**MONTHLY REPORT OF SAN DIEGO GAS & ELECTRIC COMPANY (U 902 M) ON
LOW-INCOME ASSISTANCE PROGRAMS FOR OCTOBER 2024**

This is the October monthly report for program year (PY) 2024. The purpose of this report is to consolidate activity for the California Alternate Rates for Energy (CARE) Program, Family Electric Rate Assistance (FERA) Program, and Energy Savings Assistance (ESA) Program and provide the California Public Utilities Commission's (CPUC) Energy Division with information to assist in analyzing the low-income programs.¹

This report presents year-to-date CARE, FERA, and ESA Program results and expenditures through October 31, 2024, for San Diego Gas & Electric Company (SDG&E).

Respectfully Submitted,

/s/ Siobhán E. Murillo

LOW INCOME ASSISTANCE PROGRAMS MONTHLY REPORT

In 2021, the California Public Utilities Commission (Commission) voted and unanimously approved, with modifications, the Decision on Large Investor-Owned Utilities' (IOUs) and Marin Clean Energy's California Alternate Rates for Energy (CARE), Energy Savings Assistance (ESA), and Family Electric Rates for Energy (FERA) Program Applications for Program Years 2021-2026, which authorized budgets and goals effective July 1, 2021.¹ The authorized program year budgets, savings goals, and homes treated targets in this monthly report reflect those authorized by the Commission in Decision (D.) 21-06-015 (Decision).² The Decision approved the IOUs to shift the ESA Program away from treating all eligible and willing households towards a customer-centered prioritization model based on household needs and customer profile.³ Additionally, the Decision ordered the implementation of a new ESA Multifamily Whole Building Program (MFWB), which includes all multifamily sectors, including in-unit, common areas, and the whole building,⁴ and the implementation of the Pilot Plus and Pilot Deep Program that focuses on gathering the feasibility of a more strategic measure delivery approach.⁵

1. ESA PROGRAM EXECUTIVE SUMMARY

The ESA Program offers no-cost weatherization services, energy efficient lighting, energy efficient appliances, energy education, and other services to income-qualified customers to reduce energy consumption and costs, while improving health, comfort, and safety of

¹ D.21-06-015 at Ordering Paragraph (OP) 3 and at OP 82.

² *Id.*

³ *Id.* at OP 57.

⁴ *Id.* at OP 119.

⁵ *Id.* at OP 38.

customers. To qualify for the ESA Program, a residential customer's household income must be at, or below, 250% of Federal Poverty Guidelines (FPG).

The Main ESA program provides services to single family and mobile homeowners and renters. The program design is focused on achieving energy savings through targeted outreach efforts, while continuing to offer health, comfort, and safety to low income customers. Richard Heath and Associates (RHA) is the primary implementer of ESA Main services including Outreach and Assessment, Weatherization, Appliance Installation, Natural Gas Appliance Testing (NGAT) and Inspections of gas appliance installation. THA Heating Plumbing & Air and Staples Energy provide Heating Ventilation and Air Conditioning (HVAC) and Water Heater Repair and Replacement (R&R) Services.

SDG&E's Southern Multifamily Whole Building (MFWB) Program offers ESA Services for In-Unit, Common Area Measures (CAM), and Whole Building (WB) Measures under one Program to Deed Restricted and Non-Deed Restricted multifamily buildings. SDG&E is the lead utility on behalf of Southern California Edison Company (SCE) and Southern California Gas Company (SoCalGas) for the Southern Region MFWB program.⁶

The ESA Pilot Plus and Pilot Deep Program (Pilot), the Energy Division's Staff Proposal approved by the Commission in D.21-06-015, provides more advanced energy savings measures tailored to customer needs that complement and build upon the ESA Main Program measure packages. The Pilot Plus package will provide and/or replace certain equipment and appliances plus load shifting and electrification measures that should reduce annual energy usage by 5 to 15%. The Pilot Deep package will offer more advanced measures that should reduce annual energy usage by 15 to 50%.

⁶ *Id.* at OP 120.

SDG&E's total 2024 authorized ESA Portfolio budget is \$30,210,212.⁷ Through October 2024, SDG&E's total costs for the ESA Portfolio were \$16,364,464. This month's activities for the ESA Programs are included below.

1.1. ESA Program Overview

1.1.1. Provide a summary of the ESA Program elements as approved in D.21-06-015.

On October 31, 2024, Launch Consulting Group, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP), indicated to SDG&E by email that they became aware of unusual activity through a ransomware cyber attack on their Datacenter that hosts the EECP system.⁸ As such, the EECP platform was shut down for 8 days. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. SDG&E has added footnotes accordingly. SDG&E intends to include the outstanding data in the November Low Income monthly report to be submitted on December 21, 2024.

ESA Main Program

In October 2024, the ESA Main program continued with its service delivery to residential customers and efforts to increase energy savings. As mentioned above in section 1.1.1., data for October will be included in next month's report. Separately, as reported in its September 2024 report, SDG&E identified an error in the savings calculation reported in the 2023 Low Income Annual Report for the ESA Main Program. The error resulted in an underreporting of program

⁷ D.21-06-015 at Attachment 1, Table 7 and includes \$315,260 of SASH/MASH unspent funds (see table ESA Table 1.1.1.5).

⁸ Launch has attested that no customer or internal data was exfiltrated.

savings values, most notably in the therm savings values. SDG&E filed an amended 2023 Low Income Annual Report on November 11, 2024.

ESA Table 1.1.1.1 compares the authorized budget and targets for program year 2024 to actual progress to date for the ESA Main program.

ESA Table 1.1.1.1 ESA Main (SF, MH) Program Summary Expenses for 2024			
	2024 Authorized / Planning Assumptions⁹	Actual to Date^{10, 11}	%
Budget ¹²	\$18,876,805	\$12,560,264	67%
Homes Treated	3,983	N/A	N/A
kWh Saved ¹³	1,496,098	N/A	N/A
kW Demand Reduced	218	N/A	N/A
Therms Saved	42,191	N/A	N/A
GHG Emissions Reduced (Metric Tons of CO ₂ e) ¹⁴	N/A	N/A	N/A
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.			

ESA Table 1.1.1.2 below provides the ESA Main Program percentage of administrative spend of total program costs.

⁹ Pursuant to D.21-06-015, planning assumptions for savings goals and homes treated target are based on annual Main ESA Program allocation of the overall Program Cycle Goals and Targets, Attachment 1, Tables 5 and 6.

¹⁰ As shown in ESA Monthly Report Tables 1 and 2.

¹¹ SDG&E is unable to report energy savings and emissions data for the month due to the data system cyber attack described in section 1.1.1. This information will be included in the next monthly report.

¹² ESA Main program budget includes measures and program administrative budget categories as shown on ESA Monthly Report Table 1.

¹³ Pursuant to Table 5 of Attachment 1, D.21-06-015, the 2024 goals for kWh, kW, and therms include ESA Main, MF CAM and MFWB, however, the table above reports results only from the Main ESA Program only.

¹⁴ Derived by utilizing the United States Environmental Protection Agency Greenhouse Gas Equivalencies Calculator.

ESA Table 1.1.1.2		
ESA Main Program Administrative Expenses for 2024		
	October 2024	YTD¹⁵
Administrative Expenses	\$105,888	\$1,155,597
Total Program Costs	\$903,915	\$12,560,264
% of Administrative Spend	11.71%	9.2%
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.		

Through October 2024, SDG&E’s ESA Main YTD administrative expenses are below the administrative cap of 10%.

ESA MFWB

In October 2024, SDG&E’s Southern MFWB Program was unable to report the activities invoiced during the month due to the data system cyber attack described in section 1.1.1. The data for the month of October will be reported in next month’s report. Despite this setback, the program has made significant progress in advancing multifamily properties and in-unit treatments through its pipeline. SDG&E is continuing to proactively address system performance and has scheduled a series of enhancements to boost stability and performance. Furthermore, SDG&E and RHA continue working with a contractor to address data quality assurance issues that are impacting their ability to receive timely payments.

