**MONTHLY REPORT OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902 M) ON
LOW-INCOME ASSISTANCE PROGRAMS FOR AUGUST 2024**

This is the August monthly report for program year (PY) 2024. The purpose of this report is to consolidate activity for the California Alternate Rates for Energy (CARE) Program, Family Electric Rate Assistance (FERA) Program, and Energy Savings Assistance (ESA) Program and provide the California Public Utilities Commission's (CPUC) Energy Division with information to assist in analyzing the low-income programs.¹

This report presents year-to-date CARE, FERA, and ESA Program results and expenditures through August 31, 2024, for San Diego Gas & Electric Company (SDG&E).

Respectfully Submitted,

/s/ Siobhán E. Murillo

LOW INCOME ASSISTANCE PROGRAMS MONTHLY REPORT

In 2021, the California Public Utilities Commission (Commission) voted and unanimously approved, with modifications, the Decision on Large Investor-Owned Utilities' (IOUs) and Marin Clean Energy's California Alternate Rates for Energy (CARE), Energy Savings Assistance (ESA), and Family Electric Rates for Energy (FERA) Program Applications for Program Years 2021-2026, which authorized budgets and goals effective July 1, 2021.¹ The authorized program year budgets, savings goals, and homes treated targets in this monthly report reflect those authorized by the Commission in Decision (D.) 21-06-015 (Decision).² The Decision approved the IOUs to shift the ESA Program away from treating all eligible and willing households towards a customer-centered prioritization model based on household needs and customer profile.³ Additionally, the Decision ordered the implementation of a new ESA Multifamily Whole Building Program (MFWB), which includes all multifamily sectors, including in-unit, common areas, and the whole building,⁴ and the implementation of the Pilot Plus and Pilot Deep Program that focuses on gathering the feasibility of a more strategic measure delivery approach.⁵

1. ESA PROGRAM EXECUTIVE SUMMARY

The ESA Program offers no-cost weatherization services, energy efficient lighting, energy efficient appliances, energy education, and other services to income-qualified customers to reduce energy consumption and costs, while improving health, comfort, and safety of

¹ D.21-06-015 at Ordering Paragraph (OP) 3 and at OP 82.

² *Id.*

³ *Id.* at OP 57.

⁴ *Id.* at OP 119.

⁵ *Id.* at OP 38.

customers. To qualify for the ESA Program, a residential customer's household income must be at, or below, 250% of Federal Poverty Guidelines (FPG).

The Main ESA program provides services to single family and mobile homeowners and renters. The program design is focused on achieving energy savings through targeted outreach efforts, while continuing to offer health, comfort, and safety to low income customers. Richard Heath and Associates (RHA) is the primary implementer of ESA Main services including Outreach and Assessment, Weatherization, Appliance Installation, Natural Gas Appliance Testing (NGAT) and Inspections of gas appliance installation. THA Heating Plumbing & Air and Staples Energy provide Heating Ventilation and Air Conditioning (HVAC) and Water Heater Repair and Replacement (R&R) Services.

SDG&E's Southern Multifamily Whole Building (MFWB) Program offers ESA Services for In-Unit, Common Area Measures (CAM), and Whole Building (WB) Measures under one Program to Deed Restricted and Non-Deed Restricted multifamily buildings. SDG&E is the lead utility on behalf of Southern California Edison Company (SCE) and Southern California Gas Company (SoCalGas) for the Southern Region MFWB program.⁶

The ESA Pilot Plus and Pilot Deep Program (Pilot), the Energy Division's Staff Proposal approved by the Commission in D.21-06-015, provides more advanced energy savings measures tailored to customer needs that complement and build upon the ESA Main Program measure packages. The Pilot Plus package will provide and/or replace certain equipment and appliances plus load shifting and electrification measures that should reduce annual energy usage by 5 to 15%. The Pilot Deep package will offer more advanced measures that should reduce annual energy usage by 15 to 50%.

⁶ *Id.* at OP 120.

SDG&E's total 2024 authorized ESA Portfolio budget is \$30,210,212.⁷ Through August 2024, SDG&E's total costs for the ESA Portfolio were \$12,840,897. This month's activities for the ESA Programs are included below.

1.1. ESA Program Overview

1.1.1. Provide a summary of the ESA Program elements as approved in D.21-06-015.

ESA Main Program

In August 2024, the ESA Main program continued to see progress towards its homes treated targets and energy savings goals. Some implementation highlights for the month of August include:

- Deployed direct email campaign to over 6,000 customers impacted by winter storms (described further below);
- Continued Q3 Home Energy Savings Kit (Kit) campaign to approximately 7,000 (described further below);
- Kicked off implementation of assessing households for whole house fans and secondary freezer following contractor training and education.

ESA Table 1.1.1.1 compares the authorized budget and targets for program year 2024 to actual progress to date for the ESA Main program.

⁷ D.21-06-015 at Attachment 1, Table 7 and includes \$315,260 of SASH/MASH unspent funds (see table ESA Table 1.1.1.5).

ESA Table 1.1.1.1⁸			
ESA Main (SF, MH) Program Summary Expenses for 2024			
	2024 Authorized / Planning Assumptions⁹	Actual to Date¹⁰	%
Budget ¹¹	\$18,876,805	\$9,903,312	52%
Homes Treated	3,983	3,567	90%
kWh Saved ¹²	1,496,098	624,011	42%
kW Demand Reduced	218	49	22%
Therms Saved	42,191	18,666	44%
GHG Emissions Reduced (Metric Tons of CO ₂ e) ¹³	N/A	535	N/A

ESA Table 1.1.1.2 below provides the ESA Main Program percentage of administrative spend of total program costs.

⁸ SDG&E notes that the program experienced an error when calculating and reporting out its kWh and therms for LED lighting dating back to the April 2024 Report. The correction resulted in an increase in savings under kWh and a decrease in therms from the previous reporting period.

⁹ Pursuant to D.21-06-015, planning assumptions for savings goals and homes treated target are based on annual Main ESA Program allocation of the overall Program Cycle Goals and Targets, Attachment 1, Tables 5 and 6.

¹⁰ As shown in ESA Monthly Report Tables 1 and 2.

¹¹ ESA Main program budget includes measures and program administrative budget categories as shown on ESA Monthly Report Table 1.

¹² Pursuant to Table 5 of Attachment 1, D.21-06-015, the 2024 goals for kWh, kW, and therms include ESA Main, MF CAM and MFWB, however, the table above reports results only from the Main ESA Program only.

¹³ Derived by utilizing the United States Environmental Protection Agency Greenhouse Gas Equivalencies Calculator.

ESA Table 1.1.1.2 ESA Main Program Administrative Expenses for 2024		
	August 2024	YTD¹⁴
Administrative Expenses	\$137,428	\$943,959
Total Program Costs	\$(599,954) ¹⁵	\$9,903,312
% of Administrative Spend	-23%	9.53%

Through August 2024, SDG&E’s ESA Main YTD administrative expenses are below the administrative cap of 10%.

ESA MFWB

In August 2024, SDG&E’s Southern MFWB Program faced system challenges at the start of the month. Despite this, SDG&E successfully processed and paid out invoices pending from July, and new invoices submitted in August. SDG&E is actively working to address system performance issues and has planned a series of enhancements to improve stability and performance. These improvements will be rolled out in the coming weeks and months to ensure the system can effectively manage future demands and changes.

In August 2024, RHA informed SDG&E that three subcontractors expressed concerns regarding untimely compensation due to system related issues. SDG&E modified its payment

¹⁴ Pursuant to D.21-06-015 at OP 112, “Pacific Gas and Electric Company, Southern California Edison Company, Southern California Gas Company and San Diego Gas & Electric Company’s Energy Savings Assistance (ESA) program administrative expenses are capped at either 10 percent of total program costs or the Utility’s historical five-year average spend on administrative costs as a percentage of total program costs, whichever is greater. The use of the historical five-year average spend will be phased out such that the Utilities must propose to spend no more than 10 percent of total program costs on administrative costs starting in program year 2024. The definition and categorization of administrative cost for the ESA program will be consistent with that of the main energy efficiency program.”

