible free appliances. Call your local SCE-approved contractor below, or visit sce.com/esap for more information.

Dear Douglas J.,

Whether you own or rent your home, you may be eligible to participate in the Energy Savings Assistance Program (ESAP). Under this program, income-qualified customers of SCE can receive free energy-efficient appliances, installation, and services, including:

- Refrigerator Replacement
- Clothes Washer Replacement
- Freezer Replacement
- Weatherization
- Pool Pump Replacement
- Evaporative Cooler
- Window or Wall Air Conditioner Replacement
- Central Air Conditioner Replacement
- Lighting—LEDs and Torchiers
- Smart Power Strip
- Smart Thermostat

These free appliances and services are a great opportunity to save electricity and lower your monthly bill with a more energy-efficient home. Our approved contractor will review the program either in person or by telephone. When a contractor visits your home, they will be taking precautions such as using protective equipment (gloves and masks), sanitizing tools regularly, and social distancing. Don't delay — this program is available on a first-come, first-served basis.

We've got good news! Our Energy Saving Assistance (ESA) has expanded to include more appliances and more opportunities. As a former ESA program participant you may qualify for additional energy-efficient appliances such as:

- Smart Thermostat
- Clothes Washer Replacement
- Freezer Replacement

We also provide refrigerator replacement, pool pump replacement, lighting, smart power strips, weatherization, evaporative coolers, window or wall air conditioner replacement, and central air conditioner replacement. All of these energy-saving appliances can help lower your bill.

The best part? Whether you own or rent, the program covers the cost of purchase and installation.

How Do I Get Started?

Our approved contractor will review the program and guidelines with you either in person or by telephone. Our contractors will let you know which energy-saving appliances may be available to you under this program. If the contractor needs to visit your home, they will follow strict COVID-19 precautions, such as using protective equipment and social distancing.

Don't miss this opportunity for eligible, energy-efficient, **free appliances!** While this program is free for income qualified customers, **funding is limited and available on a first come, first serve basis. Get started today.**

Sincerely,

Marc Ulrich

SCE.com Website

SCE revised its ESA Program webpage (www.sce.com/esap) to provide information, informing customers they may be eligible for other services under the ESA program even if a customer has been previously enrolled in the program. This messaging continues to direct customers to this page and allows customers to apply for the ESA program directly online. In the month of May, SCE received about 1,400 ESA related internet leads.

This messaging also provides customers with information regarding the various options to enroll in the ESA program during COVID-19. SCE contractors are conducting virtual enrollment and home assessments to minimize face to face interaction when necessary. The messaging also provides customers with assurances that when a contractor visits their homes, they will be taking precautions and ensuring they are using appropriate protective equipment, sanitizing tools regularly, and adhering to social distancing guidelines.

Are You Eligible for Free Appliances?

The Energy Savings Assistance program is designed to help you conserve energy and save money. Income-qualified customers may be eligible to receive energy-efficient appliances at no charge or a minimal charge.

- In some instances, a copayment may be required.
- If you qualify, we'll cover the costs—including installation—of new energy-efficient appliances.

Are You a Past Energy Savings Assistance Program Customer?

The Energy Savings Assistance program has expanded to include more appliances and more opportunities. As a former program participant, you may qualify for additional energy-efficient appliances. To find out if you may be eligible to receive additional measures, simply reapply to the program today. This is a limited time offer for past participants.

Does Your Household Qualify?

To be eligible for the program, you must meet the qualifications:

- Be a homeowner or renter who receives electric services through a residential meter
- Have an active SCE service account
- Meet the program eligibility requirements, including the installation requirements
- Meet either of the qualifications listed below

Other Helpful Resources

COVID-19 Work Restrictions ^

During COVID-19 work restrictions, the health and safety of our customers, contractors and communities is our top priority. SCE approved contractors are conducting virtual enrollment and home assessments to minimize face to face interaction when necessary. You can be assured that when a contractor visits your home, they will be taking precautions and ensuring that they are utilizing appropriate protective equipment (gloves and masks), sanitizing tools regularly, and adhering to social distancing guidelines.

