MONTHLY REPORT OF SOUTHERN CALIFORNIA GAS COMPANY (U 904 G) ON LOW-INCOME ASSISTANCE PROGRAMS FOR JUNE 2022

This is the sixth monthly report for program year (PY) 2022. The purpose of this report

is to consolidate activity for the California Alternate Rates for Energy (CARE) Program and

Energy Savings Assistance (ESA) Program and provide the California Public Utilities

Commission's Energy Division with information to assist in analyzing the low-income programs.

This report presents year-to-date CARE and ESA Program results and expenditures

through June 30, 2022, for Southern California Gas Company (SoCalGas).

Respectfully Submitted on behalf of Southern California Gas Company,

By: /s/ Shawane L. Lee SHAWANE L. LEE

ENERGY SAVINGS ASSISTANCE PROGRAM MONTHLY REPORT

1. ESA PROGRAM EXECUTIVE SUMMARY

1.1. ESA Program Overview

1.1.1. Provide a summary of the ESA Program elements as approved in Decision (D.)21-06-015.

On June 3, 2021, Decision (D.) 21-06-015 was issued approving the applications

of the four major IOUs and setting forth the parameters for the administration of

the CARE, Family Electric Rate Assistance (FERA) and ESA Programs for the

2021-2026 Program Cycle.¹ This report reflects the approved budget and homes

treated updates per D.21-06-015.

Program Summary for 2022 ESA Program (SF, MH, MF In-Unit)							
	2022 Authorized / Planning Assumption	Actual to Date	%				
Budget	\$116,291,772	\$49,121,737	42%				
Homes Treated	94,600	40,756	43%				
kWh Saved	N/A	N/A	N/A				
kW Demand Reduced	N/A	N/A	N/A				
Therms Saved	1,435,220*	241,747	17%				
GHG Emissions Reduced (Tons)**	7,345	1,279	17%				

* Per D.21-06-015, approved therms saved goal of 1,435,220 for PYs 2022-2026 are for the *entire* ESA Program portfolio, including Main ESA Program (SF), Multi-Family (MF) in-unit, MF Common Area Measures (CAM) and Multi-Family Whole Building (MFWB), with the singular exception of the Staff Proposal pilot. However, the actual-to-date therm count in this table does not include MF CAM. See next table, "Program Summary for 2022 ESA Program MF CAM" for actual-to-date therm savings.

** GHG Emissions Reduced calculated using EPA Greenhouse Gas Equivalencies Calculator.

¹ D.21-06-015, Ordering Paragraph (OP 3) and Attachment 1.

In June 2022, SoCalGas processed and paid contractor invoices from prior months' activity for 7,419 treated homes. Additionally, SoCalGas paid for the weatherization of 7,419 homes, 518 furnace repairs and replacements, 344 water heater repairs and replacements and 2 High Efficiency (HE) clothes washers.

Program Summary for 2022 ESA Program MF CAM							
	2022 Authorized / Planning Assumptions	Actual to Date	%				
Budget*	\$10,660,000	\$840,941	7.9%				
Properties Treated** kWh Saved	30 - 50 N/A	12 N/A	40.0% N/A				
kW Demand Reduced	N/A	N/A	N/A				
Therms Saved	N/A***	70,560	N/A				

* Authorized budget from unspent, uncommitted funds per AL 5865 filed September 17, 2021

** Properties treated estimate per AL 5865 filed September 17, 2021.

***Therms saved goal is at portfolio level.

SoCalGas has completed twelve (12) Multifamily Common Area Measure (MF CAM) projects to date in 2022, and there are fourteen (14) projects in progress. SoCalGas only reports completed projects when all phases of the project have been finalized including installation, city inspections, training, and final customer sign-off. SoCalGas is on-target to meet the properties treated goal and the SPOCs continue to build the pipeline of projects and have additional property owners participate in ESA CAM.

SoCalGas Program Pilot Plus/Deep Summary								
	2022 Authorized / Planning Assumptions	Actual to Date	%					
Budget	\$6,510,545	\$0	0%					
Homes Treated	Ramp up	0	0%					
kWh Saved	0	0	0%					
kW Demand Reduced	0	0	0%					
Therms Saved	Ramp up	0	0%					
GHG Emissions Reduced (Tons)	0	0	0%					

ESA Program Pilot Plus and Pilot Deep is a joint pilot program with SoCalGas and Southern California Edison (SCE), where pre-selected customers residing in single family homes may opt in to participate. Participants in Pilot Plus/Deep will receive measures that may help them save 5% to 50% of their energy usage. SoCalGas and SCE are currently conducting competitive solicitations to select a single third-party Program Implementer to deliver Pilot Plus/Deep gas and electric program services. A contract with the successful bidder is expected to be finalized in the third quarter of 2022, with anticipated program launch in January 2023.

1.1.2 **Program Measure Changes**

No measure changes occurred in June 2022.

1.2. ESA Program Customer Outreach and Enrollment Update

1.2.1. Provide a summary of the ESA Program outreach and enrollment strategies deployed this month.

As SoCalGas moves from the goal of homes treated to therms savings, the purpose of ongoing communications is to help build necessary awareness, recognition, and trust so that customers are willing to engage with and participate in the program. At this time, SoCalGas is concentrating efforts in ZIP codes with low ESA Program enrollment that are also Disadvantaged Communities (DACs), targeting current CARE customers who have not received ESA Program measures since 2016 in those areas. SoCalGas continued marketing and communication efforts to increase program awareness and reduce barriers that prevent customers from participating. It is anticipated that a customer's current participation in CARE may prompt them to learn more about and participate in the ESA Program.

1.2.2. Customer Assistance Marketing, Education and Outreach for the CARE and ESA Programs.

Ethnic and Mass Media Campaign

SoCalGas did not launch a paid media effort during the month of June.

<u>E- Newsletter</u>

SoCalGas did not participate in any E-Newsletter campaigns related to lowincome programs during the month of June.

Energy Savings Assistance Program - Emails

SoCalGas sent approximately 18,855 emails in June. The email included a highlevel explanation of the program, shared a list of available measures that customers may qualify for, and encouraged customers to visit the program web page or call the program's direct line to learn more.

Energy Saving Assistance Program - Direct Mailings

SoCalGas sent approximately 23,078 direct mail letters in English and Spanish in June. The letter included a high-level explanation of the program, shared a list of available measures that customers may qualify for, and encouraged customers to visit the program web page or call the program's direct line to learn more.

Energy Savings Assistance Program – Text Messaging

SoCalGas sent approximately 20,857 text messages in June. The message focused on how the customer may qualify for home improvements by professional contractors at no cost, and encouraged them to learn more using the program vanity URL (socalgas.com/Improvements).

Energy Savings Assistance Program - Bill Inserts

SoCalGas did not send any bill inserts during the month of June.

Energy Savings Assistance Program - Web Activities

There were 150 internet-generated leads for the ESA Program during the month of June from all channel activities conducted in previous months. The leads are being pursued by SoCalGas ESA Program contractors.

<u>Energy Savings Assistance Program – Social Media Activity</u>

SoCalGas did not post an ESA Program social media post in June.

<u>Community Outreach & Engagement – ESA Program and CARE</u>

SoCalGas provides customer program information regarding its interactions with the community that facilitates participation in its Low-Income Programs. On an ongoing basis, SoCalGas Regional Public Affairs meets with various community groups – representing both the general population and low-income customers. CARE and ESA Program information is distributed at the events that SoCalGas or its representatives attend. A complete listing of outreach events that SoCalGas participated in during the month of June can be found in Appendix A.