¹⁵ See ESA Table 1, attached hereto. Negative amounts in the Domestic Hot Water, HVAC, and In Home Education budget categories are a result of revised accrual amounts.

terms for this reporting month to expedite payments to the aforementioned subcontractors. SDG&E remains committed to mitigating these concerns and improving the program's performance.

ESA Table 1.1.1.3 below compares the authorized budget and targets for program year 2024 to actual progress to date for SDG&E's portion of the MFWB program.

ESA Table 1.1.1.3¹⁶ MFWB (In-Unit, CAM, WB) Summary of Expenses for 2024			
	2024 Authorized / Planning Assumptions¹⁷	Actual to Date	%
Budget ¹⁸	\$9,014,088	\$ 2,346,087	26%
SPOC Budget	\$477,376	\$ 166,768	35%
Properties Treated	18	2	11%
Homes Treated (in-units)	10,155	808	8%
kWh Saved	1,273,901	53,700	4%
kW Demand Reduced	180	3	2%
Therms Saved	73,198	15,199	21%
GHG Emissions Reduced (Metric Tons of CO2e) ¹⁹	N/A	38	N/A

Pilot Plus/Pilot Deep (ESA Whole Home)

Since the contract award to Maroma Energy Services (Maroma) in January 2024, SDG&E continues ramp up activities for the Pilot, including setup of internal system,

¹⁶ SDG&E notes that the program experienced an error when calculating and reporting out its kWh and therms for LED lighting dating back to the April 2024 Report. The correction resulted in an increase in savings under kWh and a decrease in therms from the previous reporting period.

¹⁷ Pursuant to D.21-06-015, planning assumptions for savings goals and homes treated target are based on annual ESA MFWB Program allocation of the overall Program Cycle Goals and Targets, Attachment 1, Tables 5 and 6.

¹⁸ MFWB program budget includes MF In-Unit, CAM, WB, and Implementer administrative budget categories as shown on ESA Monthly Report Table 2A.

¹⁹ Derived by utilizing the United States Environmental Protection Agency Greenhouse Gas Equivalencies Calculator.

development of marketing and outreach materials, creation of KPI reporting templates, and development of internal reporting dashboard.

To date, the email marketing campaign that launched in April 2024 has resulted in 48 leads. Subcontractors have started following up on customer leads to determine if they will qualify for program enrollment. To date, 21 customers have been enrolled, and 10 are currently undergoing assessment to determine their eligibility. SDG&E will delay the upcoming email marketing campaign until September 2024 to ensure additional leads have been contacted for enrollment. Maroma has revised the target of 50 homes for treatment in 2024 to 30, due to the slow start and obtaining relevant information from customers for enrollment. Maroma continues its outreach efforts through outbound phone campaigns in preparation for enrollments.

Initial discussions with The Harris Group (THG),²⁰ a current third-party contractor supporting CARE and FERA Program enrollments, have been focused on leveraging their capabilities and relationships to ensure customers meet specific criteria for the Pilot before dispatching trucks, thereby securing quality leads for Maroma.

²⁰ THG is a Diverse Business Enterprise (DBE) vendor and a woman-owned business.

ESA Table 1.1.1.4 Pilot Plus and Pilot Deep Summary Expenses for 2024			
	2024 Authorized / Planning Assumptions²¹	Actual to Date²²	%
Budget ²³	\$1,526,683	\$424,730	28%
Homes Treated	30	0	N/A
kWh Saved	N/A	0	N/A
kW Demand Reduced	N/A	0	N/A
Therms Saved	N/A	0	N/A
GHG Emissions Reduced (Tons)	N/A	0	N/A

SASH/MASH Unspent Funds

On October 31, 2023, SDG&E submitted AL 4285-E.²⁴ In the AL, SDG&E requested to transfer the unspent SASH/MASH funds to the ESA programs.²⁵ The transferred funds will be used primarily to support the ESA Main program implementation across the current program cycle, including to provide energy efficiency (EE) measures and services to single family, mobile homeowners, and renters at no cost to qualifying low-income customers. SDG&E also sought flexibility to utilize the SASH and MASH funds across EE budget categories and other

²¹ Home treatment, energy savings, and GHG emissions reduction targets were not included in D.21-06-015. SDG&E will report on actual achievements upon completion of home treatment.

²² Actual homes treated, savings and GHG emissions reduction values are reported when projects have been fully closed (i.e., inspected, issues resolved, permits closed, as applicable) and reported by Pilot Implementer to SDG&E. Energy savings are estimates provided by energy modeling software. SDG&E intends to report these estimates as interim savings until meter-based savings estimates are reportable.

²³ Pilot Plus and Pilot Deep budget and expenditures are reflected in ESA Monthly Report Table 2B and is based on the annual budget directed in D.21-06-015, Table 11 of Attachment 1. An additional \$2,824,866 from previous program years are available to carry forward, as directed in OP 181 of the Decision.

²⁴ See SDG&E AL 4285-E (October 31, 2023), *available at* https://tariff.sdge.com/tm2/pdf/submittals/ELEC_4285-E.pdf.

²⁵ SDG&E requested authorization to transfer the funds from the SDG&E CSIBA to SDG&E's ESA Core Balancing Account, in which cost of the measures and installations are currently recorded. SDG&E's ESA Program Balancing Account is the Low Income Energy Efficiency - Electric (LIEEBA).

ESA programs and pilots like the MFWB Program and Pilot Plus/Pilot Deep Program.²⁶ The AL became effective on November 30, 2023. SDG&E intends to utilize the available SASH/MASH unspent funds by the end of the program cycle and will report on this activity in a future report.

ESA Table 1.1.1.5 Single Family Affordable Solar Homes (SASH) and Multifamily Affordable Solar Housing (MASH) Unspent Funds (Electric IOUs Only)²⁷ for 2024			
	2024 Authorized/Planning Assumptions	Actual YTD	% YTD
Budget	\$315,260	0	0

1.1.2. Program Measure Changes

If applicable, discuss any measure changes that may have taken place in ESA (SF, MH), ESA Pilot Plus and Pilot Deep, and/or ESA BE during this reporting month.

There were no ESA measure changes implemented during this reporting period.

1.2. ESA Program Customer Outreach and Enrollment Update

1.2.1. Provide a summary of the ESA Program outreach and enrollment strategies deployed this month.

ESA Main (SF and MH) Program Contractor Outreach

SDG&E, in collaboration with RHA, continued to implement a targeted outreach and engagement campaign aimed at customers that have been identified as likely to meet income qualifications and have high energy savings potential. In July 2024, a subset of approximately 7,000 customers that did not open previous direct marketing emails were selected to receive a

²⁶ D.21-06-015 at OPs 39 and 123.

²⁷ SDG&E's AL 4285-E was approved and effective on November 30, 2023.

Home Energy Savings Kit (Kit) in the mail.²⁸ These Kits include a call-to-action directing customers to contact RHA to take advantage of the ESA Main program. The Kits are being mailed out in batches over the third quarter (Q3) of this year.

In August 2024, the ESA Main Program enrolled 758 customers, which represents a slight increase from the previous month.