Outbound Calls

SCE's outbound calling campaign provides customer leads directly to the ESA Program contractors for outbound calls. SCE targets the customers that receive the direct mailers each month focusing on customers who have not previously participated in the ESA Program. For the month of May, SCE did not provide any outbound calling leads to ESA contractors.

SCE is also focused on generating leads for its contractors from recent CARE participants that have never participated in the ESA program. In May, SCE provided approximately 11,000 CARE leads to ESA contractors. The ESA Program refers these new CARE customers to SCE's contractors as leads to enroll these households into the ESA Program and provide energy-saving services.

ESA contractors can use these leads to build its pipeline for customer enrollments, whether the customers prefer to enroll through the virtual program or a face to face appointment.

Inbound Calls

Customers who call SCE's customer service center are informed and referred to the ESA Program. Customers are assigned to a contractor in their service territory. The ESA contractor will then follow up on the lead and contact the customer to assess eligibility and enrollment in the ESA Program. In the month of May, SCE received around 1,200 ESA related calls.

Community Events

ESA Program contractors participate in a variety of community events to interact with customers and provide them with information about the ESA program and other Low-Income programs available to them. These types of events help increase ESA enrollments and ESA contractors will also assist the customer in completing the enrollment process. The ESA Program and its contractors did not attend any events in the month of May.

Specialized Efforts to Increase Participation

SCE is currently implementing and enhancing the below on-going efforts to reach first touch homes that have not participated in the ESA program. SCE has resumed some activity in these areas.

- The ESA program is eager to build from the success of completing the 74 HVAC replacements systems at Marine Corps. Logistics Base – Barstow in November 2020. Due to the recent surge in COVID-19 cases SCE is on hold and not yet commencing the other Military Base projects that are in the pipeline until it is safe to do so.

- Deaf and Hard of Hearing Community – Through our partner, signIFICANT, the ESA marketing flyer has received around 100 reactions by customers through various social media campaigns that signIFICANT ran for the month of May. In Addition, one lead was generated from the webinar hosted in April. Lastly, signIFICANT’s information has been added to SCE.com as an additional resource for our Deaf/Hard of Hearing Customers. This can be found on sce.com/esap under “Other Helpful Resources”:

1.3. Leveraging Success Evaluation, Including CSD

1.3.1. Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What was the result in terms of new enrollments?

SCE has reached out to CSD’s implementer of Low-Income Weatherization Program (LIWP) to inquire if there were any potential projects that could be reimbursed by SCE. With changes in eligible measure and feasibility, particularly for smart thermostats, there may be potential projects that could be reimbursed by SCE.

1.4. Workforce Education & Training

1.4.1. Please summarize efforts to improve and expand Energy Savings Assistance Program workforce education and training. Describe steps taken to hire and train low income workers and how such efforts differ from prior program years.

As part of the COVID-19 face-to-face work stoppage, Service Providers were encouraged to have their employees utilize the CBT Learning System; a licensed third-party application sponsored by SCE in partnership with SoCalGas, in which individuals take self-paced online learning courses on a variety computer-related topics and software programs.

As of May 31, 2021, there were 301 active users in the system. During the month of May CBT Learning System users successfully completed 3 courses accounting for 1.9 hours of learning instruction.

SCE contracts with a mixture of local private contractors (LPCs), community-based organizations (CBOs) and faith-based organizations (FBOs) to provide ESA program services. The organizations, many of which are in low-income and disadvantaged communities.

In May 2021, SCE's had 801 individuals that are working in support SCE's ESA Program, and 23 new individuals were added to our roles.

As of May 31, 2021, SCE had 173 active Program Representatives supporting Virtual (non-face-to-face) Enrollment and Assessment activities.

1.5. Miscellaneous

1.5.1. Tribal Penetration and Outreach Efforts

The ESA Program did not conduct its on-going outreach efforts to offer the ESA program to the tribal Communities in the month of May. However, the ESA program has engaged with SCE Local Public Affairs to discuss a revised outreach strategy aimed at contacting the remaining tribes. The ESA program is developing collateral that will be used during future outreach activities and provide an overview of the ESA program and the many benefits it can provide to the tribal Communities. Early discussions of conducting virtual assessments are still in process with the Benton & Bishop Paiute and the Bridgeport Indian colony in INYO/MONO County. In the upcoming months, SCE plans to do a small but targeted direct mail campaign to specific Tribal zip codes.