¹⁵ Pursuant to D.21-06-015 at OP 112, “Pacific Gas and Electric Company, Southern California Edison Company, Southern California Gas Company and San Diego Gas & Electric Company’s Energy Savings Assistance (ESA) program administrative expenses are capped at either 10 percent of total program costs or the Utility’s historical five-year average spend on administrative costs as a percentage of total program costs, whichever is greater. The use of the historical five-year average spend will be phased out such that the Utilities must propose to spend no more than 10 percent of total program costs on administrative costs starting in program year 2024. The definition and categorization of administrative cost for the ESA program will be consistent with that of the main energy efficiency program.”

Alongside these system improvements, SDG&E has concluded its review of the MFWB measure savings discrepancies and identified 35 enrollments that impacted 110 measures. SDG&E has provided the impacted measures to RHA and is collaborating with them to address the missing or inaccurate data. SDG&E intends to report the updated savings values in the next monthly report. The MFWB Program is looking to align in the next reporting period with its ESA Main Program on its new savings methodology that was adopted and reported in July 2024. Additionally, SDG&E presented and received support from the Southern IOUs on adopting this revised methodology that allows for prioritization (or loading order) of savings sources and supporting documentation used to develop measure energy savings assumptions to better align with the low-income sector.

ESA Table 1.1.1.3 below compares the authorized budget and targets for program year 2024 to actual progress to date for SDG&E's portion of the MFWB program.

ESA Table 1.1.1.3 MFWB (In-Unit, CAM, WB) Summary of Expenses for 2024			
	2024 Authorized / Planning Assumptions¹⁶	Actual to Date¹⁷	%
Budget ¹⁸	\$9,014,088	\$3,012,991	33%
SPOC Budget	\$477,376	\$218,232	46%
Properties Treated	18	N/A	N/A
Homes Treated (in-units)	10,155	N/A	N/A
kWh Saved	1,273,901	N/A	N/A
kW Demand Reduced	180	N/A	N/A
Therms Saved	73,198	N/A	N/A

¹⁶ Pursuant to D.21-06-015, planning assumptions for savings goals and homes treated target are based on annual ESA MFWB Program allocation of the overall Program Cycle Goals and Targets, Attachment 1, Tables 5 and 6.

¹⁷ SDG&E is unable to report energy savings and emissions data for the month due to the data system cyber attack described in section 1.1.1. This information will be included in the next monthly report.

¹⁸ MFWB program budget includes MF In-Unit, CAM, WB, and Implementer administrative budget categories as shown on ESA Monthly Report Table 2A.

GHG Emissions Reduced (Metric Tons of CO ₂ e) ¹⁹	N/A	N/A	N/A
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.			

Pilot Plus/Pilot Deep (ESA Whole Home)

In October 2024, SDG&E finalized the ramp-up activities for the Pilot, including the setup of internal systems, development of marketing and outreach materials, and creation of KPI reporting templates.

Since launching the first email campaign in April 2024, SDG&E has successfully generated 118 leads. Subcontractors are actively following up on these leads to assess their eligibility for program enrollment. As of October 2024, 40 customers have been enrolled, with an additional 12 currently undergoing assessment, and four assessments completed. SDG&E's second email marketing campaign launched in October with a targeted approach to Disadvantage Communities (DACs) and Tribal areas. Maroma, SDG&E's Pilot implementer, has revised the target of 50 homes for treatment in 2024 to 30 due to the slow start and obtaining relevant information from customers for enrollment.

In October, SDG&E completed the contract and training of the Harris Group (THG),²⁰ a third-party contractor, to support identifying potential Pilot participants. The goal is to gather additional information from customers to ensure they meet specific criteria for the Pilot. This involves following up with customers from the email marketing campaign with an exhaustive questionnaire. This initiative supports efforts to secure quality leads for Maroma.

¹⁹ Derived by utilizing the United States Environmental Protection Agency Greenhouse Gas Equivalencies Calculator.

²⁰ THG is a Diverse Business Enterprise (DBE) vendor and a woman-owned business.

ESA Table 1.1.1.4 Pilot Plus and Pilot Deep Summary Expenses for 2024			
	2024 Authorized / Planning Assumptions²¹	Actual to Date²²	%
Budget ²³	\$1,526,683	\$572,977	38%
Homes Treated	30	0	N/A
kWh Saved	N/A	0	N/A
kW Demand Reduced	N/A	0	N/A
Therms Saved	N/A	0	N/A
GHG Emissions Reduced (Tons)	N/A	0	N/A
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.			

SASH/MASH Unspent Funds

On October 31, 2023, SDG&E submitted AL 4285-E.²⁴ In the AL, SDG&E requested to transfer the unspent SASH/MASH funds to the ESA programs.²⁵ The transferred funds will be used primarily to support the ESA Main program implementation across the current program cycle, including to provide energy efficiency (EE) measures and services to single family, mobile homeowners, and renters at no cost to qualifying low-income customers. SDG&E also sought flexibility to utilize the SASH and MASH funds across EE budget categories and other

²¹ Home treatment, energy savings, and GHG emissions reduction targets were not included in D.21-06-015. SDG&E will report on actual achievements upon completion of home treatment.

²² Actual homes treated, savings and GHG emissions reduction values are reported when projects have been fully closed (i.e., inspected, issues resolved, permits closed, as applicable) and reported by Pilot Implementer to SDG&E. Energy savings are estimates provided by energy modeling software. SDG&E intends to report these estimates as interim savings until meter-based savings estimates are reportable.

²³ Pilot Plus and Pilot Deep budget and expenditures are reflected in ESA Monthly Report Table 2B and is based on the annual budget directed in D.21-06-015, Table 11 of Attachment 1. An additional \$2,824,866 from previous program years are available to carry forward, as directed in OP 181 of the Decision.

²⁴ See SDG&E AL 4285-E (October 31, 2023), *available at* https://tariff.sdge.com/tm2/pdf/submittals/ELEC_4285-E.pdf.

²⁵ SDG&E requested authorization to transfer the funds from the SDG&E CSIBA to SDG&E's ESA Core Balancing Account, in which cost of the measures and installations are currently recorded. SDG&E's ESA Program Balancing Account is the Low Income Energy Efficiency - Electric (LIEEBA).

ESA programs and pilots like the MFWB Program and Pilot Plus/Pilot Deep Program.²⁶ The AL became effective on November 30, 2023. SDG&E intends to utilize the available SASH/MASH unspent funds by the end of the program cycle and will report on this activity in a future report.

ESA Table 1.1.1.5 Single Family Affordable Solar Homes (SASH) and Multifamily Affordable Solar Housing (MASH) Unspent Funds (Electric IOUs Only)²⁷ for 2024			
	2024 Authorized/Planning Assumptions	Actual YTD	% YTD
Budget	\$315,260	0	0
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.			

1.1.2. Program Measure Changes

If applicable, discuss any measure changes that may have taken place in ESA (SF, MH), ESA Pilot Plus and Pilot Deep, and/or ESA BE during this reporting month.

There were no ESA measure changes implemented during this reporting period.

1.2. ESA Program Customer Outreach and Enrollment Update

1.2.1. Provide a summary of the ESA Program outreach and enrollment strategies deployed this month.

ESA Main (SF and MH) Program Contractor Outreach

SDG&E, in collaboration with RHA, continued to implement a targeted outreach and engagement campaign aimed at customers that have been identified as likely to meet income qualifications and have high energy savings potential. SDG&E has sent over 8,000 Home Energy

²⁶ D.21-06-015 at OPs 39 and 123.

²⁷ SDG&E's AL 4285-E was approved and effective on November 30, 2023.

Savings Kits²⁸ through the month of October. The Kits include a call-to-action directing customers to contact RHA to take advantage of the ESA Main program. SDG&E will continue this campaign through the end of the year with the goal of sending 10,000 kits by year end.

ESA Southern MFWB (In-Unit, CAM, and WB) Program

In October 2024, RHA reported ongoing robust program interest from property owners and trade allies. RHA concentrated on cultivating relationships with property owners and industry stakeholders to facilitate ongoing new program enrollments. RHA reported completing 10 property enrollments, and 17 property assessments in October 2024. This brings the total whole building enrollments to 302 properties (77 in SDG&E's service territory, 8 in SCE's service territory, 102 in SoCalGas's service territory, 112 in SCE/SoCalGas's combined service territory, and 3 in SoCalGas's/SDG&E's combined service territory), and 260 completed property assessments. The 302 enrolled properties equate to 29,911 potential in-units enrolled for treatment. Additionally, RHA continues to work on a pipeline of 1,832 qualified leads in the southern service territory.