Community Based Organizations (CBOs) and Faith-Based Organizations (FBOs) also constitute a key component of the grassroots tactics. These organizations serve as trusted sources of information on the CARE and ESA Programs and provide the community with information on enrollment. A partial list of the organizations, their primary focus, and the counties and communities they serve follows. 211 LA County is a multilingual referral phone number for Los Angeles County. As a result of SoCalGas' close working relationship with 211, callers learn about the ESA Program and CARE when they are put on hold, and representatives are trained to follow up with callers on these programs, even if utility assistance was not the original purpose of the call. The organization provides monthly reporting on the categories of service calls and zip codes of the callers. In addition to operating a crisis-information helpline, 211 also attends community events, and through their relationship with SoCalGas, they discuss low-income programs as part of their outreach. During the month of June, 211 LA participated in 2 outreach events. Customer Assistance Programs were also promoted through 4 social media postings. In total, 256 callers were informed about the CARE Program, with 16 callers interested in the ESA Program.

SoCalGas Customer Assistance Programs started a collaboration with Walking Shield in February 2021. Walking Shield's mission is to improve the quality of life for families in Orange and Los Angeles Counties by coordinating programs that provide shelter, healthcare, community development support, educational assistance, employment development, and humanitarian aid. Also, through this partnership, Walking Shield provides SoCalGas Customer Assistance Program information to the community by utilizing social media platforms and newsletters, and via phone and virtual meetings with clients. In the month of June, Walking Shield held 18 one-on-one virtual/phone meetings where they discussed SoCalGas' Customer Assistance Programs, provided brochures, and explained

details of the programs. Seven (7) program applications were submitted during these meetings. Walking Shield also emailed a total of 25 participants from their education program with information on SoCalGas' Customer Assistance Programs, as well as a link to apply. On social media, CBO staff posted SoCalGas program information and links via Facebook, Instagram, Twitter, LinkedIn, and Walking Shield Scholars.

The mission of Catholic Charities of Orange County is to provide service to people in need, to promote their voice in society, and to call on the Church and all people to do the same. Catholic Charities of Orange County works with charitable services such as CalFresh (Food Stamps) Outreach/Applications Program, Camp Re-Creation For Adults And Children With Special Needs, Cantlay Food Distribution Center, Catholic Campaign For Human Development, Catholic Charities Auxiliary, Catholic Charities of Orange County, Inc., Immigration and Citizenship Center, L'arche Wavecrest, Natural Family Planning, New Hope Crisis Counseling Hotline, Snap-Ed (Nutrition Education and Obesity-Prevention Program), Society of St. Vincent De Paul and The Orange Catholic Foundation. Catholic Charities of Orange County promotes SoCalGas' Customer Assistance Programs through all these avenues. In the month of June, Catholic Charities of Orange County distributed SoCalGas Customer Assistance Programs material to 200 individuals that came to various food pantry events.

Another partnership in Orange County has been developed with Families Forward. Families Forward is an organization that has been helping families in need achieve and maintain self-sufficiency through housing, food, counseling, education, and other support services. Families Forward holds strong to its commitment to the values of dignity, empowerment, accountability, community spirit, and hope since 1984. A key factor for success is Families Forward's commitment to collaborate with many organizations to end family homelessness in Orange County, including Orange County United Way, the Commission to End Homelessness, First 5 Orange County and many other partner agencies and foundations. In the month of June, 407 families received CARE Program information during their food distribution. In addition, CAP information was posted on the Families Forward community resource page under their rental and assistance section as well as under their COVID-19 support page. These pages garnered 179 total views in the month of June.

A partnership was established in 2020 with the Center Auxiliary for Recruitment, Education and Service which is the auxiliary for the Los Angeles County + USC Medical Center. This program is also known as CARES. Los Angeles County + USC Medical Center is one of the largest public hospitals in the country ensuring that treatment is available to every member of the community. CARES is a California nonprofit corporation, providing financial support and volunteer services. Its primary mission is to benefit patients by adding comfort to their hospital stay and providing services which help the patients and their families

access quality healthcare. Through this partnership, CARES provides SoCalGas CAP information in their senior food distributions, CARES Child and Family Program, Obstetrics department and information stands placed throughout the medical center. In addition, SoCalGas will be invited to speak to staff at the medical centers who provide information to patients about the program. In June, the Los Angeles County + USC Medical Center Chaplin Department sent out 25 emails to their contacts sharing CAP information. Customer Assistance Program information was also shared with 349 individuals at two food distribution events.

To assist with grassroots outreach, SoCalGas also works with counselors from Worksite Wellness, a CBO in Los Angeles County that provides outreach to lowincome working families. Counselors visit workplaces in south Los Angeles and neighboring communities to deliver wellness seminars and discuss no-cost/lowcost health care services. While informing workers of Medi-Cal eligibility, the counselors also inform the workers of the CARE Program. In June, Worksite Wellness staff offered virtual Health Education presentations, in addition to distributing sanitation care packages, vouchers for food boxes, and supplies to low-income families. These presentations have also been made available inperson at local parks. The presentations reached 986 clients while 375 clients attended Community Health classes in-person or online last month. Staff also provided enrollment assistance to 152 families that qualified for Customer Assistance Programs based on Medi-Cal, MyHealthLA, or Covered California

participation. Enrollments are still being conducted over the phone, while others are being done in-person as the Worksite Wellness office remains open at 100% capacity.

SoCalGas also collaborates with LIFT-Los Angeles. LIFT partners with community and early childcare organizations who refer parents and caregivers to SoCalGas' services (parents can also contact LIFT directly). While these community institutions are focused on helping children develop and thrive, LIFT concentrates on engaging and supporting their parents. LIFT works to build a strong, trusted relationship with each parent and/or caregiver centering around family goals that include increasing savings and reducing debt, finding highquality educational opportunities, and securing jobs that can provide more economic stability. Members and coaches meet at least once a month to make progress towards their goals. LIFT also provides families with funds to meet emergency needs and support long-term goals and connects parents to a broader community of local resources and partnerships such as SoCalGas' Customer Assistance Programs. This month, LIFT worked to provide over 152 members with SoCalGas' CAP information. Due to the COVID-19 emergency, as of March 16, 2020, LIFT switched its programming to virtual coaching so their services to parents could continue uninterrupted. LIFT's ability to be nimble and pivot to virtual has meant that they are able to see more members virtually than the inperson meetings. Since transitioning to virtual coaching, LIFT-LA has seen an

increase in one-on-one virtual coaching sessions along with urgent wraparound supports.

In the Southeast region of Los Angeles County, SoCalGas collaborates with Human Services Association (HSA), which is a private nonprofit agency whose principal mission is to provide families with compassionate and comprehensive care to promote wellness and build strong communities. HSA was founded in Bell Gardens as an outreach effort of the Presbyterian Church USA. Today, HSA serves over 20,000 clients annually on a non-sectarian basis with a range of services that addresses the unique and shared needs of clients of all ages. During the month of June, 300 people were provided information about SoCalGas Customer Assistance Programs.