Below is a current list of the thirteen (13) tribes identified in SCE's service territory and the current status of our efforts:

Tribal Nations in SCE's Territory: Outreach Status	Treated	Refused/ Ineligible	No longer served by SCE	In progress
Timbisha Shoshone	X			
Chemehuevi	X			
San Manual Band of Mission Indians		X		
Agua Caliente Band of Cahuilla Indians		X		
Twenty-Nine Palms Band of Mission Indians		X		
Pechanga			X	
Benton Paiute				X
Bishop Paiute				X
Bridgeport Indian Colony				X
CRIT		X		
Morongo				X
Soboba				X
Tule River				X

1.5.2. Multifamily Common Area Measures (CAM)

SCE continued looking for opportunities in May 2021, working to ensure that work resumption was performed in phases to ensure that safety and COVID-19 prevention is adhered to. The chart below details CAM efforts for all activity that began in 2019 and is year-to-date:

Master Agreement Report
Southern California Edison

Sign Date from 1/1/2019 to 5/31/2021

Deed Restricted - In Progress

At present we have several projects in our pipeline. We are continuing to work with existing service providers to inform potential customers about CAM program through US mail in addition to current methods of phone and email contacts. This will ensure that the information on the program can get to more customers. SCE has completed the process of adding and onboarding two additional CAM Service Providers as we continue to expand our CAM activities.

In January, the CAM brochure was revised with the customer in mind. SCE updated the brochure with measures that were recently added to the program. These measures include parking lot lamps and smart communicating thermostats. A sample energy and cost savings calculation for hallway lighting replacement and parking lot lamps replacement was also included in the brochure. The intent of providing this information is to give customers some ideas on how much savings they can achieve when implementing these measures. The Property Owner Authorization & Affidavit (POAA) was added to the brochure for customer convenience. To sign up for the program, customers can now fill in their information, sign the form, and send it directly to SCE. The CAM service

providers received hard copies and PDF copies of the brochure that will be used when mailing and emailing potential customers.

In May, SCE continued the mailer campaign. The service providers are contacting customers that received the brochure to follow up. SCE will be tracking the result of the campaign and will report the result at a later date.

The revised brochure cover page is shown below.

EDISON
Energy for What's Ahead®

ENERGY SAVINGS ASSISTANCE PROGRAM – MULTIFAMILY PROPERTIES

Power-Up Energy Savings for Your Multifamily Property

For owners of deed-restricted multifamily properties, our Energy Savings Assistance Program (ESA) can help upgrade your property with energy-efficient technology that can substantially lower energy usage and increase your potential cost savings. And best of all, this program is offered at no cost to you or your qualified tenants.*

Under the program's Common Area Measures (CAM), we may be able to replace various measures in applicable common areas, such as laundry rooms, recreation rooms, hallways, corridors, and parking and pool areas.

To be eligible for ESA CAM, your property must meet the following criteria:

1. Be deed restricted
2. Participate in no-cost energy benchmarking — a comparison of your property's energy use with other similar multifamily properties nationwide
3. Have at least 65% of the tenants meeting the ESA Program's income eligibility requirements

* Measures and services may not be available in all geographic regions. Certain restrictions, such as age, size and condition of the system or appliance to be replaced, may apply.

Our approved ESA Service Provider will assist you in completing your eligibility, starting with the attached Multifamily Property Owner Authorization & Affidavit. For more information, call us at 1-800-736-4777.

You can help improve your tenants' residential units, too.

Under the ESA program, your eligible tenants can receive an energy assessment to have us replace their eligible, older appliances with new, energy-efficient models, including refrigerators, lighting, Smart Communicating Thermostats, and more, all for free.*

Note: If 80% of your tenants meet the ESA income eligibility requirements, every tenant unit in your building may qualify for the ESA program.