As mentioned in previous reports, the Program experienced a slower start than anticipated. The factors listed below provide an overview of the challenges.

- **ESA Subcontractor Adjustment:** One of the major challenges is the adjustment of ESA subcontractors to the new program structure, pricing, and the contractual compensation holdback tied to performance.
 - **Mitigation:** RHA conducted surveys of its subcontractors to determine the number of employees assigned to the MFWB Program and assess their capacity for treatments. From the survey results, RHA created scorecards and collaborated

²⁸ Kits consist of easy to install EE measures that are mailed to eligible participants. The kits include: lightbulbs (3); faucet aerators (2), low flow shower head, and a toilet bank.

with subcontractors to set weekly goals, ensuring that the workforce can effectively manage the pipeline.

- **Trade Ally Network:** The Program is facing a challenge as most properties lack established relationships with contractors (trade allies) capable of performing CAM work, resulting in treatment delays, with 65% of projects not having an assigned trade ally.
 - **Mitigation:** RHA is developing a trade ally network by connecting with IOU SPOC trade ally contacts and reaching out to additional contractors identified by the Program.

SDG&E and RHA remain committed to working through the challenges and delivering the Programs savings and treatment goals.

ESA Pilot Plus and Pilot Deep Outreach Preparation

As of October 2024, the Outreach team has partnered with four CBOs in the targeted areas to provide training to their staff members and share the program flyer. These partners help educate customers and increase outreach and engagement efforts to targeted audiences.

Language Line

Language Line® is utilized to make sure customers with limited English proficiency (LEP) have a channel in which to communicate with ESA Program contractors in the language of their preference. Four customers were served by the Language Line this month.

Language	Calls
Mandarin	3
Pashto	1
Total	4

Tribal Outreach

There are 17 Federally recognized tribes and 3 non-Federally recognized tribes within the SDG&E service territory, each with very different priorities and resources. The SDG&E team continues to prioritize low-income program outreach to hard-to-reach areas where tribal members reside. Additionally, SDG&E has established support systems with Indian Health Councils, Southern California American Indian Resource Center (SCAIR), and Southern California Tribal Chairmen's Association (SCTCA) to reach tribal community members in need.

In October 2024, SDG&E participated in two educational workshops to share information on low income customer programs, including bill assistance, CARE, FERA, ESA, MBL and other SDG&E programs and resources, to tribal community members.

SDG&E developed an annual survey to enhance our services and communication by reevaluating the changing political, economic and social landscapes in tribal communities. The survey was sent to both federally recognized and non-federally recognized tribes in October 2024. SDG&E received 7 responses and will be identifying areas of opportunity based on the feedback received.

Seven of the seventeen tribes that SDG&E serves have been identified as having potentially eligible tribal members for Customer Assistance programs and have been approached with a mini grant opportunity. To date, three tribes have received payments. In 2024, the seven tribes were offered the mini grant opportunity, but it has been challenging getting responses.

1.2.2 Customer Assistance Marketing, Education and Outreach for the ESA Programs

Awareness Marketing

In October 2024, SDG&E continued the 2024 awareness campaign. The streaming audio component achieved 122,841 impressions and clicks, resulting in 38 customers proceeding to the

application. Digital display ads generated over 1.4 million impressions with 227 conversions, while paid social media efforts yielded over 840,525 impressions and 0.62% CTR. Video ads resulted in 192,298 impressions, with a CTR of .12%.

Direct Marketing

In October 2024, SDG&E continued direct communications and deployed 7,214 emails to potentially eligible customers. The email garnered a 58% open rate and a 3.1% CTR.

Social Media

SDG&E utilizes social media to post messages to a collective audience of more than 1.3 million followers across its multiple social media channels, including Facebook, Instagram, LinkedIn, Nextdoor, Threads and X.

	Impressions	Engagements	Engagement Rate
Facebook	600	11	1.8%
Instagram	502	23	4.6%
Nextdoor	49,540	8	N/A ²⁹

Additionally, the Energy Solutions Partner Network distributes messaging informing the public of customer assistance programs. In October 2024, the Energy Solutions Partner Network shared over 65 customer assistance messages to more than 202,000 customers through e-newsletters, website posts, and social media channels.

²⁹ Nextdoor does not allow business accounts to enable comments.

Live CARE Call Campaign

SDG&E's third-party contractor, THG, calls targeted customers to encourage enrollment in the CARE and FERA Programs. The campaign provides SDG&E with a way to directly connect with customers in low income and hard-to-reach areas. Targeted customers also include

those who are up for recertification for CARE and FERA. THG provides education about the CARE, FERA, and ESA Programs. If eligible, THG enrolls customers in the CARE and FERA programs over the phone.

Community Outreach & Engagement

Energy Solutions Partner Network

SDG&E works closely with a network of approximately 200 community-based organizations (CBOs) to connect customers with programs, resources and solutions related to Customer Assistance, bill debt relief, Public Safety Power Shutoff resiliency, wildfire preparedness, clean energy, and conservation. These organizations represent the diversity of SDG&E's customers within its service territory. Many of these CBOs are small, grassroots agencies serving individuals with access and functional needs, including those that are multicultural, multilingual, low income, seniors, and limited English proficient (LEP) audiences in communities of concern. These partners help educate and enroll customers in income qualifying programs using a variety of tactics, including messaging through email and social

³⁰ Due to the timing of collection of enrollment data for specific groups, numbers throughout this report may vary slightly based on the reporting timeframe for each month.

³¹ Due to the data system cyber attack described in Section 1.1.1, SDG&E is unable to report on ESA lead activity for the month of October. This information will be included in the next monthly report.

media channels such as Facebook, X, and Instagram, posting information on their websites, providing booth space at events, and hosting enrollment day fairs at their locations. SDG&E's partner outreach activities resulted in the following activities this month:

Energy Solutions Partner Network	
ESA Leads ³²	N/A
CARE Enrollments	23
CARE Recertifications	2
FERA Enrollments	2
FERA Recertifications	0

Partner Spotlight

In October 2024, SDG&E's Community Outreach and Engagement team participated in over 60 events, presentations, trainings, and workshops that featured information and enrollment in energy solutions programs, services, and tools. Many of these activities were hosted by SDG&E's partner network and included drive-through events, including food drives and community events. These outreach activities were focused on engaging customers with customer assistance programs such as CARE, FERA, and ESA and reached over 7,400 customers. A few of the outreach events SDG&E participated in are highlighted below.

Pala Fire Department

On October 26, 2024, the Pala Fire department held an open house to bring the surrounding community together to learn about fire safety and prevention. Guests enjoyed

³² Due to the data system cyber attack described in Section 1.1.1, SDG&E is unable to report on ESA lead activity for the month of October. This information will be included in the next monthly report.

guided tours of the fire station, gaining insight into the daily operations and responsibilities of the firefighters. The fire department showcased their fire trucks and equipment, demonstrating how they respond to emergencies. Children and adults participated in hands-on activities, including trying on firefighter gear and exploring the fire trucks. SDG&E was present at the event teaching attendees about fire preparedness and Customer Assistance programs.

Fallbrook Community Center

On October 26, 2024, the Friends of Fallbrook Community Center hosted a Halloween Festival for the community and visitors of the Fallbrook area. This event brought the community together for a night of laughter, thrills, and Halloween spirit. SDG&E was present at the event with a booth showcasing Customer Assistance information including CARE, FERA, and ESA.

Multicultural Outreach

To continue efforts to reduce potential barriers, increase education, and increase program enrollments for customers in the rural, multicultural/multilingual, and AFN segments, SDG&E pairs multicultural contractors with employees who are fluent in various languages to help staff events and presentations. These contractors are fluent in Spanish, Chinese, Aramaic/Arabic, and other languages, as requested. In October, SDG&E did not participate in any events that were specifically targeted towards multicultural groups.

Additional Customer Engagement Efforts

In addition to SDG&E's ME&O efforts described above, SDG&E also employs customer engagement efforts to educate, enroll, and provide direct service to its low income customers. These efforts include direct service from SDG&E's Customer Care Center (CCC) and Payment Offices, as well as the distribution of materials through other SDG&E customer-facing groups/programs and field services teams. SDG&E also promotes CARE at its Authorized

Payment Locations (APLs), and its Outreach team assists at Branch Office locations seasonally to help enroll customers.