A partnership with St. Barnabas Foundation (SBSS) in Los Angeles County was formed in 2018 to assist with the growing number of older adults in SoCalGas' service territory who lack basic developmental tools. The impacts of COVID-19 have affected most events with the organization. SBSS works with vulnerable population and provides one-on-one case management phone calls where they can introduce SoCalGas' Customer Assistance Programs to clients directly as well as provide translations and answer common questions about their gas bill. In the month of June, Customer Assistance Programs were discussed with three (3) clients during one-on-one case management phone calls. Multilingual Customer Assistance Programs collateral materials were also distributed to 278 clients

during at-home meal deliveries. Digital materials were also posted to SBSS's social media profiles and website; the website page with SoCalGas program information garnered 3,600 pageviews in the month of June.

In Santa Barbara County, SoCalGas continues to work with Unity Shoppe, a CBO that serves low-income families, children, seniors, and persons with disabilities. The store-front facility in downtown Santa Barbara serves approximately 17,000 families per year. Each family meets with a counselor providing an opportunity for one-on-one discussion on SoCalGas' low-income programs. This month due to the COVID-19 emergency, Unity Shoppe did not perform in-person activities of introducing Customer Assistance Programs to their partner agencies that work in referrals of low-income clients or agencies representing schools, infant & children's programs, medical assistance programs, and veteran outreach services. However, for the month of June, Unity Shoppe was still able to provide information on SoCalGas' Customer Assistance Programs to over 1,505 participants. Due to the COVID-19 pandemic, Unity Shoppe has seen an increase in participants, and in March 2020 started efforts to respond through home deliveries which included grocery deliveries to homebound seniors and the disabled.

Ventura County has a very large population of indigenous speakers (residents who speak neither English nor Spanish, but speak various indigenous languages, such as Zapoteco or Mixteco). The Mixteco Indigena Community Organizing

Project (MICOP) reports that 20,000 indigenous speakers reside in Ventura County. To reach out to these residents and customers – primarily farmworkers and persons with limited English proficiency – SoCalGas collaborates with MICOP to extend awareness of the CARE Program. MICOP provides ongoing awareness, and SoCalGas schedules periodic sponsored events to provide direct outreach. Due to the COVID-19 pandemic, MICOP has leveraged its radio resource and has provided information on customer assistance programs through their radio stations. In June, MICOP informed 66 community members on Customer Assistance Programs via phone calls.

Also in Ventura County, SoCalGas works with Food Share Ventura County, an organization that provides food for over 75,000 people monthly. Food Share is a member of Feeding America, the nation's largest hunger-relief network of food banks, as well as the California Association of Food Banks. In the month of June, Food Share Ventura County distributed 7,349 "Emergency Box Distributions" and "Senior Kit Distributions" with SoCalGas' Customer Assistance Programs materials at various locations throughout Ventura County, as listed individually in Appendix A.

In Oxnard, SoCalGas has partnered with El Concilio, a CBO that is a service center for the rural low-income, limited, or non-English speaking community. El Concilio, transitions low-income families by providing services that integrate them into the community to assist them in becoming self-sufficient, engaged and greater contributors to the community. In June, El Concilio distributed CAP information to 298 attendees that visit their office.

In San Luis Obispo County, a partnership has been established with Center for Family Strengthening – Promotores Collaborative (CFS- Promotores Collaborative). This organization aims to develop a sustainable, diverse, and comprehensive culture that promotes equal access to community resources and services among all members of the Hispanic community in San Luis Obispo County. The Promotores are provided with the tools needed to work as advocates, change agents, and partners with local agencies for positive change. Through this partnership, 20 Promotores located in Paso Robles, San Miguel, Shandon, Atascadero, San Luis Obispo, Los Osos, Five Cities and Nipomo have been trained on the SoCalGas CARE Program. The Promotores are actively participating in food bank distributions and use that platform to inform customers on SoCalGas Customer Assistance Programs. In addition, CAP information is disseminated in parenting classes and support programs as well as their social media outlets.

A new collaboration recently began with The Link Family Resource Center (The Link) in San Luis Obispo County. The Link provides support to accessing food, housing, clothing, health care, and parent education. The Link also assists with navigating the social services system for mental health services, disability benefits, drug and alcohol recovery, adoption and guardianship support and family reunification. The Link is disseminating CAP information to the community members in San Luis Obispo.

In our Southern Desert region, SoCalGas partners with FIND Food Bank. FIND Food Bank is the Desert's regional food bank and is the only regional food bank serving eastern Riverside and southern San Bernardino Counties. FIND distributes over 12 million pounds of food assistance annually to an average 90,000 individuals each month across the service area. FIND operates 22 FIND Mobile Market Distributions and a network of over 66 community-based partners whose programs include food pantries, soup kitchens, after-school and summer care, senior centers, Faith-Based Organizations, and homeless shelters. Through its affiliations with Feeding America and the California Association of Food Banks, FIND represents the Desert Community at regional, state, and national levels to advocate for the most vulnerable populations suffering from food insecurity. For the month of June, FIND Foodbank's partnership with SoCalGas led to 2,250 one-on-one outreach opportunities to present SoCalGas' CAP information in six (6) of the coverage areas they serve. This month the following coverage areas were visited: Coachella, Desert Hot Springs, Indio, Mecca, Palm Desert, and Palm Springs.

In the Eastern San Fernando Valley, SoCalGas has developed a collaborative effort with El Nido Family Source Centers. El Nido is regarded as a nonprofit leader in Los Angeles – an integral part of the fabric of the communities it serves – providing critical social services in the most disadvantaged and under-resourced neighborhoods of LA County. With more than 90 years of experience and with programs that serve ethnically diverse clients of all ages – from newborns to toddlers to teens and into adulthood – El Nido transforms the lives of tens of thousands of vulnerable individuals across Los Angeles each year. Staff distributed information regarding SoCalGas' Customer Assistance Programs to 528 individuals that visited/received assistance at their site for the citywide Emergency Rental Assistance Subsidy Program, Temporary Rent Subsidy for tenants in the City of Los Angeles who are unable to pay rent due to circumstances related to the COVID-19 pandemic.

In the Southeast region of Los Angeles County, SoCalGas partners with Southeast Community Development Corporation (SCDC), a non-profit organization addressing the serious social and economic issues existing in the Southeast's eight member cities of Bell, Bell Gardens, Commerce, Cudahy, Huntington Park, Maywood, South Gate, and Vernon. SCDC was created based on the belief that community problems must be solved by the community itself and is committed to utilizing resources within the community. With local funding sources, SCDC has continued to be a strong investment in the communities it serves. SCDC has a history of managing community projects and producing positive results. It has organized bus shuttles for the cities of Montebello and Huntington Park, administered a federally funded home renovation project for the city of Huntington Park, administered a 2020 Census Questionnaire Assistance Center,

distributed loans through the Small Business Micro Loan Program, administered a business assistance center, formed a Southeast Health Coalition, and co-sponsored a college scholarship program and college conference fair for students in the Southeast area. The organization has since expanded to the rest of the county and works as a resource in many different areas including education and enrollment of customers into SoCalGas' Customer Assistance Programs. For the month of June, due to COVID-19, SCDC has changed its programing and provided one-on-one assistance to customers over the phone and online, discussing Customer Assistance Programs.

Since 1980, Inner City Law Center (ICLC), a non-profit law firm, has provided free legal services to the vulnerable residents of Los Angeles. ICLC promotes access to decent, safe, and fully habitable housing for the enormous number of homeless and working-poor families and individuals residing in Los Angeles' inner city neighborhoods. It is the only full-time provider of legal services headquartered on Skid Row, fighting for justice for low-income tenants, working poor families, immigrants, people who are living with HIV/AIDS or are disabled, and veterans. In June, through their partnership with SoCalGas, information regarding SoCalGas' Customer Assistance Programs was distributed to 72 tenants to new Rent Escrow Account Program (REAP) units and habitability-potential buildings. ICLC did not receive any inquiries with additional questions.