Advantages of Program Participation

- Potentially lower energy costs for both you and your tenants
- Help improve the safety of your property, both within your tenants' homes and in the property's common areas
- Increase your tenant comfort and satisfaction

1.5.3. Programmable Communication Thermostat Pilot

The PCT TOU Pilot concluded in 2020.

2. California Alternate Rates for Energy (CARE) Program Executive Summary

The CARE program is a low-income energy rate program that provides a monthly discount to qualifying households in SCE's service territory. To qualify for CARE household income must be at or below the 200% Federal Poverty Guidelines. Through CARE customers can save 30-35% a month on their electric bill. Income qualified customers include residential single-family households and customers in sub-metered residential facilities, nonprofit group living facilities, agricultural employee housing facilities, and migrant housing farm workers.

2.1. CARE Program Summary

2.1.1. Please provide CARE program summary costs

CARE Budget Categories	Authorized Budget	Expenses Year-to-Date	% of 2021 Budget Spent
Outreach	\$1,342,422	\$509,232	38%
Processing / Certification Re-certification	\$400,000	\$177,966	44%
Post Enrollment Verification (PEV)	\$300,000	\$210,594	70%
IT Programming	\$300,000	(\$307,292)	-102%
Cooling Centers	\$22,950	-	0%
Pilot (CHANGES)	\$262,500	\$207,444	79%
Studies	-	-	0%
Regulatory Compliance	\$228,831	\$91,295	40%
General Administration	\$362,833	\$478,750	132%
CPUC Energy Division Staff	\$70,000	\$90,473	129%
Total Expenses	\$3,289,534	\$1,458,462	44%
Subsidies and Benefits	\$246,046,819	\$200,427,276	81%
Total Program Costs & Discounts	\$249,336,353	\$201,885,739	81%

2.1.2. Please provide the CARE program penetration rate to date.

CARE Penetration		
Participants	Estimated Eligible Participants	Year-to-Date Penetration Rate
1,449,951	1,349,716	107.4%

2.2. Outreach

2.2.1. Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

The CARE and Family Electric Rate Assistance (FERA) outreach efforts and communications to SCE's in-language and underpenetrated areas continue to be a priority. SCE's CARE/FERA programs partner with internal departments such as Local Public Affairs (LPA), Consumer Affairs, Marketing, Corporate Communications, Strategic Engagement, and Business Solutions. SCE also conducts external outreach efforts with various chambers, foundations, faith-based and community-based organizations in different activities that target SCE's hard-to-reach customer base.

As California continues to experience the economic challenges of COVID-19, SCE continues exploring new ways to reach out to our customers whose employment status may have been affected by COVID-19. Since the commencement of the stay-at-home orders in mid-March 2020, SCE undertook many efforts to increase targeted outreach and leverage its existing protocols to inform and enroll eligible customers into applicable programs.

SCE continues to provide all customers who contact SCE's Customer Contact Center (CCC) to request payment arrangements the opportunity to sign up for CARE/FERA immediately.

Internal Outreach

SCE's CCC continues using various enrollment methods to directly enroll customers in the CARE Program during incoming calls to the center. CARE is offered on all new customer turn-on requests and/or when a customer expresses a need for help with their bill or has expressed financial hardship. CARE representatives will first offer to take the enrollment over the phone or if requested by the customer, be directly transferred to the Information Voice Response (IVR) system. The IVR allows customers who prefer a self-service option to enroll via sce.com. Additionally, if requested, the Customer Service Representative may alternately send a paper Rate Discount Application to the customer. These enrollment options provide customers with choices and maximizes their opportunity to enroll in CARE program. During the month of May, SCE continued to enroll eligible customers through CCC outreach efforts.

SCE.com Website

During the start of the stay-at-home orders, SCE revised its website (www.sce.com) and social media posts to provide specific COVID-19 messaging and continues to direct customers to these pages.

- This messaging provides customers with information to help with financial challenges due to COVID-19. Specifically, the information includes details on

CARE/FERA programs and EAF and allows customers to enroll in the CARE/FERA programs directly online.

- SCE has updated information on SCE's disaster support page (sce.com) for information on all customer protections including making payment arrangements and other assistance SCE provides for income-qualified customers.