SDG&E's CCC, and Payment Offices promote and offer the CARE, FERA, and ESA Programs to potentially eligible customers and enroll customers directly into the CARE Program over the telephone.³³ As mentioned in SDG&E's September report, the Branch Offices were permanently closed effective September 6, 2024.³⁴ Customers are encouraged to utilize alternate payment options such as APLs, My Energy Center, and Bill Matrix. SDG&E notes that non-CARE customers contacting the CCC are offered assistance in determining program eligibility and support in enrolling into programs. Customers are also provided with self-service options available through SDG&E's web application and the CARE/FERA automated enrollment phone line, resulting in lower numbers tracked through the CCC.

During this reporting month, SDG&E's CCC and Branch Offices generated the following applications and leads over the telephone:

	CCC	Branch Office
ESA Leads ³⁵	N/A	N/A
CARE Enrollments	0	2
CARE Recertifications	1	6
FERA Enrollments	0	0
FERA Recertifications	0	0

³³ In D.16-06-054, SDG&E received Commission authorization for its CCC Energy Service Specialists to enroll customers directly into the CARE Program over the telephone.

³⁴ See SDG&E Advice Letter 4447-E-A/3304-G-A, submitted June 7 2024 and effective July 8, 2024.

³⁵ Due to the data system cyber attack described in Section 1.1.1, SDG&E is unable to report on ESA lead activity for the month of October. This information will be included in the next monthly report.

1.2.3 Managing Energy Use

As part of the ESA Programs In-Home Energy Education, customers are given information about tools and services available to help manage and reduce energy use. Customers who are not already enrolled in My Energy Center³⁶ will be enrolled and provided with an overview of resources available to them to help manage energy use, including the Power Saver Rewards Program, a voluntary, penalty-free program that pays participants for reducing their energy use during times of high demand or other emergencies.

During In-Home Assessment, a residential outreach specialist reviews the setting of the various appliances and explains to the customer how to maximize the settings to reduce energy usage. In addition, if a customer qualifies for a new smart thermostat, they are given information at the time of installation on how to use the thermostat to help manage and reduce energy usage.

1.2.4 Services to Reduce Energy Bill

As part of SDG&E's measure mix, Tier II power strips and smart thermostats are available for installation to eligible customers. These measures provide customers with energy management technology that help reduce energy bills. Due to the EECF reported issue listed in Section 1.1 above, SDG&E is unable to provide updated information on power strip and smart thermostat installations.

1.2.5 Additional Activities

There are no additional activities to report on for October 2024.

³⁶ In August 2024, SDG&E's MyAccount transitioned to My Energy Center.

1.3 Leveraging Success Evaluation, Including California State Department of Community Services and Development (CSD)

1.3.1 Please provide a status on referrals, of the leveraging and coordination effort with CSD. Expand on activities and success rates across the list of programs from the Coordination Workshop, such as Affordable Broadband and Lifeline, as applicable to ESA, CARE and FERA. What new steps or programs have been implemented? What was the result in terms of new enrollments? Please also provide coordination efforts with the TECH program.

As part of the transition to the implementer model, SDG&E ceased contracting directly with local Low Income Home Energy Assistance Program (LIHEAP) agencies. However, RHA is subcontracting with both San Diego LIHEAP contractors, MAAC and Campesinos Unidos, to continue leveraging enrollment efforts. There were no LIHEAP referrals to ESA Main in October 2024.

SDG&E continues to leverage CARE and FERA to improve ESA Program participation. Customers using the joint CARE/FERA application are leveraged to generate ESA Program leads sent directly to the ESA Program implementer. In support of California Emerging Technology Fund's (CETF) efforts to provide eligible Californians with affordable internet services, SDG&E continues to provide customers visiting SDG&E's assistance website with a link to the CETF website. The CETF website is also included in Cool Zone Program brochures, which have been distributed to over 100 Cool Zone sites. Additionally, the program flyer is shared with its network of CBOs and at booth events to help increase program awareness.

1.3.2 Please provide a status on coordination with TECH Clean California

In 2024, SDG&E and TECH have met twice to discuss possible coordination between TECH Clean California and SDG&E ESA Programs. TECH Clean California funds are available to support installation of heat pump HVAC and water heaters technology across California. The best candidates for this technology are high heating/high cooling load

households, which are not particularly predominate in the San Diego area. As the ESA Pilot Plus/Pilot Deep program starts to enroll and assess households, the opportunity to leverage TECH funding for heat pump technology will be considered. SDG&E will be meeting with TECH Clean during the fourth quarter to discuss leveraging and coordination opportunities.

1.4 ESA Workforce Education & Training (WE&T)

1.4.1 Please summarize efforts to improve and expand ESA Program workforce education and training. Describe steps taken to hire and train low-income workers and how such efforts differ from prior program years.

RHA takes a proactive approach to workforce education and training by facilitating regular on the job training via quarterly and monthly meetings, tailboards, and quality assurance ride-alongs. RHA also maintains a subcontractor portal that provides access to available training and certification programs and promotes the Energize Careers Programs among its subcontractors, and recently launched the San Diego LEARN Program, which markets and offers free electrification courses.³⁷

RHA also partners with Upskill California, a consortium of 28 community colleges across the state. This collaboration aims to establish connections between job seekers graduating from pre-employment and construction education programs at these colleges and ESA contractors. By leveraging these initiatives, RHA seeks to enhance training opportunities and foster employment pathways for individuals entering the workforce.

When issues or concerns arise that identify specific workforce education and training needs, both SDG&E and RHA work with contractors to develop and implement Corrective and Preventative Action (CAPA) Plans or Process Improvement Plans (PIP). These respective

³⁷ See The San Diego Learn Program, *available at* <https://www.sandiegolearn.com/>.

processes are typically timebound efforts to investigate, plan, deploy, and track corrective actions and process improvements.

RHA continues to promote employment opportunities in the communities it serves by providing flyers and information to customers.

For the Southern MFWB Program, RHA conducted refresher training for contractors on utilizing its internal database, RHAI, covering topics such as work scheduling, quality control processes, data entry, job submission for review, and invoicing. Additionally, RHA completed onboarding training for one subcontractor, which included instruction for their staff on using RHA's FastField mobile data collection tools in October. RHA seeks to cooperate with local Workforce Education and Training (WET) programs when possible.

1.5 ESA Studies and Pilots

1.5.1 ESA Program Studies

2025 Low Income Needs Assessment (LINA) Study

In October 2024, the study team continued reviewing and revising questions to the customer survey. The survey is scheduled to begin pretesting in November.

Low Income Non-Energy Impacts Study

In October 2024, Evergreen fielded the test survey online and collected responses from 40 customers. The 40 respondents were then interviewed by phone to discuss their responses. The follow-up interviews were done to assess how well the questions in the online survey were understood. Evergreen will use these results to refine the questions for the upcoming broader customer survey which will begin in November.

1.5.2 ESA Program Pilots

SDG&E is not currently conducting any ESA Program pilots in addition to the Pilot Plus/Deep covered in Section 1.1.1.

2 CALIFORNIA ALTERNATE RATES FOR ENERGY (CARE) EXECUTIVE SUMMARY

The CARE Program is statutorily mandated by California Public Utilities (P.U.) Code Sections 739.1 and 739.2 to assist income-eligible households with a monthly discount on their gas and electric bills.³⁸ The CARE Program currently provides a 20% discount on natural gas charges and a 30 – 35% discount on electric rates.³⁹ To qualify for the CARE Program, eligible customers must have a total household gross income no greater than 200% of the FPG.