This year, SoCalGas has entered into a new partnership with ONEgeneration, a non-profit focused on providing intergenerational care and services. Operating throughout the western San Fernando Valley, ONEgeneration serves a variety of constituents and communities. These range from low-income, homebound, and medically frail senior citizens to developmentally disabled or at-risk youth to infants and children up to six years old. They also service diverse, multiethnic communities, with program participants speaking a number of languages. In June, ONEgeneration hosted or attended nine (9) community events where staff provided collateral materials and information about Customer Assistance Programs to attendees. Their bi-monthly newsletter was also distributed electronically to 8,000 households.

In 2021, SoCalGas also began partnering with Veterans Legal Institute. Based in Orange County, Veterans Legal Institute facilitates pro bono legal assistance to homeless, at-risk, disabled, and low-income current and former service members. Through their core values of outreach, compassion, leadership, empowerment, and quality advocacy, their organization aims to overcome barriers for veteran self-sufficiency. In the month of June, Veterans Legal Institute participated in two (2) events where SoCalGas Customer Assistance Programs information was distributed to 48 attendees and created two social media posts seen by 144 people online. Additionally in June, 181 online Customer Assistance Programs applications were emailed to Veterans Legal Institute clients, which included a

detailed message and link to the SoCalGas Customer Assistance Programs website.

In partnership with SoCalGas, The Vietnamese Community of the Southern Californians (Viet SoCal) works to promote assistance programs to Vietnamese communities in Orange County and across Southern California. Viet SoCal publishes local Vietnamese news online, advocates for Vietnamese residents, and offers community-based programs. In June, informational materials about SoCalGas Customer Assistance Programs were distributed to 31 families at a food bank event. Materials were also distributed to 576 participants attending eighteen workshops providing information on U.S. citizenship. Viet SoCal also published information about Customer Assistance Programs daily in their newspapers, *Nguoi Viet* and *VietMy*. Additionally, VietSoCal's partnership with Radio Bolsa allowed dissemination of SoCalGas programs information to thousands of listeners on a weekly basis.

SoCalGas Customer Assistance Programs was able to commence a partnership with MEND poverty (MEND). MEND established operations in Pacoima, where it continues to provide food, clothing, one-on-one case management and support services to low-income individuals and families. For 50 years, MEND has continuously served the most vulnerable in the community, including those who are homeless, unemployed/under-employed, very low income, and older adults.

In June, MEND disseminated Customer Assistance Programs information through their food distributions, wellness food deliveries and case management calls.

In the month of June, SoCalGas Customer Assistance Programs continued its collaboration with Goodwill Industries of Orange County. Goodwill works to enhance people's dignity and quality of life by strengthening their communities, eliminating their barriers to opportunity, and helping them reach their full potential through learning and the power of work. Local Goodwill organizations are innovative and sustainable social enterprises that create job training programs, employment placement and other community-based programs by selling donated clothing and household items in more than 3,300 Goodwill stores. Goodwill of Orange County is assisting SoCalGas Customer Assistance Programs by displaying CAP information in their stores and resource centers as well as educating their employees on these programs. In the month of June an estimated 78,051 flyers were distributed to customers at various Goodwill locations in the cities of Anaheim, Westminster, Santa Ana, Fullerton, Garden Grove, and Cypress.

SoCalGas attended three (3) Community Steering Committee (CSC) meetings in collaboration with the South Coast Air Quality Management District (SCAQMD). In observance of Assembly Bill 617 (AB 617), SoCalGas presented on Customer Assistance Programs to three AB 617 Community Boundaries. The first CSC meeting was held on May 5th and SoCalGas Customer Assistance programs were

presented to the San Bernardino and Muscoy communities. The second CSC meeting was held on May 19th and presented to the East Los Angeles, Boyle Heights, and West Commerce communities. Finally, the June 16th presentation was shared with the Eastern Coachella Valley community. Approximately 76 participants including members of the SCAQMD attended each meeting. The meeting was also shared with each AB 617 community following the presentation.

Tribal Outreach Activity

The COVID-19 pandemic has continued to hamper SoCalGas' ability to conduct in-person outreach with the majority of its partners and organizations, including as it relates to Tribal Outreach. There are 20 Federally Recognized Tribes within SoCalGas' service territory, of which only seven have residential gas service meters, and are primarily on leased lands. SoCalGas' outreach efforts focus on working with tribal organizations and members in order to help build awareness on SoCalGas' Customer Assistance Programs (ESA, CARE, Medical Baseline, Etc.) and build trust amongst the community despite the majority not having access to natural gas service.

SoCalGas engages in ongoing collaborative outreach efforts with Southern California Indian Center (SCIC). SCIC is a non-profit organization focused on serving and promoting self-sufficiency in American Indian, Alaskan Native and Native Hawaiian communities across Los Angeles, Orange and Riverside Counties. Their constituency consists of the largest concentration of American

Indian/Native Alaskans in the United States, covering over 350 tribal groups. They are particularly dedicated to supporting community efforts in workforce development, youth education, family support, and multimedia training. Details regarding specific events that took place during the month of June can be found in Appendix A.

Disability Community Outreach

SoCalGas continues to work with organizations in the disability community such as Fiesta Educativa, an organization that focuses on helping Latino families that have family members with special needs. This organization performs disability outreach and community events in Los Angeles, Riverside, San Bernardino, and Orange Counties. In the month of June, Fiesta Educativa continues to hold virtual workshops through Zoom due to the COVID-19 emergency. The areas covered are Los Angeles, Arcadia, Whittier, Monterey Park, and San Gabriel.

SoCalGas also has an ongoing partnership with Blindness Support Services Inc., an organization that has a specialized history of providing direct program services to individuals who are blind or visually impaired on a one-on-one basis. The organization provides assistance in Riverside and San Bernardino counties and works with individuals who have visual impairments to become more independent and adapt to the challenges they face. The counselors have been trained on the CARE and ESA Programs and have a plan in place to provide outreach and enrollment in SoCalGas' programs. Due to the COVID-19 emergency, Blind

Support Services has changed its programming to provide one-on-one assistance through mail and phone calls. In June, Blind Support Services provided one-onone touchpoints to 45 households with seniors and individuals with disabilities, providing them with information on SoCalGas' Customer Assistance Programs.

In addition, SoCalGas works with Southern California Resource Services for Independent Living (SCRS-IL). A cross-disability, non-residential, disability rights organization, SCRS-IL empowers people with any disability to live full and independent lives by committing to building an inclusive community that recognizes the dignity, humanity and worth of all people. Through comprehensive Independent Living and Employment Services provided by well-trained staff, the unified center supports people with disabilities in transforming their lives through their own choices of how they live, work and participate in their community. SCRS-IL is committed to the founding principles of independent living, selfadvocacy and personal empowerment. During the month of June, SCRS-IL was able to disseminate Customer Assistance Program information to 540 community members through their PPE distributions.

