#### MONTHLY REPORT OF PACIFIC GAS AND ELECTRIC COMPANY (U 39 M) ON INCOME QUALIFIED ASSISTANCE PROGRAMS FOR JULY 2022

In accordance with Ordering Paragraph 17 of Decision (D.) 01-05-033, Pacific Gas and Electric

Company hereby submits its attached monthly status report on the results of its Energy Savings

Assistance (ESA) Program, California Alternate Rates for Energy (CARE) Program, and Family Electric

Rate Assistance (FERA) Program efforts, showing results through July 2022. Pursuant to D.21-06-015,

the new ESA, CARE and FERA Program funding cycle began on July 1, 2021.

Respectfully Submitted,

JENNIFER C. REYES LAGUNERO

#### Energy Savings Assistance Program, California Alternate Rates for Energy Program, and Family Electric Rate Assistance Program Monthly Report for July 2022

The Energy Savings Assistance (ESA), California Alternate Rates for Energy (CARE), and Family Electric Rate Assistance (FERA) programs are long-standing programs designed to assist income-qualified households in Pacific Gas and Electric (PG&E)'s service territory in reducing their energy usage and monthly utility expenses. Decision (D.) 21-06-015 authorized a new ESA, CARE, and FERA program funding cycle beginning July 1, 2021, through December 31, 2026.

PG&E's monthly report for July 2022 complies with the income-qualified programs reporting requirements established in D.21-06-015 to include FERA, and with all reporting and program evaluation requirements previously established for the CARE and ESA Programs.<sup>1</sup>

### **Regulatory Update**

#### Energy Savings Assistance (ESA) Program

**ESA Eligibility Guidelines Update:** On July 1, 2022 the ESA income eligibility guidelines increased from 200% FPL to 250% FPL. ESA's revised income guidelines were the result of Senate Bill 756, authored by San Diego Senator Ben Hueso and passed in 2021. This income eligibility change will allow more customers throughout the service territory to qualify. PG&E has launched a broad communication strategy to increase awareness about the eligibility change, and will be conducting additional targeted marketing to newly eligible customers.

**ESA Working Group (WG):** The July 28, 2022 ESA Working Group meeting primarily centered around the IOUs presenting an overview of their 2021 ESA, CARE and FERA results, and highlighting lessons learned applicable to the current program cycle. In addition, the ESA WG members unanimously approved PG&E's measure retirement proposal to move forward with retiring two measures – Exterior Hard-Wired Fixtures and Diagnostic Driven Air Sealing and to re-allocate those program funds to other measures. PG&E will sunset the Exterior hard wire fixtures once our bulk materials supplier is out of stock. The Diagnostic Air Sealing measure had not yet been released and will be retired immediately.

**TECH ESA Pilot:** Beginning in July, PG&E has partnered with the TECH program in order to increase feasibility for the high saving heat pump water heater measure. Non-feasibility is generally a result of having their existing electric resistance water heater located in a closet. The current TECH program partnership will fund remediation expenses which will allow PG&E to relocate water and gas lines to a suitable location so that more customers can receive this high saving measure.

#### **California Alternate Rates for Energy Program**

**CHANGES Program Evaluation:** On July 7, 2022, PG&E and Opinion Dynamics hosted a public webinar to present the draft research plan for the 2022 Community Help and Awareness with Natural Gas and Electricity Services (CHANGES) Program Evaluation. Public comments were solicited and will be

<sup>&</sup>lt;sup>1</sup> The IOUs worked with Energy Division (ED) staff to revise reporting tables and formats in compliance with the mandates of D.21-06-015. PG&E is using the most recent monthly reporting template that was approved by ED in March 2022 to provide its monthly updates of the ESA, CARE, and FERA programs beginning with its March 2022 report.

incorporated in the final research plan as appropriate. The Draft Research Plan can be accessed by visiting: <u>https://pda.energydataweb.com/#!/documents/2644/view</u>

**Disconnection Notices:** On July 25, 2022, PG&E resumed the disconnection notices process for residential customers (both CARE and non-CARE). PG&E is using a phased approach for reimplementation over the next few billing cycles and is currently not planning on performing any disconnections until October 2022. To provide customers additional time, PG&E is allowing two full collection cycles for customers to respond and pay. Disconnection notices are expected to impact approximately 150,000 customers.

#### <u>Miscellaneous</u>

**Low Income Oversight Board (LIOB)**: On July 8, 2022, PG&E participated in the Q2 2022 meeting of the LIOB that was held remotely. During this meeting, the IOUs provided their respective updates on the CARE, FERA, and ESA Programs, including the Summer Reliability Proceeding<sup>2</sup> related to incomequalified customers, Universal Application System (UAS) Working Group recommendations, unspent funds for the ESA program, COVID-19 Impacts, Public Safety Power Shutoff (PSPS) planning, and disconnections and arrearage management initiatives.

<sup>&</sup>lt;sup>2</sup> R. 20-11-003, Phase 2 Decision Directing Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas and Electric Company to Take Actions to Prepare for Potential Extreme Weather in the Summers of 2022 and 2023.

#### 1. Energy Savings Assistance (ESA) Program Executive Summary

The ESA Program provides no-cost home weatherization, energy-efficient appliances, and energy education services to income-qualified PG&E customers<sup>3</sup> throughout PG&E's service territory. ESA is a resource program emphasizing long-term energy savings and serves all willing and eligible low-income customers by providing all feasible ESA Program measures at no cost to the customer through a direct-install approach. All housing types are eligible to participate, and the ESA Program is available to both homeowners and renters.

D.21-06-015 approved the ESA program budget for PYs 2021-2026. The total 2022 authorized ESA Program budget is \$180,979,812, which covers all programs in the ESA portfolio, including the long-standing "ESA Main" program for single-family (SF) and multi-family (MF) housing, the MF-Common Area Measures (CAM) program, studies, and pilots, such as the Pilot Plus and Pilot Deep programs. From January 1, 2022 to July 31, 2022, PG&E expended \$75,587,779 in total ESA program costs. Further details of ESA expenses are provided in the ESA Summary Table, ESA Table 1 and ESA Table 1A in the Appendix.

#### 1.1 Energy Savings Assistance Program Overview

| ESA Table 1: (SF, MH, MF In-Unit) Summary of Expenses for 2022 |   |  |  |
|--|---|--|--|

# Provide a summary of the Energy Savings Assistance Program elements as approved in Decision (D.) 21-06-015.

<sup>[a]</sup> Authorized ESA budget, energy savings goals and household treatment target per D.21-06-015.

<sup>[b]</sup> As shown in ESA Monthly Report Table 1, and Table 2.

<sup>[C]</sup> ESA Main program budget includes measures and program administrative budget categories as shown on ESA Monthly Report Table 1. 2022 authorized budget and expenditures includes Benefit Burdens as approved in (D.)20-12-005.

<sup>[d]</sup> Per Table 5 of Attachment 1, D. 21-06-015, the 2022 goals for kWh, kW, and Therms include ESA Main and MF CAM; however, the above table reports results only from ESA Main, and does not include results from MF CAM.

<sup>&</sup>lt;sup>3</sup> To qualify for the ESA Program, a residential customer's household income must be at or below 200 percent of Federal Poverty Guidelines, as required in D.05-10-044.