2.1 CARE Program Summary

2.1.1 Please provide CARE Program summary costs.

CARE Table 2.1.1 CARE Program Summary Costs for 2024			
CARE Budget Categories	2024 Authorized Budget⁴⁰	Actual Expenses Year-to-Date	% of Budget Spent
Outreach	\$3,365,197	\$2,005,733	60%
Processing, Certification and	\$635,541	\$1,543,639	243%
Post Enrollment Verification	\$493,699	\$104,861	21%
Information Tech./Programming	\$1,138,000	\$325,685	29%
CHANGES Program	\$265,000	\$216,629	82%
Studies and Pilots	\$19,535	\$10,035	51%
Measurement and Evaluation	\$0	\$0	0%
Regulatory Compliance	\$327,798	\$212,201	65%
General Administration	\$694,575	\$365,336	53%
CPUC Energy Division Staff	\$74,023	\$1,819	2%
Total Expenses	\$7,013,368	\$4,785,938	68%
Subsidies and Benefits	\$235,468,332	\$182,476,966	77%
Total Program Costs and Discounts	\$242,481,700	\$187,262,904	77%

³⁸ The CARE Program was later implemented by the Commission in D.89-07-062 and D.89-09-044.

³⁹ P.U. Code Section 739.1(c)(1) mandates that “the average effective CARE discount shall not be less than 30 percent or more than 35 percent of the revenues that would have been produced for the same billed usage by non-CARE customers.”

⁴⁰ D.21-06-015 approved the CARE program budget for PYs 2021-2026.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

2.1.2 Please Provide the CARE Program enrollment rate to date.

CARE Table 2.1.2 CARE Program Enrollment		
Participants Enrolled	Eligible Participants ⁴¹	Enrollment Rate
314,561	289,930	108%
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.		

2.2 CARE Marketing & Outreach

2.2.1 Discuss utility outreach activities and those undertaken by third parties on the utility's behalf.

Marketing and outreach efforts this month contributed to 7,165 completed CARE applications and 5,022 new enrollments for the program. This month, data sharing efforts between SoCalGas and SDG&E resulted in 18 CARE enrollments. Additionally, 1 enrollment came through the Grid Alternatives DAC-SASH program this month. Below is a summary of CARE-specific marketing and outreach efforts for this month.

⁴¹ On January 8, 2024, PG&E, on behalf of the IOUs, filed a Request for Extension of Time to Comply with the Requirement to submit the Annual CARE and FERA Eligibility Report by February 12 in OP 189 of D.21-06-015. In the extension request, PG&E confirmed that the IOUs would apply the new estimates starting in the March 2024 monthly report. This number reflects estimates of SDG&E's CARE Estimated Eligible Participants for 2024.

Direct Marketing

Direct Mail

SDG&E continued the monthly CARE bill comparison letters, sending 2,441 direct mail letters to CARE-eligible customers without an email address on file.

Email

SDG&E added 14,966 unique low income customers to the bill comparison nurture campaign. Customers who do not open the first email may receive up to two follow-up emails. SDG&E sent 25,595 emails garnering a 53% open rate and a 4.7% CTR.

Online Advertising

In October 2024, SDG&E continued the 2024 awareness campaign featuring updated CARE ads. The streaming audio component achieved 140,490 impressions. Digital display ads generated over 1.5 million impressions with a 0.15% CTR, while paid social search efforts yielded nearly 275,811 impressions and 136 customers clicking through to the application. Video ads garnered almost 441,366 impressions with a 0.12% CTR.

Organic Social

SDG&E utilized organic social media to promote CARE on SDG&E's Facebook, Instagram, and Nextdoor channels.

	Impressions	Engagements	Engagement Rate
Facebook	785	15	1.9%
Instagram	631	24	3.8%
Nextdoor	70,479	20	N/A ⁴²

⁴² Nextdoor does not allow business accounts to enable comments.

Community Outreach & Engagement

Community outreach and engagement efforts allow SDG&E to educate, connect, and directly engage with customers in communities where they work and live. Outreach and engagement activities included events, presentations, workshops, trainings, partnerships with CBOs, and customized efforts.

Tribal Outreach

See Section 1.2.1 above for SDG&E's Tribal Outreach activity.

CARE Partners (Capitation Agencies)

SDG&E partners with 23 social service agencies such as 211 San Diego, Chaldean Community Council, refugee assimilation organizations, Women's Infant & Children Organization (WIC) program, and others to help enroll its hardest-to-reach customers (collectively, Capitation Agencies). These organizations serve high-risk, low-income individuals and families with enrollment in state and federally funded assistance programs, including Cal Fresh, LIHEAP, Covered California, and California Lifeline. The partnering organizations are in diverse low-income communities serving multicultural/multilingual, seniors, veterans, special needs, and LEP audiences and provide multilingual staffing. The following numbers were generated by the Capitation Agencies this month:

Capitation Agencies	
ESA Leads ⁴³	N/A
CARE Enrollments	140
CARE Recertification	50
FERA Enrollments	2
FERA Recertifications	0

⁴³ Due to the data system cyber attack described in Section 1.1.1, SDG&E is unable to report on ESA lead activity for the month of October. This information will be included in the next monthly report.

County Health and Human Service Agency Collaborative

SDG&E collaborates with the County of San Diego Health and Human Services Agency (HHSA) to connect customers to programs like CARE and FERA. All field HHSA offices include a source coded CARE application in their new client intake packets. The following applications were received this month:

HHSA	Number of:	YTD
ESA Leads	0	0
CARE Enrollments	40	735
CARE Recertifications	4	343
FERA Enrollments	0	7
FERA Recertifications	0	0
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.		

2.2.2 Describe the efforts taken to reach and coordinate the CARE Program with other related low-income programs to reach eligible customers.

Customers who are enrolled in ESA and LIHEAP that have provided income verification and qualify for CARE are also automatically enrolled in the CARE Program.

CARE Table 2.2.2 CARE Automatic Enrollment for 2024		
Source	October 2024	YTD
ESA	40	610

LIHEAP	30	668 ⁴⁴
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.		

2.3 CARE Recertification Complaints

2.3.1 Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

During this reporting month, SDG&E did not receive any customer complaints regarding CARE recertification.

2.4 CARE Pilots and Studies

2.4.1 CARE Program Studies

2025 Low Income Needs Assessment (LINA) Study

See section 1.5.1.

CHANGES Evaluation

On October 23rd, 2024, PG&E released the RFP for this study and subsequently held a bidders' conference on October 30th. Proposals from bidders are due November 20th.

2.4.2 CARE Program Pilots

Currently, there are no CARE pilots to report.

⁴⁴ In its 2023 Annual Report, SDG&E reported ongoing assessment of a potential issue surrounding LIHEAP auto-enrollment. SDG&E has completed its assessment of the LIHEAP auto-enrollment item and has included a summary of its findings in the Amended 2023 Low Income Annual Report, filed and served on November 11, 2024. Specifically, *see* Section 2.6.1. As of this monthly report, SDG&E has identified the total LIHEAP auto-enrollments for 2024 YTD as stated in CARE Table 2.2.2 above.

2.5.1 CARE Program PEV Freezes⁴⁵

On January 23, 2024, Governor Newsom proclaimed a State of Emergency due to the flooding caused by the rainstorms in San Diego and Ventura County. On February 4, 2024, the Governor issued an additional emergency proclamation due to another rainstorm. Pursuant to OP 2 of D.19-07-015, SDG&E implemented emergency customer protections and submitted the Tier 1 Information-only Advice Letter 4379-E/3279-G on February 7, 2024, as required.

On September 11, 2024, Governor Newsom proclaimed a State of Emergency due to the airport fire that affected Orange County. On September 26, 2024, SDG&E submitted the Tier 1 Information-only Advice Letter 4518-E/3348-G pursuant to OP 2 of D.19-07-015. To date, there are no impacted customers residing in SDG&E's service territory.

CARE Table 2.5.1 CARE Program Post-Enrollment Verification Freezes			
Date of Proclamation⁴⁶	Disaster Name	Affected Areas or ZIP Codes	Date when Protection Ends⁴⁷
01/23/2024 02/04/2024	Winter Storms	92113, 92115, 91977, 92102, 92114, 91950, 91911, 92069, 92019, 92105, 92020, 91945, 92116, 91978, 92139, 92103,	02/04/2025

⁴⁵ Resolution M-4833 directed the IOUs to freeze CARE program post-enrollment verification (PEV) in the counties impacted by the California wildfires. D.19-07-015 established a permanent set of emergency disaster customer protection measures that the utilities are mandated to implement in the event of a declared emergency. D.19-07-015 directed SDG&E's Emergency Consumer Protections Plan to include residential and non-residential customers in areas where a state of emergency proclamation is issued by the California Governor's Office or the President of the United States where the disaster has either resulted in the loss or disruption of the delivery or receipt of utility service, and/or resulted in the degradation of the quality of utility service.