Frank D. Lanterman Regional Center (Lanterman) is one of 21 regional centers in the state of California that together serve individuals with, or at risk for developmental disabilities and their families. Lanterman is a private, non-profit, that operates under contract with the State of California through the Departmental of Developmental Services. Lanterman offers lifelong services and supports for approximately 11,500 individuals with developmental disabilities. Lanterman Regional Center works together with client, families, services providers, and communities to provide quality services and supports that address an individual's unique strengths and needs. Lanterman's service area includes Hollywood-Wilshire, Central Los Angeles, Glendale, Burbank, La Cañada-Flintridge, La Crescenta and Pasadena. Lanterman holds training events for the following cultural groups throughout its service area: Korean, Filipino, Armenian and Hispanic. Most of the clients are at or below the national poverty level. Through the SoCalGas partnership, CAP information is provided to all individuals seeking assistance through the Lanterman regional center. During the month of June, Lanterman Regional Center facilitated four (4) weekly food distributions and distributed 25 boxes.

Based in the City of Los Angeles, Disability Community Resource Center (DCRC) partners with SoCalGas to further their mission of supporting peer-led programs and services for people with disabilities. The organization is a Center for Independent Living, imparting to its constituents self-determination, accessible styles of living, and the fullest possible participation in community life. Among its initiatives, DCRC recruits persons with disabilities as staff members, assists with coordinating events and activities for local disability communities, and advocates public policy eliminating discrimination or other barriers for persons with disabilities. In the month of June, DCRC staff distributed Customer

Assistance Program information at four (4) weekly food distribution events to 72 individuals with their fresh produce.

SoCalGas Customer Assistance Programs collaborates with OC Autism Foundation (OCAF). OCAF directly impacts the lives of children and adults who are affected by Autism Spectrum Disorder and their families. OCAF's goal is to educate, empower & employ individuals affected by Autism and other related disabilities and their families. In the month of June, OCAF had one (1) major community event in Brea. Through this event, customer assistance programs information was distributed to approximately 250 attendees. This month, OCAF was able to distribute CAP information to over 200 contacts through their crisis call line. They also shared Customer Assistance Program information on their social media channels and via the OC Health & Education Talkshow every Tuesday on Channel 56.10, YouTube, FB Live and www.littlesaigontv.com. A June Facebook and Instagram post with CARE information was posted for OCAF's 2,359 Facebook followers and 553 Instagram followers. OCAF has a monthly newsletter that reaches over 5,250 OCAF members and a monthly Kids Club subscription program that reaches over 300 members. Both the newsletter and subscription program include SoCalGas customer assistance programs links. Details regarding specific Disability events that took place during the month of

June can be found in Appendix A.

Outreach by Field Employees

Although some temporary restrictions regarding entering customers' homes due to health and safety concerns remain in place, field service employees continue to distribute CAP brochures to customers when entering customer premises. Throughout the year, the CAP Outreach Team has distributed supplemental deliveries to individual bases on an as-requested basis. SoCalGas launched an automated system that allows operating bases to request CAP brochures directly which has continued through the month of June. This option is in addition to the regular system-wide semi-annual deployment of CAP brochures to operating bases.

1.2.3. Managing Energy Use

Throughout the ESA Program enrollment and assessment process, program representatives discuss energy use with customers to tailor delivery of energy education to each individual customer. For example, educating the customer on recommended thermostat settings ensures their home remains comfortable, their energy use decreases, and their furnace does not have to work unnecessarily hard. Customers are also provided guidance on various energy industry labels such as EnergyGuide and ENERGY STAR which may assist customers in determining the appropriate appliances for their home. These and many other details and tips are offered through verbal discussions and either a physical Energy Education Guide or an online version of the Energy Education Guide.

1.2.4. Services to Reduce Energy Bill

Prior to ESA Program enrollment, customers are informed of the potential energy and bill savings that they would benefit from by having their home serviced by an ESA Program contractor. As mentioned above, throughout enrollment, assessment, and energy education customers are informed of ways to reduce their energy use and energy bills. In addition to discussing the benefits of the ESA Program, customers are also informed of other customer assistance programs including CARE, which provides a 20% discount on their energy bill. Finally, the principal benefit of installing ESA Program measures is to reduce energy consumption and provide bill savings.

1.3. Leveraging Success Evaluation, Including CSD

In 2022, leveraging opportunities with municipalities and water agencies remains a high priority in providing comprehensive energy savings to joint customers, especially for those customers not in a joint IOU service territory. SoCalGas is able to provide administrative and co-funding opportunities to electric and water providers who might otherwise not offer these energy savings measures.

Water leveraging agreements provide the ability for water agencies to capture water savings through the co-funding opportunities. Year to date, \$44,010 has been co-funded to support the installation of High-Efficiency (HE) clothes washer and other related water measures. Some water agencies also co-fund low-flow shower heads, faucet aerators, thermostatic shower valves and tub spouts. The participating water agencies include:

- Eastern Municipal Water District
- Fontana Water Company²
- Liberty Utilities, formerly Park Water Company³
- Metropolitan Water District (MWD)
- San Gabriel Valley Water Company⁴
- California American Water
- Moulton Niguel Water District
- Elsinore Valley Municipal Water District
- Western Municipal Water District
- Rancho California Water District

For the purpose of helping mitigate the impact of drought in the state, SoCalGas recently

entered into an agreement with MWD to provide installations of cold-water measures

such as premium efficiency toilets and smart irrigation controllers through SoCalGas'

ESA Program. These measures will be provided to SoCalGas' customers in MWD's

territories until June 30, 2024 or budget exhaustion.

In addition to the water leveraging opportunities, SoCalGas is working with municipal

electric providers through the ESA Program. SoCalGas administers programs for the

following municipal electric providers:

- Anaheim Public Utilities
- Colton Public Utilities

² Fontana Water Company serves the following communities: Fontana, Rialto, Rancho Cucamonga, Ontario, and unincorporated areas of San Bernardino County.

³ Liberty Utilities, formerly Park Water Company, serves the Compton/Willowbrook, Lynwood, and Bellflower/Norwalk water systems.

⁴ San Gabriel Valley Water Company serves the following communities: Arcadia, Baldwin Park, El Monte, Industry, Irwindale, La Puente, Montebello, Monterey Park, Pico Rivera, Rosemead, San Gabriel, Santa Fe Springs, South El Monte, West Covina, Whittier and unincorporated portions of Los Angeles County, in the communities of Bassett, Hacienda Heights, Los Nietos and South San Gabriel.

- Pasadena Water and Power
- Riverside Public Utilities

Providers have reported 2022 activity noted below. Some of the electric measures installed include LEDs, Smart Power Strips, Torchiere Lamps, A/C Tune-ups, Refrigerator Assessment, Duct Testing & Sealing and Room A/C Replacement.

Qualifying measures vary per electric provider and availability of funding.

Municipal Electric Provider	Participating Customers
Anaheim Public Utilities	97
Colton Public Utilities	0
Pasadena Water and Power	2
Riverside Public Utilities	350
Total	449

Affordable Broadband

California Emerging Technology Fund (CETF) is currently promoted on SoCalGas' website (socalgas.com/Assistance and socalgas.com/Asistencia) and via monthly CARE emails to residential customers. In addition to promoting CETF via marketing channels, SoCalGas includes CETF information in ongoing CBO training presentations. SoCalGas will continue to cross-promote affordable broadband messaging when relevant and appropriate. The ESA Program is also actively working with CETF to include CETF promotional flyers in SoCalGas Energy Education kits in the coming months.

1.3.1. Please provide a status of the leveraging effort with CSD. What new steps or programs have been implemented? What were the results in terms of new enrollments?