ESA Southern MFWB (In-Unit, CAM, and WB) Program

In August 2024, RHA reported ongoing robust program interest from property owners and trade allies. RHA concentrated on cultivating relationships with property owners and industry stakeholders to facilitate ongoing new program enrollments. In SDG&E's service territory, the Program successfully completed 2 Whole Building Projects and 285 in-unit treatments for the month of August, bringing the year-to-date total for SDG&E to 808 in-units treated. The Program aggregate (SDG&E, SCE & SoCalGas) totals completed 4 Whole Building Projects and treated 1,707 in-units across the three IOUs service territory. RHA reported completing 9 property enrollments, and 20 property assessments in August. This brings the total whole building enrollments to 258 properties (69 in SDG&E's service territory, 7 in SCE's service territory, 77 in SoCalGas's service territory, 102 in SCE/SoCalGas's combined service territory, and 3 in SoCalGas's/SDG&E's combined service territory), and 230 completed property assessments. The 258 enrolled properties equate to 27,257 potential in-units enrolled for treatment. Additionally, RHA continues to work on a pipeline of 1,382 qualified leads in the southern service territory. The Program's lead-to-enrollment conversion rate is 19%, with 89%

²⁸ Kits consist of easy to install EE measures that are mailed to eligible participants. The kits include: lightbulbs (3); faucet aerators (2), low flow shower head, and a toilet bank.

enrolled properties progressing to an assessment. Five percent of properties opted out of the MFWB Program, while 2% of assessed properties have completed CAM/WB construction.

As mentioned in previous reports, the Program experienced a slower start than anticipated. The factors listed below provide an overview of the challenges.

- **ESA Subcontractor Adjustment:** One of the major challenges is the adjustment of ESA subcontractors to the new program structure, pricing, and the contractual compensation holdback tied to performance.
 - **Mitigation:** To address this challenge SDG&E took several steps, including making updates to contract terms and renegotiating measure pricing. The executed contract amendment was dated June 28, 2024. The Program also incorporated additional flexibility by allowing treatment pathways for stand alone in-unit treatments or CAM only projects for properties that are not interested in whole building treatment.
- **Tenant Income Documentation:** Some property owners are hesitant to provide proof of tenant income documentation, which is essential for program compliance.
 - **Mitigation:** The utilities, MFWB Implementers and Energy Division have modified and streamlined the process through the MFWB Policy and Procedures (P&P) working group. The Program will allow Deed Restricted Property owners to self-attest eligibility and Non-Deed Restricted Properties will still need to provide income documentation as part of enrollment. These updates will be available in Version 2 of the MFWB P&P, released on July 1, 2024, with Version 3 scheduled to release towards the end of the year.

SDG&E and RHA are expecting in-unit treatments to accelerate now that the compensation and enrollment documentation challenges have been addressed. SDG&E and RHA remain committed to working through the challenges and delivering the Programs savings and treatment goals.

ESA Pilot Plus and Pilot Deep Outreach Preparation

The Outreach team has identified 24 community-based organizations (CBOs) in targeted Climate Zones to partner with to support the Pilot messaging. In August 2024, the Outreach team continued to partner with targeted CBOs to provide training to their staff members and share the program flyer. These partners help educate customers and increase outreach and engagement efforts using a variety of tactics, including messaging through email and social media channels such as Facebook, X, and Instagram, posting information on their websites, and providing booth space at events in targeted areas.

Language Line

Language Line® is utilized to make sure customers with limited English proficiency (LEP) have a channel in which to communicate with ESA Program contractors in the language of their preference. Four customers were served by the Language Line this month.

Language	Calls
Arabic	1
Russian	1
Cantonese	1
Vietnamese	1
Total	4

Tribal Outreach

There are 17 Federally recognized tribes and 3 non-Federally recognized tribes within the SDG&E service territory, each with very different priorities and resources. The SDG&E team continues to prioritize low-income program outreach to hard-to-reach areas where tribal members reside. Additionally, SDG&E has established support systems with Indian Health

Councils, Southern California American Indian Resource Center (SCAIR), and Southern California Tribal Chairmen's Association (SCTCA) to reach tribal community members in need.

In August 2024, SDG&E participated in eight educational workshops to share information on low income customer programs, including bill assistance, CARE, FERA, ESA, MBL and other SDG&E programs and resources, to tribal community members.

Separately, the Outreach team provided one-on-one assistance to two tribal members facing disconnection. These customers were enrolled in programs to avoid disconnection.

Additionally, SDG&E, SCE, and Pacific Gas and Electric Company held the third annual Tribal Leaders Energy Summit and Expo highlighting discussions around tribal energy sovereignty and independence, emergency preparedness, hydrogen trail, equitable transition to clean energy, tribal energy financing, and workforce development. Information on low income customer programs, other programs and resources were also shared at the expo.

Seven of the 17 tribes that SDG&E serves have been identified as having potentially eligible tribal members for Customer Assistance programs and have been approached with a mini grant opportunity. To date, three tribes have received payments. In 2024, the seven tribes were offered the mini grant opportunity, but it has been challenging getting responses. The Outreach team is evaluating its strategies including updating contact information, exploring implementing a Tribal survey, and participating in events that provide SDG&E engagement with Tribal leaders to discuss the mini grant opportunity and how SDG&E can better support the tribes it serves.

1.2.2 Customer Assistance Marketing, Education and Outreach for the ESA Programs.

Awareness Marketing

In August 2024, SDG&E continued the 2024 awareness campaign. The streaming audio component achieved 134,382 impressions and 1,345 clicks, resulting in 45 customers proceeding to the application. Digital display ads generated over 1.3 million impressions with 554 conversions, while paid social media efforts yielded over 838,000 impressions and 0.73% CTR. Video ads resulted in 200,717 impressions, with a CTR of 0.08%.

Direct Marketing

In August 2024, SDG&E continued direct communications and deployed 6,237 emails to customers impacted by the 2024 winter storms. Many impacted customers are currently reentering their homes. The email highlighted ESA services and urged them to call RHA. SDG&E believes that the call-to-action response is lower than usual because customers must call RHA rather than apply online to be eligible for customer protections. The email garnered a 52% open rate and a 1.8% CTR.

Social Media

SDG&E utilizes social media to post messages to a collective audience of more than 1.3 million followers across its multiple social media channels, including Facebook, Instagram, LinkedIn, Nextdoor, Threads and X. In August 2024, SDG&E utilized organic social media to promote ESA on SDG&E's Facebook, Instagram, and Nextdoor channels.

	Impressions	Engagements	Engagement Rate
Facebook	1,254	4	0.3%
Instagram	606	15	2.4%
Nextdoor	55,400	11	N/A ²⁹

Additionally, the Energy Solutions Partner Network distributes messaging informing the public of customer assistance programs. In August 2024, the Energy Solutions Partner Network shared over 10 customer assistance messages to more than 63,000 customers through e-newsletters, website posts, and social media channels.

²⁹ Nextdoor does not allow business accounts to enable comments.

Live CARE Call Campaign

SDG&E’s third-party contractor, THG,³⁰ calls targeted customers to encourage enrollment in the CARE and FERA Programs. The campaign provides SDG&E with a way to directly connect with customers in low income and hard-to-reach areas. Targeted customers also include those who are up for recertification for CARE and FERA. THG provides education about the CARE, FERA, and ESA Programs. If eligible, THG enrolls customers in the CARE and FERA programs over the phone.

The Harris Group³¹

FERA Recertifications	19

Community Outreach & Engagement

Energy Solutions Partner Network

SDG&E works closely with a network of approximately 200 community-based organizations (CBOs) to connect customers with programs, resources and solutions related to Customer Assistance, bill debt relief, Public Safety Power Shutoff resiliency, wildfire preparedness, clean energy, and conservation. These organizations represent the diversity of SDG&E’s customers within its service territory. Many of these CBOs are small, grassroots

³⁰ THG is a Diverse Business Enterprise (DBE) vendor and a woman-owned business.

³¹ Due to the timing of collection of enrollment data for specific groups, numbers throughout this report may vary slightly based on the reporting timeframe for each month.

agencies serving individuals with access and functional needs, including those that are multicultural, multilingual, low income, seniors, and limited English proficient (LEP) audiences in communities of concern. These partners help educate and enroll customers in income qualifying programs using a variety of tactics, including messaging through email and social media channels such as Facebook, X, and Instagram, posting information on their websites, providing booth space at events, and hosting enrollment day fairs at their locations. SDG&E’s partner outreach activities resulted in the following activities this month:

Energy Solutions Partner Network

FERA Enrollments	1
FERA Recertifications	0

Partner Spotlight

In August 2024, SDG&E’s Community Outreach and Engagement team participated in over 60 events, presentations, trainings, and workshops that featured information and enrollment in energy solutions programs, services, and tools. Many of these activities were hosted by SDG&E’s partner network and included drive-through events, including food drives and community events. These outreach activities were focused on engaging customers with customer assistance programs such as CARE, FERA, and ESA and reached over 8,500 customers. A few of the outreach events SDG&E participated in are highlighted below.