⁴⁶ SDG&E notes that it inadvertently, and incorrectly, noted the date of proclamation as January 22, 2024, in its January 2024 Report. Instead, the proclamation was issued by Governor Newsom on January 23, 2024.

⁴⁷ Pursuant to D.19-07-015, the mandated customer protections shall remain in effect from the date of the Governor of California's state of emergency declaration or a Presidential state of emergency declaration and shall conclude no sooner than twelve (12) months from the date of the original emergency declaration, or as appropriately determined by the Governor's Office of Emergency Services.

		92173, 92007, 91941, 92083, 91942, 92126, 92104, 91910, 92021, 92111, 92117, 92024, 92071, 91932, 92118, 92054, 92107, 91913, 92120, 92129, 92040, 92010, 92109, 92154, 92110, 92056, 92025, 92122, 92078, 92028, 92108

2.5.2 CARE Fixed Income

CARE Fixed Income		
	October 2024	YTD
New CARE Fixed Income Households	334	4,016
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.		

3 FERA EXECUTIVE SUMMARY

The FERA Program is statutorily mandated by California P.U. Code Sections 739.1 and 739.12 to assist low to middle-income-eligible households with a monthly average effective discount of 18% on their electric bills. To qualify for the FERA Program, eligible customers consist of households with three or more persons with total annual household gross income between 200% (plus \$1) and 250% of the FPG. In D.21-06-015, the Commission authorized the FERA Program to be consolidated with the low income proceeding.⁴⁸ As such, all IOU FERA goals, budgets, and program design elements will be scoped into the IOUs low income budget

⁴⁸ OP 26 of D.21-06-015 states, “The Family Electric Rate Assistance program proceeding will be consolidated with the California Alternate Rates for Energy and the Energy Savings program proceeding.”

applications moving forward. The Decision also approved FERA program management and subsidy budgets separate from CARE budgets.⁴⁹

For 2024, the Commission set SDG&E’s FERA enrollment goal at 60%, a 10% increase from 2023’s enrollment goal of 50%. SDG&E intends to continue developing more strategic marketing and outreach initiatives in an effort to increase FERA participation in 2024. Any new marketing and outreach initiatives are mentioned under section 3.2.1.

3.1 FERA Program Summary

3.1.1 Please provide FERA Program summary costs.

FERA Table 3.1.1 FERA Program Summary Costs for 2024			
FERA Budget Categories	Authorized Budget⁵⁰	Actual Expenses to Date	% of Budget Spent
Outreach	\$368,338	\$228,190	62%
Processing, Certification and Verification	\$13,925	\$20,887	150%
Post Enrollment Verification	\$1,018	\$12,209	1,199%
Information Tech./Programming	\$54,636	\$34,575	63%
Pilots	\$0	\$0	0%
Studies	\$50,000	\$0	0%
Regulatory Compliance	\$47,180	\$25,950	55%
General Administration	\$75,915	\$62,881	83%
CPUC Energy Division Staff	\$10,803	\$0	0%
Total Expenses	\$621,815	\$384,692	62%
Subsidies and Benefits	\$4,481,107	\$3,195,622	71%
Total Program Costs and Discounts	\$5,102,922	\$3,580,314	70%
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.			

⁴⁹ OP 35 of D.21-06-015 states, “San Diego Gas & Electric Company must track all Family Electric Rate Assistance (FERA) related costs in a separate FERA balancing account.”

⁵⁰ D.21-06-015 approved the FERA program budget for PYs 2021-2026.

3.1.2 Provide the FERA Program enrollment rate to date.

FERA Table 3.1.2 FERA Enrollment		
Participants Enrolled	Eligible Participants ⁵¹	Enrollment Rate
11,516	41,374	28%
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.		

3.2 FERA Program Marketing & Outreach

3.2.1 Please discuss utility outreach activities and those undertaken by third parties on the utility’s behalf.

Marketing and outreach efforts this month contributed to 1,506 completed FERA applications and 1,147 new enrollments for the program. Leveraging efforts through the Grid Alternatives DAC-SASH program did not result in any FERA enrollments this month. Additionally, FERA automatic enrollments resulted in 2 coming from the ESA program. Below is a summary of FERA-specific outreach efforts.

Direct Marketing

Direct Mail

In October 2024, SDG&E continued the monthly FERA bill comparison letters, sending 773 direct mail letters to FERA-eligible customers that don’t have an email address on file.

⁵¹ On January 8, 2024, PG&E, on behalf of the IOUs, filed a Request for Extension of Time to Comply with the Requirement to submit the Annual CARE and FERA Eligibility Report by February 12 in OP 189 of D.21-06-015. In the extension request, PG&E confirmed that the IOUs would apply the new estimates starting in the March 2024 monthly report. This number reflects estimates of SDG&E’s FERA Estimated Eligible Participants for 2024.

Email

In October 2024, SDG&E sent 8,326 FERA bill comparison emails, which garnered a 53.8% open rate and a 3.3% CTR. Additionally, SDG&E sent almost 41,000 CCA customers a generic FERA email garnering a 54.9% open rate and a 2.7% CTR.

Paid Digital Advertising

In October 2024, SDG&E continued the 2024 FERA campaign featuring updated FERA creative ads. The streaming audio component achieved 39,387 impressions. Digital display ads generated over 535,000 impressions with 138 conversions, while paid social media efforts yielded 386,171 impressions and 0.59% CTR. Paid search continued with over 3,750 impressions and a 14.8% CTR.

Community Outreach & Engagement

SDG&E works closely with community-based organizations and other external groups to connect customers with programs and solutions related to company offerings. SDG&E works with a network of approximately 200 community-based organizations, collectively named the Energy Solutions Partner Network, as well as other external organizations on an as needed or requested basis. SDG&E's Outreach utilizes these networks, including CARE Capitation agencies, to educate and enroll customers in eligible Customer Assistance programs. The FERA program is promoted in all outreach activities including events, presentations, social media messaging and training. SDG&E is exploring additional opportunities to promote FERA solely through targeted social media campaigns utilizing its Energy Solutions Partner Network.

Tribal Outreach

See Section 1.2.1, which is also applicable to the FERA Program.

FERA Partners (Capitation Agencies)

Please see Section 2.2.1, which is also applicable to the FERA Program.

3.3 FERA Recertification Complaints

3.3.1 Report the number of customer complaints received (formal or informal, however and wherever received) about their CARE recertification efforts, with the nature of the complaints and resolution.

SDG&E did not receive any customer complaints regarding FERA recertification during the month of October.

3.4 Pilots and Studies

3.4.1 FERA Program Studies

There are no FERA studies at this time.

3.4.2 FERA Program Pilot

Currently, there are no FERA Pilot programs to report.

ESA Program TOTAL			\$ 30,210,212	\$ 900,552	\$ 684,335	\$ 1,584,887	\$ 7,592,008	\$ 8,772,456	\$ 16,364,464			54%

[1] Authorized Budget per D.21-06-015, Attachment 1, Table 11. For ESA Main, an additional \$2,154,503 in unspent committed contracted funds from 2023 is available for program year 2024. In addition, unspent funds from previous program years of \$2,824,866 and \$5,106,755 for the Pilot and MFWB programs, respectively, are available to carry forward, as directed in OP 181 of the Decision.

[2] MFWB program budget includes MF In-Unit, CAM/ WB, and Implementer administrative budget categories.

[3] OP 12 of D.15-01-027 states "The Program Administrators shall ensure that program expenditures in each utility's service territory do not exceed the total authorized budget amounts over the duration of the programs. The program incentive budgets will be available until all funds are exhausted or until December 31, 2021, whichever occurs first. Any money unspent and unencumbered on January 1, 2022, shall be used for "cost-effective energy efficiency measures in low-income residential housing that benefit ratepayers," as set forth in Public Utilities Code Section 2852(c)(3)." SDG&E filed Advice Letter 4285-E for disposal of unspent funds from the SASH and MASH programs to the ESA Program on October 31, 2023. The AL was approved on November 30, 2023.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

% of Administrative Spend						11.71%			9.20%			

[1] Authorized Budget per D 21-06-015, Attachment 1, Table 11.