Through July 2022, PG&E's ESA Main (SF, Mobile Home (MH), MF In-Unit) treated 41,199 homes, resulting in 15,093,167 kWh saved, 3,187 kW demand reduced, and 678,604 therms saved. In addition, 11,909 tons of GHG emissions were reduced.

| ESA Table 2: MF CAM Summary of Expenses for 2022  |   |             |          |
|---|---|-------------|----------|
|   | 2022<br>Authorized/Planning<br>Assumptions <sup>[a]</sup> | Actual YTD  | %<br>YTD |
| Budget  | \$47,760,413  | \$3,526,589 | 7%       |
| Properties Treated  | 33  | 23          | 69%      |
| kWh Saved   | N/A   | 988,781     |          |
| kW Demand Reduced   | N/A   | 27          |          |
| Therms Saved  | N/A   | 61,187      |          |
| <sup>[a]</sup> 2022 Property Treated target is from Advice Letter 4472-G/6279-E. Other planning assumptions values are based on the historical average of the completed ESA CAM projects. |   |             |          |

In July 2022, PG&E's ESA MF CAM program treated 25 buildings and two properties with 169,768 kWh and 1,477 therms saved. The top three measures installed in July were LED Exterior Wall Mounted Fixtures with 249 fixtures installed, interior LED 4' Linear Fixtures with 49 fixtures installed, and LED Exterior Pole Mounted Fixtures with 28 fixtures installed.

| ESA Table 3: Pilot Plus and Pilot Deep Summary of Expenses for 2022   |   |                              |          |
|---|---|------------------------------|----------|
|   | 2022<br>Authorized/Planning<br>Assumptions <sup>[a]</sup> | Actual<br>YTD <sup>[b]</sup> | %<br>YTD |
| Budget <sup>[c]</sup>   | \$8,749,299   | \$173,384                    | 2.0%     |
| Homes Treated   | -   | -                            | -        |
| kWh Saved   | -   | -                            | -        |
| kW Demand Reduced   | -   | -                            | -        |
| Therms Saved  | -   | -                            | -        |
| GHG Emissions Reduced [Tons]  |   |                              | -        |
| <ul> <li>[a] Target homes treated, savings and GHG emissions reduction values will be determined later in 2022 in consultation with third party Pilot Plus/Deep implementer.</li> <li>[b] Actual homes treated, savings and GHG emissions reduction values will begin to be reported upon measure delivery, anticipated to begin in Q4 2022.</li> <li>[c] Pilot Plus and Pilot Deep budget and expenditures as shown on ESA Monthly Report Table 1A-1.</li> </ul> |   |                              |          |

As reported in the June 2022 Monthly Report, PG&E launched the ESA Pilot Plus and Pilot Deep Program (Pilot Plus/Deep) third-party implementation at the end of June with a fully executed third-party pilot implementation contract.<sup>4</sup> 2022 targets will be finalized during ramp-up throughout Q3 2022. PG&E will begin reporting actual homes treated, energy savings and GHG emissions reduction values once measure delivery begins in Q4 2022.

#### **Program Measure Changes**

While PG&E did not implement any program measure changes during this reporting period, it is important to note that PG&E received approval at the July 28, 2022 ESA WG to retire two measures, Exterior Hard-Wired Fixtures and Diagnostic Driven Air Sealing. PG&E will be working with ESA implementers and contractors to phase out the installation of the Exterior Hard-Wired Fixture over the rest of the calendar year; Diagnostic Air Sealing has yet to be officially released.

#### **1.2 ESA Program Customer Outreach and Enrollment Update**

#### Provide a summary of the Energy Savings Assistance Program outreach and enrollment strategies deployed this month.

**ESA Main (SF, MH, and MF In-Unit) Program Contractor Outreach:** Contractors relied on a variety of activities to conduct outreach, but primarily utilized outbound calling from assigned lead lists and canvassing in areas with a high propensity for eligible customers. Additional methods included outbound calls from contractor-generated lists of CARE or Zip-7 customers as well as responding to referrals.

**ESA Main Customer Satisfaction Score:** In an effort to ensure customers are highly satisfied and have an outstanding experience in the program, PG&E conducts robust surveys of participants. YTD 2022, the ESA surveys have yielded an 86% customer satisfaction rating; meaning that 86% of respondents described their experience as excellent, or very good. PG&E conducts detailed analysis of the survey results to identify areas of success, and pinpoint opportunities for improvement, and shares the results with the ESA contractors in order to optimize the ESA offering from the customer perspective. This is also used to identify trends in contractor performance and opportunities for contractor soft skills training.

**ESA Program Multifamily Common Area Measure (MF CAM) Initiative:** PG&E's ESA CAM program has reached its enrollment goal for program year (PY) 2022 and has officially closed enrollment for PY 2022 due to limited time left in this program cycle. As of July 2022, PG&E's ESA CAM program has 43 active projects in the pipeline.

**ESA Pilot Plus and Pilot Deep:** As mentioned in the June 2022 Monthly Report, PG&E's Pilot Plus and Pilot Deep program began implementation with an executed

<sup>&</sup>lt;sup>4</sup> D.21-06-015 Ordering Paragraph 42 states "The Pilot Plus and Pilot Deep program must be launched by the beginning of the third quarter of 2022" (p. 480). PG&E in its Pilot Implementation Plan Advice letter defined program launch as beginning with an executed contract. See PG&E Advice Letter 4530-G/6412-E (November 19, 2021), p.4, fn.11.

contract at the end of June. PG&E and the pilot implementer began work on the marketing plan throughout July, with the first draft completed on July 29. PG&E expects to begin outreach and enrollment activity later in 2022.

**Language Line:** PG&E continues to work with LanguageLine Solutions to provide language translation services for all of its customers. During the month of July 2022, seven ESA customers were assisted by PG&E's designated language line.

**Tribal Outreach:** In July, PG&E met with 11 tribes that requested more information about Tribal ESA Grants. Furthermore, a reminder email was sent to 13 additional tribes informing them that PG&E is inviting them to apply for grants this year.

# **Customer Assistance Marketing, Education and Outreach for the ESA Program**

In July 2022, PG&E continued to receive responses from a direct marketing campaign deployed in April 2022 to 100,000 CARE-enrolled customers whose homes had not yet been treated by the ESA Program. Through July 31, the campaign generated 10,937 qualified leads. The campaign used existing creative from Q1 2022.

# <section-header><text><text><text><text><text><section-header><section-header><section-header><text><section-header><section-header><section-header><text><text><text><text><text><text><text><text><text><text><text><text><text>

#### Direct Mail/Email (English/Spanish):

In July 2022, PG&E also received 3,502 program applications from online activities via email and the ongoing digital campaign launched in early January 2022.

PG&E continued to deploy the CARE welcome kit<sup>5</sup> to customers who were newly enrolled in the CARE program. In July, 2,633 kits were deployed, and PG&E received 224 ESA applications from that deployment for a 9% response rate.

<sup>&</sup>lt;sup>5</sup> Since January 2018, PG&E has included a personalized pre-filled response form for the ESA Program in the CARE welcome kit. Customers who wish to participate may complete the form and return it to PG&E.