City of San Diego

On August 3, 2024, SDG&E Outreach partnered with The City of San Diego for Mayor Todd Gloria's Annual Back to School Celebration. This fourth annual event was hosted to support students and families prepare for their return to the classroom. Students received school supplies including backpacks, notebooks, and stationary items to prepare them for the school year. SDG&E attended and provided information on programs and services, including Customer Assistance information. Other community partners provided free family resources and information, activities for children, including arts and crafts.

San Diego Police Department

On August 6, 2024, the Outreach team partnered with the San Diego Police in support of their National Night Out. This event is an annual community-building campaign that promotes police-community partnerships and neighborhood camaraderie. The San Diego Police Department partners with several community organizations to create safe and engaging community events in areas throughout the city. SDG&E participated in the event and distributed Customer Assistance information to those in attendance.

Multicultural Outreach

To continue efforts to reduce potential barriers, increase education, and increase program enrollments for customers in the rural, multicultural/multilingual, and AFN segments, SDG&E pairs multicultural contractors with employees who are fluent in various languages to help staff events and presentations. These contractors are fluent in Spanish, Chinese, Aramaic/Arabic, and other languages, as requested.

Additional Customer Engagement Efforts

In addition to SDG&E’s ME&O efforts described above, SDG&E also employs customer engagement efforts to educate, enroll, and provide direct service to its low income customers. These efforts include direct service from SDG&E’s Customer Care Center (CCC) and Payment Offices, as well as the distribution of materials through other SDG&E customer-facing groups/programs and field services teams. SDG&E also promotes CARE at its Authorized Payment Locations (APLs), and its Outreach team assists at Branch Office locations seasonally to help enroll customers.

In August 2024, SDG&E held five My Energy Center workshops to inform customers about the branch office closures scheduled in September, educated customers on the My Energy Center tool, electronic payment options, going paperless, and My Energy Center enrollment support. Additionally, customers were made aware of the transition of My Account to My Energy Center, which occurred on August 4, 2024.

SDG&E’s CCC, Branch Offices, and Payment Offices promote and offer the CARE, FERA, and ESA Programs to potentially eligible customers and enroll customers directly into the CARE Program over the telephone.³² During this reporting month, SDG&E’s CCC and Branch Offices generated the following applications and leads over the telephone:

	CCC	Branch Office
ESA Leads	5	0
CARE Enrollments	0	94
CARE Recertifications	3	11
FERA Enrollments	0	0
FERA Recertifications	0	0

1.2.3 Managing Energy Use

As part of the ESA Programs In-Home Energy Education, customers are given information about tools and services available to help manage and reduce energy use. Customers who are not already enrolled in My Energy Center³³ will be enrolled and provided with an overview of resources available to them to help manage energy use, including the Power Saver Rewards Program, a voluntary, penalty-free program that pays participants for reducing their energy use during times of high demand or other emergencies.

During In-Home Assessment, a residential outreach specialist reviews the setting of the various appliances and explains to the customer how to maximize the settings to reduce energy

³² In D.16-06-054, SDG&E received Commission authorization for its CCC Energy Service Specialists to enroll customers directly into the CARE Program over the telephone.

³³ In August 2024, SDG&E’s MyAccount transitioned to My Energy Center.

usage. In addition, if a customer qualifies for a new smart thermostat, they are given information at the time of installation on how to use the thermostat to help manage and reduce energy usage.

1.2.4 Services to Reduce Energy Bill

As part of SDG&E's measure mix, Tier II power strips and smart thermostats are available for installation to eligible customers. These measures provide customers with energy management technology that help reduce energy bills. Year to date, 437 Tier II power strips and 178 smart thermostats have been installed.

1.2.5 Additional Activities

There are no additional activities to report on for August 2024.

1.3 Leveraging Success Evaluation, Including California State Department of Community Services and Development (CSD)

1.3.1 Please provide a status on referrals, of the leveraging and coordination effort with CSD. Expand on activities and success rates across the list of programs from the Coordination Workshop, such as Affordable Broadband and Lifeline, as applicable to ESA, CARE and FERA. What new steps or programs have been implemented? What was the result in terms of new enrollments? Please also provide coordination efforts with the TECH program.

As part of the transition to the implementer model, SDG&E ceased contracting directly with local Low Income Home Energy Assistance Program (LIHEAP) agencies. However, RHA is subcontracting with both San Diego LIHEAP contractors, MAAC and Campesinos Unidos, to continue leveraging enrollment efforts. There were no LIHEAP referrals to ESA Main in August 2024.

SDG&E continues to leverage CARE and FERA to improve ESA Program participation. Customers using the joint CARE/FERA application are leveraged to generate ESA Program leads sent directly to the ESA Program implementer. In support of California Emerging Technology Fund's (CETF) efforts to provide eligible Californians with affordable internet

services, SDG&E continues to provide customers visiting SDG&E's assistance website with a link to the CETF website. In August 2024, SDG&E continued to share the updated flyer with its network of CBOs and at booth events to help increase program awareness.

1.3.2 Please provide a status on coordination with TECH Clean California

Since the beginning of the year SDG&E and TECH have met to discuss possible coordination between TECH Clean California and SDG&E ESA Programs. Tech Clean California funds are available to support installation of heat pump HVAC and water heaters technology across California. The best candidates for this technology are high heating/high cooling load households, which are not particularly predominate in the San Diego area. As the ESA Pilot Plus/Pilot Deep program starts to enroll and assess households, the opportunity to leverage TECH funding for heat pump technology will be considered. SDG&E and TECH will regroup in the third quarter to continue the discussion.

1.4 ESA Workforce Education & Training (WE&T)

1.4.3 Please summarize efforts to improve and expand ESA Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

RHA takes a proactive approach to workforce education and training by facilitating regular on the job training via quarterly and monthly meetings, tailboards, and quality assurance ride-alongs. RHA also maintains a subcontractor portal that provides access to available training and certification programs and promotes the Energize Careers Programs among its subcontractors, and recently launched the San Diego LEARN Program, which markets and offers free electrification courses.³⁴

³⁴ See The San Diego Learn Program, *available at* <https://www.sandiegolearn.com/>.

RHA also partners with Upskill California, a consortium of 28 community colleges across the state. This collaboration aims to establish connections between job seekers graduating from pre-employment and construction education programs at these colleges and ESA contractors. By leveraging these initiatives, RHA seeks to enhance training opportunities and foster employment pathways for individuals entering the workforce.

When issues or concerns arise that identify specific workforce education and training needs, both SDG&E and RHA work with contractors to develop and implement Corrective and Preventative Action (CAPA) Plans or Process Improvement Plans (PIP). These respective processes are typically timebound efforts to investigate, plan, deploy, and track corrective actions and process improvements.

RHA continues to promote employment opportunities in the communities it serves by providing flyers and information to customers.

For the Southern MFWB Program, RHA held bi-weekly individual meetings with subcontractors to assign properties and provide ongoing training and program support. The RHA Program team facilitated onboarding training for new subcontractors and offered regular training sessions on the MFWB Program and systems in August. Additionally, ad hoc support and meetings were held on an ongoing basis as subcontractors had impromptu questions about measure feasibility, NGAT, repair and replacement and eligible minor home repair fees. RHA seeks to cooperate with local Workforce Education and Training (WET) programs when possible.

1.5 ESA Studies and Pilots

1.5.1 ESA Program Studies

2025 Low Income Needs Assessment (LINA) Study

In August 2024, the study team reviewed results for the draft market characterization based on secondary data. The team discussed how the results of the draft characterization should inform the targets and topics for the upcoming customer survey. The survey is scheduled to begin in October 2024.