[2] The SPOC budget is reflected separately in the ESA Summary table.

[3] Includes indirect and NGAT costs for SPOC, MFWB, and Pilot Plus & Pilot Deep.

[4] Pursuant to D.21-06-015 OP 112, Pacific Gas and Electric Company, Southern California Edison Company, Southern California Gas Company and San Diego Gas & Electric Company's Energy Savings Assistance (ESA) program administrative expenses are capped at either 10 percent of total program costs, or the Utility's historical five-year average spend on administrative costs as a percentage of total program costs, whichever is greater. The use of the historical five-year average spend will be phased out such that the Utilities must propose to spend no more than 10 percent of total program costs on administrative costs starting in program year 2024. The definition and categorization of administrative costs for the ESA program will be consistent with that of the main energy efficiency program.

[5] Negative amount in the HVAC budget category is related to revised accrual amounts.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

			<<Includes measures costs
TOTAL ESA Main COSTS	\$ 5,586,050	\$ 6,974,214	\$ 12,560,264

[1] All savings are calculated based on the following sources: DNV/GL Impact Evaluation Program Years 2015-2017 Impact II, or ESA workpapers.
[2] The total expenditures presented in this table exclude accrual activity.
[3] Weatherization may consist of attic insulation, attic access weatherization, weatherstripping - door, caulking, and minor home repairs.
[4] Total ESA Main YTD expenses are reported in ESA Table 1.
[5] Administrative includes expenses from Training Center, Inspections, Marketing and Outreach, Studies, Regulatory Compliance, General Administrative, and CPUC Energy Division categories.
[6] Direct Implementation (Non-Incentive) includes expenses from Implementation category.
[7] Direct Implementation includes expenses from Appliances, Domestic Hot Water, Enclosure, HVAC, Lighting, Miscellaneous, Customer Enrollment, and In-Home Education.
[8] Forecasted homes treated goal includes single family and mobile homes under the Main ESA Program.

NOTE: Any measures noted as 'New' have been added during the course of this program year.
NOTE: Any measures noted as 'Removed', are no longer offered by the program but have been kept for tracking purposes.
NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

ESA Program - MFWB	Year to Date Expenses		
	Electric	Gas	Total
Administration ⁷	\$ 603,371	\$ 603,369	\$ 1,206,740
Direct Implementation (Non-Incentive)	\$ 628,271	\$ 628,271	\$ 1,256,542
Direct Implementation	\$ 378,711	\$ 170,998	\$ 549,709
SPOC	\$ 109,116	\$ 109,116	\$ 218,232
TOTAL MFWB COSTS	\$ 1,719,469	\$ 1,511,754	\$ 3,231,223

[1] Multifamily properties are sites with at least five (5) or more dwelling units. The properties may have multiple buildings.

[2] Multifamily tenant units are the number of dwelling units located within properties treated. This number does not represent the same number of dwellings treated as captured in table 2A.

[3] Commissioning costs, as allowable per the Decision, are included in measures total cost unless otherwise noted.

[4] Applicable to Deed-Restricted, government and non-profit owned multi-family buildings described in D.16-11-022, modified by D.17-12-009, where 65% of tenants are income eligible based (at or below 250% of the Federal Poverty Guidelines).

[5] Measure type column added to identify if a measure is for in-unit or common area/whole building because they use different paperwork

[6] The total expenditures presented in this table exclude accrual activity.

[7] Year to date Administration expense total includes \$53,800 related to the ongoing ESA CAM NMEC study.

NOTE: Audit costs may be covered by other programs or projects may utilize previous audits. Not all participants will have an audit cost associated with their project.

NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
 NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

- [1] "Completed and Expensed Installation" project savings and expenses will be reported when projects have been fully closed (i.e. inspected, issues resolved, permits closed as applicable) and reported by Pilot Implementer to SDG&E. All measures and savings from a project will be reported as either Pilot Plus or Pilot Deep. Savings from a single project will not span both tables.
- [2] The measure list for SDG&E Pilot Plus and Deep is unique to the pilot and differs from Main ESA.
- [3] The total expenditures presented in this table exclude accrual activity.
- [4] Administration includes expenses from the following categories: General Administration, Regulatory Compliance, Training, Inspections, Marketing and Outreach, and Evaluation.
- [5] Direct Implementation (Non-Incentive) includes expenses for Implementer Administration.
- [6] Direct Implementation includes expenses for measures delivery.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

[1] Data reported in this table is cumulative since program inception.

[2] ESA Pilot Plus and Pilot Deep uses the same formulas to calculate values as Main ESA, but the variables such as measure savings and expected useful life may differ. The pilot will initially estimate energy savings with energy modeling software.

[3] Summary is the sum of ESA Main, MFWB and Pilot Plus Pilot Deep.

[4] Separating MFWB in-unit savings summary from the CAM and Whole Building measures savings because they are calculated using different residential rates.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

[1] SDG&E is treating dual-fuel (gas and electric) customers through ESA Pilot Plus and Deep
 Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
 NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

[*] SDG&E is reporting on these customer segments at the direction of the ED with the caveat that estimates/numbers may be compiled from multiple sources, based on available estimates, and/or self-reported data. The numbers may not be additive.

[1] 2023 eligibility estimates provided by Athens Research, except as otherwise noted.

[2] Households treated data is not additive because customers may be represented in multiple categories. Data is compiled based on ESA measures received YTD, and may include enrollments from prior years

[3] The number of household contacted includes YTD leads and enrollments.

[4] SDG&E has considered the energy savings associated with all ESA measures installed for this entry, regardless of whether the savings have a negative or positive value for kW, kWh, and/or Therms. Many measures offered in ESA provide Non-Energy Benefits (including Health, Comfort, and Safety (HCS)) in addition to energy savings, and some of these measures may be associated with a negative savings value.

[5] SDG&E has considered only the energy savings associated with the ESA measures installed for this entry that have a positive value for kWh and/or Therms. Installed ESA measures with a negative savings value for both kWh and Therms were

[6] This represents the number of households with at least one member who is at least 62 years old at the time of data collection.

[7] "Hard-to-reach" residential customers include those customers who do not have easy access to program information or generally do not participate in energy efficiency programs due to a language, income, housing type, geographic, or home ownership (split incentives) barrier" (Advice Letter 4482-G/6314-E dated September 1, 2021). For the purpose of this reporting, SDG&E is defining "hard-to-reach" as those residential customer self-identified as not preferring or speaking English as the primary language because income, housing type, geographic, and homeownership information is reported elsewhere on this table.

[8] Vulnerable refers to Disadvantaged Vulnerable Communities (DVC) which consist consists of communities in the 25% highest scoring census tracts according to the most current versions of the California Communities Environmental Health Screening Tool (CalEnviroScreen), as well as all California tribal lands, census tracts that score in the highest 5% of Pollution Burden within CalEnviroScreen, but do not receive an overall CalEnviroScreen score due to unreliable public health and socioeconomic data, and census tracts with median household incomes less than 60% of state median income.

[9] Includes Tier 2 and 3 of the CPUC Fire-Threat Map

[10] This reflects communities within SDG&E's service territory that are identified by the California Air Resources Board (CARB) Community Air Protection Program as communities continue to experience environmental and health inequities from air pollution.

[11] SDG&E resumed disconnections for residential customers in 2023. Late notices have been issued to CARE and FERA customers but no CARE or FERA customers have been disconnected thus far.

[12] SDG&E defines arrearages as overdue balance greater than 30 days. Estimated eligibility is based on CARE/FERA households with arrearages in the prior year as reported in SDG&E's R.18-07-005 Monthly Disconnection Report through December 2022.

[13] SDG&E defines high usage as at least 400% of baseline at least three times in 12-month period.

[14] SDG&E utilizes the Low-Income Energy Affordability Data (LEAD) Tool developed by DOE's Office of Energy Efficiency & Renewable Energy to identify census tracts with high energy burden for households at below 200 % Federal Poverty Level (FPL) that are in SDG&E's service territory. The 2016 Needs Assessment for the Energy Savings Assistance and the California Alternate Rates for Energy Programs describes households that spent more 6.3% of their annual income on energy bills as having high energy burden (p.47).