## **PG&E Customer Contact Centers, Branch Offices, and Payment Offices:** Not applicable for this reporting period.

#### **Managing Energy Use**

As part of its energy education, PG&E provides customers with online resources to assist in managing their energy use. In July 2022, ESA contractors helped 622 customers to sign up for MyAccount and enroll 755 customers in Energy Alerts. From MyAccount, all customers can access and perform a Home Energy Checkup and CARE-enrolled customers can view their latest Personalized Energy Profile (PEP) report. The PEP report, available to CARE-enrolled customers and ESA contractors quarterly, offers customized behavioral and energy conservation tips, and rate recommendations based on the customer's energy use, load profile, and season of the year. In addition, participants in the ESA program receive collateral "leave behinds" (printed materials) from ESA contractors with tips for managing energy, rate plan choices, and other programs and resources that they may be qualified for, both administered by PG&E and administered by third-parties.

#### Services to Reduce Energy Bill

PG&E's ESA contractors provide collateral leave behinds that present solutions for saving money and managing energy costs for all ESA participants. PG&E's Universal Brochure provides comprehensive information to ESA customers about bill discount and assistance programs, rate plan choices, energy management, and payment support programs, in an easy-to-read format. ESA contractors are trained to discuss new opportunities for bill savings and assist in program enrollment , such as the Arrearage Management Plan (AMP), and referrals to LIHEAP program administrators, for qualified households. The ESA Program also has cross referral and direct enrollment processes to auto-enroll eligible income qualified customers in the CARE program. Customers who are ineligible for ESA or CARE but eligible for FERA, are enrolled in the FERA program.

#### **Additional Activities**

**CARE Discounts Removed:** The ESA program systematically removes CARE customers who apply for ESA but are proven to be over income. PG&E identified no such customers from CARE in June 2022.

**New Contractors and Community-Based Organizations (CBOs)**: In July 2022, PG&E had no new Contractors or CBOs join the ESA program.

# **1.3 Leveraging Success Evaluation, Including California State Department of Community Services and Development (CSD)**

Please provide a status on referrals, of the leveraging and coordination effort with CSD. Expand on activities and success rates across the list of programs from the Coordination Workshop, such as Affordable Broadband and Lifeline, as applicable to ESA, CARE and FERA. What new steps or programs have been implemented? What was the result in terms of new enrollments?

**CSD Low Income Weatherization Program (LIWP) (MF) Leveraging Projects:** PG&E continues to seek opportunities to collaborate with CSD on potential LIWP-MF leveraging and measure implementation, and explore strategies that may be most effective for leveraging the 2022-2026 ESA programs.

There was no CSD-LIWP leveraging activity in July 2022.

**Low Income Home Energy Assistance Program (LIHEAP) Energy Star® Refrigerator Installations:** There were no refrigerators installed through LIHEAP leveraging in July 2022.

**CSD Data Sharing:** PG&E continues to share data with CSD on a monthly and annual basis and as requests are made.

#### 1.4 Workforce Education & Training

Please summarize efforts to improve and expand the ESA Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

The PG&E Energy Efficiency Workforce Education and Training Program (WE&T) supports ESA contractor training by providing on-demand and live webinar trainings for Energy Specialists (ES), Weatherization Specialists (WS), and Advanced Weatherization Specialists (AWS) with instructor-led presentations and virtual engagement activities with trainees. Due to heavy hands-on training for Natural Gas Appliance Testing (NGAT), Energy Training Centers (ETC) continue the blended model, which consists of on-demand training (self-paced) and one day of in-person practical training which follows COVID-19 safety guidelines and procedures. In addition, on the training day of live webinar sessions, support is available to help students with soft-skill trainings for webinar preparedness prior to the start of class. The support consists of assistance with navigating the webinar platforms, technology setup, and expectations of virtual class engagement activities.

ESA contractors are encouraged to hire local workers to implement the ESA Program in their areas. All contractors and subcontractors responsible for implementing the ESA Program are trained at the ETC in Stockton. Many of these ESA program ES and installation contractors are from the local communities in which they work. Below

| ESA Contractor Training Summary<br>Through July 2022 |           |     |
|--|-----------|-----|
|  | July 2022 | YTD |
| Students   | 7         | 172 |
| Student Days   | 7         | 386 |
| Training Sessions                                    | 3         | 96  |

shows a summary of ESA contractor training provided for July 2022 including ESA onboarding, ES, WS, AWS, and NGAT training.

#### **1.5 Studies and Pilots**

#### **ESA Program Studies**

**2022 Low Income Needs Assessment (LINA):** Work for the 2022 LINA commenced in January 2021 with Evergreen Economics as the selected consultant. To achieve the study's primary objective of identifying renter needs in the ESA program, a large-scale phone survey of the California income-qualified renter population is fielded to create different renter profiles. Combined with other data analyses, the collected information will inform program and policy recommendations to address the unique characteristics of income-qualified renter households.

In July 2022, an interim findings report was made available for review and comments. To augment study findings, a short survey was conducted with ESA contractors to further understand the barriers and potential solutions with recruiting, enrolling, and treating renter-occupied properties. A draft report summarizing findings and recommendations will be available by October, and a public workshop is expected to be held in Q4 2022 to share study findings and solicit stakeholder feedback.

**ESA/CARE Study Working Group:** D.21-06-015 authorized the formation of a statewide Study Working Group for the ESA and CARE programs.<sup>6</sup> Working Group membership is comprised of IOU representatives, ED staff, and no more than two representatives from each segment of the following interest groups: contractors, CBOs, Cal Advocates, consumer protection/advocates, and other special interest groups. Assigned tasks of the Working Group include planning and designing statewide studies and related research for the ESA and CARE programs and providing feedback on study deliverables. No meeting was held in July 2022 for the ESA/CARE Study Working Group.

**ESA MF-CAM Process Evaluation:** A process evaluation for the MF-CAM Initiative commenced in July 2021 with Resource Innovations, Inc. as the selected consultant. The study has the following objectives: 1) Assess the relative effectiveness of current MF-CAM outreach, delivery, and implementation strategies; 2) Identify what data currently exists and may be needed to facilitate more reliable evaluations of

<sup>&</sup>lt;sup>6</sup> D.21-06-015, OP 176.

program impacts; 3) Inform future program designs targeting the income-qualified MF sector.

A draft report synthesizing evaluation findings was made available in July 2022. A third public workshop will be held in September 2022 to present evaluation findings and collect stakeholder feedback.

#### **ESA Program Pilots**

**ESA Pilot Plus/Deep Program**: D.21-06-015 approved Pilot Plus/Deep to begin implementation in 2022 with two treatment tiers:

- The Pilot Plus package will offer basic measures found in the main ESA program, in addition to certain equipment and appliance replacements and load shifting technologies to reduce annual energy usage by five to 15 percent;<sup>7</sup>
- The Pilot Deep package will offer the more advanced, and likely more expensive measures to achieve a 15 to 50 percent reduction in annual energy usage.<sup>8</sup>

Pilot Plus/Deep will gather data on the feasibility of strategic measures delivery, including electrification measures, the level of investment required for such deep energy retrofits, energy savings and bill impacts to the household, long-term benefits of these treatments (including non-energy benefits), and the cost-effectiveness of each treatment tier.<sup>9</sup> The Pilot implementation commenced in the second half of 2022 with a fully executed contract between PG&E and a third-party pilot implementer, and will operate through 2026.

July was the first full month during which the third-party pilot implementer, CLEAResult, was contracted with PG&E. Throughout July, PG&E and the implementer began program ramp-up activities, including development of policies and procedures, operation plans, and marketing and outreach strategy, as well as hiring and subcontractor recruitment, and customer targeting analysis.