Due to impacts related to the COVID-19 pandemic, customers may need additional resources and assistance beyond SCE/IOU programs. SCE updated www.sce.com/billhelp to include additional non-SCE assistance programs. The update includes program descriptions and direct links to the organizations' website for more information and/or enrollment.

Assistance Programs include but are not limited to the Low-Income Home Energy Assistance Program (LIHEAP); the CA COVID-19 Rental Assistance Program / Emergency Renters Assistance Program; California LifeLine; County 2-1-1 information, and low-cost broadband internet (www.everyoneon.org) as well as low-cost solar options through GRID Alternatives.

COVID-19 Rent Relief

COVID-19 Rent Relief will help income-eligible households pay rent and utilities.

[Learn More > ↗](#)

If you're a renter who has experienced financial hardship as a result of COVID-19 and meet income guidelines, you may be eligible for rent and utility bill assistance. Depending on where you live, you may apply to the program administered in your community.

[Learn More > ↗](#)

Emails

During the month of May, 150,000 direct email communications were deployed to non-CARE customers with a higher likelihood of eligibility to qualify for the rate discount. The email featured CARE program information and directs interested customers to the CARE page on sce.com. 135,000 direct emails were deployed to customers for the FERA program.

Given the ongoing COVID-19 pandemic, SCE revised the email communication to 1) inform customers about SCE's moratorium on service disconnections and offered other assistance program information via sce.com/billhelp, and 2) encourages customer to learn more about phone discount programs available to them.

The email campaign's creative is shown below.

Leveraging Current Partnerships

SCE continues to leverage its network of community-based organizations (CBOs) and faith-based organizations to promote the CARE/FERA Programs. SCE instructed its network of Agencies to promote the increase of customer outreach by way of email and telephone. This outreach includes educating customers on the number of ways to enroll in the CARE/FERA program, including utilizing SCE's website and the CCC whereby customers can instantly enroll in the programs and receive CARE/FERA discounts within the current bill cycle. SCE has also partnered with establishments such as food banks that will provide program information including SCE's CARE/FERA application to impacted individuals as part of their services. In Q1, a webinar was conducted with the Asian Pacific Community Fund and its affiliates. The webinar provided an overview of the CARE/FERA program as well as the enrollment process. SCE anticipates conducting additional webinars throughout the year.

Capitation Fee Program

The CARE/FERA Capitation Fee Program team is continuing its efforts to engage existing Capitation agencies while strategically registering additional contractors to overcome enrollment barriers, including language, culture, and special needs, to enroll the hardest-to-reach customers. Because of these efforts, the Capitation Fee Program continues to show enrollments from agencies previously inactive.

SCE currently has 63 CARE Capitation Agencies who help income qualified customer gain assistance through the CARE and FERA programs. In May capitation contractors and outbound calling efforts successfully enrolled 56 new customers in the CARE Program. Current and ongoing campaign strategies and efforts include:

- Leveraging events sponsored by communities and cultural celebrations to reach populations that may be eligible to enroll in the CARE Program.
- Partnering with SCE personnel to leverage existing SCE relationships with FBOs, CBOs, and local governments.
- Utilizing existing channels to develop creative approaches for agencies to conduct CARE/FERA outreach, including community-based virtual outreach events and fairs.

2.2.2. Describe the efforts taken to reach and coordinate the CARE program with other related low-income programs to reach eligible customers.

SCE enrolls new CARE customers through the Energy Assistance Fund (EAF) program which is an income-qualified program to help residential households pay their electric bills. In May, 243 customers who received EAF grants were enrolled in CARE. EAF is funded through voluntary donations from SCE employees, shareholders, and customers. EAF partners with the United Way of Greater Los Angeles and 80+ community-based organizations to process EAF assistance request and applications.

SCE utilizes social media such as Facebook and Instagram to promote EAF as well as inform customers on how to apply for grants. The EAF grant provides up to an additional \$100 in bill payment assistance to all income-eligible customers in SCE's service territory impacted by COVID-19.