Low Income Non-Energy Impacts Study

In August 2024, the study team met several times to discuss the test survey questions. The test survey and subsequent respondent interviews will be used to assess the quality of the survey questions and make refinements before the broad customer survey launch. The test survey is scheduled to run during the first two weeks of October 2024. The broader customer survey is scheduled to launch in November 2024.

1.5.2 ESA Program Pilots

SDG&E is not currently conducting any ESA Program pilots in addition to the Pilot Plus/Deep covered in Section 1.1.1.

2 CALIFORNIA ALTERNATE RATES FOR ENERGY (CARE) EXECUTIVE SUMMARY

The CARE Program is statutorily mandated by California Public Utilities (P.U.) Code Sections 739.1 and 739.2 to assist income-eligible households with a monthly discount on their gas and electric bills.³⁵ The CARE Program currently provides a 20% discount on natural gas

³⁵ The CARE Program was later implemented by the Commission in D.89-07-062 and D.89-09-044.

charges and a 30 – 35% discount on electric rates.³⁶ To qualify for the CARE Program, eligible customers must have a total household gross income no greater than 200% of the FPG.

2.2 CARE Program Summary

2.2.3 Please provide CARE Program summary costs.

CARE Table 2.1.1 CARE Program Summary Costs for 2024			
CARE Budget Categories	2024 Authorized Budget³⁷	Actual Expenses Year-to- Date	% of Budget Spent
Outreach	\$3,365,197	\$1,560,321	46%
Processing, Certification and Post Enrollment Verification	\$635,541	\$1,263,688	199%
Information Tech./Programming	\$493,699	\$81,058	16%
CHANGES Program	\$1,138,000	\$209,518	18%
Studies and Pilots	\$265,000	\$154,528	58%
Measurement and Evaluation	\$19,535	\$6,634	34%
Regulatory Compliance	\$0	\$0	0%
General Administration	\$327,798	\$164,214	50%
CPUC Energy Division Staff	\$694,575	\$287,030	41%
	\$74,023	\$754	1%
Total Expenses	\$7,013,368	\$3,727,745	53%
Subsidies and Benefits	\$235,468,332	\$142,371,967	60%
Total Program Costs and Discounts	\$242,481,700	\$146,099,712	60%

³⁶ P.U. Code Section 739.1(c)(1) mandates that “the average effective CARE discount shall not be less than 30 percent or more than 35 percent of the revenues that would have been produced for the same billed usage by non-CARE customers.”

³⁷ D.21-06-015 approved the CARE program budget for PYs 2021-2026.

2.2.4 Please Provide the CARE Program enrollment rate to date.

CARE Table 2.1.2 CARE Program Enrollment		
Participants Enrolled	Eligible Participants³⁸	Enrollment Rate
317,762	289,930	110%

2.3 CARE Marketing & Outreach

2.3.3 Discuss utility outreach activities and those undertaken by third parties on the utility’s behalf.

Marketing and outreach efforts this month contributed to 10,893 completed CARE applications and 7,859 new enrollments for the program. This month, data sharing efforts between SoCalGas and SDG&E resulted in 13 CARE enrollments. Additionally, no enrollments came through the Grid Alternatives DAC-SASH program this month. Below is a summary of CARE-specific marketing and outreach efforts for this month.

Direct Marketing

Direct Mail

SDG&E continued the monthly CARE bill comparison letters, sending 2,453 direct mail letters to CARE-eligible customers without an email address on file.

³⁸ On January 8, 2024, PG&E, on behalf of the IOUs, filed a Request for Extension of Time to Comply with the Requirement to submit the Annual CARE and FERA Eligibility Report by February 12 in OP 189 of D.21-06-015. In the extension request, PG&E confirmed that the IOUs would apply the new estimates starting in the March 2024 monthly report. This number reflects estimates of SDG&E’s CARE Estimated Eligible Participants for 2024.

Email

SDG&E added 14,986 unique low income customers to the bill comparison nurture campaign. Customers who do not open the first email may receive up to two follow-up emails. SDG&E sent 37,854 emails garnering a 49.2% open rate and a 4.6% CTR.

Online Advertising

In August 2024, SDG&E continued the 2024 awareness campaign featuring updated CARE ads. The streaming audio component achieved 165,318 impressions. Digital display ads generated over 1.7 million impressions with a 0.16% CTR, while paid social search efforts yielded nearly 376,250 impressions and 161 customers clicking through to the application. Video ads garnered almost 456,000 impressions with a 0.08% CTR.

Community Outreach & Engagement

Community outreach and engagement efforts allow SDG&E to educate, connect, and directly engage with customers in communities where they work and live. Outreach and engagement activities included events, presentations, workshops, trainings, partnerships with CBOs, and customized efforts.

Tribal Outreach

See Section 1.2.1 above for SDG&E's Tribal Outreach activity.

CARE Partners (Capitation Agencies)

SDG&E partners with 23 social service agencies such as 211 San Diego, Chaldean Community Council, refugee assimilation organizations, Women's Infant & Children Organization (WIC) program, and others to help enroll its hardest-to-reach customers (collectively, Capitation Agencies). These organizations serve high-risk, low-income individuals and families with enrollment in state and federally funded assistance programs, including Cal

Fresh, LIHEAP, Covered California, and California Lifeline. The partnering organizations are in diverse low-income communities serving multicultural/multilingual, seniors, veterans, special needs, and LEP audiences and provide multilingual staffing. The following numbers were generated by the Capitation Agencies this month:

Capitation Agencies	
ESA Leads	295
CARE Enrollments	189
CARE Recertification	71
FERA Enrollments	0
FERA Recertifications	0

County Health and Human Service Agency Collaborative

SDG&E collaborates with the County of San Diego Health and Human Services Agency (HHSA) to connect customers to programs like CARE and FERA. All field HHSA offices include a source coded CARE application in their new client intake packets. The following applications were received this month:

HHSA	Number of:	YTD³⁹
ESA Leads	0	0
CARE Enrollments	75	635
CARE Recertifications	23	313
FERA Enrollments	0	7
FERA Recertifications	0	0

³⁹ Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

2.2.2 Describe the efforts taken to reach and coordinate the CARE Program with other related low-income programs to reach eligible customers.

Customers who are enrolled in ESA and LIHEAP that have provided income verification and qualify for CARE are also automatically enrolled in the CARE Program.

CARE Table 2.2.2 CARE Automatic Enrollment for 2024		
Source	August 2024	YTD
ESA	77	512
LIHEAP	2	448 ⁴⁰

2.4 CARE Recertification Complaints

2.4.3 Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

During this reporting month, SDG&E received one customer complaint regarding CARE recertification. A customer called the call center and asserted they had recertified in May for CARE. However, the customer had been removed from CARE in April due to non-response to recertification notices. The customer was re-enrolled at the time of the call and the customer’s bill was adjusted accordingly.

⁴⁰ In its 2023 Annual Report, SDG&E reported ongoing assessment of a potential issue surrounding LIHEAP auto-enrollment. Based on the results, SDG&E will determine whether an amendment to the Report(s) is necessary. See Annual Report of San Diego Gas & Electric Company on Energy Savings Assistance, California Alternate Rates for Energy, and Family Electric Rate Assistance Programs for 2023 (May 1, 2024) at CARE Tables 2, 3, 3B, 5, 6, and 8. As of this monthly Report, SDG&E has identified the total LIHEAP auto-enrollments for 2024 YTD as stated in CARE Table 2.2.2 above.

2.5 CARE Pilots and Studies

2.5.3 CARE Program Studies

2025 Low Income Needs Assessment (LINA) Study

See section 1.5.1.

CHANGES Evaluation

In August 2024, the study team met to discuss and refine the work scope for the study.

The work scope includes two primary objectives: to characterize the demographics and needs of the customers being served by the program and to identify best practices from other similar programs that could be applied to CHANGES.