#### 1.6 Miscellaneous

#### Water-Energy Coordination Program

As of July 1, 2022, nine partnership programs with five water agencies were operating and serving qualified homes. Programs in operation include partnerships with Alameda County Water District, City of Santa Cruz, Solano County Water Agency, Sonoma Water, and all five districts of California American Water located in PG&E territory which are Merced, Monterey, Oakhurst, Sacramento and Santa Rosa. In July 2022, 12 homes were served through the partnership programs and 4 toilets were retrofitted.

<sup>&</sup>lt;sup>8</sup> Ibid.

<sup>&</sup>lt;sup>9</sup> Ibid, p.1.

#### 2. California Alternate Rates for Energy (CARE) Program Executive Summary

The CARE Program provides a monthly discount on energy bills for qualifying households throughout PG&E's service area.  $^{10}$ 

D.21-06-015 approved the CARE Program budget for PYs 2021-2026.<sup>11</sup> PG&E's 2022 authorized CARE Program administrative budget is \$13,760,000.<sup>12</sup> Through July, PG&E expended \$6,242,567 in 2022 CARE program administration costs, of which \$2,606,071 supported CARE outreach activities and \$1,189,243 for recertification and post-enrollment verification (PEV) processes. D.21-06-015 also authorized \$687,689,000 towards CARE rate discounts for PY 2022.<sup>13</sup> Through July 2022, the CARE program provided a total of \$537,893,075 in electric and gas bill discounts to 1,454,447 households throughout PG&E's service territory.

At the end of July 2022, the CARE program enrollment rate was 104% of the estimated eligible households. During the month, PG&E, in tandem with the other IOUs, continued an outbound calling pilot program, designed to reach customers who encountered difficulties submitting the appropriate documentation to meet the post-enrollment verification (PEV) requirements. This PEV pilot is complementary to PG&E's ongoing efforts to provide case management services to customers with past due balances through its customer service representatives, who in July contacted over 124 customers, and successfully enrolled 23 of them in CARE and/or FERA. Eight CBOs contracted to provide marketing, education, and outreach (ME&O) services for CARE, FERA, and other incomequalified programs for 2022-2023 launched their activities, and reported reaching over 525,000 customers through their combined ME&O activities.

<sup>&</sup>lt;sup>10</sup> To qualify for the CARE discount, a residential customer's household income must be at or below 200 percent of Federal Poverty Guidelines, as required in D.05-10-044 and per Public Utilities Code Section 739.1(b) (1) or someone in the customer's household is an active participant in other qualifying public assistance programs.

<sup>&</sup>lt;sup>11</sup> D.21-06-015, Attachment 1, Table 2 CARE Approved Budgets.

| Total Expenses                                | \$13,760,000                                | \$6,242,567   | 45%                     |
| Subsidies and Benefits                        | \$687,689,000                               | \$537,893,075   | 78%                     |
| Total Program Costs and Discounts             | \$701,449,000                               | \$544,135,642   | 78%                     |

#### Please provide CARE Program summary costs.

[a] D.21-06-015 approved the CARE program budget for PYs 2021-2026. 2022 authorized budget includes \$1,107,039 for Benefit Burdens as approved in D.20-12-005.

<sup>[b]</sup> Actual expenses include employee benefits costs.

<sup>[c]</sup> The CHANGES Program provides funding to CBOs to assist Limited English Proficient (LEP) customers with energy education and billing issues.

<sup>[d]</sup> There is no authorized budget specific to Studies and Pilots in 2022. PG&E will fund shift between budget categories for the Studies and Pilots expenses incurred in 2022.

#### Please provide the CARE Program enrollment rate to date.

| CARE Enrollment       |                                     |                     |
|-----------------------|-------------------------------------|---------------------|
| Participants Enrolled | Eligible Participants <sup>14</sup> | YTD Enrollment Rate |
| 1,454,447             | 1,401,702                           | 104%                |

<sup>&</sup>lt;sup>14</sup> On February 14, 2022, PG&E, on behalf of the IOUs, filed the Annual Estimates of CARE Eligible Customers and Related Information. This number reflects estimates of PG&E's CARE Eligible Participants for 2022.

#### 2.2 Outreach

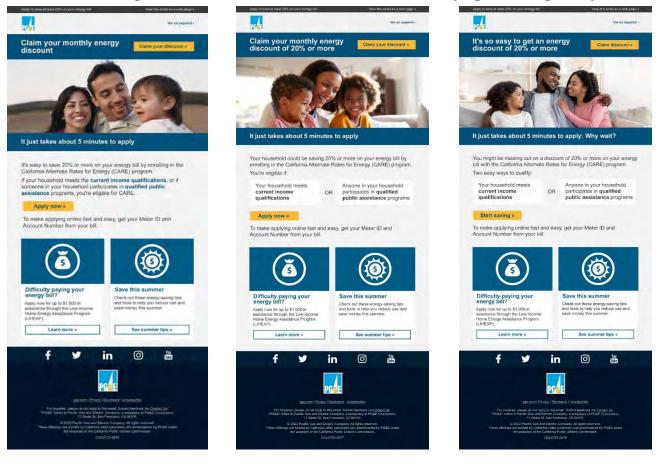

# Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

**Direct Mail:** Not applicable for this reporting period.

**Email:** During the month of July, PG&E's monthly CARE acquisition email was sent to 19,784 customers.

The campaign emails deploy monthly on the second Saturday of each month targeting customers in Deciles 1-3 of the CARE propensity who have not previously received CARE/FERA direct marketing. Customers included in the campaign will receive up to three emails, each approximately three months apart.

#### CARE Acquisition Email - Touch 1, Touch 2 and Touch 3 (English and Spanish)

Additionally, monthly auto-recertification email notices were deployed to 16,347 customers in Deciles 1 and 2 of the CARE propensity model to confirm that they were automatically re-enrolled in CARE.

**Tribal Outreach:** Refer to Section 1.2.1 - ESA Program Customer Outreach and Enrollment Update - for updates on Tribal Outreach.

**Digital Media:** PG&E's Always On digital strategy continued through July, with CARE Google and paid search advertising targeting income-qualified customers across PG&E's service territory. The media buy includes display and native (such as sponsored ad placements on news sites and FreshEBT) advertising targeted to 227 zip codes with higher percentages of estimated eligible high-poverty and rural customers. A creative refresh of the native ads launched on July 7.

#### CARE Native Ad Sample (English and Spanish)

#### Ahorre 20% o más en facturas de energía

Ad Pacific Gas and Electric Company

¿Tiene CalFresh o Medi-Cal? Si es así, reunirá automáticamente los requisitos de CARE. Hacer la solicitud es fácil. Solo toma 5 minutos por Internet.

**Media Interviews:** PG&E continues to be open to participating in media interviews to promote CARE, FERA and other assistance programs, though no interviews occurred in July.

Local Customer Service Offices: Not applicable for this reporting period.

**Outbound Financial Assistance:** PG&E continued its case management efforts of past due customer accounts through its outbound calling campaign during July. The outbound calling campaign provides information on the payment options available to the customers to restore their account standing; it also offers information on other income-qualified assistance programs such as CARE, FERA, Medical Baseline, LIHEAP, and the AMP.

During the reporting month, customer service representatives (CSRs) contacted 17,684 customers directly through this campaign. The customers who could not be reached by phone but had access to voicemail received information regarding PG&E's financial assistance programs. The July campaign was successful in enrolling 48 customers in CARE and/or FERA and identifying over \$894,936 in potential savings from customers taking action to change their rate plans.