SCE coordinates CARE enrollment with other income-qualified programs, such as ESA, LIHEAP, SoCalGas and certain water utilities. ESA participants are automatically enrolled in CARE each month. As described in this report, the CARE Program continuously makes efforts to integrate messaging with the ESA Program at outreach events, communications, and marketing campaigns to inform attendees about the ESA and CARE program available to qualifying customers.

2.3. Recertification Complaints

In response to the COVID-19 State of Emergency and associated protections, all CARE and FERA recertifications and verifications were halted. As such, SCE did not receive recertification complaints in the month of May.

2.4 Miscellaneous

CPUC Resolution M-4835 and D.19-07-015² established a permanent set of emergency disaster customer protection measures that the utilities are mandated to implement in the event of a declared emergency. In response to the mandated customer protections, SCE has implemented a CARE post-enrollment verification (PEV) freeze to low income customers impacted by the California emergencies/events for a period of one year commencing from the date the Governor of California issued an emergency proclamation due to a disaster.

Per Resolution M-3835 and D.19-07-015 below is a list of affected counties currently under emergency protections.

Date of Proclamation	Disaster Name	Affected County
08/18/2020	Lake and Apple Wildfires	Los Angeles and Riverside
09/06/2020	Creek, El Dorado, Castle, & Bobcat Fires	Fresno, Madera, San Bernardino, Tulare, and Los Angeles

² Decision Adopting an Emergency Disaster Relief Program for Electric, Natural Gas, Water and Sewer Utility Customers

Footnotes:

- Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect Program-To-Date adjustments.
- Includes exterior hard wired CFL fixtures.

10. SCE and SoCalGas are to prioritize near-term electric and natural gas savings respectively.

a. Which measures have been identified as providing the highest near-term savings, and how are they being prioritized?

SCE has identified refrigerator replacements and pool pump replacements as “Go Back” targets due to their large near term, and enduring long term, energy savings. SCE analyzed data from assessed homes that did not previously qualify for replacement of these measures to identify homes most likely to qualify for replacement of these two high impact and cost-effective measures.

11. SCE and SoCalGas should target a minimum average energy savings increase of 10 percent in the affected region as compared to pre-emergency savings for the duration of the emergency time period.

a. Please provide your methodology for establishing pre-emergency baselines and comparing average energy savings achieved in the affected regions indicate and whether any automated measurement and verification tools are being utilized or considered.

A pre-emergency baseline was established from the 2015 program year. The 2015 total kWh and kW savings in the affected region was divided by 12 to obtain an average monthly savings number of 704,000 kWh and 97kW. From this baseline, the monthly savings goal in the Aliso Canyon area will be approximately 774,000 kWh and 107 kW. The estimated monthly targets are based on previous metered consumption analysis of an average treated home.

SCE may validate the achieved savings using a bill comparison methodology as is consistently used for the ESA program for all IOUs. The pre- and post-treatment comparison of AMI consumption data for treated homes is based on the standard metered data-based measurement and verification protocols for measuring savings for ESA treated homes. The validation of achieved savings may use a combination of automated metered consumption and/or planned impact evaluation depending on the timing of data needs. The needed lag in metered consumption data analysis necessitates use of existing estimates for the required monthly reporting of program accomplishments.

b. Please also discuss your progress in achieving the 10 percent savings increase.

Since April 28, 2016, 76,881,005 kWh and 10,310 kW have been saved in the Aliso Canyon area, for an average of 20,078,872 kWh and 273 kW per month, which continues to exceed the 10 percent savings.

12. SCE's and SoCalGas' suspension of the "3MM" and "Go-Back" rules should help capture significant savings of at least 4 and 3 percent respectively on average.

- a. **Please provide your methodology for calculating average kWh saved for homes made eligible through the aforementioned rule-suspensions and indicate whether any automated measurement and verification tools are being utilized or considered.**

SCE has determined 501 kWh per month baseline kWh usage of homes in the impacted area by averaging a sample of homes on CARE in Los Angeles, Orange, Riverside, San Bernardino, and Ventura counties, an area which approximates the impacted area. SCE will strive to attain 4% savings over this baseline, while still providing *all* eligible and feasible measures to qualified homes in the identified impacted area.