2.5.4 CARE Program Pilots

Currently, there are no CARE pilots to report.

2.5.1 CARE Program PEV Freezes⁴¹

On January 23, 2024, Governor Newsom declared a State of Emergency due to the flooding caused by the rainstorms in San Diego and Ventura County. On February 4, 2024, the Governor issued an additional emergency proclamation due to another rainstorm. Pursuant to OP 2 of D.19-07-015, SDG&E implemented emergency customer protections and submitted the Tier 1 Information-only Advice Letter 4379-E/3279-G on February 7, 2024, as required.

⁴¹ Resolution M-4833 directed the IOUs to freeze CARE program post-enrollment verification (PEV) in the counties impacted by the California wildfires. D.19-07-015 established a permanent set of emergency disaster customer protection measures that the utilities are mandated to implement in the event of a declared emergency. D.19-07-015 directed SDG&E's Emergency Consumer Protections Plan to include residential and non-residential customers in areas where a state of emergency proclamation is issued by the California Governor's Office or the President of the United States where the disaster has either resulted in the loss or disruption of the delivery or receipt of utility service, and/or resulted in the degradation of the quality of utility service.

CARE Table 2.5.1 CARE Program Post-Enrollment Verification Freezes			
Date of Proclamation⁴²	Disaster Name	Affected Areas or ZIP Codes	Date when Protection Ends⁴³
01/23/2024 02/04/2024	Winter Storms	92113, 92115, 91977, 92102, 92114, 91950, 91911, 92069, 92019, 92105, 92020, 91945, 92116, 91978, 92139, 92103, 92173, 92007, 91941, 92083, 91942, 92126, 92104, 91910, 92021, 92111, 92117, 92024, 92071, 91932, 92118, 92054, 92107, 91913, 92120, 92129, 92040, 92010, 92109, 92154, 92110, 92056, 92025, 92122, 92078, 92028, 92108	02/04/2025

2.5.2 CARE Fixed Income

CARE Fixed Income		
	August 2024	YTD
New CARE Fixed Income Households	506	3,288

3 FERA EXECUTIVE SUMMARY

The FERA Program is statutorily mandated by California P.U. Code Sections 739.1 and 739.12 to assist low to middle-income-eligible households with a monthly average effective discount of 18% on their electric bills. To qualify for the FERA Program, eligible customers

⁴² SDG&E notes that it inadvertently, and incorrectly, noted the date of proclamation as January 22, 2024, in its January 2024 Report. Instead, the proclamation was issued by Governor Newsom on January 23, 2024.

⁴³ Pursuant to D.19-07-015, the mandated customer protections shall remain in effect from the date of the Governor of California’s state of emergency declaration or a Presidential state of emergency declaration and shall conclude no sooner than twelve (12) months from the date of the original emergency declaration, or as appropriately determined by the Governor’s Office of Emergency Services.

consist of households with three or more persons with total annual household gross income between 200% (plus \$1) and 250% of the FPG. In D.21-06-015, the Commission authorized the FERA Program to be consolidated with the low income proceeding.⁴⁴ As such, all IOU FERA goals, budgets, and program design elements will be scoped into the IOUs low income budget applications moving forward. The Decision also approved FERA program management and subsidy budgets separate from CARE budgets.⁴⁵

For 2024, the Commission set SDG&E's FERA enrollment goal at 60%, a 10% increase from 2023's enrollment goal of 50%. SDG&E intends to continue developing more strategic marketing and outreach initiatives in an effort to increase FERA participation in 2024. Any new marketing and outreach initiatives are mentioned under section 3.2.1.

⁴⁴ OP 26 of D.21-06-015 states, "The Family Electric Rate Assistance program proceeding will be consolidated with the California Alternate Rates for Energy and the Energy Savings program proceeding."

⁴⁵ OP 35 of D.21-06-015 states, "San Diego Gas & Electric Company must track all Family Electric Rate Assistance (FERA) related costs in a separate FERA balancing account."

3.2 FERA Program Summary

3.2.3 Please provide FERA Program summary costs.

FERA Table 3.1.1 FERA Program Summary Costs for 2024			
FERA Budget Categories	Authorized Budget⁴⁶	Actual Expenses to Date	% of Budget Spent
Outreach	\$368,338	\$125,738	34%
Processing, Certification and Post Enrollment Verification	\$13,925	\$16,706	120%
Information Tech./Programming	\$1,018	\$8,632	848%
Pilots	\$0	\$0	0%
Studies	\$50,000	\$0	0%
Regulatory Compliance	\$47,180	\$20,328	43%
General Administration	\$75,915	\$49,869	66%
CPUC Energy Division Staff	\$10,803	\$94	1%
Total Expenses	\$621,815	\$230,864	37%
Subsidies and Benefits	\$4,481,107	\$2,400,396	54%
Total Program Costs and Discounts	\$5,102,922	\$2,631,260	52%

3.2.4 Provide the FERA Program enrollment rate to date.

FERA Table 3.1.2 FERA Enrollment		
Participants Enrolled	Eligible Participants⁴⁷	Enrollment Rate
9,880	41,374	24%

⁴⁶ D.21-06-015 approved the FERA program budget for PYs 2021-2026.

⁴⁷ On January 8, 2024, PG&E, on behalf of the IOUs, filed a Request for Extension of Time to Comply with the Requirement to submit the Annual CARE and FERA Eligibility Report by February 12 in OP 189 of D.21-06-015. In the extension request, PG&E confirmed that the IOUs would apply the new estimates starting in the March 2024 monthly report. This number reflects estimates of SDG&E's FERA Estimated Eligible Participants for 2024.

3.3 FERA Program Marketing & Outreach

3.3.3 Please discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

Marketing and outreach efforts this month contributed to 933 completed FERA applications and 818 new enrollments for the program. Leveraging efforts through the Grid Alternatives DAC-SASH program did not result in any FERA enrollments this month. Additionally, FERA automatic enrollments resulted in seven coming from the ESA program. Below is a summary of FERA-specific outreach efforts.

Direct Marketing

Direct Mail

In August 2024, SDG&E continued the monthly FERA bill comparison letters, sending 766 direct mail letters to FERA-eligible customers that don't have an email address on file.

Email

In August 2024, SDG&E sent 8,324 FERA bill comparison emails, which garnered a 48.7%% open rate and a 3% click-through rate.

Organic Social

SDG&E utilized organic social media to promote FERA on SDG&E's Facebook, Instagram, and Nextdoor channels.

	Impressions	Engagements	Engagement Rate
Facebook	1,098	6	.50%
Instagram	627	19	3%
Nextdoor	49,159	10	N/A ⁴⁸

⁴⁸ Nextdoor does not allow business accounts to enable comments.

Paid Digital Advertising

In August 2024, SDG&E continued the 2024 FERA campaign featuring updated FERA creative ads. The streaming audio component achieved 39,669 impressions. Digital display ads generated over 619,000 impressions with 180 conversions, while paid social media efforts yielded 351,170 impressions and 0.63% CTR. Paid search was added to the campaign with over 4,300 impressions and a 17.4% CTR.

Community Outreach & Engagement

SDG&E works closely with community-based organizations and other external groups to connect customers with programs and solutions related to company offerings. SDG&E works with a network of approximately 200 community-based organizations, collectively named the Energy Solutions Partner Network, as well as other external organizations on an as needed or requested basis. SDG&E's Outreach utilizes these networks, including CARE Capitation agencies, to educate and enroll customers in eligible Customer Assistance programs. The FERA program is promoted in all outreach activities including events, presentations, social media messaging and training. SDG&E is exploring additional opportunities to promote FERA solely through targeted social media campaigns utilizing its Energy Solutions Partner Network.

Tribal Outreach

See Section 1.2.1, which is also applicable to the FERA Program.

FERA Partners (Capitation Agencies)

Please see Section 2.2.1, which is also applicable to the FERA Program.