**CBO Outreach and Engagement:** The eight CBOs contracted with PG&E to provide Marketing, Education, and Outreach (ME&O) services reported being able to reach ~525,000<sup>15</sup> customers with information on CARE, FERA, ESA, AMP, Smart AC, Power Saver Rewards, and other complimentary offerings as part of the ME&O effort. PG&E's internal tracking indicates that 106 customers have been enrolled in

<sup>&</sup>lt;sup>15</sup> Per survey results submitted by CBOs.

the CARE program since the start of the ME&O effort, but no customers have been enrolled in FERA through these CBOs. It is PG&E's intent to tap into the expertise and local knowledge CBOs have, expand and deepen its CBO partnerships, and work together to serve hard-to-reach households and communities with education and enrollment support for CARE, FERA, and ESA alongside other programs that can benefit households.

Outreach involved in-person/door-to-door outreach, webinars, social media, newsletters, direct mail, and CARE/FERA application intake assistance. CBOs in the ME&O effort also collaborated with other local partners to distribute information on the various programs. CBOs utilized PG&E marketing materials in multiple languages, including Spanish, Chinese, Vietnamese, Tagalog, Hindi and Korean to conduct the outreach.

**University Outreach:** In July, PG&E sent out CARE/FERA promotional materials to the University of California, Berkeley and California Polytechnic State University. Materials will be distributed to graduate students who live in non-campus housing. PG&E plans to expand these efforts to other universities in the coming months.

#### Describe the efforts taken to reach and coordinate the CARE Program with other related low-income programs to reach eligible customers.

PG&E automatically enrolls customers in CARE who participate in ESA or receive LIHEAP or REACH payments.<sup>16</sup> The table below shows CARE automatic enrollments for July 2022 and year-to-date.

| CARE Automatic Enrollment |           |       |
|---------------------------|-----------|-------|
| Source                    | July 2022 | YTD   |
| ESA                       | 434       | 3,836 |
| LIHEAP                    | 241       | 1,018 |
| REACH                     | 16        | 120   |

#### 2.3 CARE Recertification Complaints

Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

PG&E received no complaints regarding CARE recertification during this reporting month.

<sup>&</sup>lt;sup>16</sup> Per ESA's expanded eligiblity to 250% on July 1, 2022, aligning for some households with FERA eligibility, PG&E began auto enrolling customers into FERA (as well as CARE), and expects to report on FERA auto-enrollments in the August 2022 ESA/CARE/FERA monthly report.

#### 2.4 Pilots and Studies

#### **CARE Program Studies**

Refer to Section 1.5.1 - ESA Program Studies - for updates on the 2022 Low Income Needs Assessment.

**Categorical Eligibility Study:** D.21-06-015 authorized for a Categorical Eligibility Study to be completed by December 2022, and for the IOUs to file a joint Tier 2 advice letter 60 days after study completion, proposing an updated list of categorical programs for enrollment in the ESA, CARE, and/or FERA programs.<sup>17</sup> The study will also assess whether any recommended categorical programs would be suitable candidates for CARE or FERA automatic enrollment.

A project kick-off meeting for the Categorical Eligibility Study took place in July 2022, with participation from ED and IOU staff and members from the ESA Study Working Group. A public workshop is scheduled for August 2022 to share the draft research plan and collect stakeholder feedback.

**Community Help and Awareness with Natural Gas and Electricity Services (CHANGES) Evaluation:** D.21-06-015 requires CHANGES to be evaluated by an independent third-party and the first evaluation to begin no later than 12 months after Decision approval. The evaluation began in February 2022, with Opinion Dynamics as the selected evaluation consultant, and will be conducted for the 2019-2021 program period. In July 2022, a public workshop was held to present the draft research plan and solicit stakeholder feedback. The final research plan, with stakeholder comments incorporated, and comment responses were subsequently posted publicly<sup>18</sup>.

#### **CARE Program Pilot**

**CARE Post Enrollment Verification (PEV) Pilot Project**: In coordination with other IOUs,<sup>19</sup> PG&E started an outbound calling campaign in June to provide direct support to customers who submitted incomplete or incorrect CARE PEV documentation which is required to confirm their program eligibility. The outbound calling campaign also provides customers with information on other incomequalified energy savings programs that PG&E administers and/or has partnerships with.

In July, 858 PG&E customers responded to the PEV request and submitted incomplete PEV documentation. Customer Service Representatives (CSRs) attempted to contact each of these customers directly to explain how to submit complete PEV paperwork and answer any questions customers had about the process and the documents they needed to submit.

<sup>&</sup>lt;sup>17</sup> D.21-06-015, OP 170.

<sup>&</sup>lt;sup>18</sup> 2022 CHANGES Evaluation - Final Research Plan and Comment Responses. Opinion Dynamics, July 2022. Available at: https://pda.energydataweb.com/#!/documents/2644/view

<sup>&</sup>lt;sup>19</sup> D. 21-06-015 OP 13 directs the IOUs to "simultaneously conduct a coordinated six month to one year outbound call pilot for "attempted but failed" post-enrollment verified households…".

CSRs spoke to 124 customers via this effort, and 30 (24%) of these customers successfully re-submitted the required documentation to demonstrate their eligibility to remain in the CARE/FERA program within the 45-day window. The total pilot budget is \$80,000 and the cost through July 2022 is \$33,418. The remaining balance for this project is \$46,582.

#### 2.5 Miscellaneous

**CARE Removal and Enrollment in FERA:** The CARE program systematically removes CARE customers who are proven to be over income via PEV, and if qualified, enrolls them in the FERA program. For the PEV response period ending in July 2022, of the 5,013 PEV requests mailed: PG&E identified and automatically enrolled 44 (0.9%) of these customers in the FERA program. An additional 4,261 (85.0%) customers were removed from CARE and 708 (14.1%) customers successfully completed the CARE PEV process. Additional PEV results are reported in CARE Tables 3A and 3B, and CARE Recertification results are included in CARE Table 5.

**CARE Program PEV Freezes:**<sup>20</sup> In compliance with CPUC Res. M-4833 and D. 19-07-015, PG&E added the customers impacted by the 2020 Wildfires, the 2021 Winter Storms and the 2021 Wildfires to PG&E's Emergency Consumer Protection Plan, thereby making these customers eligible for the protection measures under this plan, including exemption from PEV.

The table on the following page details the CARE program PEV freezes currently in place as of July 2022.

<sup>&</sup>lt;sup>20</sup> CPUC Res. M-4833 directed IOUs to freeze CARE program post-enrollment verification (PEV) in the counties impacted by the California wildfires. PG&E expanded the CARE PEV freeze to customers in affected counties where a state of emergency proclamation was issued by the Governor of California due to a disaster that resulted in PG&E's inability to deliver utility services to customers and remains in place for one year from the date of the proclamation. D.19-07-015 extends PG&E's Emergency Consumer Protection Plan to include residential and non-residential customers in areas where a state of emergency proclamation is issued by the California Governor's Office or the President of the United States where the disaster has either resulted in the loss or disruption of the delivery or receipt of utility service, and/or resulted in the degradation of the quality of utility service.