See response to #11a above regarding automated measurement and verification tools.

13. SCE and SoCalGas should provide the treatment of the most energy-intensive single- and multi-family properties and target high energy using households first.

- a. **Please explain your strategy and progress identifying and targeting multi-family and high-usage homes.**

SCE continues to leverage information determined via the CARE High Usage Verification process to identify and target energy intensive single-family, multi-family and mobile home households in the impacted area. Letters are sent to customers with the name and contact phone number for their local-area ESA program contractor, allowing interested customers to receive program information and a more direct ESA enrollment. Approximately 2% of the homes treated in Aliso Canyon area are CARE high usage customers.

14. SCE and SoCalGas are to leverage program offerings outside of the ESA Program portfolio that could also achieve energy savings (such as demand response or deployment of solar thermal water heaters).

- a. **Please discuss your strategy for encouraging customer participation in other demand response programs.**

The CSI Thermal program had low participation rates and no longer has funding. SCE has ceased marketing the program.

In addition, SCE's contractor's Program Representatives continue to review the ESA Program Customer Energy Education and Resource Guide with each program enrollee at time of in-home enrollment. This Energy Education focuses on no-cost actions these

low income customers can take to save energy and reduce their bills. Included in this education is instruction on how to sign up for My Account, which provides them with additional time and money savings tools and opportunities to participate in residential energy efficiency rebate programs.

Energy Savings Assistance Program Table 1 - Expenses
Southern California Edison
Through May 2021

ESA Program:	Authorized Budget			Current Month Expenses			Year to Date Expenses			% of Budget Spent YTD

[1] Reflects the authorized 2021 Bridge Funding budget approved in SCE's Advice Letter 4053-E as supplemented by 4053-E-A.

[2] Financial data for Energy Efficiency total monthly and year-to-date expenses are obtained from EMAPS; financial data for Training Center, Inspections, Marketing & Outreach, Measurement & Evaluation Studies, Regulatory Compliance, General Administration, and CPUC Energy Division monthly and year-to-date expenses are obtained from SAP. Expenses for categories authorized to utilize unspent funds are not included in the table, refer to ESA Table 1A.

[X] Please indicate whether authorized budget includes shifted funds from previous years and/or prior program cycles. (Yes or No) If yes, please specify amount, date fund-shifting activity occurred, date of fund-shifting request and related approval is applicable.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Envelope and Air Sealing Measures may include outlet cover plate gaskets, attic access weatherization, weatherstripping - door, caulking and minor home repairs. Minor home repairs predominantly are door jamb repair / replacement, door repair, and window putty.
[2] Weatherization may consist of attic insulation, attic access weatherization, weatherstripping - door, caulking, & minor home repairs
[3] Based on approved SCE's Advice Letter 4053-E as supplemented by 4053-E-A.
[4] All savings are calculated based on Evergreen Economics "Impact Evaluation of the 2011 CA Low Income Energy Efficiency Program, Final Report," August 30, 2013
[5] Costs exclude support costs that are included in Table 1; excludes costs for common area measures; refer to ESA Table 2B.
[6] Data for Aliso Canyon includes "First Touches and Re-Treatment".
[7] Expenses for fluorescent lighting reflect installations completed on or before December 31, 2017 and invoiced in 2018.
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Standard Notes 1 - 6 (do not delete)

- Measures are customized by each IOU, see 'Table 2B-1, Eligible Measures List'. Measures list may change based on available information on both costs and benefits and may vary across climate zones. Each
- Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings.
- Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in table 2A.
- Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project.
- Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022, modified by D.17-12-009, where 65% of tenants are income eligible based (at or below 200% of
- Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.
- All savings are calculated based on the following sources:
- Multifamily Common Area statistics are under review and will be inputted as year to date once provided.

Footnotes:

* SCE's Rapid Feedback budget was used to pay for the 2020 Non Energy Benefits Study.

** Budget accommodates budget for 2022 Low Income Needs Assessment approved via an Advice Letter. The study uses bridge funding from prior cycle. The consultant is Evergreen Economics and SCE holds the statewide contract for this co-funded study. The other IOUs have not been cross-billed.