[15] The Socioeconomic Vulnerability Index (SEVI) metric represents the relative socioeconomic standing of census tracts, referred to as communities, in terms of poverty, unemployment, educational attainment, linguistic isolation, and percentage of income spent on housing. SDG&E utilizes the SEVI data provided by the CPUC to map its service territory by SEVI scores (L: 0 to 33; M: >33 to 66; H: >66).

[16] The Affordability Ratio (AR) metric quantifies the percentage of a representative household's income that would be used to pay for an essential utility service after non-discretionary expenses such as housing and other essential utility service charges are deducted from the household's income. Using Gas AR20 and Electric AR20 data for 2023 (using 2019 base year) provided by the CPUC, SDG&E selects census tracts with Electric AR20 at above 15% or Gas AR20 above 10% to identify areas within its service territory as having high affordability ratio (CPUC 2019 Annual Affordability Report, pp 34, 44).

[17] SDG&E utilizes the "Asthmas" indicator in CalEnviroScreen 4.0 (published by the California Office of Environmental Health Hazard Assessment) as a proxy to identify locations with varying levels of respiratory conditions within its service territory. L: 0-33 percentile; M: >33-66 percentile; L: >66-100 percentile.

[18] This data captures tribal households located on federally-recognized tribes whose trust lands are identified in the Bureau of Indian Affairs, and also includes ESA participants from non federally-recognized tribes or households that self-identified as Native American.

[19] YTD, cost and energy savings for this customer segment includes a significant portion of in-progress projects, as well as projects with higher cost measures, which may skew the average savings and cost (Columns G-L) higher than the averages for the reported completed projects in Column B.

NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, and savings data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

Energy Savings Assistance Program Table 8 - Clean Energy Referral, Leveraging, and Coordination
San Diego Gas & Electric Company
October 2024

Partner	Brief Description of Effort	# of Referral ¹	# of Leveraging ²	# of Coordinati on Efforts ³	# of Leads ⁴	# of Enrollments ⁵
LIHEAP	LIHEAP agencies in SDG&E service territory leverage LIHEAP payment leads to provide ESA Program services to customers.	N/A	N/A	N/A	N/A	N/A
DAC-SASH	The DAC-SASH implementer provides SDG&E with potential ESA and CARE Program Leads. SDG&E provides and annual list of program leads to DAC-SASH implementer for marketing purposes.	N/A	N/A	N/A	N/A	N/A
SDCWA	SDG&E efforts to coordinate program information with SDCWA.	N/A	N/A	N/A	N/A	N/A
CARE/Medical Baseline	CARE Online Enrollments are leveraged for ESA Program Enrollments.	N/A	N/A	N/A	N/A	N/A
CARE High Usage	Leads generated through CARE HEU income verifications completed	N/A	N/A	N/A	N/A	N/A
Energy Solutions Partner Network	SDG&E works closely with a network of approximately 200 community-based organizations (CBOs) to connect customers with Customer Assistance programs.	N/A	N/A	N/A	N/A	N/A
CARE Capitation Agencies	SDG&E partners with 22 social service agencies to help enroll its hardest-to-reach customers in Customer Assistance programs.	N/A	N/A	N/A	N/A	N/A
Demand Response - AC Saver ⁶	Eligible residential customers who own a qualifying Wi-Fi enabled smart thermostat may enroll. During an "energy event," SDG&E will notify the smart thermostat provider to temporarily adjust the temperature setting on the thermostat up to four degrees to limit A/C usage. Participating customers may qualify for an SDG&E incentive.	N/A	N/A	N/A	N/A	N/A
MFWB ⁷	Coordination with SDG&E in their Administration of the Southern Section MFWB program	N/A	N/A	N/A	N/A	N/A

1 Number of outbound referrals being given to the partner.

2 Number of activities that involve the sharing resources to jointly support program delivery or administration. (Example: Sharing of Lead Lists, Cost

3 Number of activities related to program communication (marketing), collaboration of events, and alignment of activities to support program delivery.

4 Number of inbound Leads or Referrals from the Partner

5 Number of enrollments that results from the Leads or Referrals supplied by the Partner

6 Cumulative number of customers that enrolled the the respective program with 120-days of their ESA in-home visitation in which they received Energy Education

7 Number of referrals being supplied to SDG&E by SCE and SoCalGas, the number of Enrollments being completed on behalf of SDG&E for the MFWB

N/A identifies areas where SDG&E is unable to track the data related with these efforts.

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

NOTE: On October 31, 2024, Launch, SDG&E's vendor and host for the Energy Efficiency Collaboration Platform (EECP) experienced a cyberattack on their Datacenter via ransomware which resulted in EECP being down for approximately 8 days and disallowed the complete processing of ESA Main and MFWB activity for October. Therefore, SDG&E is unable to report measure installation, incentive, savings, and lead data for both the ESA Main and ESA MFWB programs in this month's report. Year-to-date data, including October, will be provided in the November report. Financial data that was available prior to the cyberattack is provided in respective tables.

Energy Savings Assistance Program Table - 9 Tribal Outreach
San Diego Gas & Electric Company
October 2024

OUTREACH STATUS	Quantity (Includes CARE, FERA, and ESA) [2]	List of Participating Tribes
Tribes completed ESA Meet & Confer [1]	9	Barona Band of Mission Indians, Pauma Band of Mission Indians, La Posta Band of Mission Indians, Mesa Grande Band of Mission Indians, Manzanita Band of Kumeyaay Nation, Campo Kumeyaay Nation, Iipay Nation of Santa Ysabel, La Jolla Band of Luiseno Indians, Los Coyotes Band of Cahuilla and Cupeno Indians
Tribes requested outreach materials or applications	8	Pauma Band of Mission Indians, La Posta Band of Mission Indians, Mesa Grande Band of Mission Indians, Iipay Nation Santa Ysabel, Campo Kumeyaay Nation, Manzanita Band of Kumeyaay Nation, La Jolla Band of Luiseno Indians, Los Coyotes Band of Cahuilla and Cupeno Indians
Tribes who have not accepted offer to Meet and Confer	3	Ewilaapaayp, Inaja Cosmit Band of Indians [3], Pala Band of Mission Indians, Rincon Band of Luiseno Indians
Non-Federally Recognized Tribes who participated in Meet & Confer	0	
Tribes and Housing Authority sites involved in Focused Project/ESA	N/A	N/A
Partnership offer on Tribal Lands	6	Iipay Nation of Santa Ysabel, La Jolla Band of Luiseno Indians, La Posta Band of Mission Indians, Campo Kumeyaay Nation, Los Coyotes Band of Cahuilla and Cupeno Indians, Southern Indian Health Council
Housing Authority and Tribal Temporary Assistance for Needy Families (TANF) office who received outreach (this includes email, U.S. mail, and/or phone calls)	2	Southern California American Indian Resource Center (SCAIR); Southern California Tribal Chairmen's Association (SCTCA) [4]
Housing Authority and TANF offices who participated in Meet and Confer	N/A	N/A

[1] SDG&E notes that it has held informational meetings with these tribes to provide information on low income programs and other customer programs. As such, the term Meet and Confer, used here, is unrelated to a Duty to Meet and Confer, pursuant to Rule 13.9. SDG&E invited all 17 tribes to meet and will continue to engage in 2024.

[2] Numbers are a rolling count of Tribal Outreach efforts

[3] SDG&E does not provide service to Inaja & Cosmit

[4] SDG&E provides TANF related messaging through periodic presentations to SCAIR and SCTCA

Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

¹ Enrollments via data sharing between the IOUs.
² Enrollments via data sharing between departments and/or programs within the utility.
³ Enrollments via data sharing with programs outside the IOU that serve low-income customers.
⁴ No response includes no response to both Recertification and Verification.
⁵ On April 15, 2024, PG&E, on behalf of the IOUs, submitted the Annual CARE and FERA Eligibility Report in accordance with OP 189 of D.21-06-015. This number reflects estimates of SDG&E's FERA Estimated Eligible Participants for 2024.
⁶ Penetration Rate and Enrollment Rate are the same value.
⁷ FERA Estimated Eligible population value was incorrectly reported in FERA Table 2 for the 2023 Annual Report. The 2022 population was incorrectly used causing a slight decrease in enrollment rate for the 2023 program year.
Note: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