SoCalGas continues to explore opportunities to collaborate with various organizations and key stakeholders, including the California Department of

Community Services & Development (CSD), to leverage program enrollment. On April 2, 2019, SoCalGas and CSD executed a Low-Income Weatherization Program (LIWP) cost reimbursement agreement for installation of qualifying ESA Program measures to eligible customers.

1.4 Workforce Education & Training

1.4.1 Please summarize efforts to improve and expand ESA Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

SoCalGas provides two (2) areas of training: 1) Enrollment and Assessment

(E&A); and 2) ESA Program Field Operations. In response to COVID-19

restrictions, SoCalGas completed development of an online E&A curriculum in

May 2020. Implementation of the curriculum as well as online testing began in

June 2020. SoCalGas began presenting field operations training online in

September 2020 and is continuing to address certain challenges due to the

technical nature of the subject matter.

1.5 Studies and Pilots

1.5.1 ESA Program Studies

2022 Low Income Needs Assessment (LINA) Study

The Low-Income Needs Assessment (LINA) is a mandated study required to be completed every three (3) years per AB 327 and PUC Sec. 382(d). The 2022 LINA is focused on understanding the energy needs of California's large lowincome renter population including those living in single family homes as well as different types of multifamily properties. In particular, the study will (a) identify renter needs (or a lack of needs) addressed or not addressed by the program (b) identify needs among specific sub-groups of renters, (c) outline program, policy and market barriers and potential solutions to serving the rental market, and (d) as appropriate, recommend how ESA Program may better assist renters with the bill savings and/or mediate Health/Comfort/Safety (HCS) Hardships. The study is expected to employ multiple methods of data collection and analysis including review of existing research, analysis of existing secondary data, collection, and analysis of survey data with rental customers and interview data with renters and landlords of different types of properties.

The California Investor-Owned Utilities (IOUs) awarded the project to Evergreen Economics in January 2021, through a competitive bidding process. Southern California Edison (SCE) is the lead utility of the study.

Currently, Evergreen Economics is conducting interviews with landlords. The study is on track to be completed by December of 2022 as planned.

Categorical Eligibility Study

The IOUs operate three (3) energy assistance programs for income qualified households. The three (3) programs include two (2) reduced rate programs, the CARE and FERA Programs, as well as the direct install ESA Program.

Categorical programs are means-tested low-income assistance programs⁵ in which the customer's income is verified by the appropriate state and federal agencies. All low-income programs allow categorical program participations to be eligibly enrolled.

⁵ See Public Assistance Programs via: <u>California Alternate Rates for Energy CARE | SoCalGas.</u>

The Categorical Eligibility study is to evaluate relevant categorical programs and analyze how the eligibility requirements and process of the categorical programs align with the income guidelines of the ESA Program, CARE and FERA. The statewide Study Working Group has finalized the Scope of Work for the study. The Request for Proposal (RFP) was published in February. The IOUs and ED have scored all proposals and selected a consultant for this project through a competitive bidding process. San Diego Gas and Electric (SDG&E) is the lead utility of this study. The study will kick off in July 2022 and is scheduled to be completed by December of 2022.

ESA Program CAM Process Evaluation

The process evaluation has two (2) primary interrelated objectives: (1) To assess the relative effectiveness of the IOUs' current Multifamily Common Area Measures (MF-CAM) delivery and implementation strategies, and provide recommendations where improvements could be made and; (2) to identify what data currently exist and may be needed to assess performance and success as defined by the core objectives of the initiative. Results and recommended data collection that are later incorporated into program implementation processes will facilitate more reliable evaluations of the impacts of common area measures installed in multifamily properties. In addition, results of the process evaluation are expected to inform future program designs targeting the low-income MF sector. The IOUs awarded the project to Resources Innovation (formerly Nexant Inc.) in July 2021, through a competitive bidding process. Pacific Gas & Electric (PG&E) is the lead utility of the study.

To date, Resources Innovation has completed a project mid-point memo. A public presentation was conducted in February. The remaining tasks for the process evaluation include participant surveys and in-depth interviews, California Public Utilities Commission (CPUC) and tenant interviews, creating customer journey maps, and identifying data collection needs to support the recommended impact evaluation approach. The IOUs are currently reviewing the draft report. The study is on track to be completed by July of 2022, following a third stakeholder workshop to present overall study findings and the publication of a final report.

1.5.2 ESA Program Pilot

SoCalGas had no pilot activity in June.

2. CARE PROGRAM EXECUTIVE SUMMARY

2.1. CARE Program Overview

CARE Budget Categories	Authorized Budget	Actual Expenses to Date	% of Budget Spent
Outreach	\$4,216,431	\$1,484,898	35%
Processing, Certification and			
Verification	\$2,425,658	\$849,905	35%
Information Tech./Programming	\$1,063,935	\$362,325	34%
Pilots	\$80,000	\$0	0%
CHANGES	\$437,502	\$147,425	34%
Studies	\$62,500	\$0	0%
Regulatory Compliance	\$610,337	\$201,216	33%
General Administration	\$1,111980	\$513,863	46%
CPUC Energy Division Staff	\$77,250	\$37,656	49%
Total Expenses	\$10,085,593	\$3,597,287	36%
Subsidies and Benefits	\$139,583,569	\$113,801,148	82%
Total Program Costs and Discounts	\$149,669,162	\$117,398,435	78%

2.1.1. Please provide CARE Program summary costs.

2.1.2. Provide the CARE Program enrollment rate to date.

CARE Enrollment		
Participants Enrolled Eligible Participants Enrollment Rate		
1,790,408	1,605,166	112%

CARE My Account Activity & Enrollments

In accordance with D.17-12-009, CARE Program enrollment was integrated within My Account in September of 2017, where applications are now processed in real-time.⁶ Once logged into My Account, customers receive message center alerts notifying them that they can apply to the CARE Program if they are eligible, or that they are due for recertification or post-enrollment verification (PEV), depending on their CARE status. Customers may then visit a dedicated CARE Program page within My Account where application processes including enrollment, recertification and PEV are available in English and Spanish. CARE customers may also opt-out of the program if they no longer qualify.

This implementation has increased CARE enrollments, reduced manual processing of applications, and improved customer service by providing real-time status updates and application confirmation. Since its inception, there have been 291,076 successful enrollments, 119,684 recertifications, 7,000 post-enrollment verifications and 20,614 opt-outs. Activity for June is as follows:

CARE My Account Activity					
Transactions Approved % Approved					
Self-certification	4,787	3,865	81%		
Re-certification	3,633	3,494	96%		
PEV	50	39	78%		
Customer opt-out	1,600	N/A	N/A		

⁶ D.17-12-009 at 45-46 and OP 2.

CARE CSR Enrollment Initiative

In its PY2015-2017 Application, SoCalGas requested CARE enrollment through Customer Service Representatives (CSRs) when customers call the Customer Contact Center (CCC) to turn-on or back-on service, or to make payment arrangements. D.16-11-022 was issued in November 2016 and in January 2017, SoCalGas' CARE and IT departments began the planning, design, and creation of a CARE template adjacent to both the turn-on and payment extension templates and used specifically by the CCC. Thorough testing, and training of the CSRs took place during the fourth quarter of 2017. CSRs began taking CARE applications over the phone at midnight on February 23, 2018.

During the month of June 2022, CSRs successfully enrolled 9,562 customers in CARE. An additional 2,365 customers preferred to receive a CARE application in the mail. Through this effort, CARE enrollment from inception via the CCC is at 564,571 with an additional 200,338 mailed applications.