3.4 FERA Recertification Complaints

3.4.3 Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

During this reporting month, SDG&E did not receive any customer complaints regarding FERA recertification.

3.5 Pilots and Studies

3.5.3 FERA Program Studies

There are no FERA studies at this time.

3.5.4 FERA Program Pilot

Currently, there are no FERA Pilot programs to report.

[1] Authorized Budget per D.21-06-015, Attachment 1, Table 11. For ESA Main, an additional \$2,154,503 in unspent committed contracted funds from 2023 is available for program year 2024. In addition, unspent funds from previous program years of \$2,824,866 and \$5,106,755 for the Pilot and MFWB programs, respectively, are available to carry forward, as directed in OP 181 of the Decision.

[2] MFWB program budget includes MF In-Unit, CAM/ WB, and Implementer administrative budget categories.

[3] OP 12 of D.15-01-027 states "The Program Administrators shall ensure that program expenditures in each utility's service territory do not exceed the total authorized budget amounts over the duration of the programs. The program incentive budgets will be available until all funds are exhausted or until December 31, 2021, whichever occurs first. Any money unspent and unencumbered on January 1, 2022, shall be used for "cost-effective energy efficiency measures in low-income residential housing that benefit ratepayers," as set forth in Public Utilities Code Section 2852(c)(3)." SDG&E filed Advice Letter 4285-E for disposal of unspent funds from the SASH and MASH programs to the ESA Program on October 31, 2023. The AL was approved on November 30, 2023.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] All savings are calculated based on the following sources: DNV/GL Impact Evaluation Program Years 2015-2017 Impact II, or ESA workpapers.
 [2] The total expenditures presented in this table exclude accrual activity.
 [3] Weatherization may consist of attic insulation, attic access weatherization, weatherstripping - door, caulking, and minor home repairs.
 [4] Total ESA Main YTD expenses are reported in ESA Table 1.
 [5] Administrative includes expenses from Training Center, Inspections, Marketing and Outreach, Studies, Regulatory Compliance, General Administrative, and CPUC Energy Division categories.
 [6] Direct Implementation (Non-Incentive) includes expenses from Implementation category.
 [7] Direct Implementation includes expenses from Appliances, Domestic Hot Water, Enclosure, HVAC, Lighting, Miscellaneous, Customer Enrollment, and In-Home Education.
 [8] Forecasted homes treated goal includes single family and mobile homes under the Main ESA Program.

NOTE: Any measures noted as 'New' have been added during the course of this program year.
 NOTE: Any measures noted as 'Removed', are no longer offered by the program but have been kept for tracking purposes.
 NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

<<includes measures costs

[1] Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings.
[2] Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in table 2A.
[3] Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.
[4] Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022, modified by D.17-12-009, where 65% of tenants are income eligible based (at or below 250% of the Federal Poverty Guidelines).
[5] Measure type column added to identify if a measure is for in-unit or common area/whole building because they use different workpaper savings.
[6] The total expenditures presented in this table exclude accrual activity.
[7] Year to date Administration expense total includes \$53,800 related to the ongoing ESA CAM NMEC study.
NOTE: Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project.
NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] "Completed and Expensed Installation" project savings and expenses will be reported when projects have been fully closed (i.e. inspected, issues resolved, permits closed as applicable) and reported by Pilot Implementer to SDG&E. All measures and savings from a project will be reported as either Pilot Plus or Pilot Deep. Savings from a single project will not span both tables.

[2] The measure list for SDG&E Pilot Plus and Deep is unique to the pilot and differs from Main ESA.

[3] The total expenditures presented in this table exclude accrual activity.

[4] Administration includes expenses from the following categories: General Administration, Regulatory Compliance, Training, Inspections, Marketing and Outreach, and Evaluation.

[5] Direct Implementation (Non-Incentive) includes expenses for Implementer Administration.

[6] Direct Implementation includes expenses for measures delivery.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Table 3H, Summary - ESA Program (SF, MH), MFWB, CSD Leveraging, Pilot Plus and Pilot Deep [3]	
Annual kWh Savings	677,711
Annual Therm Savings	33,865
Lifecycle kWh Savings	6,884,998
Lifecycle Therm Savings	361,367
Current kWh Rate	\$ 0.51
Current Therm Rate	\$ 3.38
Average 1st Year Bill Savings / Treated Households	\$ 88.45
Average Lifecycle Bill Savings / Treated Households	\$ 890.64

[1] Data reported in this table is cumulative since program inception.

[2] ESA Pilot Plus and Pilot Deep uses the same formulas to calculate values as Main ESA, but the variables such as measure savings and expected useful life may differ. The pilot will initially estimate energy savings with energy modeling software.

[3] Summary is the sum of ESA Main, MFWB and Pilot Plus Pilot Deep.

[4] Separating MFWB in-unit savings summary from the CAM and Whole Building measures savings because they are calculated using different residential rates.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] SDG&E is reporting on these customer segments at the direction of the ED with the caveat that estimates/numbers may be compiled from multiple sources, based on available estimates, and/or self-reported data. The numbers may not be additive.
 [2] 2023 eligibility estimates provided by Athens Research, except as otherwise noted.
 [3] Households treated data is not additive because customers may be represented in multiple categories. Data is compiled based on ESA measures received YTD, and may include enrollments from prior years
 [4] The number of household contacted includes YTD leads and enrollments.
 [5] SDG&E has considered the energy savings associated with all ESA measures installed for this entry, regardless of whether the savings have a negative or positive value for kW, kWh, and/or Therms. Many measures offered in ESA provide Non-Energy Benefits (including Health, Comfort, and Safety (HCS)) in addition to energy savings, and some of these measures may be associated with a negative savings value.
 [6] SDG&E has considered only the energy savings associated with the ESA measures installed for this entry that have a positive value for kWh and/or Therms. Installed ESA measures with a negative savings value for both kWh and Therms were excluded.
 [7] This represents the number of households with at least one member who is at least 62 years old at the time of data collection.
 [8] "Hard-to-reach" residential customers include those customers who do not have easy access to program information or generally do not participate in energy efficiency programs due to a language, income, housing type, geographic, or home ownership (split incentives) barrier (Advice Letter 4482-G6314-E dated September 1, 2021). For the purpose of this reporting, SDG&E is defining "hard-to-reach" as those residential customer self-identified as not preferring or speaking English as the primary language because income, housing type, geographic, and homeownership information is reported elsewhere on this table.
 [9] Vulnerable refers to Disadvantaged Vulnerable Communities (DVC) which consist consists of communities in the 25% highest scoring census tracts according to the most current versions of the California Communities Environmental Health Screening Tool (CalEnviroScreen), as well as all California tribal lands, census tracts that score in the highest 5% of Pollution Burden within CalEnviroScreen, but do not receive an overall CalEnviroScreen score due to unreliable public health and socioeconomic data, and census tracts with median household incomes less than 60% of state median income.
 [10] Includes Tier 2 and 3 of the CPUC Fire-Threat Map
 [11] This reflects communities within SDG&E's service territory that are identified by the California Air Resources Board (CARB) Community Air Protection Program as communities continue to experience environmental and health inequities from air pollution.
 [12] SDG&E resumed disconnections for residential customers in 2023. Late notices have been issued to CARE and FERA customers but no CARE or FERA customers have been disconnected thus far.
 [13] SDG&E defines arrearages as overdue balance greater than 30 days. Estimated eligibility is based on CARE/FERA households with arrearages in the prior year as reported in SDG&E's R-18-07-005 Monthly Disconnection Report through December 2023.
 [14] SDG&E defines high usage as at least 400% of baseline at least three times in 12-month period.
 [15] SDG&E utilizes the Low-Income Energy Affordability Data (LEAD) Tool developed by DOE's Office of Energy Efficiency & Renewable Energy to identify census tracts with high energy burden for households at below 200 % Federal Poverty Level (FPL) that are in SDG&E's service territory. The 2016 Needs Assessment for the Energy Savings Assistance and the California Alternate Rates for Energy Programs describes households that spent more 6.3% of their annual income on energy bills as having high energy burden (p.47).
 [16] The Socioeconomic Vulnerability Index (SEVI) metric represents the relative socioeconomic standing of census tracts, referred to as communities, in terms of poverty, unemployment, educational attainment, linguistic isolation, and percentage of income spent on housing. SDG&E utilizes the SEVI data provided by the CPUC to map its service territory by SEVI scores (L: 0 to 33; M: >33 to 66; H: >66).
 [17] The Affordability Ratio (AR) metric quantifies the percentage of a representative household's income that would be used to pay for an essential utility service after non-discretionary expenses such as housing and other essential utility service charges are deducted from the household's income. Using Gas AR20 and Electric AR20 data for 2023 (using 2019 base year) provided by the CPUC, SDG&E selects census tracts with Electric AR20 at above 15% or Gas AR20 above 10% to identify areas within its service territory as having high affordability ratio (CPUC 2019 Annual Affordability Report, pp 34, 44).
 [18] SDG&E utilizes the 'Asthmas' indicator in CalEnviroScreen 4.0 (published by the California Office of Environmental Health Hazard Assessment) as a proxy to identify locations with varying levels of respiratory conditions within its service territory. L: 0-33 percentile; M: >33-66 percentile; L: >66-100 percentile.
 [19] This data captures tribal households located on federally-recognized tribes whose trust lands are identified in the Bureau of Indian Affairs, and also includes ESA participants from non federally-recognized tribes or households that self-identified as Native American.
 [19] YTD, cost and energy savings for this customer segment includes a significant portion of in-progress projects, as well as projects with higher cost measures, which may skew the average savings and cost (Columns G-L) higher than the averages for the reported completed projects in Column B.

NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Energy Savings Assistance Program Table 8 - Clean Energy Referral, Leveraging, and Coordination
San Diego Gas & Electric Company
August 2024

Partner	Brief Description of Effort	# of Referral ¹	# of Leveraging ²	# of Coordination Efforts ³	# of Leads ⁴	# of Enrollments ⁵
LIHEAP	LIHEAP agencies in SDG&E service territory leverage LIHEAP payment leads to provide ESA Program services to customers.	0	0	0	0	0
DAC-SASH	The DAC-SASH implementer provides SDG&E with potential ESA and CARE Program Leads. SDG&E provides and annual list of program leads to DAC-SASH implementer for marketing purposes.	0	0	0	28	0
SDCWA	SDG&E efforts to coordinate program information with SDCWA.	0	1	1	0	N/A
CARE/Medical Baseline	CARE Online Enrollments are leveraged for ESA Program Enrollments.	N/A	N/A	N/A	N/A	N/A
CARE High Usage	Leads generated through CARE HEU income verifications completed	N/A	N/A	N/A	398	190
Energy Solutions Partner Network	SDG&E works closely with a network of approximately 200 community-based organizations (CBOs) to connect customers with Customer Assistance programs.	N/A	31	10	30	9
CARE Capitation Agencies	SDG&E partners with 22 social service agencies to help enroll its hardest-to-reach customers in Customer Assistance programs.	N/A	6	0	1,892	53
Demand Response - AC Saver ⁶	Eligible residential customers who own a qualifying Wi-Fi enabled smart thermostat may enroll. During an "energy event," SDG&E will notify the smart thermostat provider to temporarily adjust the temperature setting on the thermostat up to four degrees to limit A/C usage. Participating customers may qualify for an SDG&E incentive.	N/A	0	0	178	0
MFWB ⁷	Coordination with SDG&E in their Administration of the Southern Section MFWB program	7	3	13	12	0

1 Number of outbound referrals being given to the partner.

2 Number of activities that involve the sharing resources to jointly support program delivery or administration. (Example: Sharing of Lead Lists, Cost Splitting, etc.).

3 Number of activities related to program communication (marketing), collaboration of events, and alignment of activities to support program delivery.

4 Number of inbound Leads or Referrals from the Partner

5 Number of enrollments that results from the Leads or Referrals supplied by the Partner

6 Cumulative number of customers that enrolled in the respective program with 120-days of their ESA in-home visitation in which they received Energy Education

7 Number of referrals being supplied to SDG&E by SCE and SoCalGas, the number of Enrollments being completed on behalf of SDG&E for the MFWB

N/A identifies areas where SDG&E is unable to track the data related with these efforts.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

Tribes completed ESA Meet & Confer [1]	9	Barona Band of Mission Indians, Pauma Band of Mission Indians, La Posta Band of Mission Indians, Mesa Grande Band of Mission Indians, Manzanita Band of Kumeyaay Nation, Campo Kumeyaay Nation, Iipay Nation of Santa Ysabel, La Jolla Band of Luiseno Indians, Los Coyotes Band of Cahuilla and Cupeno Indians
Tribes requested outreach materials or applications	8	Pauma Band of Mission Indians, La Posta Band of Mission Indians, Mesa Grande Band of Mission Indians, Iipay Nation Santa Ysabel, Campo Kumeyaay Nation, Manzanita Band of Kumeyaay Nation, La Jolla Band of Luiseno Indians, Los Coyotes Band of Cahuilla and Cupeno Indians
Tribes who have not accepted offer to Meet and Confer	3	Ewiaapaayp, Inaja Cosmit Band of Indians [3], Pala Band of Mission Indians, Rincon Band of Luiseno Indians
Non-Federally Recognized Tribes who participated in Meet & Confer	0	
Tribes and Housing Authority sites involved in Focused Project/ESA	N/A	N/A
Partnership offer on Tribal Lands	6	Iipay Nation of Santa Ysabel, La Jolla Band of Luiseno Indians, La Posta Band of Mission Indians, Campo Kumeyaay Nation, Los Coyotes Band of Cahuilla and Cupeno Indians, Southern Indian Health Council
Housing Authority and Tribal Temporary Assistance for Needy Families (TANF) office who received outreach (this includes email, U.S. mail, and/or phone calls)	2	Southern California American Indian Resource Center (SCAIR); Southern California Tribal Chairmen's Association (SCTCA) [4]
Housing Authority and TANF offices who participated in Meet and Confer	N/A	N/A

[1] SDG&E notes that it has held informational meetings with these tribes to provide information on low income programs and other customer programs. As such, the term Meet and Confer, used here, is unrelated to a Duty to Meet and Confer, pursuant to Rule 13.9. SDG&E invited all 17 tribes to meet and will continue to engage in 2024.

[2] Numbers are a rolling count of Tribal Outreach efforts

[3] SDG&E does not provide service to Inaja & Cosmit

[4] SDG&E provides TANF related messaging through periodic presentations to SCAIR and SCTCA

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

[1] Disconnections resumed for residential customers in August 2023. However, no CARE customers have been disconnected to date.

[2] Includes zip codes with >25% of customers with incomes less than 100% FPG

[3] DACs are defined at the census tract level. Corresponding zip codes are provided for the purpose of this table; however, the entire zip code listed may not be considered a DAC.

Note: Some zip codes rolled up to the nearest zip code for privacy reasons due to the number of people residing in that zip code.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

¹ Enrollments via data sharing between the IOUs.
² Enrollments via data sharing between departments and/or programs within the utility.
³ Enrollments via data sharing with programs outside the IOU that serve low-income customers.
⁴ No response includes no response to both Recertification and Verification.
⁵ On April 15, 2024, PG&E, on behalf of the IOUs, submitted the Annual CARE and FERA Eligibility Report in accordance with OP 189 of D.21-06-015. This number reflects estimates of SDG&E's FERA Estimated Eligible Participant for 2024.
⁶ Pre-enrollment Rate and Enrollment Rate are the same value.
⁷ FERA Estimated Eligible population value was incorrectly reported in FERA Table 2 for the 2023 Annual Report. The 2022 population was incorrectly used causing a slight decrease in enrollment rate for the 2023 program year.
 Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