#### 3. Family Electric Rate Assistance (FERA) Program Executive Summary

The FERA Program provides a monthly 18 percent discount on electric bills for qualifying households of three or more individuals throughout PG&E's service area.<sup>21</sup>

D.21-06-015 approved the FERA Program budget for PYs 2021-2026.<sup>22</sup> PG&E's 2022 authorized FERA Program administrative budget is \$2,794,400, and \$12,898,000 for electric rate subsidies.<sup>23</sup> Through July 2022, PG&E expended \$10,942,299 in total program costs. Of the total expenditure, \$1,603,641 (or 15%) was spent on outreach and administrative activities and \$9,338,658 (or 85%) in electricity rate discounts were provided to 36,643 households (representing ~21% of the estimated FERA-eligible households) in PG&E's service territory.

Despite significant investment in marketing, education, and outreach, PG&E is only at 21% program enrollment currently, and the enrollment rate has declined since the start of 2022 due to households being removed during recertification efforts. Therefore, reaching the 40% 2022 goal established in D.21-06-015 for PY 2022<sup>24</sup> will require a substantive increase, not beyond what is anticipated, in both enrollment and retention from current levels.

One structural challenge PG&E has observed relates to the presentment of CARE and FERA as one shared application. Despite ongoing FERA-specific marketing campaigns, approximately seven out of every eight customers who are targeted for FERA end up completing the CARE (not FERA) part of the shared application. Another challenge is that the population eligible for FERA is relatively small, with only  $\sim$ 174,000 customers eligible.<sup>25</sup>

PG&E continues to develop and deploy new strategies to try and meet the 40% FERA enrollment goal; yet, efforts have not proven sufficient thus far. For example, in Q1 2022, PG&E identified some potential populations that may be eligible, such as college students, farmworkers, and immigrant populations, and has implemented strategies to reach these groups. PG&E also consulted with our CBO Advisory Group members to identify new strategies that could be explored.

In July 2022, PG&E launched a FERA CBO Pilot utilizing six newly contracted CBOs to begin supporting ME&O efforts. This 18-month CBO FERA pilot, which will run through December 2023, is designed to engage CBOs in driving FERA awareness and enrollments, while also promoting other supporting programs. Because of the structural challenges in enrolling 40% of the estimate eligible population, PG&E will need to continue to implement novel and creative strategies in an attempt to meet FERA's enrollment goals in 2022 and subsequent years.

 <sup>&</sup>lt;sup>21</sup> To qualify for the FERA discount, a residential customer's household income must be at 200 percent plus \$1 to 250 percent of Federal Poverty Guidelines, as required in D.05-10-044 and per Public Utilities Code Section 739.12.

| <sup>[a]</sup> On February 14, 2022, PG&E, on behalf of the IOUs, filed the Annual Estimates of CARE Eligible<br>Customers and Related Information. This number reflects data available for estimating PG&E's CARE<br>Eligible Participants for 2022. |                                      |                     |  |

#### 3.2 FERA Program Outreach

Please discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

**Direct Mail:** In July, PG&E sent FERA direct mail to 17,820 customers.

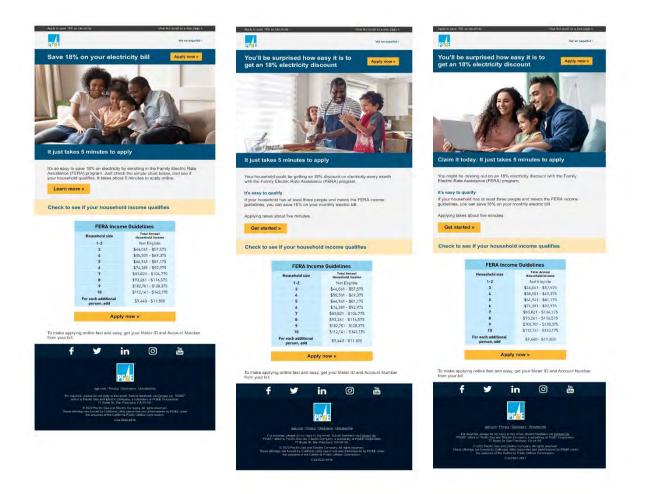

The monthly campaign will continue to send direct mail on the third Friday of the month targeting customers in Deciles 1-3 of the FERA propensity who have not

previously received CARE/FERA direct marketing. Customers included in the campaign will receive up to three direct mails, each approximately three months apart. Analysis of test results is planned for Q1 2023, after enough customers have received the three touch campaign.

**Email:** During the month of July, PG&E deployed the monthly FERA email to 19,456 customers.

The campaign emails deploy monthly on the second Saturday of the month targeting customers in Deciles 1-3 of the FERA propensity who have never received CARE/FERA direct marketing. Customers included in the campaign will receive up to three emails, each approximately three months apart

#### FERA Acquisition Email - Touch 1, Touch 2 and Touch 3 (English and Spanish)

**Digital Media:** PG&E continued the Always On digital strategy through July, with FERA advertising targeted to income-qualified customers across PG&E's service territory. The media buy includes display and native (such as sponsored ad placements on news sites and FreshEBT) advertising, paid search and Google advertising. A creative refresh of the native ads launched on July 7.

#### Native Ad Sample (English and Spanish)

**Media Coverage:** PG&E continues to participate in media interviews and provides press releases to promote CARE, FERA and other assistance programs.

**Tribal Outreach:** Refer to Section 1.2.1 - ESA Program Customer Outreach and Enrollment Update - for updates on Tribal Outreach.

**FERA Partners (Capitation Agencies):** In July 2022, there was one FERA enrollment via FERA Capitation Agencies (COCs).

**CBO Outreach**: In July, PG&E on-boarded six CBOs for a FERA Pilot. This 18-month pilot, which will run through December 2023, is designed to help increase FERA enrollments, and to also promote other income qualified and supporting programs such as CARE, ESA, Medical Baseline, Smart AC, Power Saver Rewards, WatterSaver and AMP. CBOs engaged in this outreach effort will focus more on in-person outreach and case management. The 6 CBOs, which include faith-based organizations, farm-worker outreach, climate and environmental justice organizations, will conduct outreach to hard-to-reach and minority communities across PG&E's service territory.

**University Outreach:** Refer to Section 2.2 - CARE Outreach for updates on University Outreach.

**Partnerships with other Program Administrators:** In July, PG&E and the DAC-SASH program administrator, GRID Alternatives, finalized a new process that allows for GRID's referrals to PG&E to be directly enrolled into either CARE or FERA. GRID has verified the actual household income of the customers through their DAC-SASH application process, allowing PG&E to determine if they are CARE or FERA eligible. In July, nine customers from GRID's DAC-SASH referrals were enrolled in FERA.

#### 3.3 FERA Recertification Complaints

Report the number of customer complaints received (formal or informal, however and wherever received) about their FERA recertification efforts, with the nature of the complaints and resolution.

PG&E received no complaints regarding FERA recertification during this reporting month.

#### 3.4 Pilots and Studies

#### **FERA Program Studies**

Refer to Section 2.4.1 - CARE Program Studies - for Categorical Eligibility Study updates.

#### **FERA Program Pilots**

PG&E launched its CBO FERA pilot in July 2022, and finalized details with the selected CBOs in June 2022. This is a proactive approach PG&E is taking to maximize the engagement of CBOs in the ME&O activities for FERA, and is not a Commission-directed pilot.

#### ESA Program - Multifamily Common Area Administration Direct Implementation (Non-Incentive) Direct Implementation

TOTAL MF CAM COSTS

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments. 1. Measures are customized by each IOU, see 'Table 2B-1, Eligible Measures List'. Measures list may change based on available information on both costs and benefits and may vary across climate zones. Each IOU should fill out Table 2B as it pertains to their program. Table 2B-1 Column A should match Table 2B Column A for eligible (not canceled) measures. PG&E inadvertently misreported the number of DHW, Furnace, and Window installations in August that the quantities were reported in system output (kBtu) for DHW and Furance, and in sqft sizes for Windows. These totals have

been corrected in this month's report.

2. Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings. 2021.

4. Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.

5. Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022, modified by D.17-12-009, where 65% of tenants are income eligible based (at or below 200% of the Federal Poverty Guidelines).

6. Year to Date Expenses table includes accrual amounts.

3. Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in table 2A.

Note: Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project.

Standard Notes (do not delete)

[1] Measures list may change based on available information on both costs and benefits (including energy benefits as well as non-energy benefits) and may vary across climate zones. This is not a list of installed measures, it is a list of eligible measures.

Table 2B-1 Column A should match Table 2B Column A for eligible (not canceled) measures.

[2] Only complete if measure is canceled or discontinued.

[3] Defined as CEC California Building Climate Zones

[1] Pilots on Table 2D are specific to Southern California Edison as approved in D.21-06-015. PG&E does not currently have an electrification pilot but is utilizing the common reporting template as other IOUs per ED's direction. Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

#### Energy Savings Assistance Program Table 6 - Expenditures for Pilots and Studies [1] Pacific Gas and Electric Company

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Funding for studies is not solely supported via the ESA program budget; some studies are jointly supported via the CARE budget.

[2] Authorized per D.21-06-015. Funds for pilots and studies may be rolled over to the next program year or borrowed from a future program year within the cycle, to allow for flexibility in scheduling changes with these efforts. Funding amounts listed reflect PG&E's 30% allocation among the IOUs, except for PG&E-only studies including the "Rapid Feedback Research and Analysis". Final authorized budgets may be adjusted by the ESA/CARE Studies Working Group per D.21-06-015.

[3] PG&E's Advice Letter 4193-G/5718-E approved Joint Utilities' 2022 LINA Study for \$500,000. SCE holds the statewide contract for this co-funded study. PG&E's 30% allocation is \$150,000, funded 50/50 via the ESA and CARE budgets. The 2022 LINA commenced in January 2021. The Joint Utilities would carry over committed, unspent 2021 LINA funding forward to 2022 and until the study is completed.

[4] Authorized per D.21-06-015, the 2025 and 2028 Low Income Needs Assessment (LINA) are required to be completed by Dec 2025 and Dec 2028, respectively.

[5] Authorized per D.21-06-015, the Categorical Study will be funded 50/50 via the ESA and CARE budgets.

[6] Authorized per D.21-06-015, to be conducted during PY 2023-26.

[7] Authorized per D.21-06-015, for each IOU to use for IOU-specific studies as needed. Unused annual budget may be carried forward until the end of the cycle.

[8] PG&E's Advice Letter 4349-G/6030-E was approved on January 21, 2021, and authorized \$90,000 shift from MF-CAM Adminstration to Studies for the MF CAM Process Evaluation; funding source is 100% ESA. PG&E holds the statewide contract for this co-funded study. The study commenced in July 2021. The Joint Utilities will carry over committed, unspent 2021 funding forward to 2022 and until the study is completed.

# Energy Savings Assistance Program Table 7 - Customer Segments/Needs State by Demographic, Financial, Location, and Health Conditions Pacific Gas and Electric Company Through July 31, 2022

[\*] PG&E is currently in the process of identifying method and updating its system/process to report on this customer segment. [1] The estimates for eligible households will be provided based on the 250% Federal Poverty Guidelines where applicable.

[2] Households treated data is not additive because customers may be represented in multiple categories. Data is compiled based on ESA measures received YTD, and may include enrollments from prior years. [3] The number of household contacted includes YTD leads and enrollments. [4] PG&E has considered the energy savings associated with all ESA measures installed for this entry, regardless of whether the savings have a negative or positive value for kW, kWh, and/or Therms. Many measures offered in ESA provide Non-Energy Benefits [5] PG&E has considered only the energy savings associated with the ESA measures installed for this entry that have a positive value for kWh and/or Therms. Installed ESA measures with a negative savings value for both kWh and Therms were excluded. [6] This represents the number of households with at least one member who is at least 60 years old at the time of data collection.

[7] "Hard-to-reach" residential customers include "those customers who do not have easy access to program information or generally do not participate in energy efficiency programs due to a language, income, housing type, geographic, or home ownership (split incentives) barrier" (Advice Letter 4482-G/6314-E dated September 1, 2021). For the purpose of this reporting, PG&E is defining 'hard-to-reach" as those residential customer self-identified as not preferring or speaking English as the primary language because income, housing type, geographic, and homeownership information is reported elsewhere on this table.

[8] Vulnerable refers to Disadvantaged Vulnerable Communities (DVC) which consists of communities in the 25% highest scoring census tracts according to the most current versions of the California Communities Environmental Health Screening Tool (CalEnviroScreen), as well as all California tribal lands, census tracts that score in the highest 5% of Pollution Burden within CalEnviroScreen, but do not receive an overall CalEnviroScreen score due to unreliable public health and socioeconomic data, and census tracts with median household incomes less than 60% of state median income.

[9] Includes Zone 3 (Tier 3) of the CPUC Fire-Threat Map [10] This reflects communities within PG&E's service territory that are identified by the California Air Resources Board (CARB) Community Air Protection Program as communities continue to experience environmental and health inequities from air pollution.

[11] Rates are based on the previous year. PG&E did not perform any disconnections in 2021 and as of June 2022. [12] PG&E defines arrearages as overdue balance greater than 30 days.

[13] PG&E defines high usage as at least 400% of baseline at least three times in 12-month period.

[14] PG&E utilizes the Low-Income Energy Affordability Data (LEAD) Tool developed DOE's Office of Energy Efficiency & Renewable Energy to identify census tracts with high energy burden for households at below 200 % Federal Poverty Level (FPL) that are in PG&E's service territory. The 2016 Needs Assessment for the Energy Savings Assistance and the California Alternate Rates for Energy Programs describes households that spent more 6.3% of their annual income on energy bills as having high energy burden (p.47). [15] The Socioeconomic Vulnerability Index (SEVI) metric represents the relative socioeconomic standing of census tracts, referred to as communities, in terms of poverty, unemployment, educational attainment, linguistic isolation, and percentage of income spent on housing. PG&E utilizes the SEVI data provided by the CPUC to map its service territory by SEVI scores (L: 0 to 33; M: >33 to 66; H: >66). [16] The Affordability Ratio (AR) metric quantifies the percentage of a representative household's income that would be used to pay for an essential utility service after non-discretionary expenses such as housing and other essential utility service charges are deducted from the household's income. Using Gas AR20 and Electric AR20 data for 2022 (using 2019 base year) provided by the CPUC, PG&E selects census tracts with Electric AR20 at above 15% or Gas AR20 above 10% to identify areas within its service territory as having high affordability ratio (CPUC 2019 Annual Affordability Report, pp 34, 44). [17] PG&E utilizes the 'Asthmas' indicator in CalEnviroScreen 4.0 (published by the California Office of Environmental Health Hazard Assessment) as a proxy to identify locations with varying levels of respiratory conditions within its service territory. L: 0-33 percentile;

M: >33-66 percentile; L: >66-100 percentile. [18] PG&E is currently updating its form/system to begin data collection for this segment.