There have been no issues reported; however, SoCalGas' CARE department will continue to obtain feedback from the CCC regarding this process. Any issues or concerns reported by the CSRs will be reviewed, and where needed, process changes will be implemented to ensure an even greater customer experience. **CARE** Recertifications

To encourage recertification onto the CARE Program, SoCalGas mails letters to customers as their recertification date approaches. If the customer does not renew their certification, SoCalGas mails a second letter. Customers are given 90 days to respond and complete the request. During the month of June, SoCalGas processed a total of 4,011 on-line renewals.

2.2. Marketing & Outreach

2.2.1. Discuss utility marketing activities and those undertaken by third parties on the utility's behalf.

CARE Emails & Enrollments

Due to the increase in the number of customers with an available email address on file, SoCalGas prioritizes email communication whenever possible to deliver messages in a timely and cost-effective manner. During the month of June, SoCalGas sent approximately 10,561 emails to new customers with a probability of being eligible for the CARE Program. A total of 1,625 customers enrolled using the link within this email. A total of approximately 18,848 emails were sent to existing SoCalGas customers who may qualify for the CARE Program and 9,016 enrolled using the link within this email.

SoCalGas also sends monthly re-apply emails to recapture customers who have fallen off the CARE Program. SoCalGas sent approximately 9,613 emails

encouraging these customers to re-apply in June. 2,430 customers re-applied online using the link from the email they received.

CARE Text Messages & Enrollments

SoCalGas texts the CARE link to customers with valid mobile phone numbers encouraging them to apply online. In June, SoCalGas sent approximately 18,741 text messages to new customers, existing customers not on CARE, and customers needing to recertify to remain on the program. A total of 2,132 enrollments were generated from text messages sent.

CARE Direct Mail Activity & Enrollments

During the month of June, SoCalGas sent approximately 14,807 direct mail letters to new customers deemed likely to be eligible for the CARE Program. The letters encouraged customers to enroll online. SoCalGas mailed approximately 25,000 letters directing customers who are not on CARE but who have a high probability of being qualified for CARE, to also enroll online. Additionally, to reach customers who previously participated in the CARE Program but failed to recertify, SoCalGas sends direct mail letters encouraging customers to re-apply online and renew their monthly bill discount. In the month of June, SoCalGas mailed approximately 15,286 letters to customers who failed to renew their CARE eligibility. As of April 2019, SoCalGas no longer mails paper applications with direct mail letters. Rather, the letters direct customers to apply online and resulted in 1,843 online enrollments processed in June. These online enrollments are generated when a customer organically searched for and visits the CARE homepage.

CARE Bill Inserts

SoCalGas did not send a bill insert in the month of June. SoCalGas approved 22 bill insert applications from prior months in June.

CARE Social & Mass Media Campaign

SoCalGas did not launch a paid media campaign in June.

2.2.2. Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

CARE Third-Party Enrollments & Outreach

SoCalGas employs third-party bilingual (English and Spanish) contractors to canvass targeted neighborhoods to enroll customers on CARE. These canvassers generated 1,016 approved enrollments in June.

In addition to canvassers, CBOs and FBOs constitute a key component of the grassroots tactics. These organizations serve as trusted sources of information on the CARE Program and provide the community with information on enrollment. If a customer is already on the CARE Program, these organizations remind

customers to recertify when notified. During the pandemic, these partners have become even more important to help reach customers to obtain information on SoCalGas' assistance programs, and many CBOs have modified their outreach procedures to comply with COVID-19 related recommendations and mandates to continue to serve those in need. For a partial list of the organizations, their primary focus, and the counties and communities they serve, please refer to **Section 1.2.2** above.

CARE Data Sharing

To maximize new CARE enrollments and to retain customers already participating in CARE, SoCalGas shares customer enrollment information with other utilities such as Southern California Edison (SCE) and San Diego Gas & Electric (SDG&E). During the month of June, 5,111 customers were enrolled in SoCalGas' CARE Program as a result of inter-utility data sharing activities. Additionally, CARE shares data with internal programs such as SoCalGas' ESA Program and the Gas Assistance Fund (GAF). Intra-utility efforts in June generated 1,486 CARE enrollments. Coordinating the CARE Program with other related low-income programs not only results in supporting program participation rates, it also helps increase PEV activities when customer information is shared with programs such as the Low-Income Home Energy Assistance Program (LIHEAP). Since LIHEAP requires upfront proof of income and is a qualifying Categorically Eligible program, once CARE receives LIHEAP customer data, those customers are considered automatically eligible and their "pre-enrollment

43

verification" is used by SoCalGas to meet CARE's PEV requirements. There were 268 customers enrolled through leveraging during the month of June.

California Lifeline

On April 14, 2020, SoCalGas received a request from the Energy Division (ED) to incorporate co-marketing of the California Lifeline program as part of increased CARE outreach marketing initiatives responding to COVID-19. Per directive from the ED, where feasible and appropriate, new CARE marketing and outreach materials promoted discounted phone services and referred SoCalGas customers to California Lifeline <u>https://www.californialifeline.com/en</u> and the pilot program <u>https://www.boostmobile.com/plans/cpuc-boost-mobile</u> that connected CARE participants with an active Lifeline promotion. Per direction from the Commission, the CPUC/California Lifeline limited-duration pilot program ended as of June 30, 2021. Therefore, SoCalGas continued to promote California Lifeline but removed promotions of the Boost Mobile pilot program.

In June, SoCalGas continued to display the California Lifeline web link provided by the ED to the top of its CARE webpage. SoCalGas CARE outreach and marketing initiatives direct traffic from all media, including social media and print campaigns to the CARE webpage, and is therefore an optimal placement of the California Lifeline information, allowing for broader awareness. In June, SoCalGas also sent emails to new customers, existing customers not on CARE, and customers needing to re-apply for CARE with information about California LifeLine.

2.3. CARE Recertification Complaints

2.3.1. Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

There were no recertification complaints in the month of June.

2.4. Studies and Pilots

2.4.1. CARE Program Studies

2022 Low Income Needs Assessment (LINA) Study

See Section 1.5.1 above.

Categorical Eligibility Study

See Section 1.5.1 above.

CHANGES Evaluation

The Community Help and Awareness of Natural Gas and Electricity Services (CHANGES) program was established as a pilot in 2011 to provide in-language energy-related (electric and natural gas) outreach, education, and resolution of needs and disputes, to limited-English proficient (LEP) consumers residing in the

four Investor-Owned Utility (IOU) territories⁷.

As per Commission decisions, the CHANGES program is subject to regular

evaluations. The following frames the scope of the evaluation.

- "The evaluation will focus on the benefits and cost-effectiveness of CHANGES services delivered to customers, including comparisons to similar initiatives nationwide."
- "On an informational basis, the evaluation will also identify best practices that utilities can adopt to avoid or address the problems CHANGES customers face and identify ways in which customer information can be used to inform CPUC proceedings."
- "The evaluation of CHANGES should also consider whether in the areas served by SMJU (Small Jurisdictional Utilities), CARE funding from the SMJU CARE budget should be provided to support CHANGES activities in those areas if funding for CHANGES has not been provided "On Budget" in those areas."
- <u>D.21-06-015</u>, OP 21 requires that the evaluation, "...include a determination of the most appropriate funding source for the CHANGES program based on the beneficiaries of the program."⁸

The IOUs and ED selected Opinion Dynamics in January 2022 as the evaluator of

this study through a competitive process. PG&E is the lead of this study. The

study was kicked off in March 2022, and scheduled to complete in October 2022.