*** Consultant is APPRISE. This study has been final billed and and was paid for out of SCE's rapid feedback study budget.

IOUs - Do not delete footnotes 1-5 below.

[1] Contractor labor and labor-related costs. Post-Pandemic Return to Service (PPRS) credit eligible. Based on number of contractors eligible for PPRS credit as of last calendar day of a given month.

[2] 40% for PPRS credit calculation from Joint Tier 2 Advice Letter S654-G filed on June 29, 2020

[3] For work performed during PPRS credit-earning period, for contractors receiving advances. SCE's PPRS credit-earning period is from December 1, 2020 to May 31, 2021. (Dates will vary by IOU based on start of PPRS credit earnings period.) Only includes contractors eligible for PPRS credit as of the reporting month.

[4] Based on total monthly contractor invoices, up to maximum allowable for each contractor. Contractors who are not eligible for PPRS credit as of reporting month have a maximum allowable amount of 0.

[5] Credits may be applied at a later date than earned depending on the contractor repayment schedule.

[6] Includes repayments processed for which PPRS credits were not applied, including contractor payments returned unused or duplicate payments received from other funding sources.

Note: This table created pursuant to section 1.2.3 in Commission Resolution E-5074. This report covers the period from the issuance of advances until the last day of the month reported. Any required corrections/adjustments are reported herein and supersede results reported in prior months.

YTD Total	1,449,951	0	0.0%	0	0	0	0.0%	0.0%

¹ Includes all participants who were selected for high usage verification process.

² Includes customers verified as over income, who requested to be de-enrolled, did not reduce usage, or did not agree to be weatherized.

³ Medium (400%) and high usage (600%) customers are dropped at 60 days (2 or 3 bill cycles) for non-response to HUV (high usage income verification request). Additionally, 600% + users that have not reduced usage within the 60 day window (2 or 3 bill cycles) are removed from the program. Results may be pending due to the time permitted for a participant to respond.

⁴ Percentage of customers dropped compared to the total participants requested to provide verification in that month.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

CARE Table 4 - CARE Self-Certification and Self-Recertification Applications¹
Southern California Edison
Through May 2021

	Provided	Received	Approved	Denied	Pending/Never Completed	Duplicates
Total (Y-T-D)	149,249	84,849	72,527	3,279	56,965	3,743
Percentage	N/A	100%	85%	4%	N/A	4%

¹ Includes sub-metered customers.

² Includes number of applications SCE provided for all direct mailing campaigns, customer calls made to the call center, and other outreach methods. Because there are other means by which customers obtain applications which are not counted, this number is only an approximation.

³ Percent of received applications.

⁴ Includes all applications received and not approved.

⁵ Includes pending recertification responses.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Total calls placed to 800# recorded by SCE from May 1, 2018, through May 31, 2018, is 26. Data on calls per each one-on-one session not available.

[2] For column C, this data was provided by CHANGES contractor, Self Help for the Elderly, via CSID. This table was edited and reformatted from its original version in order to have a more consistent appearance and format with existing SCE tables.

[3] Dates listed are one-on-one case open dates as provided by CHANGES contractor. Dates do not necessarily coincide with the date of the session.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Contractor states all sessions at least 30 minutes

[2] This table was provided by CHANGES contractor, Self Help for the Elderly, via CSID. This table was edited and reformatted from its original versions in order to have a more consistent appearance and format with existing SCE tables.

[3] The numbers provided by the CHANGES contractor are for SCE and SoCal Gas **combined**, due to the combined service territory.

[4] On the Consumer Education Topic addendum of the Quarterly CHANGES Data Report of August 2018-October 2018, the number of attendees for: the Avoiding Disconnection course add up to 121, not the 119 shown on the report; CARE / FERA & Other Assistance Programs classes add up to 289, not 287 as shown on the report; Electric and Natural Gas Safety classes add up to 183, not 182 as shown on the report; Energy Conservation classes add up to 92, not 91 as shown on the report; Understanding Your Bill classes add up to 199, not 197 as shown on the report. Thus, the total shown on this table does not match the total on the Quarterly CHANGES Data Report of August 2018-October 2018.