[19] Rate of Uptake may be slighter greater than 100% as homes that have received treatment this year may have been enrolled/contacted in the prior year.

[1] ESA Table 7 is part of the new ESA reporting structure contemplated in D. 21-06-015. PG&E received this reporting template in Q1 2022 and, at the time of this filing, is working to define terms. PG&E is concurrently implementing processes to be able to report data for this table in the future. [2] PG&E has considered the energy savings associated with all ESA measures installed for this entry, regardless of whether the savings have a negative or positive value for kW, kWh, and/or Therms. Many measures offered in ESA provide Non-Energy Benefits (including Health, Comfort, and Safety (HCS)) in addition to energy savings, and some of these measures may be associated with a negative savings value.

[3] PG&E has considered only the energy savings associated with the ESA measures installed for this entry that have a positive value for kWh and/or Therms. Installed ESA measures with a negative savings value for both kWh and Therms were excluded. [4] As of July 2022, ESA Pilot Plus/Deep program has not begun customer enrollment.

### Energy Savings Assistance Program Table - 8 Clean Energy Referral, Leveraging, and Coordination Pacific Gas and Electric Company Through July 31, 2022

| Partner                                  | Brief Description of Effort  | # of Referral [1] | # of Leveraging<br>[2] | # of<br>Coordination<br>Efforts [3] | # of<br>Leads [4] | # of<br>Enrollments<br>[5] |
|--|--|-------------------|------------------------|-------------------------------------|-------------------|----------------------------|
| LIHEAP                                   | When a home does not qualify for R&R measures in ESA, contractors connect the customer to LIHEAP contractors.  | 291               | 0                      | 0                                   | 0                 | 0                          |
| CSD                                      | Coordination and collaboration with SPOC to support multifamily customers to learn about program opportunities applicable to multifamily properties.   | *                 | 0                      | *                                   | *                 | *                          |
| DAC-SASH                                 | Coordination with the DAC Single-family Affordable Solar Homes Program<br>Administrator, GRID Alternatives, on referrals and homes treated.  | N/A               | N/A                    | N/A                                 | 318               | 46                         |
| ESA Water-Energy<br>Coordination Program | Allows ESA contractors to offer water conservation measures while they treat ESA customers. Water Agencies select from a standardized menu of options that can include replacing toilets, leak detection, meter checks, etc. Water offerings are paid by each participating Water Agency.  | *                 | *                      | *                                   | *                 | *                          |
| SmartAC Program                          | SmartAC is a voluntary program that helps prevent power interruptions. It encourages customer participation by providing incentives and instant rebates for purchasing an eligible smart thermostat.   | 7,766             | N/A                    | 1,431                               | N/A               | N/A                        |
| SoCal Gas ESA                            | When a home is has PGE Electric Only and gas service is through SoCal Gas, contractors connect the customer to SoCal Gas ESA for additional assistance w/ ESA measures.  | 46                | 0                      | 67                                  | 21                | 12                         |
| SJV DAC                                  | Residential Electrification in three communities in the San Joaquin Valley: Allensworth,<br>Cantua Creek, and Seville. Customer's eligible for this service, ESA contractor will<br>enroll customer in SJV DAC and once home is fully converted will also enroll through<br>PGE ESA to receive additional ESA measures not offered through this program. | 37                | 14                     | 0                                   | 170               | 38                         |
| SMUD                                     | ESA Subcontractor provides customer with contact information for SMUD for possible assistance.   | 1                 | 0                      | 0                                   | 0                 | 0                          |

[\*] PG&E is currently updating its system to capture information required for this reporting. PG&E expects to begin reporting on these metrics in full starting in Q4 2022.

[1] # of referral includes leads provided to a Partner Program by ESA.

[2] # of leveraging acounts for households that have received treatments by both ESA and the Partner Program where there were shared resources/cost, such as Direct Tech, CSD, Water Energy, Refrigerator, etc..

[3] # of coordination efforts include joint marketing activities by ESA and its Partner Program. These joint marketing activities may include social media, leave behinds, customer outreach events and activities..

[4] # of leads include customer leads provided to ESA by Partner Program.

[5] # of enrollment accounts for completed ESA treatment YTD. This includes customer leads that result in actual ESA enrollments/treatment. It does not include leads that are in the intake process or have been treated in prior years.

[1] Authorized Budget: Approved in D.21-06-015 from January 1, 2021 to December 31, 2026.

[2] 2022 authorized budget includes \$1,107,039 for Benefit Burdens as approved in (D.)20-12-005. Actual employee benefit burden costs have been included in the program monthly and YTD expenses.

[3] D.15-12-047 transitioned from CHANGES pilot to CHANGES program and funding for the effort is captured herein. D.21-06-015 approved funding for the CHANGES program through CARE program for PYs 2021-2026. [4] Reflects the budget and expenses for LINA study.

[5] Reflects the budget and expenses for Annual Eligibility Estimates prepared by Athens Research on behalf of the utilities.

[6] Per D.02-09-021, PG&E is authorized to recover the full value of the discount through the CARE two-way balancing account on an automatic pass-through basis.

[7] PPP Exemption - CARE customers are exempt from paying CARE program costs including PPP costs for CARE admin and the CARE surcharge.

NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

<sup>1</sup> Enrollments via data sharing between the IOUs.

<sup>2</sup> Enrollments via data sharing between departments and/or programs within the utility.

<sup>3</sup> Enrollments via data sharing with programs outside the IOU that serve low-income customers.

<sup>4</sup> PG&E counts attrition due to no response in the Failed PEV and Failed Recertification columns, respectively.

<sup>5</sup> Includes customers who closed their accounts, requested to be removed, or were otherwise ineligible for the program.

<sup>6</sup> Data represents total residential households.

<sup>7</sup> Penetration Rate and Enrollment Rate are the same value.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

<sup>1</sup> Includes all participants who were selected for high usage verification process.

<sup>2</sup> Includes customers verified as over income, who requested to be de-enrolled, did not reduce usage, or did not agree to be weatherized.

<sup>3</sup> Verification results are tied to the month initiated and the high usage verification process allows customers 90 days to respond to the verification process. Each utility may have a different de-enrollment date due to billing cycle or other contributing factors.

| November  |  |                  |   |  |
| December  |  |                  |   |  |

Note:

Data was not available prior to June 2022

Penetration Rate and Enrollment Rate are the same value.

[1] Disconnection Rates are based on the previous year. PG&E did not perform any disconnections in 2021.

[2] Includes zip codes with >25% of customers with incomes less than 100% FPG.

[3] DACs are defined at the census tract level. Corresponding zip codes are provided for the purpose of this table; however, the entire zip code listed may not be considered a DAC.

#### CARE Program Table 8A - CARE Top 10 Lowest Enrollment Rates in High Disconnection, High Poverty, and DAC Communities by Zip Code Pacific Gas and Electric Company Through July 31, 2022

| ZIP      | Top 10 Lowest CARE<br>Enrollment Rate for Zip<br>Codes that have 10% or<br>more Disconnections [1] |

<sup>1</sup> Enrollments via data sharing between the IOUs.

<sup>2</sup> Enrollments via data sharing between departments and/or programs within the utility.

<sup>3</sup> Enrollments via data sharing with programs outside the IOU that serve low-income customers.

<sup>4</sup> PG&E counts attrition due to no response in the Failed PEV and Failed Recertification columns, respectively.

<sup>5</sup> Penetration Rate and Enrollment Rate are the same value.