Opinion Dynamics will present the final Research Plan at the stakeholder

workshop in July 2022.

⁷ The Four IOUs include: Pacific Gas and Electric (PG&E), Southern California Edison (SCE), Southern California Gas (SCG) and San Diego Gas & Electric (SDG&E). ⁸ D.21-06-015, OP 21.

CARE Program Pilot

LI Decision 21-06-015 ordered the joint IOUs to conduct a coordinated six month

PEV Outbound Call Pilot to assist customers in completing the verification

process. The pilot began June 1, 2022 and will conclude on December 1, 2022.

Within three months post pilot, each IOU is ordered to submit a Tier 2 advice

letter with all information the IOU believes is relevant to evaluation of the pilot,

including:

- Number of CARE customers who submitted incorrect PEV documentation or attempted but failed to verify during the pilot.
- Number of CARE customers contacted by the Outbound Call Pilot.
- Number of CARE customers who were successfully ushered through the PEV process by the Outbound Call Pilot.
- Success rate (households successfully ushered through PEV process after attempting but failing on their own, divided by total households contacted through effort) broken down by month and for the overall pilot.
- Cost benefit analysis of pilot, including the incremental cost associated with the expansion of outbound calls and the estimated marketing, outreach, and admin. funds saved from having to avoid recapturing eligible households who failed PEV.
- Other benefits customers received by participating in the pilot, if any.
- Recommendation on whether the pilot should conclude, be continued, expanded, or turned into a permanent effort, and the reasons why (i.e., low results, not cost effective).

APPENDIX A – CUSTOMER ASSISTANCE PROGRAM outreach events

CBO Outreach Events

Event Date &	Event Name	Event Location	Event Information
Organization			
June 1 (FoodShare of Ventura County)	Senior Kit Distribution	Pleasant Valley Senior Center- Camarillo	Community Based Organization (CBO) event staff provided information regarding SoCalGas' Customer Assistance Programs (CAP). CAP materials were distributed to approximately 193 attendees.
June 1 (Via Care)	4755 Vaccine Clinic	Los Angeles	CBO staff provided information regarding SoCalGas' Customer Assistance Programs. CAP materials were distributed to approximately 5 attendees.
June 1 (FoodShare of Ventura County)	Senior Kit Distribution	Faith Lutheran Church- Moorpark	CBO staff provided information regarding SoCalGas' Customer Assistance Programs. CAP materials were distributed to approximately 38 attendees.
June 1	Riverside County Elder and Dependent Adult Abuse Symposium	Riverside	SoCalGas event staff provided information regarding SoCalGas' Customer Assistance Programs. CAP materials were distributed to approximately 250 attendees.
June 1 (LAC + USC Medical Center)	Email Blast by LAC + USC Chaplin Department to community partners	Virtual	CBO staff provided information for SoCalGas' Customer Assistance Programs. CAP brochures were sent via email to 25 individuals.
June 1 (ONEgeneration)	ONEgeneration monthly newsletter	Virtual	CBO staff provided information regarding SoCalGas' Customer Assistance Programs. CAP information was distributed via newsletter. Subscription Reach – 8,000 households

^[1] Reflects authorized funding per D.21-06-015 dated June 3, 2021, but does not include authorized budget for Pilot Plus and Deep Pilot program in the amount of \$6,510,545 shown on ESA Summary tab.

^[2] Authorized budget for MF CAM PV study is not included here on Table 1, but funded out of MF CAM unspent funds from previous cycle per AL 5744. However, actual costs along with all other applicable M&E funded studies costs are included here in Table 1 and also listed on Table 6.

Note 1: In January 2021, a manual adjustment was made to exclude a net accrual/reversal debit amount of \$1,995,518 for contractor costs related to all ESA Program measure categories associated to December

2021 activities. This amount will be incorporated in 2021 costs as reported in the SoCalGas' Annual Report filed May 2022.

Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Note 2: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] All savings are calculated based on the following sources: DNV-GL "Energy Savings Assistance (ESA) Program Impact Evaluation Program Years 2015-2017." April 26, 2019.

[2] Microwave savings are from ECONorthWest Studies received in December of 2011.

[3] Includes Faucet Aerators and Low Flow Showerheads

[4] Includes Water Heater Blankets and Water Heater Pipe Insulation

[5] Envelope and Air Sealing Measures may include outlet cover plate gaskets, attic access weatherization, weatherstripping - door,

caulking and minor home repairs. Minor home repairs predominantly are door jamb repair / replacement, door repair, and window putty.

[6] Weatherization may consist of attic insulation, attic access weatherization, weatherstripping - door, caulking, & minor home repairs.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

ESA Program - Multifamily Common Area	Electric		Gas	Total	
Administration				\$ -	
Direct Implementation (Non-Incentive)		\$	-	\$ -	
Direct Implementation		\$	840,941	\$ 840,941	< <includes costs<="" measures="" th=""></includes>
TOTAL MF CAM COSTS	\$ -	\$	840,941	\$ 840,941	

[1] Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022 where 65% of tenants are income eligible based on CPUC income requirements of at or below 200% of the Federal Poverty Guidelines.

[2] Measures are customized by each IOU, see 'Table 2B-1, Eligible Measures List'. Measures list may change based on available information on both costs and benefits and may vary across climate zones. Each IOU should fill out Table 2B as it pertains to their program. Table 2B-1 Column A should match Table 2B Column A for eligible (not canceled) measures.
 [3] Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.
 Savings estimates are sourced from the PY2015 to 2017 ESA Impact Evaluation; Energy Division instructed the IOUs to use these results for 2019 and 2020 savings estimates.

[4] All savings are calculated based on the following sources:

DNV-GL "Energy Savings Assistance (ESA) Program Impact Evaluation Program Years 2015-2017." April 26, 2019. [5] Microwave savings are from ECONorthWest Studies received in December of 2011.

[6] Envelope and Air Sealing Measures may include outlet cover plate gaskets, attic access weatherization, weatherstripping - door, caulking and minor home repairs. Minor home repairs predominantly are door jamb repair / replacement, door repair, and window putty.

[7] Refers to optimizing the installation of the measure installed such as retrofitting pipes, etc.

[8] Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project. [9] Per D.17-12-009 at p.213, the CPUC imposes a cap of 10% of ESA Program funds for administrative activities and a ceiling of 20% for direct implementation non-incentive costs. [10] Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings.

[11] Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in [12] NMEC calculations require 12 months prior and 12 months post implementation data.

[13] Includes expenditures for projects from 2022; partial payment for projects completed in 2022 may have been included in 2021.

Note: Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022 where 65% of tenants are income eligible based on CPUC income requirements of at or below 200% of the Federal Poverty Guidelines.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Note: Implementation of the MF CAM Initiative AL 3196-E-A_2654-G-A was approved effective 5/30/2018. ** Note: This represents the unit of measure such as Cap Tons and Cap kBTUh. It is not a count of each measure installed or each home the measure was installed in.

Standard Notes (do not delete)

1. Measures list may change based on available information on both costs and benefits (including energy benefits as well as non-energy benefits) and may vary across climate zones. This is not a list of installed measures, it is a list of eligible measures.

Table 2B-1 Column A should match Table 2B Column A for eligible (not canceled) measures.

2. Only complete if measure is canceled or discontinued

3. Defined as CEC California Building Climate Zones

https://www.energy.ca.gov/maps/renewable/building_climate_zones.html
